#### Figures

Budget 2015	Budget 2014	Outturn 2013
40 000 000	40 000 000	36 260 716,99

#### Remarks

This article is intended to record revenue from the interest yielded by pre-financing.

In accordance with Article 21(3)(d) of the Financial Regulation, this revenue may be used to provide additional appropriations on the lines which bore the initial expenditure giving rise to the corresponding revenue.

Interest generated by pre-financing payments made from the budget shall not be due to the Union except as otherwise provided for in the delegation agreements, with the exception of those agreements concluded with third countries or the bodies they have designated.

In cases in which it is provided for, such interest shall either be reused for the corresponding action, deducted from payment requests in accordance with point (c) of the first subparagraph of Article 23(1) of the Financial Regulation or recovered.

The Delegated Regulation (EU) No 1268/2012 also lays down provisions regarding the accounting of interest yielded on pre-financing.

#### *Figures*

Budget 2015	Budget 2014	Outturn 2013
p.m.	p.m.	16 820 928,89

#### *Remarks*

This article is intended to record interest and other revenue generated on trust accounts.

The trust accounts are kept on behalf of the Union by international financial institutions (European Investment Fund, European Investment Bank, Council of Europe Development Bank/Kreditanstalt für Wiederaufbau, European Bank for Reconstruction and Development) managing Union programmes and the amounts paid in by the Union remain on the account until they are made available to the beneficiaries under the single programme, such as small and medium-sized enterprises or institutions managing projects in acceding countries.

In accordance with Article 21(4) of the Financial Regulation, interest generated by trust accounts used for Union programmes is used to provide additional appropriations on the lines which bore the initial expenditure giving rise to the corresponding revenue.

#### *Legal basis*

#### *Figures*

Budget 2015	Budget 2014	Outturn 2013
p.m.	p.m.	52 762 018,07

#### *Remarks*

Decision 2003/76/EC stipulates that the Commission is entrusted with winding up the financial operations of the European Coal and Steel Community (ECSC) which are still in progress upon expiry of the ECSC Treaty.

Pursuant to Article 4 of that Decision, net revenue from the investment of available assets will constitute revenue in the general budget of the European Union earmarked for a specific purpose, namely financing research projects in sectors related to the coal and steel industry by the Research Fund for Coal and Steel.

The net revenue available for financing research projects in year  $n + 2$  appears in the balance sheet of the ECSC in liquidation for year  $n$ , and after the liquidation process has been completed will appear as assets in the balance sheet of the Coal and Steel Research Fund. This financing mechanism took effect in 2003. Revenue coming from 2013 will be used for research in 2015. In order to reduce as far as possible the fluctuations that movements in the financial markets could cause in the financing of research, a smoothing arrangement is applied. The amount of net revenue expected to be available for research in 2015 comes to EUR 47 700 000.

In accordance with Article 4 of Decision 2003/76/EC, 72,8 % of the fund's appropriations will be for the steel-related sector and 27,2 % for the coal-related sector.

In accordance with Article 21 and Article 181(2) of the Financial Regulation, revenue will be used to provide additional appropriations under Chapter 08 05 of the statement of expenditure in this section.

### Remarks

Any delay by a Member State in making the entry in the account opened in the name of the Commission referred to in Article 9(1) of Regulation (EC, Euratom) No 1150/2000 gives rise to the payment of interest by the Member State concerned.

In the case of Member States whose currency is the euro, the interest rate shall be equal to the rate as published in the *Official Journal of the European Union*, C series, which the European Central Bank applied to its refinancing operations, on the first day of the month in which the due date fell, increased by two percentage points. This rate shall be increased by 0,25 of a percentage point for each month of delay. The increased rate shall be applied to the entire period of delay.

In the case of Member States whose currency is not the euro, the rate shall be equal to the rate applied on the first day of the month in question by the Central Banks for their main refinancing operations, increased by two percentage points, or, for the Member States for which the Central Bank rate is not available, the most equivalent rate applied on the first day of the month in question on the Member State's money market, increased by two percentage points. This rate shall be increased by 0,25 of a percentage point for each month of delay. The increased rate shall be applied to the entire period of delay.

The interest rate applies to all entries of own resources enumerated under Article 10 of Regulation (EC, Euratom) No 1150/2000.

#### Remarks

The Commission may impose fines, periodic penalty payments and other penalties on undertakings and associations of undertakings for not respecting bans or not carrying out their obligations under the Regulations enumerated below or under Articles 101 and 102 of the Treaty on the Functioning of the European Union.

The fines must normally be paid within three months of the Commission decision being notified. However, the Commission will not collect the amount due when the undertaking has lodged an appeal with the Court of Justice of the European Union; the undertaking must accept that interest will be paid on the debt after the final date for payment and provide the Commission with a bank guarantee covering both the principal of the debt and interest or surcharges by the final date for payment.

### Article 7 1 1 — Excess emissions premiums for new passenger cars

#### Figures

Budget 2015	Budget 2014	Outturn 2013
p.m.	p.m.	0,—

#### Remarks

This article is intended to record any excess emissions premium imposed by the Commission.

The objective of Regulation (EC) No 443/2009 is to set emission performance standards for new passenger cars registered in the Union, which forms part of the Union's integrated approach to reducing CO<sub>2</sub> emissions from light-duty vehicles while ensuring the proper functioning of the internal market.

However, in respect of each calendar year from 2012 onwards for which a manufacturer's average specific emissions of CO<sub>2</sub> exceed its specific emissions target in that year, the Commission shall impose an excess emissions premium on the manufacturer or, in the case of a pool, the pool manager.

*Legal basis*

Regulation (EC) No 443/2009 of the European Parliament and of the Council of 23 April 2009 setting emission performance standards for new passenger cars as part of the Community's integrated approach to reduce CO<sub>2</sub> emissions from light-duty vehicles (OJ L 140, 5.6.2009, p. 1), and in particular Article 9 thereof.

Commission Decision 2012/100/EU of 17 February 2012 on a method for the collection of premiums for excess CO<sub>2</sub> emissions from new passenger cars pursuant to Regulation (EC) No 443/2009 of the European Parliament and of the Council (OJ L 47, 18.2.2012, p. 71).

*Remarks*

This article is intended to record capital repayments and interest payments on special loans and risk capital granted from the appropriations in Chapters 21 03 and 22 02 of the statement of expenditure in this section to Mediterranean third countries.

It also comprises capital repayments and interest payments on special loans and risk capital granted to certain Mediterranean Member States which, however, represent a very small proportion of the overall amount. These loans/risk capital were granted at a time the countries had not yet joined the Union.

The revenue obtained normally exceeds the amounts forecast in the budget because of the interest payments on special loans which may still be disbursed during the preceding financial year as well as during the current financial year. The interest on special loans and risk capital is charged from the moment the loans are disbursed; interest on special loans is paid in six-monthly instalments and interest on risk capital generally in annual instalments.

This article may accommodate, in accordance with Article 21 of the Financial Regulation, assigned revenue which is used to provide additional appropriations to finance expenditure to which this revenue is assigned.

#### *Remarks*

This appropriation is intended to cover the following expenditure incurred within the territory of the Union:

- the remuneration of contract staff (within the meaning of the Conditions of Employment of Other Servants of the European Union), employer's contributions to social welfare for contract staff and the impact of weightings applicable to the remuneration of such staff,
- a sum to cover the remuneration of contract staff acting as guides for persons with disabilities,
- the employment of agency staff, particularly clerical staff and shorthand typists,
- expenditure on staff included in service contracts for technical and administrative work and the supply of intellectual services, and expenditure on buildings and equipment and operating costs relating to this type of staff,
- the cost of national civil servants or other experts on secondment or temporary assignment to the Commission or called for short consultations, particularly to draft legislation on harmonisation in various areas; exchanges are also organised to allow uniform application of Union legislation by the Member States,
- the cost of any updates of remuneration during the financial year.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Revenue from contributions from the EFTA States to the Union's general costs under Articles 82 of the Agreement on the European Economic Area gives rise to the provision of supplementary appropriations to be entered in the budget lines concerned in accordance with the Financial Regulation. The amount of such revenue is estimated at EUR 200 412.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The amount of assigned revenue based on data available pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 1 566 914.

### Remarks

This appropriation is intended to cover the following decentralised operating expenditure:

Missions:

- travel expenses, including ancillary costs relating to tickets and reservations, daily subsistence allowances and additional or exceptional expenditure incurred in connection with missions by Commission staff covered by the Staff Regulations and by national or international experts or officials seconded to Commission departments (refunds of mission expenses paid for the account of other Union institutions or bodies and for third parties will constitute assigned expenditure).

Representation expenses:

- reimbursement of the costs incurred by persons officially representing the Commission (reimbursement is not possible for expenses incurred in the performance of representation duties vis-à-vis staff of the Commission or other Union institutions).

#### Meetings of experts:

- reimbursement of the costs incurred for the functioning of the expert groups established or convened by the Commission: travel, subsistence and incidental expenses of experts participating in study groups and working parties, and the cost of organising such meetings where they are not covered by the existing infrastructure in the headquarters of the institutions or external offices (experts are reimbursed on the basis of decisions made by the Commission).

#### Conferences:

- expenditure relating to conferences, congresses and meetings organised by the Commission in support of its various policies, and expenditure for running a network for financial control organisations and bodies, including an annual meeting between such organisations and the members of the European Parliament's Committee on Budgetary Control, as requested in paragraph 88 of European Parliament resolution of 27 April 2006 with comments forming an integral part of the decision on the discharge for implementation of the European Union general budget for the financial year 2004, Section III — Commission (OJ L 340, 6.12.2006, p. 5),
- expenditure relating to conferences, seminars, meetings, training courses and practical in-house training for officials of the Member States who manage or monitor operations financed by the Union funds or operations to collect revenue that constitutes Union own resources or cooperate in the Union statistics system, and expenditure of the same type for officials from the countries of central and eastern Europe managing or monitoring operations financed under Union programmes,
- expenditure on training third country officials who carry out management or control duties with a direct bearing on protecting the Union's financial interest,
- the cost of the Commission's participation in conferences, congresses and meetings,
- conference enrolment fees, excluding training expenses,
- subscriptions to trade and scientific associations,
- the cost of refreshments and food served on special occasions during internal meetings.

#### Meetings of Committees:

- travel, subsistence and incidental expenses of experts participating in committees set up by the Treaty and by European Parliament and Council Regulations or Council Regulations, and the cost of organising such meetings where they are not covered by the existing infrastructure (in the headquarters of the institutions or external offices) (experts are reimbursed on the basis of decisions made by the Commission).

#### Studies and consultations:

- expenditure on specialised studies and consultations contracted out to highly qualified experts (individuals or firms) if the Commission does not have suitable staff available to carry out such studies,
- the purchase of studies already carried out or subscriptions with specialist research institutions.

A part of this appropriation is intended for two studies on:

#### (1) *The feasibility and long term viability of a Pan-European sentinel network for the early detection of new threats in allergies*

This study should aim to prove the long term viability of a Pan-European sentinel network for the early detection of new threats in allergies with the following long term objectives of this network:

- creating a central database, collect data (on country and Union-wide level), analyse and publish data regularly,
- identifying new trends in allergic diseases before they become major public health problems that may cause an additional burden to European health care systems,
- reporting to policymakers and alert them in a timely manner about new allergens where action is needed,
- building up a sustainable system for better awareness, starting in schools, to decrease the burden of allergies for society.

#### Actions:

- assess existing national systems of allergy surveillance which can be linked to the sentinel network,
- involve an already existing infrastructure of more than 100 allergy centres, covering the entire Union. This network has been in place for more than 7 years and is still expanding, which confirms the viability of the project,
- use standardised series for inhalant and food allergens (taking into account regional diversity) in 100 centres in all patients and to deploy this activity in the entire Union. This allows consistent monitoring of allergy trends in patients in a standardised manner,
- use, in a pilot study, a patient sample, called 'reporters', for consistent monitoring of allergy in selected centres using internet and

smart phone technology (aeroallergen sentinel network),

- report cases of unknown allergies in the field of inhalant, food, drug or contact allergy to a central database, to detect novel allergens coming into the Union at an early stage,
- disseminate results to policymakers, health care professionals, and the general public;

*(2) Understanding and measuring the role of cultural and creative sectors for growth and territorial development*

Cultural and creative industries (CCI) contribute significantly to shaping the identity of the European Union, its economy and the lives of its citizens. Heritage, music, film, entertainment, publishing, fashion, design, architecture and crafts, are areas at the intersection of art, technology and business. According to the Commission communication of 26 September 2012 entitled 'Promoting cultural and creative sectors for growth and jobs in the EU' (COM(2012) 537 final), the economic contribution of these sectors accounts for 3,3 % of the Union's GDP and they employ 6,7 million people. Beyond their intrinsic cultural value and their economic weight, these sectors also have a wider ripple effect on economic and social development, by their impact on other sectors, on regional attractiveness or in stimulating creativity and innovation.

However, the contribution that the cultural and creative sectors can make to economic and social development in the Union is still not fully recognised.

European Parliament noted in its resolution of 12 May 2011 on unlocking the potential of cultural and creative industries the necessity of analysing the effects of the activity of cultural and creative industries on the European economy, by 'identifying, defining and describing them each in turn, in order to highlight their characteristics, better understand their goals and problems and implement more effective measures.' In the same resolution, the Parliament called on the Commission 'to pursue its efforts to produce a better definition of CCI with a view to analysing in depth their impact on long-term growth and international competitiveness and to foster greater recognition of the specific features of the sector'.

The Union lacks information and indicators to measure the contribution of cultural industries to economic development, which fragments, hinders and discourages initiatives and investments in these sectors. For example, the European Capital of Culture label acts as a catalyst for urban regeneration and territorial attractiveness. However, no comprehensive data are available on the impact of investments made during the labelling. Furthermore, the role of cultural resources and actors at the heart of creative ecosystems, in stimulating economic and social innovation is still poorly understood.

Information and management systems:

- the development and maintenance under contract of management and information systems,
- the acquisition and maintenance of complete (turnkey) information and management systems in the field of administrative management (staff, budget, finance, accounts, etc.),
- studies, documentation and training linked to those systems and project management,
- the acquisition of skills and expertise in the area of information technology for all departments: quality, security, technology, development methodology, information technology management, etc.,
- technical support for those systems, and the technical work needed to ensure that they operate satisfactorily.

Further training and management training:

- expenditure on general training designed to improve the skills of the staff and the performance and efficiency of the Commission:
  - fees for experts employed to identify training needs, design, develop and hold courses and evaluate and monitor results,
  - fees for consultants in various fields, in particular organisational methods, management, strategy, quality assurance and personnel management,
  - expenditure incurred in designing, holding and evaluating the training organised by the Commission in the form of courses, seminars and conferences (course instructors/speakers and their travel and subsistence expenses, and teaching materials),
  - the cost of attending external training and of joining the relevant professional organisations,
  - expenditure related to the practical aspects of organising such courses and the use of premises and transport and the cost of food and accommodation for the participants of residential courses,
  - training expenditure related to publications and information, associated Internet sites and the purchase of teaching equipment, subscriptions and licences for distance teaching, books, press and multimedia products,
  - financing teaching aids.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional

appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Revenue from contributions from the EFTA States to the Union's general costs under Article 82 of the Agreement on the European Economic Area gives rise to the provision of supplementary appropriations to be entered in the budget lines concerned in accordance with the Financial Regulation. The amount of such revenue is estimated at EUR 858 500.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The amount of assigned revenue based on data available pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 6 265 900.

#### *Conditions for releasing the reserve*

The reserve will be released when the Commission modifies the rules on expert groups in the following way and ensures their full implementation within all DGs:

1. Ban on lobbyists and corporate executives sitting in expert groups in a 'personal capacity'. The Commission should clarify whether members of an expert group are there as stakeholders or as experts committed to acting in the public interest. The latter should be thoroughly checked for conflicts of interest and their "declaration of professional activities" should be in the public domain.
2. Common selection criteria throughout all DGs that guarantee balance among different categories of stakeholders and absence of conflicts of interests for experts and establish an obligatory open selection process with a public call for candidates and a published mandate for each expert group, going beyond a simple representation of Member State authorities.
3. All membership information (including affiliations), agendas, minutes and participants' submissions should be available on-line unless there is a clear and published reason for not providing this information. Reports of groups should be published before they are adopted by the Commission.
4. A review of the existing rules must be conducted after the close of the European Ombudsman's own inquiry, with a view to incorporating its findings into the Commission's rules on expert groups.

## Remarks

This appropriation is intended to cover the cost of carrying out the Joint Harmonised EU Programme of Business and Consumer Surveys in the Member States and candidate countries. The programme was initiated by a Commission Decision in November 1961 and was modified through subsequent Council and Commission decisions. It was last approved through Commission decision C(97) 2241 of 15 July 1997 and presented in the Commission communication COM(2006) 379 on 12 July 2006 (OJ C 245, 12.10.2006, p. 5).

This appropriation is also intended to cover the cost of studies, workshops, conferences, analyses, evaluations, publications, technical assistance, the purchase and maintenance of databases and software and the part-financing and support of measures relating to:

- economic monitoring, analysis of the combination of measures and coordination of economic policies,
- the external aspects of the economic and monetary union (EMU),
- macroeconomic developments in the euro area,
- monitoring structural reforms and improving the operation of markets in the EMU,
- coordination with financial institutions and analysis and development of financial markets, and borrowing and lending operations involving Member States,
- the facility providing financial assistance for Member States' balance of payments and the European financial stabilisation mechanism,
- cooperation with economic operators and decision-makers in the abovementioned fields,
- expanding the EMU.

This appropriation is also intended to cover the funding of priority information measures on Union policies on all aspects of the rules and functioning of EMU, as well as on the benefits of closer policy coordination and structural reforms, and to address information needs of citizens, local authorities and enterprises in relation to the euro.

This measure is designed to be an effective channel of communication and dialogue between the people of the European Union and the Union institutions, and to take account of specific national and regional characteristics, in close cooperation with the Member State authorities. Special emphasis is put on preparing citizens in the new Member States for the introduction of the euro.

It includes:

- partnership agreements with Member States that wish to provide information about the euro or the economic and monetary union (EMU),
- close cooperation and networking with all Member States in the framework of the network of Directors of Communication on EMU-related issues,
- the development of communication activities at central level (brochures, leaflets, newsletters, website design, development and maintenance, exhibitions, stands, conferences, seminars, audiovisual products, opinion polls, surveys, studies, promotional material, twinning programmes, etc.),
- communication initiatives in third countries, in particular to point out the international role of the euro and the value of financial integration.

The Commission, when implementing this article, should take duly into account the outcomes of the meetings of the Interinstitutional Group on Information (IGI).

The Commission has set out its communication strategy on the euro in the Communication of 11 August 2004 on the implementation of an information and communication strategy on the euro and Economic and Monetary Union (COM(2004) 552 final). The implementation of the communication strategy takes place in close coordination with the Member States and the European Parliament.

The Commission reports regularly to the European Parliament's relevant committee on the implementation of the programme and on planning for the coming year.

This appropriation is also intended to cover or to temporarily pre-finance costs incurred by the Union in concluding and carrying out operations linked with the borrowing and lending operations for macro-financial assistance, Euratom, balance of payment and European financial stabilisation mechanism.

Any revenue entered in Article 5 5 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(3)(a) of the Financial Regulation.

### *Legal basis*

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

### *Remarks*

The European Union guarantee is for borrowings raised on the capital markets or from financial institutions. The amount in principal of loans which may then be granted to the Member States is limited to EUR 50 000 000 000.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

A specific annex to this part of the statement of expenditure in this section gives a summary of borrowing-and-lending operations guaranteed by the general budget, including debt management, in respect of capital and interest.

### *Remarks*

Article 122(2) of the Treaty on the Functioning of the European Union provides for the possibility of granting Union financial assistance to a Member State in difficulties or seriously threatened with severe difficulties caused by exceptional occurrences beyond its control.

The guarantee provided by the Union is for borrowings raised on the capital markets or from financial institutions.

In accordance with Article 2(2) of Regulation (EU) No 407/2010, the outstanding amount of loans and credit lines granted to Member States under this stabilisation mechanism is to be limited to the margin available under the Union's own resources for payment appropriations.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

### *Remarks*

Macro-financial assistance ('MFA') is a form of financial aid extended by the EU to partner countries experiencing a balance of payments crisis. MFA is designed for countries geographically, economically and politically close to the EU. These include candidate and potential candidate countries, countries covered by the European Neighbourhood Policy and, in certain circumstances, other third countries. In principle, MFA is only available to countries benefiting from an International Monetary Fund programme.

MFA is exceptional in nature and is mobilised on a case-by-case basis to help countries dealing with serious balance-of-payments difficulties. Its objective is to restore a sustainable external financial situation, while encouraging economic adjustments and structural reforms.

While MFA can take the form of medium/long-term loans or grants, or a combination of these, this Article 01 03 02 only covers the grant element of MFA operations.

Appropriations under this article will also be used to cover costs incurred in relation to MFA operations, and in particular (i) costs incurred to conduct operational assessments in the beneficiary countries to obtain reasonable assurances on the functioning of administrative procedures and financial circuits, (ii) costs for ex-post evaluations of MFA operations, and (iii) costs to cover comitology requirements.

The Commission will inform the budgetary authority regularly of the macro-financial situation of the beneficiary countries and will report extensively on the implementation of MFA on a yearly basis.

Any revenue entered in Article 5 5 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(3)(a) of the Financial Regulation.

#### *Remarks*

Pursuant to Council Decision of 8 March 1977, the Union guarantees loans made by the European Investment Bank (EIB) in the context of the Union's financial commitments in respect of the Mediterranean countries.

That decision was the basis for a contract of guarantee between the European Economic Community and the EIB signed in Brussels on 30 October 1978 and in Luxembourg on 10 November 1978, setting up a comprehensive guarantee, equal to 75 % of all the funds available for loan operations in the following countries: Malta, Tunisia, Algeria, Morocco, Portugal (Financial Protocol, emergency aid), Turkey, Cyprus, Syria, Israel, Jordan, Egypt, former Yugoslavia and Lebanon.

Decision 90/62/EEC was the basis for a contract of guarantee between the European Economic Community and the EIB signed in Brussels on 24 April 1990 and in Luxembourg on 14 May 1990 as regards Hungary and Poland and for the extension of that contract to cover Czechoslovakia, Romania and Bulgaria, signed in Brussels and in Luxembourg on 31 July 1991.

Decision 93/696/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 22 July 1994 and in Luxembourg on 12 August 1994.

Pursuant to Decisions 93/115/EEC and 96/723/EC, the Union guarantees loans which may be made individually by the EIB in countries of Latin America and Asia with which the European Community has concluded cooperation agreements. Decision 93/115/EEC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 4 November 1993 and in Luxembourg on 17 November 1993. Decision 96/723/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 18 March 1997 and in Luxembourg on 26 March 1997.

Pursuant to Decision 95/207/EC, the Union guarantees loans which may be made individually by the EIB in South Africa. Decision 95/207/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 4 October 1995 and in Luxembourg on 16 October 1995.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the appropriations opened, plus all related sums. The overall ceiling of the appropriations opened is equivalent to EUR 7 105 000 000.

Decision 2000/24/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 24 January 2000 and in Luxembourg on 17 January 2000, last restated in 2005, setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations opened, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 19 460 000 000. The EIB is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2001/777/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Brussels on 6 May 2002 and in Luxembourg on 7 May 2002 setting up a guarantee at 100 % against losses under a special lending action for selected environment projects in the Baltic Sea basin of Russia under the Northern Dimension. The overall ceiling is EUR 100 000 000.

Decision 2005/48/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Luxembourg on 9 December 2005 and in Brussels on 21 December 2005 setting up a guarantee at 100 % against losses under loans for certain types of projects in Russia, Ukraine, Moldova and Belarus. The overall ceiling is EUR 500 000 000. It covers a period ending on 31 January 2007. At the end of this period, the loans granted by the EIB not having attained the overall amounts referred to above, the period was automatically extended by six months.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the EIB signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations, less amounts reimbursed, plus all related sums. The overall ceiling of the appropriations made available for all countries under the Decision is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. That Decision has been replaced by Decision No 633/2009/EC.

Decision No 633/2009/EC was the basis for an amendment, signed on 28 October 2009, to the contract of guarantee between the European Community and the EIB which was signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007. The Union guarantee is restricted to 65 % of the aggregate amount of credits disbursed and guarantees. The maximum ceiling of the EIB financing operations, less amounts cancelled, shall not exceed EUR 27 800 000 000, broken down in a basic ceiling of EUR 25 800 000 000 and an optional mandate of EUR 2 000 000 000. It covers a period ending on 31 October 2011.

Decision No 1080/2011/EU was the basis for a contract of guarantee between the European Union and the EIB signed in Luxembourg and in Brussels on 22 November 2011. The Union guarantee is restricted to 65 % of the aggregate amount of credits disbursed and guarantees less amounts reimbursed, plus all related amounts. The maximum ceiling of the EIB financing operations, less amounts cancelled, shall not exceed EUR 29 484 000 000, broken down into a general mandate of EUR 27 484 000 000 and a Climate Change mandate of EUR 2 000 000 000. It covers a period beginning on 1 February 2007 and ending on 31 December 2013 with an extension until the entry into force of a new decision.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission, if necessary, to service the debt (repayment of principal, interest and other costs) should a debtor default on the loans granted by the EIB.

#### *Remarks*

This appropriation is intended to cover the financing of the provision of paid-up shares of the capital subscribed by the Union.

The European Investment Fund (EIF) was created in 1994. Its founder members were the European Community, represented by the Commission, the European Investment Bank (EIB) and a number of financial institutions. Union membership of the EIF is presently governed by Decision 94/375/EC.

In the conclusions of the European Council of 19/20 December 2013, the European Council calls on the Commission and the EIB to further enhance the EIF capacity through an increase in its capital with a view to reaching final agreement by May 2014.

### *Remarks*

This appropriation is intended to cover the financing of the technical and legal assistance necessary for the evaluation of the safety, environmental, economic and financial aspects of the projects for which financing in the form of a Euratom loan has been requested, including studies undertaken by the European Investment Bank (EIB). The measures are also intended to enable loan contracts to be concluded and carried out.

Appropriation under this article will also be used to cover or temporarily pre-finance costs incurred by the Union in concluding and carrying out operations linked with Euratom borrowing and lending operations.

Any revenue entered in Article 5 5 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(3)(a) of the Financial Regulation. The amount of assigned revenue for the year 2014 is estimated at EUR 1 235 000.

### *Legal basis*

### *Remarks*

The authorised borrowing ceiling is EUR 4 000 000 000, of which EUR 500 000 000 is authorised pursuant to Decision 77/270/Euratom, EUR 500 000 000 pursuant to Decision 80/29/Euratom, EUR 1 000 000 000 pursuant to Decision 82/170/Euratom, EUR 1 000 000 000 pursuant to Decision 85/537/Euratom and EUR 1 000 000 000 pursuant to Decision 90/212/Euratom.

This article constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

A specific annex to this part of the statement of expenditure in this section gives a summary of borrowing-and-lending operations guaranteed by the general budget, including debt management, in respect of capital and interest.

### *Legal basis*

#### *Remarks*

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

Even though the end of the commitment period has been reached, the facilities have to be operated for several years during which time payments will be needed for investments and in order to honour guarantee obligations. Therefore reporting and monitoring requirements will continue until the end of the facility periods.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. In this case, Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) applies.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates, for participating in Union programmes and entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue generated on Trust Accounts entered in Article 5 2 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this article, in accordance with the Financial Regulation.

### Remarks

National (and regional) Promotional Banks (NPB), together with the European Investment Bank (EIB) and the European Investment Fund (EIF) are considered important actors to finance long-term projects at European level. The Commission communication of 27 March 2014 on long-term financing of the European economy - a follow-up to a Green Paper - confirmed that during consultations "calls were made for more joint EU-national or multinational initiatives to promote cooperation and synergies between the EU budget and the EIB/EIF, Multilateral Development Banks (MDBs) and NPBs". In that communication, the Commission undertook to "encourage and monitor the cooperation of NPBs, as requested by the June 2013 European Council and to report to the December 2014 Council".

In this context, it is important to enable the Commission to develop a pilot project to create, through visible support from the EU budget, a structured network of national and regional promotional banks based in the Member States, in order to enhance their cooperation and to achieve the objective of long-term financing of the real economy and thus support long-term growth, well-being and employment in Europe. Such cooperation would foster the exchange of best practices and help to develop innovative systems to channel private capital towards SMEs and towards project of public interest, such as investments in material and immaterial infrastructure, particularly in the regions hardest hit by recession and unemployment.

To this end, the project will include the following activities:

- promoting the exchange of information and best practices among participants and between participants and European Institutions, through meetings, seminars and publications;
- initiating research programmes and holding conferences for the participants;
- developing initiatives to promote the concept of long-term investment within the economic and financial sector;
- promoting the removal of obstacles and the development of incentives to favour long-term investing.

### Legal basis

## **Article 02 02 01 — Promoting entrepreneurship and improving the competitiveness and access to markets of Union enterprises**

### *Figures*

Budget 2015		Appropriations 2014		Outturn 2013
Commitments	Payments	Commitments	Payments	
106 561 823	72 357 000	102 709 687	14 575 804	

### *Remarks*

This appropriation is intended to strengthen the competitiveness of enterprises, in particular that of small and medium-sized enterprises (SMEs), and to encourage entrepreneurship and foster the creation and growth of SMEs.

The implemented measures will include:

- networks bringing together a variety of stakeholders,
- market replication projects,
- policy analyses, development and coordination with participating countries,
- studies on gender-related discrimination linked to female entrepreneurship and implementation of policies to foster female entrepreneurship,
- information sharing, dissemination and awareness raising,
- support to joint actions of Member States or regions, as well as other measures under the Cosme programme.

The Union will provide support to activities such as the Enterprise Europe Network and entrepreneurship promotion. It will also support projects concerned with the first applications or market replication of techniques, practices or products (e.g. new business concepts for consumer goods) of Union relevance that have already been technically demonstrated with success but, owing to residual risk, have not yet significantly penetrated the market. Those projects will be designed to promote wider use within the participating countries and facilitate market uptake.

Projects will also seek to improve the framework conditions including through capacity building in clusters and other business networks notably with regard to support SME internationalisation in order to ensure that Union enterprises are competitive and sustainable, including in the tourism sector, by supporting coherence and consistency in implementation, as well as informed policy-making at Union level. In addition, projects will be put in place to support the implementation of the Small Business Act for Europe. Support actions, directly linked to the achievement of these objectives are also considered for funding: meetings, studies, information and publications, participation in study groups, conferences, workshops.

In relation to gender equality, projects to promote the position of female entrepreneurs will receive particular attention in order to help overcome gender-based hurdles women may face and to attain an equal representation of male and female entrepreneurs throughout the EU.

Sustainable tourism activities will receive a special focus with initial priority given to soft mobility, cycling networks, eco-tourism and nature protection. Accessibility for all, particularly for people with reduced mobility and for socially disadvantaged people is also of high importance in this context.

The Union will coordinate, promote and support actions for sustainable tourism, such as:

- preservation of long-term sustainable tourism resources through protection of natural, cultural, historical and industrial heritage;
- coordination and support for access to sustainable tourism information and services for less-advantaged citizens living in poverty, as well as for persons with reduced mobility;
- cross-border coordination of European cycling networks, together with rail and long-distance bus information and services.

The Erasmus for Entrepreneurs programme aims to encourage European entrepreneurship, the sharing of knowledge and best practices, and the creation of valuable networks and partnerships.

Due to the currently difficult economic situation it is indispensable to support European enterprises, in particular young innovative start-ups, and female entrepreneurs as well to foster entrepreneurship by assigning enough funds to programmes like the Program for the competitiveness of enterprises and small and medium-sized enterprises (COSME). In particular the Program 'Erasmus for young entrepreneurs' has been very successful and can contribute successfully to fight unemployment across Europe.

The financial means for the 'Erasmus for young Entrepreneurs' program must be increased in particular due to the following reasons:

- the program helps fostering European entrepreneurship, the sharing of knowledge and best-practices as well as the creation of

valuable networks and partnerships;

- the program is very successful and has shown an increasing number of participants over the last years which is expected to increase further;
- the program effectively tackles the problem of youth unemployment as it helps young people without work to become self-employed and existing SME to create jobs by expanding and/or internationalising their business;
- the number of applications exceeds by far the possibilities the Commission can fulfil with the financial means currently available.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its Member Associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, EU authorising officers are encouraged to make full use of the possibilities offered by the new financial regulation, notably taking into account in-kind financing by CESES as contribution to EU projects.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

#### *Remarks*

This appropriation is to be used to improve access to finance for SMEs in the form of equity and debt in their start-up, growth and transfer phase.

A loan guarantee facility (LGF) shall provide counter-guarantees, direct guarantees and other risk sharing arrangements for debt financing which shall reduce the particular difficulties that viable SMEs face in accessing finance either due to their perceived higher risk or their lack of sufficient available collateral and for securitisation of SME debt finance portfolios.

An equity facility for growth (EFG) shall allow investments in risk capital funds which invest in SMEs in the expansion and growth stage, whilst taking a gender-sensitive and non-discriminatory approach, and in particular in those operating cross-borders. The possibility shall exist to invest in early stage funds in conjunction with the equity facility for RDI under Horizon 2020. In cases of joint investments in multi-stage funds, investments will be provided on a pro-rata basis from the EFG of Cosme and the equity facility for RDI under Horizon 2020. Support from the EFG shall be (a) either directly by the European Investment Fund (EIF) or other entities entrusted with the implementation on behalf of the Commission or (b) by funds-of-funds or investment vehicles investing across borders.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6341 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Articles 21(3)(i) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under this preparatory action.

Under the Treaty of Lisbon, the Union was granted competence in the field of tourism for the first time. This preparatory action seeks to support cross-border thematic tourism products which reflect in particular common European cultural and industrial heritage and local traditions and will seek to draw on previous actions in this area and on the consolidated experience of other international partners and organisations, such as the Council of Europe, the United Nations World Tourism Organization (UNWTO), the European Travel Commission (ETC), etc.

In particular, to help encourage the European tourism sector to become more competitive, this preparatory action will promote the diversification of the supply of tourism products. There is excellent potential for growth in a number of transnational thematic tourism products and services as, for example, in cultural and industrial itineraries crossing several regions or Member States. Those European

and transnational tourism products should also be promoted in third countries in close cooperation with the ETC, in order to enhance the image of Europe as a unique destination on long-haul markets.

The preparatory action has the following main objectives:

- by funding cross-border tourism projects, to help improve the quality of tourism products and destinations as a whole across the Union,
- to further develop cultural products and tourism as an integral part of a sustainable economy and to support regional economies,
- to promote tourism in regions in reconversion, in order to boost employment and growth in these regions,
- to establish a network of regional, national and Union-level stakeholders and decision-makers, in particular in the fields of cultural and industrial tourism,
- to promote the value of cultural products and cultural tourism within Europe and to reinforce the image of Europe as the number one destination for tourists worldwide,
- to support transnational cultural or industrial themes and products which help to foster a greater sense of European identity.

Under this preparatory action, support for projects related to European cultural routes (recognised by the Council of Europe and others) should be continued.

As these routes cross several regions or countries, they are a good basis for promoting European cultural tourism in all its variety and complexity.

Cultural routes have strong tourism potential still largely unexplored. They are both transnational and representative of Europe's common heritage and values. They are also regarded as a sustainable, ethical and social model because they build on local knowledge, skills and heritage assets, often promoting less well known European destinations.

##### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under this preparatory action.

Following the entry into force of the Lisbon Treaty, tourism has been added to the competences given to the Union, which can coordinate and complement Member States' actions in this field. In order to foster this new important task of the Union, a preparatory action, launched in 2012, aimed at preparing the ground for future initiatives in the field of tourism and accessibility has been proposed. Its main aim is to develop a better awareness of accessibility in tourism, with a special focus on the disability issue and special needs of certain categories of people. In fact, despite the UN Convention on the Rights of Persons with Disabilities, signed by all Member States, a large number of disabled persons are still facing problems in accessing services in the tourism and transport field.

The preparatory action has the following main objectives:

- raising public awareness, including through information campaigns, to the accessibility of tourism products and services, as well as improving dialogue and collaboration between organisations representing disabled persons, people with special needs in general and the tourism industry, in order to favour a more inclusive society and guarantee high quality free movement of people in Europe,
- contributing to facilitating the development of specific training for staff on disability awareness, in particular in the field of fire prevention and safety of accommodation in general,
- developing skilled, trained and well-informed citizens and professionals on the concept of hospitality in relation to accessibility,

including through close cooperation and synergies with universities and schools,

- incentivising and rewarding European destinations which make accessibility a key priority in their promotional offers,
- incentivising better use of innovation in order to improve accessibility in tourism services for all,
- incentivising adaptation of tourist products to the needs of persons with reduced mobility and people with special needs in general,
- contributing to the creation of a favourable and accessible environment for disabled persons, persons with reduced mobility and people with special needs in all fields, notably in transport (mobility), accommodation, catering and tourism services in general,
- increasing campaigns and information actions with regard to the rights of persons with reduced mobility, and people with special needs when travelling abroad, in order to guarantee that customers have better information and better access,
- enhancing cross-border cooperation to develop accessible tourism within the industry in order to guarantee the exercise of rights for both European citizens and third-country visitors, in particular those with disabilities and special needs,
- contributing to the development, in the long term, of common minimum accessibility standards, based on quality, for all fields related to tourism and addressed to all citizens, including disabled persons, persons with reduced mobility and people with special needs.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under this pilot project.

This pilot project will explore scenarios for the reindustrialisation of Europe and employment-related issues in line with the aim of increasing industry's share of European GDP from its current level of around 16 % to 20 % by 2020.

It will further implement of the Commission's recommendations, facilitate the exchange of best practice, drawing on Eurofound expertise and assistance, and will also support performance monitoring as part of the European Semester and country-specific recommendations.

This pilot project will have a key focus on manufacturing — a priority of the Commission's Industrial Policy Communication Update, which sets out a detailed strategy for addressing some of the factors that can contribute to economic recovery. Beyond its industrial policy context, the project will have a very clear employment dimension, addressing questions related to job creation and reintegration into the labour market, restructuring trends, the gender dimension, skills/reskilling, entrepreneurship, and SME engagement in markets outside the Union.

This pilot project will look into and put into practice methods for predicting the future of manufacturing. In particular, the pilot project will:

- support a European reindustrialisation strategy capable of responding to the rapid changes brought by globalisation;
- explore the key drivers which will support positive developments in manufacturing, where the employment impact will be central; the case for a European manufacturing renaissance is, in some respects, more economic than technological: because labour-saving technology decreases the need for the productive factor labour, labour costs in manufacturing will be less important for determining location of operations; in addition, the pay gap between Europe and the rest of the world can surely only decline with time;
- involve detailed quantitative exploration of the employment dimension: there is good reason to believe that most of the jobs created by keeping and increasing manufacturing in Europe will in fact be in related non-manufacturing activities, i.e. in business services, R&D, sales and marketing and in other stages in the manufacturing supply chain; this will multiply the positive employment effects;
- include studies to quantify these employment spill-over effects, which will be quantitative analyses estimating substitution and complementarity effects;
- explore how progress in industrial policy and performance can translate into employment growth — to encourage 'job-rich growth';

- involve a large number of case studies exploring why big companies remain in or go back to Europe in order to manufacture, thus creating jobs in core activities and along the supply chain;
- include key emerging dimensions of entrepreneurship, for example with regard to ‘Born Global’ (i.e. start-ups that immediately have global operations); such companies often have a very high-tech focus on, for example, life sciences and ICT; this ties in closely with the Entrepreneurship 2020 action plan and one of its targets: 25 % of SMEs to engage in markets outside the Union;
- explore what existing spill-over effects mean for male and female jobs today and for gender distribution in the future;
- explore the skills/reskilling issue, in particular as a strategic tool for structural change; an in-depth study on dual and vocational systems for creating a hub of industrial professionals and researchers could be considered in cooperation with Cedefop.

Eurofound, with its European Monitoring Centre on Change, is well placed to carry out the pilot project.

Item 02 02 77 17 — Pilot project — Business Transfers to employees and Cooperative Model: ensuring the Sustainability of SMEs

#### *Figures*

Budget 2015		Appropriations 2014	Outturn 2013
Commitments	Payments

#### *Remarks*

SMEs in Europe are faced with the challenge of ageing entrepreneurs whose businesses could disappear if no successor is found. Given the number of bankruptcies or business failures where at least part of the business was profitable, the potential for saving activities and jobs is considerable. When a business closes down, jobs are lost, as are know-how, products and the services the business provided, and the indirect jobs among suppliers and local service providers. SMEs in particular find it difficult to prepare for business transfer because of a lack of time, money and know-how. A failure to prepare for business transfer leads to difficulties in finding successors and funds, as well as in reorganising the business.

The purpose of the project is to develop and implement concrete actions to help bring about successful business transfers with employee involvement. The pilot project is in line with the report of the cooperative working group launched by Commissioner Tajani. The overall objective is to facilitate the transfer of ‘healthy’ businesses to employees and employee buy-outs of failed or bankrupt businesses, using the cooperative model in both cases. Experience on the ground has demonstrated that the cooperative model is the one most often chosen by employees during restructuring processes. This pilot project will help raise awareness among entrepreneurs, employees, trade unions, business and trade associations, enterprise support service providers and public authorities of the added value of this option for business transfers. Many failures could be avoided if transfers were planned well ahead and specialised advice were sought. Working towards successful business transfers should thus be seen as an investment rather than a cost. The project will also support activities to make business owners aware of the need for timely preparation. Experience shows that the further in advance a transfer is prepared, the higher the chances are of its being a success. Member States should actively promote and support mentoring schemes involving the transfer of knowledge and core competencies essential to transfer businesses to employees as cooperatives. The main target groups for the pilot activities are SME entrepreneurs and employees.

Europe is not fully exploiting its entrepreneurial potential and lags behind in start-ups and self-employment. Women in particular are reluctant to create their own businesses. The EU has recognised that female entrepreneurship must be promoted and supported in order to strengthen Europe's competitiveness.

One of the main obstacles for women in general is their lack of access to finance. Studies show that for female entrepreneurs it is significantly more difficult to obtain loan financing by comparison with their male partners. At the same time they also lack access to relevant technical, scientific and general business networks. Those networks are in many ways essential for creating and expanding a business, in particular for finding investors, business partners and mentors.

Item 02 02 77 19 — Pilot project — World-bridging tourism

*Figures*

Budget 2015		Appropriations 2014	Outturn 2013
Commitments	Payments

*Remarks*

Europe should benefit from world-bridging tourism because of the increasing share of GDP accounted for by the tourism sector. It could bring significant economic growth, including the creation of sustainable employment. Europe should be prepared for the difficulties and challenges posed by the arrival of more visitors from countries with different cultural customs, such as China. Europe should become the lead economy within world tourism competition.

Over the last few decades, tourism has become one of the largest and fastest growing economic sectors in the world. International tourist arrivals rose from 278 million in 1980 to 1 035 million in 2012 and are expected to grow by 3,3% a year on average by 2030. Europe remains the world's number one tourist destination, accounting for half of all international tourist arrivals worldwide – with three quarters of those in European Union (EU) countries. However, its position is being challenged by new tourist destinations in emerging economies.

Tourists from emerging economies such as Brazil, Russia, China and India have increased in number over the past few years. Statistics show that 1 026 000 visas were issued in 2011 to Chinese tourists, compared with 560 000 in 2008. In 2011, foreign visitor spending amounted to over EUR 330 billion and, according to recent estimates, could increase to around EUR 430 billion in 2022. The 'Europe – Whenever you're ready' campaign, highlighting Europe's diverse cultural and natural heritage and targeting potential tourists, in particular from Brazil, India and China, was introduced in 2012. This programme has been very successful and has achieved extremely positive results thanks to the development and implementation of a common visa policy. Visa facilitation has increased international tourist arrivals from relevant markets by between 5 and 25%. But visas are not the only issue, as all foreign visitors have different needs and expectations.

Among the emerging economies referred to above, the focus should be on China, which is the fastest-growing tourism source market in the world. According to the World Tourism Organisation's report on the Chinese Outbound Travel Market (2013), Chinese tourists' propensity to travel abroad is expected to continue rising in the coming decades. Furthermore, beyond Asia and the Pacific, Europe is the largest destination region for Chinese travellers. As Europe has a prominent place on the Chinese 'wish list', it is necessary to think about how EU Member States could better host Chinese tourists. What is needed is mutual understanding and continuous and sustainable training of tourism sector employees all over Europe.

Furthermore, Europe should be prepared for the challenges posed by the arrival of many Chinese tourists, including public security,

laws on foreign nationals, and the possibility of racist and xenophobic attitudes stemming from cultural differences between our societies.

This pilot project has the following main objectives:

facilitating the development of networks and exchanges of best practices between public decision-makers and representatives of the tourism industry;

promoting opportunities to create new and sustainable jobs in the service sector across Europe;

establishing professional and structural dialogue among the EU institutions;

identifying best practices concerning the profile of the Chinese traveller (how to host them better) and promoting them in the European tourism industry, including service providers (hotels, restaurants);

improving dialogue and collaboration between Chinese and European tour operators and travel agencies;

facilitating the development of specific training for staff (for example improving language skills and cultural knowledge);

raising public awareness through campaigns on multiculturalism in cooperation with Chinese cultural institutes (Confucius Institutes);

incentivising the tailoring of tourist products and services to the needs of Chinese tourists, including marketing tools (websites and flyers in Chinese) and their promotion on Chinese social networks (Weibo);

enhancing cross-border cooperation to boost the image of Europe and the European identity - this project could be linked to the preparatory action 'Promotion of European and transnational tourism products with special emphasis on cultural and industrial products' – for example preparing a unique promotional video in Chinese about the European Union.

#### *Remarks*

To face its main societal challenges, the EU has set up the Horizon 2020 R&D investment programme for a competitive and sustainable Europe; and to help the EU regions to follow a common healthy path, through smart regional specialisation, the EU has introduced the Research and Innovation Strategies for Smart Specialisation (RIS3) initiative.

This pilot project will create closer links between Horizon 2020 and RIS3 in order to speed up R&D results exploitation and regional economic convergence at the same time. Although both Horizon 2020 and RIS3 are very well targeted programmes, a bridge between them which focused on social and economic convergence between EU regions would help to foster their success.

The TREC pilot project will include a call for tenders directed at European technology centres and the related industrial clusters, with the following conditions:

- clusters represented must have been selected in their regional RIS3 strategic plans;
- a common proposal must be presented by clusters from at least three EU countries;
- a comprehensive economic picture of the clusters must be presented;
- there must be a readiness to share information and best practices.

Among the project candidates, at least three should be selected to receive financing for a project involving:

- complete benchmarking of the clusters;
- detecting bottlenecks and improvement opportunities;

- searching for available R&D results and drawing up an application plan;
- drawing up of an investment and training plan to meet the needs detected;
- making the necessary technology investments and implementing the training plans laid down;
- assessing and disseminating the results obtained.

Owing to the difficulties involved in estimating the necessary duration and investment levels, the pilot project will consist of two phases, the first covering the first four activities listed above, the second covering implementation and assessment and dissemination.

The first phase could last for up to one year and the necessary EU financing could be some EUR 500 000. The second phase could last for up to three years and require up to EUR 4 million and would be co-financed by the participating companies and/or countries.

In terms of performance, the projects selected must demonstrate a cluster productivity increase of at least 10% and a spread of about +/- 3% between clusters.

The final aim is to analyse the impact of specific industrial policies which can be carried out by the EU. The TREC pilot project seeks to determine how an innovative entity can best apply existing innovation to improve exploitation of R&D results and reduce unemployment, thus contributing to growth and more jobs in the EU.

#### *Remarks*

The preparatory action will have the following main objectives:

1. Diversifying European tourism offerings;
2. Lessening the impact of seasonality at European destinations;
3. Enhancing the profile of Europe as a single tourist destination.

The UNESCO logo is world-famous; it is a guarantee of the special cultural relevance of a site, but it is also a hook for attracting new tourism flows. Cooperation with UNESCO, a specialised UN organisation, could be essential for enhancing international cooperation with the UN and developing a regional strategy for the promotion of European sites on the UNESCO list. A map of emblematic UNESCO sites grouped by theme (e.g. mediaeval towns, underwater heritage, Greek/Roman archaeological sites) or telling a story which pulls together their common strands will help to promote cultural tourism in both domestic and long-haul markets. Different communication tools can be developed on the basis of a European map of UNESCO sites. This preparatory action will further explore the relationship between tourism and culture.

#### Remarks

This appropriation is intended to cover expenditure on actions to improve the operation of the internal market:

- approximation of standards, and introduction of an information system for technical standards and regulations,
- financing of administrative and technical coordination and of cooperation between the notified bodies,
- examination of the rules notified by Member States, EFTA States and Turkey and translation of the draft technical regulations,
- application of Union legislation on medical devices, cosmetics, foodstuffs, textile products, medicinal products, chemicals, classification and labelling of substances and preparations, cars and safety, toys, legal metrology and pre-packaging and the quality of the environment,
- greater sectorial approximation in the fields of application of the ‘new approach’ directives, especially the extension of the ‘new approach’ to other sectors,
- implementation measures for Regulation (EC) No 765/2008, both for the infrastructures and market surveillance,
- implementation measures for Regulation (EC) No 764/2008, for procedures relating to the application of certain national technical rules to products lawfully marketed in another Member State,
- implementation measures for Directive 2009/43/EC simplifying terms and conditions of transfers of defence-related products

within the Union,

- organisation of partnerships with the Member States, support for administrative cooperation between the authorities responsible for implementing the legislation on the internal market and for market surveillance,
- grants in support of projects of Union interest undertaken by outside bodies,
- information and publicity measures, greater awareness of Union legislation,
- implementation of the strategic programme on the internal market and market monitoring,
- grants in support of the European Technical Approval Organisation (EOTA),
- grants to the Council of Europe in the framework of the Convention on the Elaboration of a European Pharmacopoeia,
- participation in the negotiation of agreements on mutual recognition and, under European agreements, support for the associate countries to allow them to adopt the *acquis* of the Union,
- implementation measures for Regulation (EC) No 1907/2006, especially those resulting from the REACH review (communication COM(2013) 49 final).

This appropriation is also intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this article, as maintenance, updating and development of informatics systems related to technical regulations, and any other expenditure on technical and administrative assistance not involving public authority tasks.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

### *Remarks*

In accordance with the general aim of maintaining the proper functioning of the internal market and the competitiveness of European industry, in particular through the mutual recognition of standards and the establishment of European standards in suitable cases, this appropriation is intended to cover:

- financial obligations arising from contracts to be signed with the European standardisation organisations (such as ETSI, CEN and Cenelec), for the development of standards,
- checking and certifying conformity with the standards, and demonstration projects,
- contract expenditure for the execution of the programme and projects indicated above. The contracts in question cover the following: research, association, evaluation, technical operations, coordination, scholarships, grants, training and mobility of scientific staff, participation in international agreements and participation in expenditure on equipment,
- improving the performance of standards bodies,
- promoting quality in standardisation, and the verification thereof,
- supporting the transposition of European standards into national standards, particularly by having them translated,
- measures relating to information, promotion and profile-raising of standardisation and the promotion of European interests in international standardisation,
- secretarial services for the technical committees,
- technical projects in the field of tests for compliance with the standards,
- examination of the compliance of draft standards to the relevant mandates,
- programmes of cooperation with and assistance to third countries,
- carrying out the work needed to apply international information technology standards uniformly throughout the Union,
- specifying methods of certification and laying down technical methods of certification,
- encouraging use of these standards in public procurement contracts,
- coordinating the various operations to prepare the standards and doing more to implement them (user guides, demonstrations, etc.).

Union finance is to be used to frame and implement the standardisation operation in consultation with the main participants: industry, workers’ representatives, consumers, small and medium-sized enterprises, the national and European standardisation institutions, the public procurement agencies in the Member States, all users and industrial policymakers at national and Union levels.

In the case of IT equipment, and in support of interoperability, specific provisions are included in Council Decision 87/95/EEC of 22 December 1986 on standardisation in the field of information technology and telecommunications (OJ L 36, 7.2.1987, p. 31) requiring Member States to ensure that, in public procurement orders, reference is made to European or international standards.

#### *Remarks*

This appropriation is intended to cover the costs of the functioning and activities of European non-governmental and non-profit organisations representing the interests of SMEs and consumers, as well as environmental and social interests, in standardisation activities.

Such representation in the standardisation process at European level forms part of the statutory objectives of such organisations, and they have been mandated by national non-profit organisations in at least two thirds of the Member States to represent those interests.

Contributions to such European organisations have previously been covered by the Competitiveness and Innovation Programme, the consumer policy and the Financial Instrument for the environment, LIFE+. In Regulation (EU) No 1025/2012 the actions in the field of standardisation financed by specific programmes have been brought together in a single legal act.

#### Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for the Horizon 2020 — the Framework Programme for Research and Innovation which covers the 2014 to 2020 period.

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative ‘Innovation Union’ and other flagship initiatives, notably ‘Resource efficient Europe’, ‘An industrial policy for the globalisation era’, and ‘A digital agenda for Europe’, as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding. It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops

and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in ‘Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)’ and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European cooperation in the field of scientific and technical research entered in Item 6 0 1 6 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 02 04 50 01.

Administrative appropriations of this chapter will be provided under Chapter 02 01 05.

## ***Article 02 04 02 — Industrial leadership***

### *Remarks*

This priority of Horizon 2020 aims at making Europe a more attractive location to invest in research and innovation, by promoting activities where businesses set the agenda as well as at accelerating the development of new technologies which will underpin future businesses and economic growth. It will provide major investment in key industrial technologies, maximise the growth potential of European companies by providing them with adequate levels of finance and help innovative SMEs to grow into world-leading companies.

### Item 02 04 02 01 — Leadership in space

#### *Remarks*

The aim of this appropriation is to:

- foster a competitive and innovative space industry and research community to develop and exploit space infrastructure to meet future Union policy and societal needs. The lines of activities are: enabling European competitiveness, non-dependence and innovation of the European space sector, enabling advances in space technologies, enabling exploitation of space data and enabling European research in support of international space partnerships,

- foster today's industrial forms of production towards more sustainable and low-carbon manufacturing and processing resulting in more innovative products, processes and services. In particular, sustainable and low-carbon technologies in energy-intensive process industries will be targeted to increase the competitiveness of process industries, by drastically improving resource and energy efficiencies and reducing the environmental impact of such industrial activities through the whole value chain, promoting the adoption of low-carbon technologies.

#### *Remarks*

The aim of this appropriation is to help remedy market deficiencies in accessing risk finance for research and innovation. In particular, the equity facility will target investments in risk capital funds which make early stage investments. It shall enable equity investments in, amongst others, seed capital funds, cross-border seed funds, business angel co-investment vehicles and early-stage venture capital funds. The equity facility, which will be demand-driven, shall use a portfolio approach, where venture capital funds and other comparable intermediaries select the firms to be invested in.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(3)(i) of the Financial Regulation.

#### *Remarks*

The aim of this appropriation is to:

- provide financing to the Enterprise Europe Network established under the COSME programme for their reinforced services linked to Horizon 2020. The support could range from improved information and advisory services through partner search activities for SMEs wishing to develop cross-border innovation projects, to providing innovation support services,

- support the implementation and complementing the SME specific measures across Horizon 2020, notably to enhance the innovation capacity of SMEs. Activities may include awareness raising, information and dissemination, training and mobility activities, networking and exchange of best practices, developing high quality innovation support mechanisms and services with strong Union added value for SMEs (e.g. intellectual property and innovation management, knowledge transfer), as well as assisting SMEs to connect to research and innovation partners across the Union, allowing them to spin in technology and develop their innovation capacity. Intermediary organisations representing groups of innovative SMEs shall be invited to conduct cross-sectoral and cross-regional innovation activities with SMEs having mutually reinforcing competences, in order to develop new industrial value chains,
- support market-driven innovation in view of enhancing the innovation capacity of firms by improving the framework conditions for innovation as well as tackling the specific barriers preventing the growth of innovative firms, in particular SMEs and enterprises of intermediate size with potential for fast growth. Specialised innovation support (e.g. IP exploitation, networks of procurers, support to technology transfer offices, strategic design) and reviews of public policies in relation to innovation may be supported.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, EU authorising officers are encouraged to make full use of the possibilities offered by the new Financial Regulation, including CESES contributions in kind to EU projects.

### ***Article 02 04 03 — Societal challenges***

#### *Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

Item 02 04 03 01 — Achieving a resource-efficient and climate change resilient economy and a sustainable supply of raw materials

#### *Remarks*

The aim of this appropriation will be to support secure supply of raw materials in order to meet the needs of a growing global population within the sustainable limits of the planet's natural resources. Activities will target the improvement of the knowledge base on raw materials and the development of innovative solutions for the cost-effective and environmentally friendly exploration, extraction, processing, recycling and recovery of raw materials and for their substitution by economically attractive alternatives.

Support will also be provided for tackling barriers impeding the deployment of circular-economy business models, in particular by SMEs, such as the use of materials from waste streams, the development of industrial symbiosis processes and the building of eco-industry clusters.

#### Remarks

The aim of this appropriation is to:

- support Union policies for internal and external security, whilst at the same time improving the competitiveness and technology base of the Union's security industry and to stimulate cooperation between providers and users of security solutions. Activities will target the development of innovative technologies and solutions that address security gaps and lead to the prevention of security threats. The focus of activities shall be to fight crime and terrorism, including critical infrastructure protection; strengthen security through border management; increase Europe's resilience to crises and disasters whilst protecting personal data and fundamental human rights,
- support the strengthening of the evidence base and support for the Innovation Union and ERA which are needed to foster the development of innovative societies and policies in Europe through the engagement of citizens, enterprises and users in research and innovation and the promotion of coordinated research and innovation policies in the context of globalisation.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services — CESES — and its Member Associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, EU authorising officers are encouraged to make full use of the possibilities offered by the new financial regulation, notably taking into account in-kind financing by CESES as contribution to EU projects.

### Remarks

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

This appropriation will also cover expenditure corresponding to revenue giving rise to the provision of additional appropriations from (non-European Economic Area) third parties or third countries participating in projects in the field of research and technological development.

Any revenue entered in Items 6 0 1 3, 6 0 1 5, 6 0 1 6, 6 0 3 1 and 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Item 02 04 77 01 — Pilot project — Design, roll-out and implementation of an EU-wide technical architecture to assess 112 PSAPs' readiness to transport GNSS location and other data from 112 emergency apps to European PSAPs securely and reliably

*Remarks*

People use smartphones and apps for everyday activities. Smartphone penetration is growing rapidly and, while society benefits from the digital world, how we will make emergency calls in the future, using apps, is not so clear. Accurate and reliable GNSS-based location data is being used for commercial and other purposes, but it is not accessible for emergency services when citizens make an emergency call.

As a result, very many 112-related apps have been created and are available today, but with limited functionality and accessibility. In the recent past, almost all European emergency services have been contacted by app developers who have made proposals to develop 112 apps in order to establish a voice connection and send location data and other data directly to 112 centres.

Unfortunately, these apps can only be used by citizens living in certain geographical areas and often do not work in the same way if they are used outside the boundaries of a given Public Service Answering Points (PSAPs) area. It is therefore common for apps developed in one region/country not to work in another region/country, making them redundant outside their own regions/countries.

Therefore, there is currently no pan-EU common architecture for utilising 112 apps.

Vice-Presidents Kroes and Kallas decided to work jointly on this, stating in 2010 that they intended to ensure that every European could access a 112 smartphone app in his or her own language. In recent years many 112 mobile apps had been developed, but much more could be done in the field.

Clearly, both Vice-Presidents identified the need for a common approach to developing a pan-EU architecture for 112 apps.

This project seeks to ensure PSAP readiness by funding the creation of a common EU-wide architecture to make it possible to send data, including GNSS location data and other vital information, using existing 112 apps to the most appropriate PSAP. This will

ensure market freedom, which will have direct societal benefits. A series of interoperability and capability tests of both the apps and the platforms on which they run can be carried out at national and EU level.

The societal benefits will be for all citizens and will have a direct positive impact for citizens with disabilities.

The pilot project will be implemented in close collaboration with the relevant Commission stakeholders, who are currently looking into the use of GNSS location data for 112 services, using EGNOS and Galileo. The technical architecture designed as part of the project will strictly comply with the requirements of those stakeholders, ensure the involvement of 112 PSAPs and prepare the way for additional data to be sent in a harmonised manner.

The project will:

- identify the main requirements of the emergency services (the demand side), in the medium term, building on extensive research already conducted as well as carrying out further research;
- involve the design and implementation of a method for conducting interoperability tests on 112 apps and platforms in a number of EU countries;
- involve readiness and compatibility tests on a number of PSAPs across the Member States participating in the pilot project;
- benefit citizens, including those with disabilities or special needs, by creating the environment and infrastructure required to allow apps technology and solution providers (the supply side) to send GNSS-based location and other data to the most appropriate PSAP;
- build on the successful work completed as part of the REACH112 project, which identified the requirements for ensuring that people with disabilities have greater access to 112 services, and the PEACE research project, which examined IP-based emergency applications and services for next-generation networks;
- partner European data protection authorities, European technology providers, free software communities, emergency services organisations, research and development laboratories, application developers, telecommunication network providers, Voice-Over-IP providers and other software providers to build on expertise in a collaborative fashion;
- map the future of 112 apps in line with citizens' and emergency services' needs and requirements in order to deliver on the vision for greater efficiencies and more impactful and effective services for our society.

At present, most 112 PSAPs in Europe are based on old analogue technologies and legacy-based networks. As a result, PSAPs have a very limited capability to handle emergency communications other than voice and are significantly out of step with the speed of modern communications systems. Citizens' expectations are also significantly greater than emergency services' capabilities, and many citizens with disabilities are not receiving an equivalent service. The 2014 COCOM Report also highlighted the lack of accessibility for citizens with disabilities and of accurate, reliable and on-time caller location information.

Many Member States are struggling to understand the impact and reach of apps based services and, especially, how such services access and interact with 112. European national authorities have limited exposure to apps-based services and urgently need to test the boundaries in order to be able to regulate effectively and proportionately and protect the consumer appropriately. Given the lack of cohesion and coordination with apps services and technologies, there is a need for such services to be developed and tested so that there is a match between their capabilities and an appropriate and effective standardisation and regulatory approach which includes assessment of privacy, data theft and surveillance risks.

As a result, all stakeholders need to be provided with a neutral, non-discriminatory, innovative architecture to ensure interoperability and to help design apps solutions that make for a more effective and efficient 112 service for the benefit of European citizens and visitors.

## Remarks

The project will involve:

- developing cooperation between the Commission and the European Defence Agency (EDA) in connection with the Agency implementing Union objectives and managing Union budget appropriations, as provided for by Council Decision 2011/411/CFSP;
- funding two research and development activities:
  - one high-risk, high-payoff research activity whose outcome could potentially reshape future operations. The beneficiaries should be selected by means of a competition of ideas. The EDA will carry out the activity on behalf of the Union. Member States, the Commission and the EEAS will keep a watching brief on the activity in an advisory capacity. Third states and organisations which have concluded an administrative arrangement with the EDA may also be invited to monitor the activity;
  - one research and development activity for certification against military and - if applicable - civilian requirements. Member States and third states and organisations which have concluded an administrative arrangement with the EDA will be invited to contribute to the activity. The EDA will manage the activity on behalf of the Union and the other contributing members;
- monitoring the two processes in order to learn lessons for future EU action in support of building defence capabilities relevant for the CSDP and for Member States. The EU Military Staff should participate in the monitoring team.

Where appropriate, the NATO Secretary-General should be invited to send an observer to meetings held under this pilot project.

Work on weapons which due to their very nature would not be compliant with international humanitarian law, on lethal or excessively destructive weapons and related warhead technologies, and on autonomous target discrimination and engagement without human interaction will not be funded under this pilot project.

The Union contribution to the European GNSS programmes is granted with a view to financing activities relating to:

- the completion of the deployment phase of the Galileo programme, consisting of the construction, establishment, protection of the space and ground infrastructure, as well as preparatory activities for the exploitation phase including activities relating to the preparation of service provision,
- the exploitation phase of the Galileo programme, consisting of the management, maintenance, continuous improvement, evolution and protection of the space and ground infrastructure, the development of future generations of the system and the evolution of the services provided by the system, certification and standardisation operations, provision and marketing of the services provided by the system and all other activities needed to ensure that the programme runs smoothly.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(b) and (d) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

### Remarks

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 20 of Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the European GNSS Agency is set out in Annex 'Staff' to this section.

The Union contribution for 2015 amounts to a total of EUR 26 840 000. An amount of EUR 49 000, coming from the reserve of surplus, is added to the amount of EUR 26 791 000 entered in the budget.

*Remarks*

The aim of this appropriation is to:

- enable operations of Copernicus services, tailored to the needs of users,
- contribute to ensure access to data of the observation infrastructure necessary to operate Copernicus services,
- create opportunities for increased private sector usage of information sources, thereby facilitating innovation by value-adding service providers.

This appropriation will, in particular, fund the set-up, the establishment and operation of the six services mentioned in the Copernicus Regulation and the related activities.

This appropriation may also fund cross-cutting activities among the services or their articulation and co-ordination, as well as for the in-situ co-ordination, user uptake and training and communication.

The budget envelope will be managed either directly by the Commission services or indirectly via delegation agreements with Union agencies and international organisations, or any entity eligible under Article 58 of the Financial Regulation.

When the Commission manages the budget directly, it may entrust the Joint Research centre with scientific and technical support tasks. The funding of these tasks may be entered into the JRC's indirect budget under Article 183(2)(c) and (6) of the Financial Regulation.

In addition, in support of competitiveness and growth, this appropriation may also fund data dissemination and the incubation of new

businesses by supporting more robust and innovative IT structures in Europe.

Copernicus services will facilitate access to key data required in policy formulation at Union, national, regional and local level in fields such as agriculture, forest monitoring, water management, transport, urban planning, climate change and many others. This appropriation covers mainly the implementation of delegation agreements for the Copernicus programme, pursuant to Article 58 of the Financial Regulation.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget. Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from contributions from third parties entered in Item 6 0 3 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this Item in accordance with the Financial Regulation.

#### *Remarks*

The aim of this appropriation is to:

- build an autonomous Union's Earth observation capacity by funding the space infrastructure and favouring the European industry in that regard, namely in the construction and launch of satellites,
- contribute to the availability of the observation capacity necessary to enable the Copernicus services, in particular through the operations of the ground segment of the space infrastructure,
- create opportunities for increased private sector usage of information sources, thereby facilitating innovation by value-adding service providers.

The development of a European space infrastructure has a key role in enhancing competitiveness and innovation, and requires consistent public intervention to sustain the industrial effort.

This appropriation will fund the development and construction of satellites, as well as their operation. The data and information obtained through the space infrastructure is subject to the free, full and open data policy, which will increase their availability and thereby boost the downstream market.

To supplement the data needed by users, this appropriation may also fund the acquisition of data from third parties and the access to contributing mission from Member States, as well as the dedicated dissemination platform (core ground segment) which will serve, in priority the operational services funded by Article 02 06 01.

The budget envelope will be managed either directly by the Commission services or indirectly via delegation agreements with Union agencies and international organisations, or any entity eligible under Article 58 of the Financial Regulation.

When the Commission manages the budget directly, it may entrust the Joint Research centre with scientific and technical support tasks. The funding of these tasks may be entered into the JRC's indirect budget under Article 183(2)(c) and (6) of the Financial Regulation.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts

derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from contributions from third parties entered in Item 6 0 3 3 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this Item in accordance with the Financial Regulation.

Remarks

In order to ensure that the rules on competition concerning agreements, decisions by associations of undertakings and concerted practices (Article 101 of the Treaty on the Functioning of the European Union), abuses of a dominant position (Article 102 of the Treaty on the Functioning of the European Union), aids granted by States (Articles 107 and 108 of the Treaty on the Functioning of the European Union) and concentrations between undertakings (Regulation (EC) No 139/2004) are enforced, the Commission is empowered to take decisions, to conduct investigations and to impose penalties or order recovery.

The Commission’s decisions are subject to review by the Court of Justice of the European Union in accordance with the Treaty on the Functioning of the European Union.

As a prudential measure, it is appropriate to take into account the possibility of budgetary implications stemming from rulings of the Court of Justice of the European Union.

This appropriation is intended to cover any expenditure arising from damages awarded by the Court of Justice of the European Union to claimants and resulting from legal proceedings against the Commission’s decisions in the field of competition.

Since a reasonable estimate of the financial impact on the general budget cannot be established beforehand, a token entry ('p.m.') appears in this article. If necessary, the Commission will propose to make available the appropriations related to actual needs by means of transfers or through a draft amending budget.

#### Legal basis

*Remarks*

This appropriation is intended to cover the European Social Fund (ESF)-funded technical assistance measures provided for in Articles 58 and 118 of Regulation (EU) No 1303/2013. Technical assistance may finance the preparatory, monitoring, evaluation, supervision and management measures required for the implementation of the ESF by the Commission. This appropriation may, in particular, be used to cover:

- support expenditure (representation expenses, training, meetings, missions and translations),
- expenditure on external personnel at headquarters (contract agents, seconded national experts or agency staff) up to EUR 5 000 000, as well as missions relating to that personnel.

*Legal basis*

*Remarks*

This appropriation is intended to cover expenditure on studies, committees, meetings of experts, conferences, information and publications directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the Instrument for Pre-Accession Assistance.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapter 04 05.

#### Remarks

Article 175 of the Treaty on the Functioning of the European Union (TFEU) provides that the objectives of economic, social and territorial cohesion set out in Article 174 shall be supported by the action it takes through the Structural Funds, which includes European Social Fund ('ESF'). The tasks, priority objectives and the organisation of the Structural Funds are defined in accordance with Article 177 TFEU.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law.

Article 39 of Regulation (EC) No 1260/1999, Articles 100 and 102 of Regulation (EC) No 1083/2006 and Articles 85, 144 and 145 of Regulation (EU) No 1303/2013 on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the ESF.

Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with Article 21(3)(c) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Article 82 of Regulation (EC) No 1083/2006 provides for specific rules on repayment of pre-financing amounts applicable to the ESF.

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

Measures to combat fraud are funded under Article 24 02 01.

#### *Remarks*

This appropriation is intended to cover the funding by the ESF of commitments remaining to be settled from the 2000-2006 programming period for innovative actions and technical assistance as provided for in Articles 22 and 23 of Regulation (EC) No 1260/1999. The innovative actions included studies, pilot projects and exchanges of experience. They were intended in particular to bring about a qualitative improvement in Structural Fund measures. Technical assistance covered preparatory, monitoring, evaluation, supervision and management measures required for implementation of the ESF. This appropriation was, in particular, used to cover:

- support expenditure (representation expenses, training, meetings and missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contracts for the provision of services and studies,

*Remarks*

This appropriation is intended to cover commitments remaining to be settled for programmes under the ESF convergence objective in the 2007-2013 programming period. That objective is aimed at speeding up the convergence of the least developed Member States and regions by improving conditions for growth and employment.

This appropriation aims to reduce the economic, social and territorial disparities which have arisen, particularly in countries and regions whose development is lagging behind, in connection with the speeding-up of economic and social restructuring and population ageing.

In accordance with Article 105a(1) of Regulation (EC) No 1083/2006, as modified by point 7 of Annex III to the Treaty concerning the Accession of the Republic of Croatia to the European Union (OJ L 112, 24.4.2012), programmes and major projects which, on the date of accession of Croatia, have been approved under Regulation (EC) No 1085/2006 and the implementation of which has not been completed by that date, shall be considered to have been approved by the Commission under Regulation (EC) No 1083/2006, with the exception of the programmes approved under the components referred to in points (a) and (e) of Article 3(1) of Regulation (EC) No 1085/2006.

### *Remarks*

This appropriation is intended to cover commitments remaining to be settled for the PEACE programme under the ESF for the 2007-2013 programming period.

In recognition of the special effort for the peace process in Northern Ireland, a total of EUR 200 000 000 was allocated for the PEACE programme for the 2007-2013 period. This programme is implemented in full compliance with the principle of additionality of Structural Fund operations.

### *Remarks*

This appropriation is intended to cover commitments remaining to be settled for the programmes under the ESF regional competitiveness and employment objective during the 2007-2013 programming period. That objective shall, outside the least developed regions, be aimed at strengthening regions' competitiveness and attractiveness as well as employment by taking into consideration the goals set in the Europe 2020 Strategy.

This appropriation aims to reduce the economic, social and territorial disparities which have arisen, particularly in countries and regions whose development is lagging behind, in connection with the speeding-up of economic and social restructuring and population ageing.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from the 2007-2013 programming period for technical assistance measures as provided for in Articles 45 and 46 of Regulation (EC) No 1083/2006 and in Article 9 of Regulation (EC) No 1081/2006.

Technical assistance covers preparatory, monitoring, evaluation, supervision and management measures required for implementation of the ESF. This appropriation may, in particular, be used to cover:

- support expenditure (representation expenses, training, meetings and missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- expenditure on support for accessibility for people with disabilities within technical assistance measures,
- expenditure on a high-level group to ensure the implementation of overarching principles such as equality between men and women, accessibility for people with disabilities and sustainable development,
- contracts for the provision of services and studies,
- grants.

This appropriation is also intended to support measures approved by the Commission in the context of the preparation of the 2014-2020 programming period.

*Remarks*

This appropriation is intended to cover ESF support under the Investment for growth and jobs goal in less developed regions in the 2014-2020 programming period. The catching up process for these economically and socially lagging regions requires long-term sustained efforts. This category of regions concerns those regions whose GDP per capita is less than 75 % of the average GDP of the EU-27.

#### *Remarks*

This appropriation is intended to cover ESF support under the Investment for growth and jobs goal in the 2014-2020 programming period in a new category of region ('transition regions') that replaces the 2007-2013 phasing-out and phasing-in system. This category of regions includes all regions with a GDP per capita is between 75 and 90 % of the average GDP of the EU-27.

#### *Remarks*

This appropriation is intended to cover ESF support under the Investment for growth and jobs goal in more developed regions in the 2014-2020 programming period. While interventions in the less developed regions will remain the priority for cohesion policy, this appropriation is thus intended to cover important challenges that concern all Member States such as global competition in the knowledge-based economy, the shift towards the low carbon economy and social polarisation exacerbated by the current economic climate. This category of regions concerns those regions whose GDP per capita is above 90 % of the average GDP of the EU-27.

In particular, it may be used to cover support expenditure (representation expenses, training, meetings and missions).

This appropriation is also intended to cover administrative learning and cooperation with non-governmental organisations and social partners.

This appropriation is also intended to cover inter alia the elaboration of:

- tools for electronic project application and reporting, unification and standardisation of documents and procedures for the management and implementation of operational programmes,
- a peer review of each of the Member States' financial management and quality performance,
- standard tender documentation on public procurement,
- a common system of result and impact indicators,
- a best practices manual to optimise the absorption process and decrease the error rate.

*Remarks*

This appropriation is intended to provide additional support to measures against youth unemployment financed by the ESF. It represents the specific allocation to the Youth Employment Initiative under the Investment for growth and jobs goal in regions with a level of youth unemployment exceeding 25 % in 2012 or for Member States where the youth unemployment rate has increased by more than 30 % in 2012, regions that have a youth unemployment rate of more than 20 % in 2012 ('eligible regions'). The additional EUR 3 000 000 000 allocated to this line for the 2014-2020 period is intended to provide match funding to ESF interventions in the eligible regions. This appropriation is intended to finance the creation of decent jobs.

The margins available below the multiannual financial framework (MFF) ceilings for commitment appropriations for 2014-2017 will constitute a global MFF margin for commitments, to be made available over and above the ceilings established in the MFF for 2016-2020 for policy objectives related to growth and employment, in particular youth employment, as established in the Council Regulation laying down the multiannual financial framework for the years 2014-2020.

*Remarks*

The objective of this activity is to promote geographic and professional mobility (including the coordination of social security schemes) of workers in Europe in order to overcome the obstacles to free movement of workers and to contribute to the establishment of a real labour market at European level.

This appropriation is intended to cover actions supporting the monitoring of Union law through financing of a network of experts on free movement of workers and social security reporting regularly on the implementation of Union legal acts in the Member States and at Union level, and analysing and evaluating the major trends in legislations of the Member States with regard to the free movement of workers and coordination of social security systems. This appropriation is also intended to cover actions supporting governance of Union legal acts through meetings of the committees, actions for awareness raising and implementation and other specific technical support and the development of Electronic Exchange of Social Security Information (EESSI) system and its implementation.

This appropriation is intended to cover in particular:

- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,
- the analysis and evaluation of the major trends in legislation of the Member States with regard to the free movement of workers, and coordination of social security systems, as well as the financing of networks of experts in those fields,
- the analysis and research on new policy developments in the domain of free movement of workers linked for example to the end of transitional periods and modernisation of social security coordination provisions,
- support for the work of the Administrative Commission and its sub-groups and follow-up of the decisions taken, as well as support for the work of the Technical and Advisory Committees on free movement of workers,
- support for actions preparing for the application of the new regulations on social security, including transnational exchanges of experience and information and training initiatives developed at national level,
- the financing of actions aimed at providing a better service and raising public awareness, including measures aimed at identifying migrant workers' social security problems, and measures speeding up and simplifying administrative procedures, analysis of the barriers to free movement of workers and lack of coordination of social security systems and their impact on people with disabilities, including adaptation of administrative procedures to new information-processing techniques, in order to improve the system for acquiring rights and the calculation and payment of benefits pursuant to Regulations (EEC) No 1408/71, (EEC) No 574/72, Regulation (EC) No 859/2003 as well as Regulation (EC) No 883/2004, its implementing Regulation (EC) No 987/2009, and Regulation (EU) No 1231/2010,
- the development of information and actions to make members of the public aware of their rights on free movement of workers and coordination of social security schemes,
- the support of the electronic exchange of social security information among Member States, with a view to facilitating the implementation of Regulation (EC) No 883/2004 and its implementing Regulation (EC) No 987/2009. This includes the maintenance of the central node of the EESSI system, testing system components, helpdesk activities, support for further development of the system and training.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

##### Remarks

The objective of this activity is to promote better policy responses in the Member States to demographic and social challenges by producing and disseminating comparative information in the context of the implementation of the Europe 2020 Strategy and the identification of future priorities for social policies, including gender-specific measures.

This appropriation is intended to cover actions promoting the development of comparative analysis and the exchange of views and experience at all relevant levels (regional, national, Union, international) regarding the social and demographic situation and the socio-economic trends in the Union, as well as the gender pay gap and discrimination against women in the workplace. This appropriation is also intended to cover actions supporting an Observatory of the Social Situation, the cooperation with relevant activities in Member States and with international organisations and the management of a technical support group for the European Alliance for Families.

This appropriation is intended to cover in particular expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

This appropriation is intended to cover in particular expenditure on Commission reports (including an annual report on the social situation and a report on demographic change and its implications every two years, in accordance with Article 159 TFEU), as well as Commission reports on problems concerning the social situation (which can be requested by the European Parliament pursuant to Article 161 TFEU).

This appropriation is also intended to cover expenditure on analysis for the reporting referred to in TFEU, as well as for the dissemination of knowledge on major social and demographic challenges and ways of tackling them. In particular, the following activities can be pursued with due consideration of the gender aspect:

- analysis of the impact of population ageing in the context of a society for all ages, in terms of trends in care and social protection needs, behaviour and flanking policies, including research on elderly minorities or migrants and the situation of informal carers,

- analysis of the impact of demographic change on Union and Member State policies, measures and programmes, and formulation of recommendations for adjustments to economic and other policies, measures and programmes at Union and national levels in order to prevent the ageing of society from having a negative impact,
- analysis of the links between family units and demographic trends,
- analysis of trends in poverty, income and wealth distribution and their broader societal impact,
- identification of the existing relations between technological development (impact on communication technologies, geographical and occupational mobility) and the consequences for households and society in general,
- analysis of the links between disability and demographic trends, analysis of the social situation of people with disabilities and their families and the needs of children with disabilities within their families and communities,
- analysis of trends in social objectives (in terms of safeguarding acquired rights or extending them) regarding both goods and services, taking account of new social challenges as well as demographic trends and changing the relationships between generations,
- development of appropriate methodological tools (sets of social indicators, simulation techniques, data collection on policy initiatives at all levels, etc.), so as to underpin the reports on the social situation, on social protection and social inclusion with a solid quantitative and scientific foundation,
- raising awareness and organising debates on the major demographic and social challenges with the aim of promoting better policy responses,
- the taking account of demographic trends, family life and childhood in the implementation of relevant Union policies, such as the free movement of persons and equality between men and women.

#### *Remarks*

This appropriation is intended to cover expenditure on information and training measures for workers' organisations, including representatives of workers' organisations in the candidate countries, deriving from Union action in the framework of the implementation of the Union social dimension. Those measures should help workers' organisations to address the overarching challenges facing European employment and social policy as laid down in the Europe 2020 Strategy and within the context of Union initiatives to address the consequences of the economic crisis.

This appropriation is intended to cover in particular the following activities:

- support for the work programmes of the two specific trade union institutes, European Trade Union Institute and European Centre for Workers' Questions, which have been established to facilitate capacity-building through training and research at European level, as well as to improve the degree of involvement of workers' representatives in European governance,
- information and training measures for workers' organisations, including representatives of workers' organisations in the candidate countries, deriving from the implementation of Union action in the framework of the implementation of the Union social dimension,
- measures involving representatives of the social partners in the candidate countries with the specific purpose of promoting social dialogue at Union level. It is also intended to promote equal participation of women and men in the decision-making bodies of workers' organisations.

##### Remarks

This appropriation is intended to cover in particular the following activities:

- measures to set the conditions for social dialogue in companies and proper employee involvement in undertakings as provided under Directive 2009/38/EC on European Works Councils, Directives 2001/86/EC and 2003/72/EC on employees' involvement in the European company and in the European cooperative society, respectively, Directive 2002/14/EC establishing a general framework for informing and consulting employees in the European Community, Directive 98/59/EC on collective redundancies and Article 16 of Directive 2005/56/EC on cross-border mergers of limited liability companies,
- initiatives to strengthen transnational cooperation between workers' and employers' representatives in respect of information, consultation and participation of employees within companies operating in more than one Member State and short training actions for negotiators and representatives in transnational information, consultation and participation bodies may be funded in that context. This may involve social partners from candidate countries,
- measures to enable social partners to exercise their rights and duties as regards employee involvement, especially within the framework of European Works Councils, to familiarise them with transnational company agreements and strengthen their cooperation in respect to Union law on employee involvement,
- operations fostering the development of employee involvement in undertakings as well as to follow up on the findings of the 'Fitness check' on EU acts in the area of Information and Consultation of Workers,
- innovative actions relating to employee involvement, with the view of supporting the anticipation of change and the prevention and resolution of disputes in the context of corporate restructuring, mergers, take-overs and relocation in Union-scale undertakings and Union-scale groups of undertakings,
- measures to strengthen cooperation between the social partners for the development of employee involvement in the design of solutions addressing the consequences of the economic crisis, such as mass redundancies, or the need for a shift towards an inclusive, sustainable and low-carbon economy,
- transnational exchange of information and good practice in matters relevant for social dialogue at company level.

##### Remarks

The European Year for Active Ageing and Solidarity between Generations was intended to raise general awareness of the value of active ageing, to stimulate debate, to exchange information and to develop mutual learning between Member States and stakeholders at all levels, to offer a framework for commitment and concrete action to enable the Union, Member States and stakeholders at all levels to develop innovative solutions, policies and long-term strategies through specific activities and to pursue specific objectives relating to active ageing and intergenerational solidarity, and to promote activities which will help to combat age discrimination.

This appropriation is intended to cover at Union-level activities in line with the European Year's for Active Ageing and Solidarity between Generations objectives and to cover the costs relating to the organisation of the closing Union conference by the incumbent Presidency. Part of this appropriation will also cover the costs relating to the evaluation of the European Year for Active Ageing and Solidarity between Generations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto must be added to the appropriations entered in this item. ##### Remarks

The objective of this activity is to strengthen the role of social dialogue and promote the adoption of agreements and other joint actions between the social partners at the Union level. The actions financed should help social partner organisations to address the

overarching challenges facing European employment and social policy as laid down in the Europe 2020 Strategy and within the context of Union initiatives to address the consequences of the economic crisis and to contribute to the improvement and dissemination of knowledge of industrial relations institutions and practices.

This appropriation is intended to cover in particular the following activities:

- studies, consultations, meetings of experts, negotiations, information, publications and other operations directly linked to the achievement of the objectives of the programme or measures falling under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,
- actions undertaken by social partners to promote social dialogue (including capacity of social partners) at cross-industry and sector level,
- actions to improve knowledge on industrial relations institutions and practices across the Union and dissemination of results,
- measures involving representatives of the social partners in the candidate countries with the specific purpose of promoting social dialogue at Union level. It is also intended to promote equal participation of women and men in the decision-making bodies of both trade unions and employers' organisations,
- actions to support industrial relations measures, in particular those designed to develop expertise and the exchange of Union-relevant information.

#### *Remarks*

The general objective of the Union programme for Employment and Social Innovation (EaSI) is to contribute to the Europe 2020 Strategy and the related headline targets for employment, education and poverty by providing financial support for the Union's objectives.

To achieve the general objectives of EaSI in terms of promoting a high level of employment, guaranteeing adequate social protection, combating social exclusion and poverty, improving working conditions and protecting worker's safety and health, the specific objectives of the Progress axis are to:

- develop and disseminate high-quality comparative analytical knowledge in order to ensure that Union employment and social policy and working conditions and occupational health and safety legislation are based on sound evidence and are relevant to needs, challenges and conditions in the individual Member States and the other participating countries,
- facilitate effective and inclusive information-sharing, mutual learning and dialogue on Union employment and social policy and working conditions and occupational health and safety legislation at Union, national and international level in order to assist the Member States and the other participating countries in developing their policies and in implementing Union law,
- provide policymakers with financial support to promote social and labour market policy reforms, build up the main actors' capacity to design and implement social experimentation, and make the relevant knowledge and expertise accessible,
- monitoring and evaluating the implementation of the European Employment Guidelines and Recommendations and their impact, notably through the Joint Employment Report, and analysing the interaction between the EES and general economic and social policy areas,
- provide Union and national organisations with financial support to develop, promote and support the implementation of Union

employment and social policy and working conditions and occupational health and safety legislation,

- raising awareness, exchanging good practice, disseminating information and promoting the debate on the key challenges and policy issues in relation to working conditions, gender equality, occupational health and safety and the reconciliation of work and family life and the ageing society, including among social partners,
- to encourage job creation, promote youth employment and fight poverty by promoting increased social convergence by means of Social Mark.

In addition support could be provided to actions related to the implementation of the common provisions of EaSI such as monitoring, evaluation, dissemination of results and communication. Article 16 of the Regulation (EU) No 1296/2013 describes the types of actions which may be financed.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

#### *Remarks*

The general objective of the EU programme for Employment and Social Innovation ("EaSI") is to contribute to the Europe 2020 Strategy and the related headline targets for employment, education and poverty by providing financial support for the Union's objectives.

The EaSI is structured around three complementarity axes: Progress, EURES and Microfinance and Social Entrepreneurship.

To achieve the general objectives of EaSI in particular to promote workers' geographical mobility and boost employment opportunities by developing Union labour markets that are open and accessible to all, whilst also contributing to the promotion of gender equality and gender mainstreaming, the specific objectives of the EURES axis are to:

- ensure that job vacancies and applications, and any related information as well as working conditions and rights are transparent for the potential applicants and the employers; this shall be achieved through their exchange and dissemination at transnational, interregional and cross-border level using standard interoperability forms,
- help ensure that European-level job vacancies and mobility options are advertised in parallel to national job vacancies and applications and not only after local or national options are exhausted,
- develop services for the recruitment and placing of workers in employment through the clearance of job vacancies and applications at European level; this shall cover all phases of placement, ranging from pre-recruitment preparation to post-placement assistance, including language skill development options, with a view to the applicant's successful integration into the labour market; such services shall include targeted mobility schemes to fill job vacancies where labour market shortcomings have been identified and/or help particular groups of workers such as young people,
- provide assistance for national and cross-border support activities organised by EURES partners,

- initial and further training of EURES advisers in the Member States,
- contacts between EURES advisers and cooperation between government employment services, including those of candidate countries,
- promotion of EURES among firms and the general public,
- development of special structures for cooperation and services in border regions pursuant to Article 17(1)(b) of Regulation (EEC) No 1612/68,
- measures to help remove mobility obstacles, particularly in the field of work-related social security.

Objectives should include a gender-sensitive approach, including gender budgeting and gender impact assessment.

This programme should also facilitate the matching and placement of apprentices and trainees as a critical element in helping the transition of young people from school to work, as already begun under the preparatory action ‘Your first EURES job’ and complemented by the Youth Employment Initiative. Companies, particularly small and medium-sized enterprises (SMEs), will be encouraged to recruit more young people, including by financial support.

Target groups:

- young people up to 30 years of age, regardless of their qualifications and work experience as the scheme is not exclusively tailored for labour market entrants,
- all legally established businesses, particularly SMEs, to assist with reducing the costs of international hiring that affect mostly smaller companies.

Eligible jobs under this part of the programme will offer young people apprenticeships, a first work experience or specialised jobs. The scheme will not support situations of job substitution or precarious employment, or in any circumstances be contrary to national labour law.

To be eligible for funding, jobs have also to comply with the following criteria:

- be located in a EURES member country other than the country of origin of the young job seeker (transnational vacancies),
- ensure a work placement for a minimum contractual period of six months.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

In addition support could be provided to actions related to the implementation of the common provisions of EaSI such as monitoring, evaluation, dissemination of results and communication. Article 21 of Regulation (EU) No 1296/2013 describes the types of actions which may be financed.

*Remarks*

The general objective of the EU programme for Employment and Social Innovation ('EaSI') is to contribute to the Europe 2020 Strategy and the related headline targets for employment, education and poverty by providing financial support for the Union's objectives.

The EaSI is structured around three complementarity axes: Progress, EURES and Microfinance and Social Entrepreneurship.

To achieve the general objectives of EaSI in particular to promote employment and social inclusion by increasing the availability and accessibility of microfinance for vulnerable groups and micro-enterprises, and by increasing access to finance for social enterprises, whilst also contributing to the promotion of gender equality and gender mainstreaming, the specific objectives of the Microfinance and Social Entrepreneurship axis are to:

- increase access to, and the availability of, microfinance for persons who have lost or are at risk of losing their jobs, or who have difficulty in entering or re-entering the labour market, persons at risk of social exclusion and vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who wish to start up or develop their own micro-enterprises; and for micro-enterprises, especially those which employ these persons as referred to,
- build up the institutional capacity of microcredit providers,
- support the development of social enterprises, in particular by facilitating access to finance on the basis of a gender-sensitive approach.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenues may give rise to the provision of additional appropriations in accordance with Article 21(3)(i) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover the European Foundation for the Improvement of Living and Working Conditions (Eurofound) staff and administrative expenditure (Titles 1 and 2), and operational expenditure for the work programme (Title 3).

The Eurofound must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The Union contribution for 2015 amounts to a total of EUR 20 371 000.

Part of this appropriation is intended for the work of the European Monitoring Centre for Change, decided upon at the Nice European Council of 7 to 9 December 2000 with a view to identifying, anticipating and managing technological, social (in particular demographic) and economic trends. To that end, high-quality information must be collected, processed and analysed.

Part of this appropriation is intended to cover also work on three topics of importance in relation to family policies:

- family-friendly policies in the workplace (balance between work and family life, working conditions, etc.),
- factors influencing the situation of families with regard to community housing (access to decent housing for families),
- lifelong family support concerning, for example, childcare and other issues that fall within the Foundation's forms of reference.

This appropriation is also intended to cover studies on the impact of new technologies in the workplace and on occupational illnesses.

The Foundation's establishment plan is set out in Annex 'Staff' to this section.

#### *Remarks*

This appropriation is intended to cover the European Agency for Safety and Health at Work (Agency) staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Agency must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The Agency's objective is to provide the Union institutions, Member States and interested parties with technical, scientific and economic information of use in the area of health and safety at work.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The Union contribution for 2015 amounts to a total of EUR 14 679 000. An amount of EUR 145 000 coming from the recovery of surplus is added to the amount of EUR 14 534 000 entered in the budget.

This appropriation is intended to cover the measures necessary to accomplish the Agency's tasks as defined in Regulation (EC) No 2062/94, and in particular:

- awareness-building and risk anticipation measures, with special emphasis on SMEs,
- operation of the European Risk Observatory based on examples of good practice collected from firms or specific branches of activity,
- preparation and provision of relevant tools for smaller companies to manage health and safety at work,
- operation of the Network comprising the main component elements of the national information networks, including the national social partner's organisations, according to national legislation and/or practice, as well as the national focal points,
- also in collaboration with the International Labour Organization and other international organisations, organising exchanges of

experience, information and good practices,

- integrating the candidate countries into these information networks and devising working tools which are geared to their specific situation,
- organising and running the European Campaign on Healthy Workplaces as well as the European Week on health and safety, focusing on specific risks and needs of users and final beneficiaries.

The Agency's establishment plan is set out in Annex 'Staff' to this section.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This appropriation is intended to continue to cover actions with the general objective to ensure the equal treatment and non-discrimination of migrant workers on the host labour market by means of information centres in the Member States to provide information, advice and support, including legal support, to posted workers as well as to migrant workers.

The objective of this preparatory action is to ensure the equal treatment and non-discrimination of migrant workers on the host labour market by means of information centres in the Member States to provide information, advice and support, including legal support, to migrant workers.

This preparatory action is linked to the upcoming Union initiative on the freedom of movement within the Union. This initiative is aimed at improving the enforceability of Regulation (EU) No 492/2011 of the European Parliament and of the Council of 5 April 2011 on freedom of movement for workers within the Union (OJ L 141, 27.5.2011, p. 1). It aims to remove existing barriers to mobility of Union workers by enhancing the enforcement of rights conferred by Union law and providing information and legal support to migrants facing discrimination based on nationality. This preparatory action will build on the work done in the framework of the past pilot project 'Working and living conditions of posted workers' (Item 04 03 77 03) as well as actions started under the

preparatory action in 2013.

Actions:

- a study to explore the modalities of organising a network of centres across the Union,
- launching 3 pilot measures to test the network of centres in selected Member States,
- a stakeholder conference.

The information centres can be based upon established trade union information activities and should with the assistance of the Commission:

- provide immigrant groups with support and information with regard to labour and foreign national issues,
- provide legal services for EU migrants who may be the object of exploitation and harassment, and who are entitled to present claims and formal complaints in accordance with current legislation,
- combat discrimination and intolerance, which damage labour and social integration,
- support those in an irregular situation by providing legal assistance with the objective of regularising workers and defending their fundamental rights,
- keep up-to-date and provide permanent legal information, in particular in relation to employment cases, in order to ensure the full recognition of the rights of posted and migrant workers,
- provide legal support in the following cases: deportation orders, migrants in irregular situations, undocumented migrant workers, work and residence permit renewal,
- develop actions that tackle the fight against undeclared work and develop employer's awareness of the issue of undeclared work,
- develop campaigns about labour market shortages and hiring in the country of origin,
- design informative campaigns and hold conferences, seminars, etc.,
- foster cooperation and the exchange of information between employment and immigration services.

The expected results of this preparatory action are: helping a smooth integration of migrant workers in host labour markets while at the same time helping them to protect and enforce their right to equal treatment. In terms of improving the administrative environment, the preparatory action will foster cooperation between employment and immigration services at the level of the Commission and the Member States.

Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action builds on the importance of social innovation and the emergence of social enterprises. Together these serve as drivers of change that operate on the basis of viable business models to further inclusive, socially fairer and environmentally sustainable growth. They also generate jobs through activities that meet social needs in the context of sustainable and inclusive development. The objective of this preparatory action is to identify, develop, promote and disseminate the good practice of national, regional or local governments and of financial intermediaries in assisting young or social entrepreneurs at times of high youth unemployment. As such, the preparatory action contributes to realising the potential of young and social entrepreneurship, emphasised also in the Annual Growth Survey 2012 and in the Commission communication of 18 April 2012 entitled ‘Towards a job-rich recovery’ (COM(2012) 173 final). The goal is to improve the economic and social situation at local level, and this preparatory action will show ways in which support for young and social entrepreneurship can be most effectively incorporated into regional, urban and/or local development strategies. Special focus is made on the use in the 2014-2020 period of Union financial instruments, in particular the Structural Funds.

The main task will be to work together with potential finance providers (in particular managing authorities for Structural Fund programmes, notably those financed by the ESF), and financial intermediaries, including the EIB Group, in a limited number of pilot regions. This will help develop and establish feasible, suitable and reliable schemes or funds providing equity or mezzanine funding (including venture philanthropy). These can be used to support structures providing business development services and networking facilities, with the aim of stimulating and facilitating the green shoots of development and growth in social enterprises. Actions may include feasibility studies, mutual learning, dissemination of good practice, and targeted assistance to the national or regional authorities, where appropriate. Where relevant, such actions may build on the results of previous actions for capacity-building and mutual learning of regional authorities and financial intermediaries, such as the JESSICA Networking Platform<sup>1</sup>. The results of these learning pilots will be beneficial for implementing the relevant Europe 2020 Strategy flagship initiatives<sup>2</sup>, and will prepare the ground for effective use of the ESF and other Union funds after 2014.

Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project. This pilot project aims at assessing the feasibility and added value of introducing a European unemployment insurance or benefit scheme possibly taking the form of a minimum unemployment allowance. The ultimate aim would be to pave the way for the concrete implementation of this idea, as a key component of the social dimension of the Economic and Monetary Union.

<sup>1</sup> A learning platform helping national and regional authorities and financial intermediaries develop repayable support schemes for sustainable urban development in the context of the Structural Funds ([http://ec.europa.eu/regional\\_policy/thefunds/instruments/jessica\\_network\\_en.cfm](http://ec.europa.eu/regional_policy/thefunds/instruments/jessica_network_en.cfm)).

<sup>2</sup> Notably ‘Youth on the Move’, ‘An Agenda for New Skills and Jobs’, ‘Innovation Union’ and ‘European Platform against Poverty and Social Exclusion’.

The actions/measures to be funded are:

- a detailed study in three parts on the options, feasibility and added value of a European insurance scheme. First, the study will examine the different possible options as for the scope and content of the scheme, inter alia a minimum unemployment allowance. Second, the study will test their feasibility with due regard for differing practices, and for collective labour agreements and legislation in the various Member States. Third, the study should assess their European added value and in particular how such a scheme could allow economic growth, prevent poverty and serve as a basis for people to live in dignity, play a full part in society and make headway with finding employment, and which will play an automatic stabilising role for the economy,
- the creation of a network to facilitate the exchange of best practices between Member States, local and territorial administrations, trade unions and associations on national unemployment insurance schemes. The information collected and exchanged should also facilitate the drawing up of the study,
- the organisation of a high-level conference at the end of the project to communicate and debate the results of the study.

This pilot project will investigate the benefits of introducing and – if appropriate – making available a forgery-proof European electronic document containing individuals' social security details, on which could be stored all the data needed to verify the bearer's employment relationship, such as details on his or her social security status and working hours, and which would be subject to strict data-protection rules, particularly where privacy-sensitive personal data is processed.

The measures covered will include:

- a report on best practices in Member States which have already implemented similar systems;
- devising a preparatory action, based on the report, to help introduce this document in specific sectors/countries;
- an impact assessment and cost-benefit analysis of the production of such an electronic document;

— a comparative analysis of the social security systems in the EU-28 which can serve as a basis for building knowledge of the significant variations between Member States with regard to economic structures, size and composition of social systems.

This pilot project could also cover the design of an EU-model electronic card providing relevant information for verifying the bearer's employment relationship, such as details of his or her social security status and working hours.

The preparatory action is to: strengthen the capacity of national minimum income networks to develop a strategy to act on the recommendations that have emerged from the pilot project as well as links with the EU2020 process by following up implementation of the relevant CSRs; further develop awareness raising in connection with minimum income schemes, focusing on coverage, adequacy and take-up; engage EU-level actors in further dialogue on minimum income schemes; and promote the common methodology for reference budgets (under preparation as part of another pilot project, "Reference Budget Network") at local, national and EU level to ensure that minimum income support is adequate.

Links with EMPL priorities and policy or legislative initiatives at EU level

This preparatory action will contribute to overall EU policy for combating poverty and social exclusion, especially among disadvantaged groups such as migrants. In particular, it will tie in with the Commission communications entitled 'European Platform against Poverty and Social Exclusion' (COM(2010)758) and 'Towards Social Investments for Growth and Cohesion' (COM(2013)83) as well as with the European Social Fund Regulation of 17 December 2013 (Regulation No 1304/2013).

Objective

This preparatory action will contribute to the welfare and full social and economic integration of migrants in Europe (both European nationals and third country nationals), especially those in extremely difficult social and economic situations (unemployment, habitual exclusion, health problems, addictions and other forms of marginalisation) through development and testing of pilot integration centres in member states with different welfare systems and labour market configurations. Those centres will form part of the European Platform against Poverty and Social Exclusion and will strengthen migrants' skills and capacities and empower them to participate fully in employment and social life by providing an integrated package of activities and services.

Actions/measures to be funded

The measures covered will include:

creation of pilot social integration centres, which will:

- be established in urban and rural areas with severe integration problems in selected EU countries, in partnership with local social, public and economic stakeholders;
- run workshops and full-time vocational training schemes, job coaching schemes and apprenticeships that meet local community needs in areas such as care services, green area upkeep services, professional cleaning services and building construction services;
- serve as one-stop shops for marginalised migrants looking for assistance with all legal and community-related issues (social assistance, job advice, financial incentives);
- create favourable environments and local partnerships for development of social entrepreneurship.

The pilot centres will help trial arrangements for the future creation of local centres for social and economic integration in all Members States as part of the European Platform against Poverty and Social Exclusion. The aim of local centres will be twofold: (1) to activate and empower migrants in order to improve their chances for re-entry into the mainstream economy and full integration in the host communities and society; (2) to assist local authorities, social partners and civil society organisations in removing barriers, supporting mobility and fostering social and economic inclusion of marginalised migrants.

*Remarks*

This appropriation is intended to cover the EGF so as to enable the Union to demonstrate solidarity towards, and to support workers made redundant and self-employed persons whose activity has ceased as a result of major structural changes in world patterns due to globalisation, as a result of the continuation of the global financial and economic crisis addressed in Regulation (EC) No 546/2009, or as a result of a new global financial and economic crisis and to provide financial support for their rapid reintegration into sustainable employment.

The actions undertaken by the EGF should be complementary to those of the European Social Fund and there must be no double funding from these instruments. EGF-supported actions or measures should aim to ensure that the largest possible number of beneficiaries participating in these actions, including a gender-sensitive approach, find sustainable employment as soon as possible before the final report is due.

The rules for entering the appropriations in this reserve and for mobilising the EGF are laid down in point 13 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1).

This appropriation is intended to cover the EGF so as to enable the Union to provide time-limited and targeted support for workers made redundant as a result of major structural changes in world trade patterns due to globalisation where these redundancies have a significant adverse impact on the regional or local economy. It is applicable to all applications submitted up to 31 December 2013. For applications submitted between 1 May 2009 and 31 December 2011, it may also be used to provide support to workers made redundant as a direct result of the global financial and economic crisis.

The actions undertaken by the EGF should be complementary to those of the European Social Fund. There must be no double funding from these instruments.

The rules for entering the appropriations in this reserve and for mobilising the EGF are laid down in point 13 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1).

*Remarks*

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the following specific objectives in the Western Balkans:

- support for political reforms,
- strengthening of the ability of the beneficiaries listed in Annex I of the Regulation at all levels to fulfil the obligations stemming from Union membership in the area of political reforms by supporting progressive alignment with and adoption, implementation and enforcement of the Union *acquis*.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

#### Remarks

Article 174 TFEU sets out the Union's objective of economic, social and territorial cohesion while Article 175 specifies the role of the Structural Funds in achieving this objective and makes provisions for the adoption of specific actions outside the Structural Funds.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law.

Articles 56 and 57 of Regulation (EU) No 223/2014 on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the FEAD.

Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with Article 21(3)(c) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Article 44 of Regulation (EU) No 223/2014 provides for specific rules on repayment of pre-financing applicable to the FEAD.

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

Article 19 of Regulation (EU, Euratom) No 1311/2013 lays down the conditions for the revision of MFF in order to transfer to subsequent years, in excess of the corresponding expenditure ceilings, allocations not used in 2014, in the event of the adoption after 1 January 2014 of new rules or programmes.

#### Remarks

The Fund for European Aid to the Most Deprived (FEAD) replaces the European Union's Food Distribution Programme for the Most Deprived Persons of the Community, which was discontinued at the end of 2013.

To ensure continuity between the two programmes, expenditure shall be eligible for a support from a FEAD operational programme if

it is incurred by a beneficiary and paid between 1 December 2013 and 31 December 2023.

FEAD shall promote social cohesion, enhance social inclusion and therefore ultimately contribute to the objective of eradicating poverty in the Union by contributing to achieving the poverty reduction target of at least 20 million of the number of persons at risk of poverty and social exclusion in accordance with the Europe 2020 strategy, whilst complementing the Structural Funds. Since the proportion of women at risk of poverty or social exclusion is higher than is the case for men, FEAD will take a gender-sensitive approach by adapting measures to the groups actually at risk, including women and the elderly. It shall contribute to achieving the specific objective of alleviating and eradicating the worst forms of poverty, by providing non-financial assistance to the most deprived persons by food and/or basic material assistance, and social inclusion activities aiming at the social integration of the most deprived persons.

This objective and the results of the implementation of the Fund shall be qualitatively and quantitatively assessed.

FEAD shall complement and shall not replace or reduce sustainable national poverty eradication and social inclusion policies, which remain the responsibility of Member States.

The resources for the Fund available for budgetary commitment for the period 2014-2020 shall be EUR 3 395 684 880 in 2011 prices.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

*Remarks*

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external staff in Union delegations (contract agents, local agents or seconded national experts) for the purposes of devolved programme management in the Union delegations in third countries or for internalisation of tasks of phased out technical assistance offices, as well as the additional logistical and infrastructure cost, such as cost of training, meetings, missions, information technology and telecommunications and of renting directly caused by the presence in the delegation of the external staff remunerated from the appropriations entered in this item,
- expenditure on studies, meetings of experts, information systems, awareness-raising, training, preparation and exchange of lessons learnt and best practices, as well as publications activities and any other administrative or technical assistance directly linked to the achievement of the objective of the programme,
- research activities on relevant issues and the dissemination thereof,
- expenditure related to the provision of information and communication actions, including the development of communication strategies and corporate communication of the political priorities of the Union.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapter 05 05.

#### *New article*

This Article does not include any fresh appropriations but is intended to accommodate the amounts that may be carried over in accordance with Article 169(3) of the Financial Regulation (EU, Euratom) No 966/2012 for reimbursement of the reduction of direct aids due to the application of financial discipline in the previous year. In accordance with Article 26(5) of Regulation (EU) No 1306/2013, Member States shall reimburse the final recipients who are subject, in the financial year to which the appropriations are carried over, to the application of financial discipline in accordance with Article 26, paragraphs (1) to (4) thereof.

#### *Figures*

Budget 2015	Appropriations 2014	Outturn 2013
433 000 000	424 500 000	

#### *Remarks*

The appropriations of this reserve article are intended to cover expenditure for measures needed to cope with major crises affecting agricultural production or distribution.

The reserve is to be established by applying at the beginning of each year a reduction to agricultural direct aids (Chapter 05 03) with the financial discipline mechanisms in accordance with Articles 25 and 26 of Regulation (EU) No 1306/2013 as well as Article 8 of Regulation (EU) No 1307/2013. When the Commission considers the reserve needs to be called on, in accordance with the relevant legislative act, it shall present to the two arms of the budgetary authority a proposal for a transfer from the reserve to the corresponding budget lines financing the measure deemed necessary. Any Commission proposal for a transfer to draw on the reserve must be preceded by an examination of the scope for reallocating appropriations. By the end of the financial year, any amount of the reserve not made available for crisis measures shall be reimbursed proportionally as agricultural direct aids to the budget lines from which the reduction was made. Any reimbursement will be done under Article 05 03 09 from appropriations carried-over from the previous financial year.

Transfers calling on the reserve and transfer back from the reserve to agricultural direct aids shall be made in accordance with the Financial Regulation.

#### *Remarks*

This appropriation is intended to cover the financing of measures for enhancing public awareness of the common agricultural policy by the Union, as provided for in Article 45 of Regulation (EU) No 1306/2013 .

The measures may take the form of:

- annual work programmes submitted, in particular, by farmers' or rural development organisations, consumers' associations and environmental protection associations,
- specific measures submitted, in particular, by the public authorities of the Member States, the media and universities,
- activities implemented at the Commission's initiative,
- activities for the promotion of family farming.

Part of this appropriation is intended to finance information in schools, at points of sale and at other consumer contact points on the high-quality, food-safety, environmental and animal-welfare standards that European farmers have to meet, as compared with those required in third countries. It should highlight the important contribution made by the common agricultural policy in achieving these high standards and include explanations of the various quality schemes in force, such as denominations of origin and geographical indications.

Part of this appropriation is intended to finance an information campaign to consumers on causes and consequences of waste in food and advice on ways of reducing it, as well as the promotion of benchmarking practices within the different sectors of the food chain.

#### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This appropriation is intended to fund a European farm prices and margins observatory. It serves inter alia to help improve the food price monitoring tool with the aim of making it more user-friendly, by including a multilingual interface, covering a greater number of food products and achieving better price comparability on each grade of the food supply chain within and among Member States so as to meet consumers' and farmers' need for more transparency and in the setting of food prices.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action. This appropriation is intended to cover the cost of a preparatory action for a third Union programme for the conservation and sustainable use of plant and animal genetic resources in agriculture. Previous programmes based on Council Regulation (EC) No 1476/94 and Council Regulation (EC) No 870/2004 were completed in 2010. First evaluations of projects suggest that there is need for further actions in order to enhance the conservation of genetic diversity and sustainable use of genetic resources within agriculture, contribute to quality products and local food chains; and to support cooperation and exchange of knowledge between researchers, farmers, breeders and networks of engaged citizens and NGOs, involving the end-users and raising consumer awareness in this field.

Building upon the preparatory work of the European Commission in 2013, the preparatory action shall provide support for Europe wide interlinking projects and activities in conservation and sustainable use of genetic resources in the framework of upcoming rural development programmes. It shall contribute to delivering the elements for a third Union genetic resources programme, specifically on the following questions:

- how to improve communication between Member States and their authorities on best practices and harmonisation of efforts in conservation and sustainable use of genetic resources,
- how to enhance networking between key stakeholders including farmers, researchers, gene banks, NGOs and end-users, and to enhance marketing opportunities in the context of quality schemes and short food chains,
- how to improve the exchange of knowledge and research in enhancing genetic diversity within agricultural systems,
- how to adapt breeding methods and legislation to the need for the conservation of genetic diversity and sustainable use of genetic resources,
- how to contribute to the successful implementation of rural development measures through actions in the field of genetic diversity in agriculture,
- how to reduce the administrative burden so as to improve access to actions.

#### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The project is supposed to bring together and promote cross-border agribusiness expertise in rural areas and to form agribusiness competence regions — so-called Agropols, which will offer a sustainable economic perspective to those areas. The Germany-Netherlands cross border region (at least 4 661 German micro and small enterprises in agriculture and horticulture (SMEs); enterprises in industry; service companies, education and science institutions; administrations; chambers of industry and commerce, chambers of agriculture and associations) as a pioneer for other European agrarian regions illustrates how the on-going challenges of structural change in agriculture and increasing competition in the agricultural sector through cross-sector development into an Agropol can be successfully addressed:

- scientific adaptation of the approach of sectoral economic development for an Agropol,
- composing a strategic plan for developing a common European Agrobusiness-Food-Region,
- mobilization of the stakeholder, particularly administration and economy, for the common aim,
- cooperation becomes successful by the common approach: Resource conservation and efficiency / developing a master-plan are main focal points of the project. The project thereby also contributes towards surmounting global challenges such as climate change, scarcity of raw materials and natural resources as well as food security. Ecologically and economically effective industry and agriculture is supported, balanced rural development is promoted,
- presentation of the transferability to other European regions.

It is expected, that the project will support the European 2020 Strategy and the flagship initiatives Agenda for new Skills and Jobs, Resource efficient Europe, Industrial Competitiveness and ETP 2020.

#### Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for the Horizon 2020 — The Framework Programme for Research and Innovation which covers the 2014 to 2020 period.

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative ‘Innovation Union’ and other flagship initiatives, notably ‘Resource efficient Europe’, ‘An industrial policy for the globalisation era’, and ‘A digital agenda for Europe’, as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in ‘Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)’ and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European cooperation in the field of scientific and technical research entered in Item 6 0 1 6 of the of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 05 09 50 01.

Administrative appropriations of this chapter will be provided under Article 05 01 05.

### **Article 05 09 03 — Societal challenges**

#### *Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

#### *Remarks*

This activity will focus on developing more sustainable and productive agriculture and forestry systems, while at the same time developing services, concepts and policies for thriving rural livelihoods. In addition, emphasis will be placed on healthy and safe foods for all as well as competitive food processing methods that use fewer resources and produce fewer by-products. In parallel, efforts will be made on sustainably exploiting aquatic living resources (e.g. sustainable and environmentally friendly fisheries). Low carbon, resource-efficient, sustainable and competitive European bio-based industries will also be promoted.

1 246 820 000	465 098 180	816 618 378	p.m.	

#### *Remarks*

The objective of ‘Removing bottlenecks and bridging missing links’ refers to Article 4(2)(a) of Regulation (EU) No 1316/2013. This objective will be implemented through calls for proposals under the annual and multiannual work programmes constituting financing decisions within the meaning of Article 84 of the Financial Regulation, of the core network transport projects and Union transport corridors, which are defined in the annexes to the Connecting Europe Facility and TEN-T Guidelines. The implementation of this objective is expected to be measured through new and improved cross border connections and removed bottlenecks, which have benefitted from the Connecting Europe Facility.

#### *Legal basis*

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129), and in particular Article 4(2)(a) thereof.

Item 06 02 01 02 — Ensuring sustainable and efficient transport systems

#### *Remarks*

The objective of ‘Ensuring sustainable and efficient transport in the long run’ refers to Article 4(2)(b) of Regulation (EU) No 1316/2013. This objective will be implemented through calls for proposals under the annual and multiannual work programmes constituting the financing decisions within the meaning of Article 84 of the Financial Regulation.

In the 2014-2020 period, a follow-up of the Marco Polo programme will be implemented by the Connecting Europe Facility within the framework of the revised TEN-T guidelines. In accordance with Article 32 of Regulation (EU) No 1315/2013 of the European Parliament and of the Council of 11 December 2013 on Union guidelines for the development of the trans-European transport network and repealing Decision No 661/2010/EU (OJ L 348, 20.12.2013, p. 1), it will introduce a new approach in support of freight transport services in the Union (indicative budget EUR 70-140 million per year).

#### *Legal basis*

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting

Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129), and in particular Article 4(2)(b) thereof.

##### Remarks

The objective of ‘Optimising the integration and interconnection of transport modes and enhancing the interoperability, safety and security of transport’ refers to Article 4(2)(c) of Regulation (EU) No 1316/2013.

This objective will be implemented through calls for proposals under the annual and multiannual work programmes constituting financing decisions within the meaning of Article 84 of the Financial Regulation.

The achievement of this objective shall be measured by the number of inland and maritime ports and airports connected to the railway network, by the number of improved multimodal logistics platforms, by the number of improved connections through motorways of the sea and by the number of supply points in alternative sources of energy on the core network.

##### Legal basis

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129), and in particular Article 4(2)(c) thereof.

##### Remarks

This appropriation is intended to cover the support from the Cohesion Fund under the Investment for Growth and Jobs goal for transport infrastructure under the Connecting Europe Facility in accordance with Article 84(4) of Regulation (EU) No 1303/2013.

In accordance with Article 5(1)(a) of Regulation (EU) No 1316/2013, an amount of EUR 11 305 500 000 in current prices should be transferred from the Cohesion Fund to be spent in line with that Regulation exclusively in Member States eligible for funding from the Cohesion Fund.

In accordance with Article 11, this objective will be implemented through calls for proposals under the annual and multiannual work programmes, which are opened exclusively for the Member States eligible for financing under the Cohesion Fund. These annual and multiannual work programmes constitute financing decisions in the meaning of Article 84 of the Financial Regulation.

In accordance with Articles 2(7) and 5(2), up to 1 % of the financial envelope shall cover expenses pertaining to ‘programme support actions’.

##### Legal basis

Regulation (EU) No 1303/2013 of the European Parliament and of the Council of 17 December 2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund and the European Maritime and Fisheries Fund and repealing Council Regulation (EC) No 1083/2006 (OJ L 347, 20.12.2013, p. 320).

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129), and in particular:

- Article 5(1)(a) related to the transfer of EUR 11 305 500 000 from the Cohesion Fund to the Connecting Europe Facility,
- Article 11 related to the specific calls for funds transferred from the Cohesion Fund,
- Articles 2(7) and 5(2) related to the ‘programme support actions’ supporting the implementation of Connecting Europe Facility.

Item 06 02 01 05 — Creating an environment more conducive to private investment for transport infrastructure projects

#### Remarks

This objective of ‘Creating an environment more conducive to private investment for transport infrastructure projects’ aims to implement the projects of common interests through the financial instruments, based on an *ex-ante* assessment as required by Article 224 of Delegated Regulation (EU) No 1268/2012. In accordance with Article 21(4) of the CEF Regulation, from 10 % to 20 % of the financial envelope for CEF transport shall be available for innovative financing instruments such as the Project Bonds Instrument, the Loan Guarantee Instrument and other instruments such as joint ventures and the equity instruments to combine public and private financial resources to accelerate infrastructure investments in Europe. The financial instruments are intended to facilitate access to private financing and thus to accelerate or to make possible financing of the TEN-T projects eligible under the TEN-T Guidelines and Regulation (EU) No 1316/2013. The financial instruments are intended to be established as ‘debt’ or ‘equity’ frameworks and they should address specific market failures and provide appropriate financing solutions. They are intended to be implemented as direct management by the entrusted entities, within the meaning of the Financial Regulation or jointly with the entrusted entities. The entrusted entities must be accredited to provide guarantees to the Commission on the protection of the Union financial interests in line with the requirements of the Financial Regulation.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenues may give rise to the provision of additional appropriations in accordance with Article 21(3)(i) of the Financial Regulation.

#### Legal basis

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129), and in particular Article 14 thereof.

#### Remarks

This appropriation is intended to cover the Agency’s staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The establishment plan of the Agency is set out in Annex ‘Staff’ to this section.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts

derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 20 of Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The Union contribution for 2015 amounts to a total of EUR 36 370 000. An amount of EUR 735 233 coming from the recovery of surplus, is added to the amount of EUR 35 634 767 entered in the budget.

This appropriation is intended to cover expenditure on studies and meetings of experts directly linked to the achievement of the objective of the programme or measures coming under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

It is intended to cover expenditure on information and communication, conferences and events promoting activities in the transport sector as well as electronic and paper publications directly linked to the achievement of the objective of transport policy, as well as safety and protection of transport users.

This appropriation is also intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the Union's common transport policy, for all transport modes (road, rail, air, sea and inland waterways) and for all transport sectors (transport safety, internal market of transport with its implementation rules, optimisation of transport network, passengers' rights and protection in all transport modes, the use of alternative fuels in all transport modes, urban mobility, as well as for all other sectors related to transport). The main endorsed actions and objectives are intended to support the Union's common transport policy, including extension to third countries, technical assistance for all transport modes and sectors, specific training, definition of rules of transport safety, simplification of administrative procedures, the use of ICT technologies, promotion of the common transport policy including establishment and implementation of trans-European network orientation endorsed by the Treaty on the Functioning of the European Union as well as strengthening passengers' rights and protection in all transport modes and to improve the application and enforcement of existing Regulations on passenger rights, in particular through awareness-raising activities about the content of those Regulations, targeted at both the transport industry as well as the travelling public.

#### *Maritime transport and logistics*

This appropriation is intended to cover monitoring, evaluation and revision (impact assessment) of Union maritime safety legislation.

These activities should promote and support intermodal barrier-free mobility for persons with reduced mobility.

In connection with Regulation (EC) No 261/2004 of the European Parliament and of the Council of 11 February 2004 establishing common rules on compensation and assistance to passengers in the event of denied boarding and of cancellation or long delay of flights (OJ L 46, 17.2.2004, p. 1), the Commission needs to develop additional measures to make enforcement of the Regulation more efficient.

The implementation of Regulation (EC) No 1371/2007 of the European Parliament and of the Council of 23 October 2007 on rail passengers' rights and obligations (OJ L 315, 3.12.2007, p. 14) requires specific implementation action due to legal reporting requirements of the Commission and due to the complex interaction of regional, national and international (COTIF) administrative structures involved in the implementation.

The implementation of Regulation (EU) No 1177/2010 of the European Parliament and of the Council of 24 November 2010 concerning the rights of passengers when travelling by sea and inland waterway (OJ L 334, 17.12.2010, p. 1), which entered into force on 18 December 2012, and Regulation (EU) No 181/2011 of the European Parliament and of the Council of 16 February 2011 concerning the rights of passengers in bus and coach travel (OJ L 55, 28.2.2011, p. 1), which entered into force on 1 March 2013, requires specific implementation action in order to ensure the correct application and enforcement of these Regulations in the Member States and the compliance by Member States with their legal reporting obligations towards the Commission.

As an important implementation support measure the Commission is conducting a two-year information and awareness raising campaign on passenger rights which started in 2012 and covers all Member States.

These actions and objectives could be supported at different levels (local, regional, national, European and international), for all transport modes and sectors and related to transport, as well as in technical, technological, regulatory, informative, environmental, climatic and political fields and for sustainable development.

Air transport has long been one of the sectors in which the consumer authorities receive most complaints in the Union. The increase in the number of commercial transactions performed electronically (using the Internet or a mobile telephone) has merely resulted in more breaches of Union consumer legislation.

One of the main complaints by Union consumers is that there are no effective means of redress at airports themselves, particularly when disputes arise as a result of failure on the part of airlines and other service providers to meet their obligations. Union consumers and air transport authorities therefore need to work together to secure an immediate improvement in passenger support and information facilities at airports and, at the same time, step up co-regulation in the sector.

#### *Road safety*

The Commission communication of 20 July 2010 entitled 'Towards a European road safety area: policy orientations on road safety 2011-2020' (COM (2010) 389 final) presents seven objectives: road user education, enforcement of traffic rules, safe infrastructure, safe vehicles, use of modern technology, post-injury emergency responses and a special focus on vulnerable road users. Work continues on the Commission's proposal, on the new Union driving licences, on the Commission proposal of a roadworthiness package, on the deployment of intelligent transport systems and in-vehicle safety systems and the launch of work towards a strategy on serious road traffic injuries. The Commission's road safety work also includes the management of rules relating to dangerous goods, the maintenance of a European database on road accidents (CARE), the follow-up on the infrastructure management and tunnel safety directives and on various aspects of vulnerable road user safety. The implementation of the Policy Orientations 2011-2020 would also require specific implementation action for the exchange of good practices, road safety campaigns, call of proposals and development of the road safety observatory.

This appropriation is intended to cover expenditure on public events such as the annual European Road Safety Day and similar awareness raising and citizen interaction initiatives.

It is also intended to establish efficient cross-border cooperation between Member States concerning the enforcement of road safety related traffic offences.

#### *Land transport*

The main activities in the land transport area concern the better implementation, review or planning for new initiatives.

#### *Single European Sky*

The full implementation of the Single European Sky (four basic Regulations (EC) No 549/2004, (EC) No 550/2004, (EC) No 551/2004 and (EC) No 552/2004, and more than 20 implementing rules) is a key priority to improve the performance of the air navigation services in terms of safety, cost efficiency of the air navigation service provision, reduction of air traffic flow delays and environmental performance, and hence of air transport in Europe.

The extension of the Single European Sky legislation to the South East States through the Multilateral Agreement on the Establishment of a European Common Aviation Area (ECAA) is an important step for the achievement of the neighbouring policy. This action is based on Article 7 of Regulation (EC) No 549/2004.

### *Remarks*

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the rules and measures required to improve the security of inland, air and sea transport, including extension to third countries, technical assistance and specific training.

The main objectives are to develop and apply security rules in the field of transport and in particular:

- measures to prevent malicious acts in the transport sector,
- approximation of legislation, technical standards and administrative monitoring practices relating to transport security,
- definition of common indicators, methods and security objectives for the transport sector and collection of the data necessary for such definition,
- monitoring of measures taken on transport security by the Member States, in all modes,
- international coordination on transport security,
- promoting research into transport security.

This appropriation is intended in particular to cover expenditure on the establishment and operation of a corps of inspectors to check compliance with the requirements of Union security legislation of airports, ports and port facilities in the Member States, including extension to third countries, and of ships flying the flag of a Member State. This expenditure includes the subsistence allowances and travel expenses of the Commission inspectors and the expenses of inspectors from the Member States, borne in accordance with the provisions laid down in that legislation. The costs of training inspectors, of preparatory meetings and of the supplies needed for inspections must, in particular, be added to that expenditure.

This appropriation is also intended to cover expenditure on information and communication, as well as electronic and paper publications directly linked to the achievement of the objective of transport policy, as well as safety and protection of transport users.

### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

In September 2011, the Commission issued a staff working paper on a 'sustainable waterborne transport toolbox' describing possible measures to minimise the compliance costs for the industry in view of the proposed new sulphur limits on sulphur content of marine fuels. A focus area for the medium to long term is the implementation of clean ship technology and alternative fuels. LNG is seen as a promising solution to comply with this regulation and to respond to ship generated air pollution in general.

Despite its excellent safety record, LNG is perceived as a potential danger by the general public. Action is needed to gain a comprehensive overview and analysis of potential risks and dangers for LNG storage, bunkering and handling (ports and ships). This will also include a generic risk analysis of LNG, i.e. as regards chemical properties, plus the development, in close cooperation with all concerned stakeholders, of information and media material aimed at explaining the risks/advantages of LNG for shipping.

The aim is also to obtain an overview of market developments as regards the introduction of LNG-fuelled ships or 'LNG ready' ships, as well as LNG fuel provision infrastructure (on-shore or by bunker barges) in the Union.

## Item 06 02 77 05 — Pilot project — The role of rolling stock in European interoperability

### Remarks

The aim of this pilot project is to analyse the main problems concerning rail rolling stock interoperability in the Union and to provide, in consultation with rail stakeholders (shippers, infrastructure managers, rail undertakings, freight companies, economic operators), solutions to increase availability of interoperable/multimodal rail rolling stock, including by optimising market demand, proposing regulatory measures and identifying market needs for new types of rolling stock, containers, etc.

### Background

In its White Paper entitled ‘Roadmap to a Single European Transport Area — towards a competitive and resource efficient transport system’, adopted on 28 March 2011, the Commission announced its vision for the establishment of a Single European Railways Area, with the aim of creating an internal railway market where European railway undertakings can provide services free from unnecessary technical and administrative barriers.

Significant legislative progress has been made, with the opening up of the rail freight market and Regulation (EU) No 913/2010 of the European Parliament and of the Council of 22 September 2010 concerning a European rail network for competitive freight (OJ L 276, 20/10/2010, p. 22). These corridors are a governance instrument that will provide more freight availability and capacity for fluid cross-border operation. The new TEN-T guidelines and Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129) will also contribute by providing Union financial support to address major infrastructure needs in the rail sector (i.e. missing links, bottlenecks, new traffic management systems, etc.), making Union rail corridors a reality and encouraging more operators to shift to rail.

While these significant steps will provide, in the near future, solutions for infrastructure interoperability — signalling, track gauge, traffic management systems, electrification, etc. — there are still a number of concerns to be addressed in order to make the Single European Railway area a reality.

Gauge remains a major hurdle in this respect. For some areas in Europe, gauge restrictions are a major obstacle to promoting rail freight which the measures referred to above might not remove. For some countries with a very narrow gauge, the hard infrastructure approach might be too expensive. For other Union areas, although there are technological solutions (i.e. low wagons) to some gauge constraints, there is also a lack of low rolling stock despite the demand for it.

This pilot project will look to non-infrastructure solutions to overcome problems involving mainly but not exclusively gauge restrictions in main freight corridors and routes and identify and propose solutions to rolling-stock market failures.

It could focus on:

- analysing availability of interoperable/multimodal rolling stock on routes with major gauge restrictions;
- analysing market demand for low wagons and the used rolling-stock market;
- possible new technological solutions for rolling stock both to address gauge restrictions and also to increase freight use by new types of container or new wagons and loading solutions that could increase rail freight attractiveness for economic operators;
- identifying rolling stock R&D needs to overcome gauge constraints.

The pilot project will identify best practices and will help to identify, for the Parliament and the Commission, regulatory changes, financing and research needs, possible areas of cooperation with existing freight governing structures (rail freight corridor working group, corridor coordinators, etc.).

*Remarks*

Although the Commission gathers and publishes a large volume of transport-related figures and relevant statistics, general aviation has not been covered. This preparatory action will produce significant data on general aviation in Europe, such as passenger kilometres, workforce, turnover and economic output. As the European Aviation Safety Agency will continue to bring forward new regulations for this sector over the coming years, having a complete database could provide added value for better regulation.

This preparatory action is in line with the European Parliament resolution of 3 February 2009 on an Agenda for Sustainable Future in General and Business Aviation (OJ C 67 E, 18.3.2010, p 5), which highlights ‘a lack of data and statistical information on general and business aviation’ (recital C) and calls on the Commission to ‘develop and implement a systematic approach to the gathering and sharing of international and European data’ (paragraph 27).

The preparatory action also takes into account the Commission communication entitled ‘An Agenda for Sustainable Future in General and Business Aviation’ (COM(2007) 869 final), which calls for ‘development at the European level of the basic set of objective and coherent data’.

The preparatory action will aim to collect the most important data on general aviation in Europe, including but not limited to passenger kilometres (available and flown), number of flights with a shorter distance than 500 km, workforce, turnover, economic output, environmental effect (including data on climate-relevant emissions), direct and indirect impact on related industries, safety issues, taxation (including number and percentage of tickets exempted from VAT and quantity and percentage of the kerosene used that is exempted from taxation) as well as social and economic impacts. The preparatory action will also aim to gather information on ground handling services for general aviation and the legal (including social) framework for the provision of those services.

### Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation is intended to be used for Horizon 2020 — The Framework Programme for Research and Innovation which covers the 2014 to 2020 period.

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative ‘Innovation Union’ and other flagship initiatives, notably ‘Resource efficient Europe’, ‘An industrial policy for the globalisation era’, and ‘A digital agenda for Europe’, as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding. The programme will be carried out in order to pursue the general objectives described in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation is intended to be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in ‘Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)’ and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Revenue from States taking part in the European Cooperation in the field of scientific and technical research will be entered in Item 6 0 1 6 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution by outside bodies to Union activities will be entered in Item 6 0 3 3 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be made available under Item 06 03 50 01.

Administrative appropriations of this chapter will be provided under Article 06 01 05.

### ***Article 06 03 03 — Societal challenges***

#### *Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

Funding will be focused on the following challenges:

- smart, green and integrated transport;
- innovation and research, particularly in the areas of behavioural change, modal shift, accessibility for all, integration (interconnectivity, intermodality, interoperability) and sustainability (climate change, gas and noise emission reduction), which are of crucial importance for the transport and tourism sectors.

Item 06 03 03 01 — Achieving a resource-efficient, environmentally-friendly, safe and seamless European transport system

*Remarks*

This appropriation is intended to cover Research and Innovation actions that should substantially contribute to shifting transport into a new era of smart mobility. Actions under this item should support the development and take up of the necessary solutions for all transport modes, drastically reducing transport emissions that are harmful to the environment, lowering the dependence of transport on fossil fuels, and hence reducing transport impact on biodiversity and preserve natural resources. This is expected to be achieved by investing in specific activities, notably in the form of large public-private-partnerships, such as making aircraft, trains, vehicles and vessels cleaner and quieter, developing smart equipment, infrastructure and services and improving transport and mobility in urban areas.

Research and Innovation carried under this item is expected to make important contributions to optimise performance and efficiency in the face of growing demands for mobility. Actions under this item will also focus on substantially reducing traffic congestion, substantially improving the mobility of people and freight, developing and applying new concepts of freight transport and logistics and reducing accident rates and fatal casualties and improving security. Actions under this item are indeed intended to contribute to making Europe the safest region for aviation and to move towards the target of zero fatalities in road transport by 2050.

Research and Innovation is expected to play a significant role in achieving global leadership for the European transport industry, staying ahead in new technologies and reducing the costs of existing manufacturing processes, therefore contributing to growth and highly skilled jobs in the European transport industry. In this context, actions to develop the next generation of transport means and explore entirely new transport concepts are expected to be developed and covered by this appropriation.

Socio-economic research and forward looking activities for policy making will also be covered by this appropriation: actions to support policy analysis and development including on socio-economic aspects of transport are necessary to promote innovation and meet the challenges raised by transport.

#### *Remarks*

This appropriation is intended to cover the Agency's staff, administrative and operating expenditure.

The mission of the Agency is to provide the Union and the Member States with objective, reliable and comparable information on the environment at European level, thus enabling them to take the requisite measures to protect the environment, to assess the results of such measures and to inform the public.

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the Swiss Confederation's contribution to participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the European Environment Agency is set out in Annex 'Staff' to this section.

The Union contribution for 2015 amounts to a total of EUR 36 309 240. An amount of EUR 1 422 874 coming from the recovery of surplus is added to the amount of EUR 34 886 366 entered in the budget.

The pilot project aims at boosting the recycling of electric and electronic waste in the Balkan region. It will insist on the need to develop environmentally friendly infrastructure which will also provide economic and social benefits to local economies. These benefits can translate into profit for local communities through the creation of jobs in a more sustainable way and for the industry with the recycling centre providing better access to raw materials both for the region and for the EU. The project will be a step forward in the process of strengthening regional cohesion and cooperation in the Balkan region as well as an important source of secondary raw materials for EU industries, thus advancing the long-term EU goal of improving its resource efficient use of materials, its higher independence on the import of some raw materials from third countries, and the transition to a circular economy.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Recycling of waste is an important pillar of the Resource Efficiency agenda. Yet high quality recycling in Europe is limited and actually only well developed in a few Member States, therefore a huge potential of recoverable resources is currently neglected. Whereas there is a strong focus in Europe on municipal solid waste ('MSW'), this is only a small fraction of all available waste. Dry mixed wastes such as commercial and industrial waste, bulky household waste and construction and demolition waste ('C&DW') contain far more resources which can even be easier extracted than materials out of (wet) MSW. Of these types of waste, C&DW is very significant, due to its volume (it comprises one third of all waste in the EU) and the target currently set for it in the waste framework Directive (70 % recycling).

Development of C&DW recycling (and indeed of the recycling of any type of waste) follows a certain 'generic' path, as shown by the history of well performing countries. This means that general mechanisms for recycling can be identified and best practices can be described. Based on some 30 years of recycling in a few Member States, templates and guidelines should be made available for those Member States where recycling is still in its infancy. It is necessary to stimulate recycling in Europe by the transfer of knowledge and expertise.

Important elements of recycling are for instance good control of waste flows and quality assurance. Recycling industry and authorities in a number of Member States have developed tools for this, for instance a system called Tracemat (tracing materials) and quality assurance schemes including environmental testing and certification.

The recycling of mixed dry wastes needs to be developed. Valuable materials such as wood and plastics can be recovered and made fit for new use. Recycling plants could also be used to treat MSW if the dry fraction is source separated. Building up such sorting capacity is an option in Member States to find a right balance between recycling and incineration.

*Goal*

The pilot project aims at boosting recycling in Member States, specifically concerning C&DW and related to that of dry mixed wastes, by implementing efficient transfer of knowledge and expertise. It will also assist Member States in reaching the targets under the waste framework Directive. The key success factor is that the recycling industry itself will be involved. Its experts are acknowledged to be the best carriers of such expertise and knowledge. Specifically the project aims at initiating, on an appropriate basis, recycling of C&DW in three (regions in) Member States. Historical experience will serve as an example for Member States where this type of recycling has not taken off. As for other dry mixed wastes the success cases will be analysed and blueprints for other Member States how to get there will be developed. In one (region in a) Member State such recycling will be initiated.

A key issue of the project is to demonstrate the successful implementation of first steps to recycling of C&DW in selected regions in Europe. For this to happen it is required that stakeholders in these regions agree to an implementation plan. This plan describes goals to be achieved and actions to be taken. Those actions for most part will reflect the best practices developed on the basis of experiences in well performing Member States. Stakeholders agree to the actions and parties are assigned to each action. Key issues are the reliable tracing of wastes and quality control of recycled products.

Item 07 02 77 28 — Pilot project — Striking a balance between the right of the state to regulate legitimate public policy objectives, the rights of investors to the protection of their investments and the rights of citizens with regard to the environment and public health in the light of the Transatlantic Trade and Investment Partnership (TTIP)

*Figures*

Budget 2015		Appropriations 2014	Outturn 2013

400 000	200 000		

*Remarks*

This pilot project will initiate public dialogue on environmental protection in the context of the TTIP. The dialogue will involve all stakeholders, including representatives of governments, environmental experts and civil society. It will focus on the principles of state regulation of legitimate public policy objectives, helping to formulate a common approach to handling such policy objectives in the light of existing and future investment protection schemes. Such a dialogue is essential for public understanding of both the need for state regulation in those areas and the need to ensure that all stakeholders are treated fairly and may expect proportionate and predictable legislation to be passed.

Part of the appropriation will be spent on conducting objective SWOT analyses of the TTIP on the basis of which public awareness of the real benefits and drawbacks can be increased.

*Remarks*

This pilot project will contribute to further development of market-based instruments (MBI) in the field of environmental policy by making civil society organisations better able to participate in EU policy-making on green public procurement (GPP), the reduction of harmful subsidies and eco-taxation. Currently there is insufficient EU-level capacity in these fields and little coordination of reform efforts in Member States and at EU level. Greater involvement of civil society experts in the design and implementation of public procurement policies, the reduction of harmful subsidies and eco-taxation would improve the uptake of such policies in the Member States. Networking between civil society and public authorities interested in GPP, the reduction of harmful subsidies and eco-taxation would be a way of boosting EU civil society capacity and drawing on experience in Member States through the exchange of best practices and greater participation in the EU decision-making process.

### Remarks

These remarks apply to all the budget lines in this title.

Research and innovation activities under this title will contribute to three main research programmes, i.e. Horizon 2020, Euratom and ITER programme. It will also cover research programmes of the research fund for coal and steel.

It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Particular account will be taken of the need to step up efforts to enhance the participation and role of women in science and research.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

These appropriations also cover administrative expenditure, including expenditure on staff, whether covered by the Staff Regulations or not, information, publications, administrative and technical operation, and certain other expenditure items relating to internal infrastructure linked with the achievement of the objective of the measure of which they form an integral part, including the action and initiatives necessary for preparation and monitoring of the Union's strategy on research, technological development and demonstration (RTD).

Revenue resulting from cooperation agreements between the European Atomic Energy Community and Switzerland or the multilateral European Fusion Development Agreement (EFDA) will be entered in Items 6 0 1 1 and 6 0 1 2 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

The possibility of third countries or institutes from third countries taking part in European Cooperation in the field of Scientific and Technical Research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European Cooperation in the field of Scientific and Technical Research will be entered in Item 6 0 1 6 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contribution by outside bodies to Union activities will be entered in Item 6 0 3 3 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be made available under Items 08 02 50 01, 08 03 50 01 and 08 04 50 01.

Administrative appropriations of this title will be provided under Article 08 01 05.

#### Remarks

These budgetary remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for Horizon 2020 — The Framework programme for Research and Innovation which covers the 2014-2020 period and brings together all existing Union research and innovation funding, including the Framework Programme for Research, the innovation related activities of the Competitiveness and Innovation Framework Programme and the European Institute of Innovation and Technology (EIT). The Programme shall play a central role in the implementation of the Europe 2020 flagship initiative ‘Innovation Union’ and other flagship initiatives, notably ‘A digital agenda for Europe’ ‘Resource efficient Europe’ and ‘An industrial policy for the globalisation era’, as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

This appropriation will be used in accordance with the Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for the participation and dissemination in ‘Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)’ and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this

section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

## **Article 08 02 01 — Excellent science**

### *Remarks*

This priority of Horizon 2020 aims to reinforce and extend excellence in the Union's science base and ensure a steady stream of world-class research to secure the Union's long-term competitiveness. It will support the best ideas, develop talent within the Union, provide researchers with access to priority research infrastructure, and make the Union an attractive location for the world's best researchers. Research actions to be funded will be determined according to the need and opportunities of science, without pre-determined thematic priorities. The research agenda will be set in close liaison with the scientific community and research will be funded on the basis of excellence.

### Item 08 02 01 01 — Strengthening frontier research in the European Research Council

### *Remarks*

The fundamental activity of the European Research Council (ERC) shall be to provide attractive long-term funding to support excellent investigators and their research teams to pursue ground-breaking, high-gain/high-risk research. Particular priority shall be given to assisting excellent starting researchers to make the transition to independence by providing adequate support at the critical stage, when they are setting up or consolidating their own research team or programme. The ERC shall also give support, as necessary, to emerging new ways of working in the scientific world with the potential to create breakthrough results and facilitate exploration of the commercial and social innovation potential of the research which it funds.

### *Remarks*

Activities under the 'Future and Emerging Technologies' (FET) specific objective shall support fundamental science and technology research exploring new future technologies by challenging current paradigms and venturing into unknown areas. In addition, FET activities shall address a number of promising exploratory research themes with the potential to generate a critical mass of inter-related projects that, together, make up a broad and multifaceted exploration of the themes and build a European pool of knowledge. Finally, FET activities shall support ambitious large-scale, science-driven research aiming to achieve a scientific breakthrough. Such

activities will benefit from the alignment of European and national agendas.

*Remarks*

Research infrastructures activity will ensure the implementation and operation of the ESFRI (European Strategy Forum for Research Infrastructure) and other world-class research infrastructures, including the development of regional partner facilities, for 2020 and beyond. In addition, the integration of and access to national research infrastructures and the development, deployment and operation of e-infrastructures will be ensured. The activity will also encourage research infrastructures to act as early adopters of technology, promote R&D partnerships with industry, facilitate industrial use of research infrastructures and stimulate the creation of innovation clusters.

**Article 08 02 02 — Industrial leadership**

*Remarks*

This priority of Horizon 2020 aims to make the Union a more attractive location to invest in research and innovation, by promoting activities where businesses set the agenda as well as at accelerating the development of new technologies which will underpin future businesses and economic growth. It will provide major investment in key industrial technologies, maximise the growth potential of Union companies by providing them with adequate levels of finance and help innovative SMEs to grow into world-leading companies.

Item 08 02 02 01 — Leadership in nanotechnologies, advanced materials, laser technology, biotechnology and advanced manufacturing and processing

### Remarks

Leadership in enabling and industrial technologies shall provide dedicated support for research, development and demonstration on nanotechnology, advanced materials, biotechnology and advanced manufacturing and processing. Emphasis will be placed on interactions and convergence across and between the different technologies. In addition, emphasis shall be on R&D, large-scale pilots and demonstration activities, test beds and living labs, prototyping and product validation in pilot lines. Activities shall be designed to boost industrial competitiveness by stimulating industry, and in particular SMEs, to make more research and innovation investment.

### Remarks

The aim of this activity is to help companies and other types of organisation engaged in research and innovation (R&I) to gain easier access, via financial instruments, to loans, guarantees, counter-guarantees and hybrid, mezzanine and equity finance. Debt and equity facilities will be run in a demand-driven manner, though the priorities of particular sectors or of other EU programmes will be targeted if top-up funding is made available. The focus is on attracting private investments into R&I. The European Investment Bank (EIB) and the European Investment Fund (EIF) will play an important role, as entrusted entities, in implementing each financial instrument facility on behalf of and in partnership with the European Commission. Part of this appropriation will be used to reinforce, in the form of paid-in capital, the EIF's capital base.

### Remarks

To support the participation of SMEs in Horizon 2020 a dedicated market-oriented instrument will be introduced, which will target all types of innovative SMEs that wish to develop, grow and internationalise. In addition, support will be provided to research intensive SMEs in transnational research projects and to women-led start-ups. Activities enhancing the innovation capacity of SMEs and improving the framework conditions for innovation will also be supported.

As established in the Regulation (EU) No 1291/2013 of 11 December 2013 establishing Horizon 2020 — the Framework Programme

for Research and Innovation (2014-2020), support will be provided to innovation in SMEs through the implementation of an SME Instrument under a single management system and implemented in a bottom-up manner. As per Annex II of the afore mentioned regulation, within the target of allocating a minimum of 20 % of the total combined budgets for the specific objective 'Leadership in enabling and industrial technologies' and the priority 'Societal challenges' for SMEs, a minimum of 5 % of those combined budgets will be initially allocated to the dedicated SME Instrument. A minimum of 7 % of the total budgets of the specific objective 'Leadership in enabling and industrial technologies' and the priority 'Societal challenges' will be allocated to the dedicated SME instrument averaged over the duration of Horizon 2020.

### **Article 08 02 03 — Societal challenges**

#### *Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level and take a gender-sensitive approach while aiming for balanced participation of men and women.

#### *Remarks*

Lifelong health and wellbeing for all, high-quality and economically sustainable health and care systems, and opportunities for new jobs and growth in the health sector and its related industries are the aims of this activity. To that respect activities will focus on effective health promotion and disease prevention (e.g. understanding the determinants of health, developing better preventive vaccines). Particular attention will be paid to gender- and age-related health specificities. In addition, emphasis will be placed to manage, treat and cure disease, disability and reduced functionality (e.g. by transferring knowledge to clinical practice and scalable innovation actions, better use of health data, independent and assisted living). Furthermore, efforts will be made to improve decision-making in prevention and treatment provision, identify and support the dissemination of best practice in the healthcare sector, and support integrated care and the uptake of technological, organisational and social innovations empowering in particular older persons as well as disabled persons to remain active and independent. Finally, activities will be based on a gender-sensitive approach that recognises, amongst other things, the position of women in both the informal and the formal care sector.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

##### Remarks

This activity will focus on developing more sustainable and productive agriculture and forestry systems, while at the same time developing services, concepts and policies for thriving rural livelihoods. In addition, emphasis will be placed on healthy and safe foods for all as well as competitive food processing methods that use fewer resources and produce fewer by-products. In parallel, efforts will be made on sustainably exploiting aquatic living resources (e.g. sustainable and environmentally friendly fisheries). Low carbon, resource efficient, sustainable and competitive European bio-based industries will also be promoted.

##### Remarks

Efforts to ensure a secure, clean and efficient energy supply will focus on reducing the EU's energy consumption and carbon footprint (for example through affordable systems and components incorporating smart technologies) and securing a low-cost, low-carbon electricity supply (for example through research, development and full-scale demonstration of innovative renewables and carbon capture and storage technologies). There will be a special focus on alternative fuels and mobile energy sources and on developing a single, smart European electricity grid. Activities will also focus on multi-disciplinary research for energy technologies and joint implementation of pan-European research programmes and world-class facilities. Furthermore, tools, methods and models for robust and transparent policy support will be developed and market uptake of energy innovation will be promoted. 85 % of the budget appropriations will be allocated to the renewable and end-use energy efficiency policy areas, including smart grids, energy storage and Smart Cities and Communities from 2014 onwards.

In acknowledgment of the essential role of end-user energy efficiency and renewable energy for furthering energy security in the EU, market uptake measures will be supported through an Intelligent Energy Europe III programme to build capacity, improve governance and overcome market barriers so that energy efficiency and renewable energy solutions can be rolled out. Part of the appropriations in the overall energy challenge budget will therefore be spent on market uptake activities for existing renewable and energy efficiency technologies within the programme, carried out by a dedicated management structure, and will include support for sustainable energy policy implementation, capacity building and mobilisation of financing for investment, in line with what has been done to date.

*Remarks*

Under this activity emphasis will be placed on resource-efficient transport (e.g. accelerating the development and deployment of a new generation of electric and other low or zero emission aircrafts, vehicles and vessels) as well as on better mobility with less congestion and more safety and security (e.g. promoting integrated door-to-door transport and logistics). The focus will also be on reinforcing the competitiveness and performance of European transport manufacturing industries and related services, by, for instance, developing the next generation of innovative transport means and preparing the ground for the following one. Activities aiming at improving the understanding of transport-related socioeconomic trends and prospects, and providing policy makers with evidence-based data and analyses will be supported too.

### Remarks

The aim of this activity is to contribute to making European societies more inclusive, innovative and reflective, by promoting smart, sustainable and inclusive growth. Actions will support coordinated policymaking through the development of evidence, tools, forward-looking activities and pilots to increase transnational efficiency and economic impact of research and innovation policies and achieve a well-functioning European Research Area and Innovation Union. Actions will also aim at closing the innovation divide, ensuring societal engagement in research and innovation and fostering gender balance in research teams, promoting coherent and effective cooperation with third countries and developing an understanding of Europe's intellectual basis: its history and the many European and non-European influences; as an inspiration for our lives today.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

#### New item

The aim is to fully exploit the potential of Europe's talent pool and to ensure that the benefits of an innovation-led economy are both maximised and widely distributed across the Union in accordance with the principle of excellence. By nurturing and connecting pools of excellence, the activities proposed will contribute to strengthening the European Research Area.

The activities will focus on teaming of excellent research institutions and low performing RDI regions aiming at the creation of new (or significant upgrade of existing) centres of excellence in low performing RDI Member States and regions, twinning of research institutions, establishing 'ERA Chairs', a Policy Support Facility (PSF) to improve the design, implementation, and evaluation of national/regional research and innovation policies, supporting access to international networks for excellent researchers and innovators who lack sufficient involvement in European and international networks and strengthening the administrative and operational capacity of transnational networks of National Contact Points, including through training.

### Remarks

The Fuel Cells and Hydrogen 2 Joint Undertaking (FCH 2 JTI), a Public Private Partnership between the European Commission, the Industry and the Research Grouping, will build up on the results of its predecessor, set up under FP7. FCH 2' JUs objective is to tackle a series of obstacles to the commercialisation of fuel cells and hydrogen technologies by reducing the cost of FCH systems, increasing their efficiency and demonstrating their feasibility, thus paving the way for a strong, sustainable and globally competitive fuel cells and hydrogen sector in the Union. This budget line is intended to cover the operational costs of the FCH 2 JU.

FCH 2JTI shall contribute to the implementation of Horizon 2020, and in particular the specific objectives 'Secure, clean and efficient energy' and 'Smart, green and integrated transport' of the priority 'Societal challenges'.

Item 08 02 77 03 — Pilot project — Research and development for poverty-related neglected diseases in achieving universal health coverage post-2015

*Figures*

Budget 2015		Appropriations 2014	Outturn 2013
Commitments	Payments		
750 000	375 000		

*Remarks*

Ongoing discussions on the post-2015 global development framework have viewed universal health coverage (UHC) as a fundamental enabler for ending extreme poverty by 2030 and a crucial factor in completing the unfinished agenda of the health-related Millennium Development Goals - notably MDGs 4, 5 and 6 on improving maternal health, reducing child mortality, and combating HIV and AIDS, malaria and tuberculosis respectively.

It is also important to include neglected tropical diseases (NTDs) in the new development framework, in addition to the MDG 6 diseases and in line with the corresponding roadmap from the WHO

([http://whqlibdoc.who.int/hq/2012/WHO\\_HTM\\_NTD\\_2012.1\\_eng.pdf](http://whqlibdoc.who.int/hq/2012/WHO_HTM_NTD_2012.1_eng.pdf)) and other prominent expert organisations.

*Objectives:*

This project will produce a study that quantifies the role of PRND R&D in contributing to UHC and improving the health situation in low- and middle-income countries. The study will:

- track EU investment in PRND R&D and assess how corresponding technologies are being translated into a resource for UHC;
- examine how the correlation between PRND R&D and UHC can be improved with regard to the post-2015 global development framework and develop recommendations for R&D indicators that help advance the impact of UHC.

Developing essential medicines for PRNDs that are safe, effective, affordable, accessible and of assured quality contributes to achieving UHC, and adequately investing in UHC is an effective way of guaranteeing that available services and products are also accessible and of a suitable standard of quality. This correlation will play a crucial role in the post-2015 global development framework, not only for ensuring healthy lives, but also for helping to reduce poverty.

*Figures*

Budget 2015		Appropriations 2014	Outturn 2013
Commitments	Payments		
1 000 000	500 000		

*Remarks*

The aim of this two-stage preparatory action is to identify the barriers that impede the development of a truly optimised single European transport system and to propose a set of actions which, collectively, can help to accelerate progress. The action fully supports EU and Commission initiatives. It will:

- inform future policy development and research and innovation programmes, at both EU and national level;
- address one of the seven challenges on which Horizon 2020 is based, namely ‘Smart, green and integrated transport’;
- contribute to implementation of EU2020 flagship initiatives such as ‘increasing accessibility and clean transport’ and ‘promoting innovation and excellence’.

The examination stage will:

- identify stakeholders (industry, research, administrations, regulators and civil society), and their opinions, needs and expectations;

- describe the current state of the system: public policy (at all levels); industry structures; market and regulatory conditions; mechanisms for stakeholder collaboration; transport programmes;
- look at similar issues in other world regions and identify lessons to be learned;
- identify opportunities to improve Europe's transport system as a whole and barriers preventing this.

The roadmap stage will suggest actions, endorsed by a cross-section of stakeholders, which can accelerate progress towards an optimised transport system. It will examine:

- what, if any, new organisation(s) might help, without simply duplicating existing structures;
- how to develop a stronger 'whole system' mind-set at all levels;
- ways to encourage existing initiatives to pay more attention to their interactions with the rest of the system;
- potential policy initiatives at EU, Member State and local levels.

The end result will be an in-depth analysis of the opportunities for and barriers to achieving a fully optimised transport system across Europe, plus committed stakeholders from all sectors.

### Remarks

The Euratom Research and Training Programme (2014-2018) complements Horizon 2020 in the field of nuclear research and training. Its general objective is to pursue nuclear research and training activities with an emphasis on continually improving nuclear safety and radiation protection, notably to contribute to the long-term decarbonisation of the energy system in a safe, efficient and secure way. By supporting this research, the Euratom Programme shall reinforce outcomes under the three priorities of Horizon 2020: excellent science, industrial leadership, and societal challenges.

The indirect actions of the Euratom Programme are focused on two areas: nuclear fission, safety and radiation protection, and fusion research and development programme.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

## **Article 08 03 01 — Operational expenditure for the Euratom Programme**

### Remarks

The scope of the Euratom Programme for indirect actions includes nuclear fission safety and radiation protection as well as the fusion research and development which aim to ensure the success of the ITER project while enabling Europe to reap its benefits. It will reinforce outcomes under the three priorities of Horizon 2020: excellent science, industrial leadership and societal challenges.

### Remarks

The Euratom activity in the field of fusion will support common research activities undertaken by the fusion stakeholders involved in the implementation of the tasks derived from the fusion roadmap. In addition, it will support joint activities to develop and qualify materials for a demonstration power plant as well as to address reactor operation issues and develop and demonstrate all relevant technologies for a fusion demonstration power plant. The activity will also implement or support knowledge management and technology transfer from the research co-funded by this programme to industry, exploiting all innovative aspects of the research. Furthermore, the activity will support the construction, refurbishment, use and continued availability of key research infrastructures under the Euratom Programme.

### Remarks

The Euratom activity in the field of nuclear fission will provide support to joint research activities concerning the safe operation of reactor systems in use or which may be used in the future in the Union. It will also contribute to the development of solutions for the

management of ultimate nuclear waste. In addition, the activity will support joint and/or coordinated research activities, placing emphasis on the risks from low doses from industrial, medical or environmental exposure. Furthermore, Euratom fission will promote joint training and mobility activities between research centres and industry as well as between different Member and Associated States while it will provide support for maintaining multidisciplinary nuclear competences.

### *Remarks*

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

The programme covers two thematic areas:

Fusion research, which includes activities that range from basic research to technology development, construction of major projects and training and education activities. It offers the prospect of an almost limitless supply of clean energy, with ITER being the crucial next step in the progress towards this ultimate goal. The realisation of the ITER project therefore lies at the heart of the present Union strategy. It must be accompanied by a strong and focused European research and development programme on fusion to prepare for the exploitation of ITER and to develop the technologies and knowledge base that will be needed during ITER operation and beyond.

Fission research, which aims is to establish a sound scientific and technical basis in order to accelerate practical developments for the safer management of long-lived radioactive waste, to promote safer, more resource-efficient and cost-effective nuclear energy and to ensure a robust and socially acceptable system of protection of man and the environment against the effects of radiation.

### Remarks

The ITER project aims to demonstrate fusion as a viable and sustainable source of energy by building and operating an experimental fusion reactor as a major step towards the creation of prototype reactors for fusion power stations that are safe, sustainable,

environmentally responsible, and economically viable. It will contribute to the Europe 2020 strategy and in particular to its Innovation Union flagship initiative as the mobilisation of European high-tech industries, which are involved in the construction of ITER, should provide the Union with a global competitive advantage in this promising sector.

The project brings together seven parties: the European Union, China, India, Japan, South Korea, Russia, and the United States.

*Former Article 08 04 01 (in part)*

The European Joint Undertaking for ITER and the Development of Fusion for Energy ('Fusion for Energy') provides the contribution of the European Atomic Energy Community (Euratom) to the joint implementation of the International ITER project. ITER, a major experimental facility which will demonstrate the scientific and technical feasibility of fusion power, will be followed by the construction of a demonstration fusion power plant (DEMO).

This European Joint Undertaking Fusion for Energy has the following tasks:

- to provide the contribution of Euratom to the ITER International Fusion Energy Organization,
- to provide the contribution of Euratom to broader approach activities with Japan for the rapid realisation of fusion energy,
- to prepare and coordinate a programme of activities in preparation for the construction of a demonstration fusion reactor and related facilities.

### Remarks

The Research Fund for Coal and Steel funds every year innovative projects to enhance the safety, efficiency and competitive edge of the Union coal and steel industries. It was created in 2002 to build on the successes of the European Coal and Steel Community. The distribution of the budgets between coal (27,2 %) and steel (72,8 %) is defined in Council Decision 2003/76/EC of 1 February 2003 establishing the measures necessary for the implementation of the Protocol, annexed to the Treaty establishing the European Community, on the financial consequences of the expiry of the ECSC Treaty and on the Research Fund for Coal and Steel (OJ L 29, 5.2.2003, p. 22).

### Remarks

The steel research programme activity aims to improve steel production processes with a view to enhancing product quality and increasing productivity. Reducing emissions, energy consumption and the environmental impact as well as enhancing the use of raw materials and the conservation of resources shall form an integral part of the improvements sought.

### Legal basis

### Remarks

The coal research programme activity aims to reduce the total costs of mining production, improve the quality of the products and reduce the costs of using coal. Research projects shall also aim to achieve scientific and technological progress with a view to gaining a better understanding of the behaviour and control of deposits in relation to rock pressure, gas emissions, the risk of explosion, ventilation and all other factors affecting mining operations. Research projects with these objectives shall present the prospect of results applicable in the short or medium term to a substantial part of Union production.

Remarks

This appropriation is intended to cover expenditure on a set of measures designed to:

- coordinate a better regulatory framework for competition, investment and growth over the entire range of issues in the e-communications field: economic analysis, impact assessment, policy development, regulatory compliance,
- carry out and review the Union's policy on electronic communication networks and services with a view to launching initiatives designed to meet the challenges in this dynamically evolving sector (convergence of electronic communication with audiovisual and content delivery),
- facilitate the implementation of the Digital Agenda for Europe, in actions related to broadband targets through regulation, policy and public financial assistance, including coordination with Cohesion Policy in the areas relevant to electronic communications networks and services,
- develop policies and coordination measures which will ensure that Member States implement their National Broadband Plans with reference to the fixed and mobile infrastructure and their possible convergence, including coherence and economic efficiency of public interventions at European and Member State levels,
- develop policy and legislation with a particular focus on issues related to access and authorisation of e-communications networks and services notably interoperability, interconnection, civil works, independence of regulators and new measures to strengthen the single market,
- facilitate the monitoring and implementation of relevant legislation in all Member States,
- provide coordination of infringement proceedings, and input to relevant state-aid matters,
- develop policy and legislation with a particular focus on issues related to retail and consumer issues notably net neutrality, switching, roaming, demand and use stimulation and universal service,
- develop and implement consistent market-based regulation to be applied by national regulatory authorities (NRAs) and to respond to individual notifications from those authorities, notably regarding relevant markets, competition and appropriate regulatory intervention, in particular for next generation access networks (NGAs),
- develop policies across the board which will ensure that Member States manage all uses of spectrum, including the different internal market realms such as e-communications, broadband Internet and innovation,
- promote and monitor the implementation of the regulatory framework for communication services (including the mechanism provided for in Article 7 of Directive 2002/21/EC of the European Parliament and of the Council of 7 March 2002 on a common regulatory framework for electronic communications networks and services (Framework Directive) (OJ L 108, 24.4.2002, p. 33),
- enable third countries to pursue a policy of opening up their markets to the same extent as in the Union,
- promote and monitor the implementation of the radio spectrum policy programme (RSPP) (Decision No 243/2012/EU of the European Parliament and of the Council of 14 March 2012 establishing a multiannual radio spectrum policy programme (OJ L 81, 21.3.2012, p. 7)).

The specific objectives of these measures are:

- the formulation of a Union policy and strategy in the field of communication services and networks (including convergence between electronic communications and audiovisual environments, aspects related to the Internet, etc.),
- the development of radio spectrum policy in the Union,
- the development of activities in the mobile and satellite communications sector, particularly as regards frequencies, and demand stimulation,

- an analysis of the situation and the legislation adopted in these areas, as well as state aid decisions,
- an analysis of the financial state of play and investment intensities in the sector,
- the coordination of these policies and initiatives as regards the international environment (e.g. WRC, CEPT, etc.),
- the development of activities and initiatives in relation to the Digital Agenda for Europe,
- the development of activities and initiatives in relation to Cohesion policy,
- the development and maintenance of the database in relation to the radio spectrum policy programme (RSPP) and other actions related to monitoring and the implementation of the programme.

These measures consist, inter alia, in preparing analyses and progress reports, consulting stakeholders and the public, preparing communications, legislative proposals and monitoring the application of legislation, and translations of notifications and consultations under Article 7 of the Framework Directive for electronic communications (Directive 2002/21/EC of the European Parliament and of the Council).

This appropriation is intended to cover, in particular, contracts for analysis and expert reports, specific studies, evaluation reports, coordination activities, grants and the part-financing of certain measures.

In addition, this appropriation is also intended to cover expenditure on meetings of experts, communication events, membership fees, information and publications directly linked to the achievement of the objectives of the policy or measures coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

#### *Remarks*

This appropriation is intended to cover the staff and administrative expenditure of the European Union Agency for Network and Information Security (Titles 1 and 2), and operational expenditure relating to the work programme only (Title 3).

The Agency was set up to enhance the capability of the Union, the Member States and, as a consequence, the business community to prevent, address and respond to network and information security problems. In order to achieve this goal, the Agency will be developing a high level of expertise and stimulating broad cooperation between actors from the public and private sectors.

The Agency's aim is to provide assistance and to deliver advice to the Commission and the Member States on issues related to network and information security falling within its competencies and to assist the Commission, where called upon, in the technical preparatory work for updating and developing Union legislation in the field of network and information security.

The Agency must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Pursuant to Article 208 of the Financial Regulation and the corresponding Articles of the framework Financial Regulation for each of

the bodies set up by the Communities, the role of the European Parliament and the Council has been strengthened.

The establishment plan of the Agency is set out in the Annex ‘Staff’ to this section.

The Union contribution for 2015 amounts to a total of EUR 9 155 661. An amount of EUR 55 049 coming from the recovery of surplus is added to the amount of EUR 9 100 612 entered in the budget.

#### *Remarks*

This appropriation is intended to cover the Office’s staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme only (Title 3).

BEREC acts as a specialised and independent expert advisory body assisting the Commission and the national regulatory authorities in the implementation of the Union regulatory framework for electronic communications in order to promote a consistent regulatory approach across the Union. BEREC is neither a Union body nor has legal personality.

The Office is established as a Union body with legal personality, providing BEREC with professional and administrative support in carrying out the tasks conferred on it by Regulation (EC) No 1211/2009.

The Office must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Pursuant to Article 208 of the Financial Regulation and the corresponding Articles of the framework Financial Regulation for each of the bodies set up by the Communities, the role of the European Parliament and the Council has been strengthened.

The establishment plan of the Office is set out in the Annex ‘Staff’ to this section.

The Union contribution for 2015 amounts to a total of EUR 4 017 244. An amount of EUR 519 101 coming from the recovery of surplus is added to the amount of EUR 3 498 143 entered in the budget.

### Remarks

This preparatory action follows on from 2013's successful pilot project. The proposed European Centre for Press and Media Freedom is a logical extension of the European Union Charter of Fundamental Rights and the European Charter on Freedom of the Press, acting as a single European-level 'drop-in centre' for journalistic organisations, individuals and media actors alleging violations of those charters. It will be the sole centre in Europe that monitors and documents any such violations. It will also sound the alarm in acute cases, for instance by organising support from foreign colleagues for journalists who need help. The centre will benefit from input from a wide range of sources, including academic centres, regional partners all over Europe and various journalistic organisations.

The centre will cover all 28 Member States and the candidate countries.

This will complement existing actions supported by the EU budget. More specifically, the centre will be the practical hands-on counterpart of the academically oriented Centre for Media Pluralism and Media Freedom based at the European University Institute in Florence. It will, furthermore, benefit from the momentum created by the High Level Group on Media Freedom and Pluralism set up by the Commission and by Parliament's resolution of 21 May 2013 on the EU Charter: standard settings for media freedom across the EU.

Remarks

This preparatory action follows on from the pilot project financed in 2013 and 2014 by Parliament, the main purpose of which was to test and apply the Media Pluralism Monitor (MPM) developed in 2009 at the request of the Commission by a consortium of European universities.

The MPM pilot project is currently being carried out by the Centre for Media Pluralism and Media Freedom (CMPF) at the Robert Schuman Centre for Advanced Studies/European University Institute, an academic centre established in 2011 by the Commission as part of the European Union's ongoing efforts to improve the protection of media pluralism and media freedom in Europe and to assess what action needs to be taken at European or national level to further those objectives. Under the pilot project, the CMPF is testing a streamlined version of the 2009 MPM on a representative sample of nine Member States: Belgium, Bulgaria, Denmark, Estonia, France, Greece, Hungary, Italy and the UK. Those countries were selected on the basis of objective criteria so as to ensure the highest degree of neutrality and to allow broad implementation in different circumstances.

Remarks

Actions under this article shall contribute to the objectives of the Connecting Europe Facility laid out in Article 3 of the Regulation of the European Parliament and of the Council on guidelines for trans-European networks in the area of telecommunications infrastructure.

Actions under this article shall contribute to the broadband-related objectives of the Connecting Europe Facility through studies and programme support actions, in particular technical assistance, as defined in Article 2 of Regulation (EU) No 1316/2013 of the European Parliament and of the Council ('the CEF Regulation').

Actions under this article shall typically be carried out through grants or procurement, either under direct management in the meaning of Article 58(1)(a) of the Financial Regulation or indirect management in the meaning of Article 58(1)(c) of the same Regulation.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Legal basis

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility, amending Regulation (EU) No 913/2010 and repealing Regulations (EC) No 680/2007 and (EC) No 67/2010 (OJ L 348, 20.12.2013, p. 129), and in particular Article 5(2)(a) thereof.

Remarks

Actions under this article shall contribute to the objectives of the Connecting Europe Facility laid out in Article 3 of Regulation (EU) No 283/2014 of the European Parliament and of the Council on guidelines for trans-European networks in the area of telecommunications infrastructure.

They shall support projects of common interest in the field of broadband networks.

Actions under this article shall contribute to the above objectives through financial instruments in accordance with Article 7(4) of Regulation (EU) No 1316/2013 of the European Parliament and of the Council ('the CEF Regulation').

The expenses shall cover financial assistance to broadband networks, as defined in Article 2 of Regulation (EU) No 283/2014.

Any repayment from financial instruments, including capital repayments, guarantees released, and repayment of the principal of

loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenues in accordance with Article 21(3) of the Financial Regulation may be used for the same financial instrument pursuant to Article 140(6) of the Financial Regulation.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

#### *Remarks*

Actions under this article shall contribute to the objectives laid out in Article 3 of Regulation (EU) No 283/2014 of the European Parliament and of the Council on guidelines for trans-European networks in the area of telecommunications infrastructure.

They shall support projects of common interest in the field of digital service infrastructures.

Actions under this article shall typically contribute to the above objectives through the instrument of grants and procurement:

- core service platforms will typically be financed through procurement, with the exception of Europeana,
- generic services will typically be financed through grants,
- digital platforms, such as Europeana, to help the creative industries and to facilitate economic activity based on digitised cultural resources.

The expenses shall cover the entire cycle of digital service infrastructures, including feasibility studies, implementation, continuous operation and upgrading, coordination and evaluation and technical assistance, as defined in Article 2 of the Regulation of the European Parliament and of the Council on guidelines for trans-European networks in the area of telecommunications infrastructure. The focus must not be entirely on the creation of digital services infrastructures and related services but also on the governance relating to the operation of such platforms and services.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

### Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for Horizon 2020 — the Framework Programme for Research and Innovation, which covers the 2014-2020 period.

Horizon 2020 shall play a central role in the implementation of the Europe 2020 flagship initiative ‘Innovation Union’ and other flagship initiatives, notably ‘Resource efficient Europe’, ‘An industrial policy for the globalisation era’, and ‘A digital agenda for Europe’, as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of the Union and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for the participation and dissemination in ‘Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)’ and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European Cooperation in the field of Scientific and Technical Research will be entered in Item 6 0 1 6 of the of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional

appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 09 04 50 01.

Administrative appropriations of this chapter will be provided under Article 09 01 05.

## ***Article 09 04 01 — Excellent science***

### *Remarks*

This priority of Horizon 2020 aims to reinforce and extend excellence in the Union's science base and ensure a steady stream of world-class research to secure the Union's long-term competitiveness. It will support the best ideas, develop talent within the Union, provide researchers with access to priority research infrastructure, and make the Union an attractive location for the world's best researchers. Research actions to be funded will be determined according to the need and opportunities of science, without pre-determined thematic priorities. The research agenda will be set in close liaison with the scientific community and research will be funded on the basis of excellence.

### Item 09 04 01 01 — Strengthening research in future and emerging technologies

#### *Remarks*

The specific objective is to foster radically new technologies by exploring novel and high-risk ideas building on scientific foundations. By providing flexible support to goal-oriented and interdisciplinary collaborative research on various scales and by adopting innovative research practices, the aim is to identify and seize opportunities of long-term benefit for citizens, the economy and society.

Activities under the 'Future and Emerging Technologies' specific objective shall address the entire spectrum of science-driven innovation: from bottom-up, small scale early explorations of embryonic and fragile ideas to building new research and innovation communities around transformative emerging research areas and large and federated research initiatives built around a research agenda aiming to achieve ambitious and visionary goals.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

### Remarks

The specific objective is to endow Europe with world-class research infrastructure which is accessible to all researchers in Europe and beyond and fully exploit their potential for scientific advance and innovation.

Activities will focus on development, deployment and operation of e-infrastructure. In addition, activities for innovation, strengthening human resources for research infrastructure, policy development and international cooperation are foreseen.

An integrated and service-driven approach will be taken to deliver e-infrastructures that respond to the needs of European science, industry and society in terms of development and deployment of integrated e-infrastructure services for a wide range of research communities (de-siloing). Maximising coordination and synergies with e-infrastructure development at national level and expanding e-infrastructure beyond science as such, to the science-industry-society triangle.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

## Article 09 04 02 — Industrial leadership

### Remarks

This priority of Horizon 2020 aims to make the Union a more attractive location to invest in research and innovation, by promoting activities where businesses set the agenda as well as at accelerating the development of new technologies which will underpin future businesses and economic growth. It will provide major investment in key industrial technologies, maximise the growth potential of Union companies by providing them with adequate levels of finance and help innovative SMEs to grow into world-leading companies.

### Remarks

The specific objective is to maintain and build global leadership in enabling technologies, which underpin competitiveness across a range of existing and emerging industries and sectors. In line with the Digital Agenda for Europe, the specific objective of ICT research and innovation is to enable Europe to develop and exploit the opportunities brought by ICT progress for the benefits of its citizens, businesses and scientific communities.

ICT underpins innovation and competitiveness across a broad range of private and public markets and sectors, and enables scientific progress in all disciplines. Over the next decade, the transformative impact of digital technologies, ICT components, infrastructures and services will be increasingly visible in all areas of life.

Activities will strengthen the Union's scientific and technology base and insure its global leadership in ICTs, help drive and stimulate innovation through ICT use and ensure that ICT progress is rapidly transformed into benefits for Europe's citizens, businesses, industry and governments. The activities under the 'Leadership in information and communications technology' specific objective will be primarily based on research and innovation agendas defined by industry and business, together with the research community and will have a strong focus on leveraging private sector investment.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

Regulation (EU) No 1291/2013 of the European Parliament and of the Council of 11 December 2013 establishing Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020) and repealing Decision No 1982/2006/EC (OJ L 347, 20.12.2013, p. 104).

Council Decision 2013/743/EU of 3 December 2013 establishing the specific programme implementing Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020) and repealing Decisions 2006/971/EC, 2006/972/EC, 2006/973/EC, 2006/974/EC and 2006/975/EC (OJ L 347, 20.12.2013, p. 965), and in particular Article 3(2)(a)(i) thereof.

### **Article 09 04 03 — Societal challenges**

#### *Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

#### *Remarks*

The vision of the eHealth Action Plan 2012-2020 is to utilise and develop eHealth to address several of the most pressing health and health systems challenges of the first half of the twenty-first century, namely:

- to improve chronic disease and multimorbidity (multiple concurrent disease) management and to strengthen effective prevention and health promotion practices,
- to increase the sustainability and efficiency of health systems by unlocking innovation, enhancing patient/citizen-centric care and citizen empowerment and encouraging organisational changes,
- to foster cross-border healthcare, health security, solidarity, universality and equity,
- to improve legal and market conditions for developing eHealth products and services.

ICT-based products and services have demonstrated their capacity to help address these major challenges in the form of personalised health, telehealth and telecare solutions, service robotics for health and care, support for prolonged active and independent living and home based care. It is also a major new growth opportunity as large new markets for ICT-based products and services emerge to

address health, demographic change and well-being.

Activities will cover development and exploitation of ICT for health, well-being and ageing well solutions. This will build on the emergence of underpinning technologies arising out of ICT in LEIT such as micro-nano systems, embedded systems, robotics, Internet of the future and cloud technologies. It will also build on further development of security- and privacy-enhancing technologies.

The Ambient Assisted Living Research and Development Joint Programme will also be supported to contribute to market availability and exploitation of ICT-based products and services and the ICT innovation and pilot projects will be further supported in response to the European Innovation Partnership on Active and Health Ageing and the eHealth 2020 action plan.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services – CESES – and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. For that to be achieved, Union authorising officers are encouraged to make full use of the possibilities offered by the new Financial Regulation, including CESES contributions in kind to Union projects.

#### *Remarks*

The specific objective is to foster inclusive, innovative and reflective European societies in a context of unprecedented transformations and growing global interdependencies.

Activities will cover four main areas: ICT-enabled public sector innovation, understanding and preserving Europe’s intellectual basis, learning and inclusion.

ICT-enabled public sector innovation refers to the use of ICT for the creation and implementation of new processes, products, services and methods of delivery which result in significant improvements in the efficiency, effectiveness and quality of public services. The future public administrations should be digital and cross-border by default. Activities cover fostering efficient, open and citizen-centric public services, involving the public sector as an agent for innovation and change as well as cross-border innovation measures or seamless delivery of public services.

The aim of the second challenge is ‘to contribute to an understanding of Europe’s intellectual basis: its history and the many European and non-European influences; as an inspiration for our lives today’.

The aim of the third challenge is to support the widespread adoption of ICT in schools and for training in Europe.

The fourth challenge is to get the elderly (aged 65 and above), the unemployed and low educated, migrants, people in need of care, people living in remote or poorer areas, persons with disabilities, and the homeless to fully participate in society. Activities focus on empowering them with the necessary digital skills and providing them with access to digital technologies.

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences,

workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

*Remarks*

*New item*

The specific objective is to secure societies, protecting freedom and security of Europe and its citizens.

The integrated portfolio of activities will develop solutions to protect our society and economy against accidental or man-made disruptions of the information and communication technologies our society and economy depends on; providing solutions for end-to-end secure ICT systems, services and applications; safeguarding the human right of privacy in the digital society; providing the incentives for the industry to supply secure ICT; stimulating the uptake of secure ICT. The aim is to ensure cyber security, trust and privacy in the Digital Single Market, whilst at the same time improving the competitiveness of the EU security, ICT and service industries. Another objective is to increase users trust in their participation to the Digital Society, and overcome citizens' concern with the disclosure of their personal information online because of security issues (e.g. internet usage for banking or purchases).

Activities cover collaboration, networking actions and national programme coordination initiatives. Also entered in this item are the costs of independent experts assisting in proposal evaluations and project reviews, the costs of events, meetings, conferences, workshops and seminars of European interest organised by the Commission, the costs of studies, analyses and evaluations, the costs of monitoring and evaluation of the specific programme and of the framework programmes and the costs of measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

#### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

At a time when unemployment among the new generations is alarming, Europe must become an innovation driven society in order to get back on the growth path. For this purpose, it is necessary to create new technologies and to reinvent the ways Union citizens can acquire, transfer and co-construct knowledge. Higher education and research are rapidly evolving. Creating new knowledge technologies requires training teachers, students and researchers alike as well as any individual who needs to adapt to new market demands. Given the ever growing flow of data, a capacity is needed to empower Union citizens to access content and to learn anywhere and anytime in an open collaborative learning ecosystem. Many endeavours, such as citizen science, scientific discovery games and Massive Open Online Course (MOOCs), show that — like many other sectors — education and research are rapidly evolving. Europe can only catch up and take the lead provided it invests in the next generation of tools and in the coming generations of individuals willing to reinvent learning, teaching and research tools.

The initiative 'Opening up education' proposed by the Commission aims at creating the basis for a stronger exploitation of ICT in education. The goal is to make access to education easier and increase efficiencies in learning through sharing and opening content to

all individuals. While this initiative aims at making content available, there is still a need for mapping and certifying the knowledge acquired.

Given the current youth unemployment that co-exists with a lack of skilled workers in many Member States, the Union clearly lacks an essential component to fill this knowledge gap. The interests and the current knowledge of individuals should be matched not only with the most demanded labour market skills but also with the possible learning roadmaps that can help them acquire the required knowledge and skills.

In order to fully exploit the potential of this new type of learning systems for the labour market, methods are needed that are able to validate the quality of their learning. Consequently, a mechanism has to be found that allows individuals to assess their competencies (create their individual knowledge map), the knowledge required on the labour market and the learning path that can link the two, hence providing the right content to each individual. Only by doing so, it can be assured that the right content is available to the right target group of individuals. In order to be able to track the learning path, a validation of the acquired knowledge, possible through online certificates or badges must be made available.

This type of social and technological innovations can benefit all citizens regardless of their level of resources, the languages they speak, their age, their health or their cultural capital. Such a project will thus contribute to bridging the knowledge gap and reducing unemployment by helping especially the young currently unemployed to maximize their learning and find new career opportunities.

#### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project proposal aims at testing wellbeing and healthcare service applications in Open Access FTTH-Networks. The future delivery of well-being and healthcare services is to rely on FTTH based solutions, and the realisation of a full-scale high-speed eHealth solution would contribute in achieving one of the Union's Digital Agenda targets.

The project will explore, identify and test new and existing eHealth applications to improve profitability and usability of services. The project aims, for instance, to evaluate patient empowerment and ability of wellbeing and healthcare professionals to share digital patient information. Open Access FTTH-Networks have the potential to carry out a range of eHealth solutions, eg. personal health information management, patient in-home monitoring, sending X-rays from the central hospital to the rural area medical centre, and tele-physiotherapy.

The project is to be implemented in rural regions with long distances and with already *existing* co-operative based FTTH-Networks that operate in a real open access principle. Such network exists for instance in Southern Ostrobothnia. Being distant from the physical service providers and having demographic challenges, rural areas should be especially targeted when providing electronic wellbeing and healthcare solutions in the future.

FTTH is the most advanced technology to support specific wellbeing and healthcare service applications with fast symmetric connections and low latencies, notably by providing both high speeds downstream and upstream. Most importantly, open access model enables all service providers to offer their services in the same fibre for free. This fair competition is considered to improve the promotion of services, value for money and accessibility.

This pilot project is unique and not redundant or in conflict with any national or Union programmes. The deployment of broadband networks is not the focus of this pilot project, and therefore it is not overlapping with the existing national or Union programs of deployment of broadband in Member States.

The duration of this pilot project is two years.

### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The pilot project aims to accelerate the full use of Europe's intellectual capital to the benefit of citizens, entrepreneurs and scientists through new media tools.

The aim is to develop an e-infrastructure based on the concepts of social networks, to promote direct communication between researchers, businesses and media within the European Research Area (ERA).

Beginning from the strategic areas around the priority 'Societal challenges', as outlined in Europe 2020 strategy, the pilot project will support the creation of virtual clusters on these key themes creating a direct way for open dialogue between science and society.

The pilot project will promote active interaction between science, citizens and policymakers through the involvement of European media and social media, in order to support participation of citizens in research agenda setting, on-going research processes, as well as in discussions on the results and impacts of research for society, policy and further research.

The objectives of the pilot project are:

- to develop a reliable, non-profit e-infrastructure (similar to social networks) as basic tool to promote stronger communication and dialogue across disciplines, sectors and borders;
- to integrate identity security of researchers and other actors to ensure a reliable and secure environment;
- to connect to existing research databases ensuring a single access point to research results from all countries and disciplines (interoperability) connecting also to existing European initiatives;
- to create virtual clusters on the topics of the 'societal challenges' that brings together researchers, industry, media and policy makers to enhance collaborations on these key themes, starting from the existing European collaborations and creating an easy and useful tool to facilitate dialogue and collaborations;
- to create a direct dialogue between these virtual clusters (see point d) and citizens through the connection to leading European media.

The project intends to respond to some of the needs and concerns outlined in the Digital Agenda and Horizon 2020.

Current issues that the project will address: recent ICT developments have shown how the power of social networks and e-infrastructures can help harness the potential of networks.

In fact the problems of the existing online environment for research e-Infrastructures are:

- size: the majority of existing networks are too small to go beyond the specific field and research group (according to Commission statistics, the average size of an online network of researchers is around 100 users). A large interoperable network is needed that allows researchers and other stakeholders to find the information they are looking for across sectors and disciplines with a familiar tool,
- reach: traditionally, networks bring together users within the same field and sector. In order to unlock the innovation capacity of Europe, the creation of transdisciplinary (inter-sectorial and inter-disciplinary) connections needs to be made easier,
- reliability: one of the major reasons why big networks in research have not been successful is that existing relations are still based on personal connection and the identities on online networks are not trusted. In order to really foster transdisciplinary

connections, a system is needed where the identity verification creates a secure environment for all users engaged,

- trust: a pivotal aspect for any network is trust. Based on market studies a European social network/e-infrastructure would need to be developed in collaboration with the different stakeholders, be non-profit and have a clear IP policy developed together with researchers.

#### *Remarks*

These remarks apply to all the budget lines in the 'Direct research' policy area (with the exception of Chapter 10 05).

These appropriations are intended to cover expenditure relating to:

- staff occupying posts on the authorised establishment plan of the Joint Research Centre (JRC) and external personnel implementing the Research and Innovation programmes,
- staff-related costs such as missions, training, medical services and recruitment,
- operation and functioning of the JRC institutes, administrative support, safety and security of the sites, IT related expenditure, non-recurrent costs and major research infrastructures,
- research and support activities including exploratory research, scientific and technical equipment, subcontracting of services, etc.,
- research and scientific support tasks relating to activities entrusted to the JRC within the framework of its participation on a competitive basis in support of the Union's policies and on behalf of outside bodies.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 2 2 4 and 6 2 2 5 of the statement of revenue may give rise to the provision of additional appropriations.

Miscellaneous revenue may give rise to the provision of additional appropriations to be used in Chapters 10 02, 10 03 or 10 04 or Article 10 01 05, depending on their purpose.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The possibility of third countries or organisations from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Item 6 0 1 3 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

The additional appropriations will be provided under Items 10 02 50 01 and 10 03 50 01.

### **Article 10 01 05 — Support expenditure for research and innovation programmes in the ‘Direct research’ policy area**

#### Remarks

In accordance with Article 21 and Article 183(2) of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 6 of the statement of revenue may give rise to the provision of additional appropriations.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 2 2 1, 6 2 2 4 and 6 2 2 5 of the statement of revenue may give rise to the provision of additional appropriations. Such revenue will be used to cover, inter alia, expenditure incurred on staff and resources in respect of work for third parties carried out by the Joint Research Centre.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 0 1 3 and 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations.

The appropriations could be supplemented by appropriations that the Joint Research Centre will earn by participating on a competitive basis in indirect actions and in scientific and technical activities in support of Union policies. The activities of a competitive nature conducted by the JRC shall consist of:

- activities carried out following grant or procurement procedures,
- activities on behalf of third parties,
- activities undertaken under an administrative agreement with other institutions or other Commission departments for the provision of technical-scientific services.

*Remarks*

This appropriation is intended to cover expenditure relating to officials and temporary staff occupying posts on the authorised establishment plan of the Joint Research Centre implementing research and innovation programmes — Horizon 2020, and in particular:

- direct action, consisting of research activities, scientific and technical support activities, and exploratory research activities undertaken in the establishments of the Joint Research Centre,
- indirect action, consisting of programmes implemented as part of the Joint Research Centre's activities conducted on a competitive basis.

Staff costs comprise the basic salary, allowances, miscellaneous indemnities and contributions based on the statutory provisions, including expenses related to the entry into service, change in the place of employment and termination of service.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

This appropriation is intended to cover:

- staff-related expenditure not covered by Items 10 01 05 01 and 10 01 05 02 including missions, training, medical and social services, expenditure on organising competitions, interviewing candidates, representation costs, etc.,
- expenditure in respect of all resources used for the implementation of the Joint Research Centre (JRC) activities; this includes:
  - expenses related to the operation and functioning of JRC institutes: regular maintenance of buildings, technical infrastructure and scientific equipment; utilities and fluids; heating, cooling and ventilation; workshop materials and equipment; cleaning of sites, roads and buildings; waste management; etc.,
  - expenses related to the administrative support of JRC institutes: furniture; stationery; telecommunications; documentation and publications; transport; miscellaneous supplies; general insurances; etc.,
  - expenses related to the safety and security of the sites: health and safety at work; radioprotection; fire-brigade; etc.,
  - IT related expenditure: computer rooms; hardware and software; networking services; information systems; help-desk and assistance to users; etc.,
  - non-recurrent costs: this appropriation covers renovation, rehabilitation and construction works on the JRC sites. It addresses expenses such as exceptional maintenance costs, renovation works, adaptation to new standards, etc. It may also finance research infrastructures not covered by Item 10 01 05 04.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. #### Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for Horizon 2020 — the Framework Programme for research and innovation which covers the 2014-2020 period.

Horizon 2020 shall play a central role in the delivery of the Europe 2020 strategy for smart, sustainable and inclusive growth ('Europe 2020 strategy') by providing a common strategic framework for the Union's funding of excellent research and innovation, thus acting as a vehicle for leveraging private and public investment, creating new job opportunities and ensuring Europe's long-term sustainability, growth, economic development, social inclusion and industrial competitiveness, as well as addressing societal challenges across the Union.

This appropriation is intended to be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

#### Remarks

This appropriation is intended to cover the scientific and technical support and research activities carried out by the Joint Research Centre in accordance with Part VI of the Specific Programme Implementing Horizon 2020 'Non-nuclear direct actions of the Joint Research Centre (JRC)', in order to provide customer-driven scientific and technical support to European Union policies. The JRC shall focus on:

- excellent science: the JRC will carry out research to enhance the scientific evidence base for policy making and to examine emerging fields of science and technology, including through an exploratory research programme,
- industrial leadership: the JRC will contribute to European competitiveness through support to the standardisation process and standards with pre- normative research, development of reference materials and measurements, and harmonisation of methodologies in five focal areas (energy; transport; the flagship initiative 'Digital Agenda for Europe'; security and safety; consumer protection). It will carry out safety assessments of new technologies in areas such as energy and transport and health and consumer protection. It will contribute to facilitating the use, standardisation and validation of space technologies and data, in particular to tackle the societal challenges,
- societal challenges: the JRC will carry out research on the following themes: health, demographic change and well-being; food security, sustainable agriculture and forestry, marine and maritime and inland water research and the bio-economy; secure, clean and efficient energy; smart, green and integrated transport; climate action, environment, resource efficiency and raw materials; Europe in a changing world — inclusive, innovative and reflective societies; secure societies — protecting freedom and security of Europe and its citizens.

This appropriation covers specific expenditure relating to research and support activities, including the purchase of scientific and technical equipment, subcontracting of scientific and technical services, access to information, acquisition of consumables, etc. This includes expenditure on scientific infrastructure directly incurred for the projects concerned.

It also covers expenditure of any type concerning research and scientific support tasks relating to activities under this article entrusted to the Joint Research Centre within the framework of its participation on a competitive basis in support of the Union policies and on behalf of outside bodies.

In accordance with Article 21 and Article 183(2) of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 6 of the statement of revenue may give rise to the provision of additional appropriations.

### Remarks

The Research and Training Programme on European Atomic Energy Community (2014-2018) (Euratom Programme) is an integral part of Horizon 2020, the Framework Programme for Research and Innovation. The Euratom Programme will strengthen the research and innovation framework in the nuclear field and coordinate Member States' research efforts, thereby avoiding duplication, retaining critical mass in key areas, and ensuring public funding is used in an optimal way.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in 'Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)' and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The general objective of the Euratom Programme is to pursue nuclear research and training activities with an emphasis on continuous improvement of nuclear safety, security and radiation protection, notably to potentially contribute to the long-term decarbonisation of the energy system in a safe, efficient and secure way. It will cover both RTD indirect actions on the fusion research and development, nuclear fission, safety and radiation protection research activities, as well as the JRC direct actions in nuclear security and safety. The JRC will provide independent customer-driven scientific and technological support for the implementation and monitoring of Community policies, in particular in the field of nuclear safety and security research and training. By achieving these objectives, the Euratom Programme will reinforce outcomes under the three priorities of the Horizon 2020 Framework Programme: excellent science, industrial leadership and societal challenges. These objectives are clearly linked to those of the Europe 2020, the Energy 2020 strategies and the creation and operation of the European Research Area.

### *Remarks*

This appropriation is intended to cover the scientific and technical support and research activities carried out by the Joint Research Centre to implement the Research and Training Programme of the European Atomic Energy Community (2014-2018). The Euratom Programme direct actions shall have the following specific objectives:

- to improve nuclear safety including: nuclear reactor and fuel safety, waste management, including final geological disposal as well as partitioning and transmutation; decommissioning, and emergency preparedness,
- to improve nuclear security including: nuclear safeguards, non-proliferation, combating illicit trafficking, and nuclear forensics,
- to increase excellence in the nuclear science base for standardisation,
- to foster knowledge management, education and training,
- to support the policy of the Union on nuclear safety and security.

This appropriation also addresses the activities necessary for implementing safeguards pursuant to Chapter 7 of Title II of the Euratom Treaty and the obligations arising from the Non-Proliferation Treaty and implementation of the Commission's programme to support the International Atomic Energy Agency (IAEA).

It covers specific expenditure relating to research and support activities, including the purchase of scientific and technical equipment, subcontracting of scientific and technical services, access to information, acquisition of consumables, etc. This includes expenditure on scientific infrastructure directly incurred for the projects concerned.

This appropriation also covers expenditure of any type concerning research and scientific support tasks relating to activities under this article entrusted to the Joint Research Centre within the framework of its participation on a competitive basis in support of Union policies and on behalf of outside bodies.

In accordance with Article 21 and Article 183(2) of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 6 of the statement of revenue may give rise to the provision of additional appropriations.

This article is intended to receive the appropriations required for expenditure specific to the various tasks performed on behalf of outside bodies. It includes research and supply of services under contract to third parties, such as industry, national or regional authorities, as well as contracts in the context of Member States' research programmes. This may cover the following:

- the provision of supplies, services and work carried out in general against payment, including certified reference materials,
- the operation of facilities for the benefit of Member States, including the irradiation for outside bodies in the high-flux reactor (HFR) at the Petten establishment of the Joint Research Centre,
- the performance of research activities and the provision of services additional to the specific research programmes, including the industrial clubs for which the partners from industry must pay an enrolment fee and annual subscriptions,
- cooperation agreements with third parties.

In accordance with Article 21 of the Financial Regulation, any revenue entered in Items 6 2 2 3 and 6 2 2 4 of the statement of revenue may give rise to the provision of additional appropriations.

Additional appropriations will be provided for this article, in accordance with Article 21 and Article 183(2) of the Financial Regulation, to cover specific expenditure for each contract with an outside body to the amount of the revenue to be entered in Item 6 2 2 3 of the statement of revenue.

*Remarks*

This appropriation is intended to cover the non-operational technical assistance for the European Maritime and Fisheries Fund (EMFF) provided for in Article 58 of Regulation (EU) No 1303/2013 and Article 91 of the proposal for a Regulation COM(2011) 804 final.

It may, in particular, be used to cover:

- expenditure incurred on external personnel at headquarters (contract agents, seconded national experts or agency staff) up to EUR 850 000, including support expenditure (representation expenses, training, meetings, missions relating to the external personnel financed under this line) required for the implementation of the EMFF and the completion of measures under its predecessor the European Fisheries Fund (EFF) relating to technical assistance,
- expenditure on external personnel (contract staff, local staff or seconded national experts) in the Union’s delegations in third countries, as well as additional logistical and infrastructure costs, such as the cost of training, meetings, missions and renting of accommodation directly resulting from the presence in delegations of external personnel remunerated from the appropriations entered against this item,
- expenditure on mission by third country delegations attending meetings to negotiate fisheries agreements and joint committees,
- expenditure on studies, evaluation measures and audits, meetings of experts and the participation of stakeholders in ad hoc meetings, seminars and conferences pertaining to major topics, information and publications in the field of maritime affairs and fisheries,
- expenditure on information technology (IT) covering both equipment and services,
- participation of scientific experts in meetings of Regional Fisheries Management Organisations,
- any other expenditure on non-operational technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

This appropriation may also cover expenditure for preparatory, monitoring, administrative and technical support, evaluation, audit and inspection measures related to fisheries market intervention previously financed under the common agricultural policy in accordance with Article 5(a) to (d) of Regulation (EC) No 1290/2005.

#### Remarks

Article 39 of Regulation (EC) No 1260/1999 provides for financial corrections, any revenue from which is entered in Item 6 5 0 0 of the statement of revenue. That revenue may give rise to the provision of additional appropriations, in accordance with Article 21 of the Financial Regulation, in specific instances where they are necessary to cover risks of cancellation or of reductions in corrections previously decided upon.

Regulation (EC) No 1260/1999 determines the conditions for repayment of an advance without having the effect of reducing the contribution from the Structural Funds towards the assistance concerned. Any revenue from the repayment of advances entered in Item 6 1 5 7 of the statement of revenue will give rise to the provision of additional appropriations in accordance with Articles 21 and 178 of the Financial Regulation.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law.

Articles 85, 144 and 145 of the Regulation (EU) No 1303/2013 on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the EMFF.

Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with Article 21(3)(c) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

Measures to combat fraud are funded under Article 24 02 01.

#### *Remarks*

This appropriation is intended to cover the financing of the commitments remaining to be settled from earlier programming periods relating to EFF technical assistance measures as provided for in Article 46 of Regulation (EC) No 1198/2006. The technical assistance measures include studies, evaluations, measures aimed at the partners, measures to disseminate information, installation, operation and interconnection of computerised systems for the management, monitoring, audit, inspection and evaluation, improvements in evaluation methods and the exchange of information on practices in this field and the establishment of trans-national and Union networks of actors in the sustainable development of coastal fishing zones.

Technical assistance covers preparatory, monitoring, audit, evaluation, supervision and management measures required to implement the EFF.

This appropriation may, in particular, be used to cover:

- support expenditure (representation expenses, training, meetings, missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contracts for the provision of services,
- support for networking and exchange of best practices.

#### *Remarks*

This appropriation is intended to cover the financing of the commitments remaining to be settled relating to the operational programmes of the European Fisheries Fund (EFF) convergence objective for the 2007-2013 programming period.

Actions financed under this Article should take into account the need to maintain a stable and enduring balance between the capacity

of the fishing fleets and the resources available, and the need to promote a safety culture within fishing.

This appropriation is also intended to cover the financing of the commitments remaining to be settled from earlier programming periods relating to the financing of actions to improve fishing gear selectivity.

### Remarks

This appropriation is intended to cover the payments for actions of the 2007 to 2013 period and relating to the expenditure incurred by Member States in implementing the monitoring and control systems applicable to the Common Fisheries Policy for:

- investments relating to control activities carried out by administrative bodies or by the private sector including implementation of new control technologies such as electronic recording systems (ERS), vessel monitoring systems (VMS), automatic identification systems (AIS) connected with vessels detection systems (VDS) and the purchase and modernisation of control means,
- training and exchange programmes for civil servants responsible for monitoring control and surveillance tasks in the fisheries area,
- implementation of pilot inspection and observer schemes,
- cost/benefit analysis, assessment of expenditure and audits incurred by competent authorities in carrying out monitoring, control and surveillance,
- initiatives, including seminars and media tools, aimed at enhancing awareness both among fishermen and other players such as inspectors, public prosecutors and judges, and among the general public of the need to fight irresponsible and illegal fishing and on the implementation of the rules of the Common Fisheries Policy,
- implementation of systems and procedures to enable traceability and instruments to control fleet capacity through the monitoring of engine power,
- pilot projects such as CCTV (closed circuit television).

This appropriation also covers the control actions under direct management included in the EMFF:

- joint purchase and/or chartering by several Member States belonging to the same geographical area, of patrol vessels, aircrafts and helicopters, provided they are used at least 60 % of the time for fisheries control,
- assessment and development of new control technologies, as well as processes for the exchange of data,

#### *Remarks*

This appropriation is intended to cover the Union's voluntary contributions to international organisations active in the field of fisheries and the law of the sea. It may in particular finance:

- preparatory work on new sustainable fisheries agreements,
- contributions and registration fees for meetings of international fisheries organisations in which the Union has observer status (Article 217 of the Treaty on the Functioning of the European Union), i.e. the International Whaling Commission (IWC), and the Organisation for Economic Cooperation and Development (OECD),
- support for the follow-up and implementation of some regional projects, in particular by contributing to specific joint international control and inspection activities. This appropriation should also cover surveillance programmes to be negotiated in West Africa and the Western Pacific,
- financial contributions to preparations for new international fisheries organisations which are of interest to the Union,
- financial contributions to scientific work carried out by international fisheries organisations which is of special interest to the Union,
- financial contributions to any activity (including working, informal or extraordinary meetings of contracting parties) which upholds the interests of the Union in international organisations and strengthens cooperation with its partners in these organisations. In this connection, when the presence of representatives of third countries in negotiations and meetings within international forums and organisations becomes necessary for the Union interests, the EMFF shall bear the costs of their participation,
- grants to regional bodies in which coastal states are involved in the subregion concerned,
- grants to international fisheries organisations activities which are of interest to the Union.

#### *Remarks*

This appropriation is intended to finance the following activities under the action plan for closer dialogue with the fishing industry and those affected by the Common Fisheries Policy and the Integrated Maritime Policy:

- grants to (Regional) Advisory Councils (after the reformed CFP regulation is adopted, existing Regional Advisory Councils (RACs) will be transformed in Advisory Councils (ACs) and new ones will be created) to cover operational costs as well as interpretation and translation costs of (R)AC meetings,
- the implementation of measures to provide documentation about and explain the Common Fisheries Policy aimed at the fishing industry and those affected by the Common Fisheries Policy, as well as the Integrated Maritime Policy.

The Commission will continue supporting the functioning of the ACs with a financial contribution. It will participate in meetings when appropriate and analyse the recommendations issued by the ACs which may provide an input when drafting legislation. Through the consultation of stakeholders in the (R)ACs, the involvement of people working in fisheries and other interest groups in the common fisheries policy process will be strengthened, so that greater account of specific regional characteristics is taken.

Part of the appropriation is earmarked also for information and communication activities linked to the Common Fisheries Policy and the Integrated Maritime Policy as well as for communication activities addressed to the interested parties. Efforts will continue to be made to inform the stakeholders and the specialised media in the new Member States as well as in the countries joining the Union in the forthcoming enlargement about the Common Fisheries Policy and the Integrated Maritime Policy.

Any revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

This appropriation is intended to cover EMFF technical assistance measures as provided for in Article 91 of the proposal for a Regulation of the European Parliament and of the Council on the European Maritime and Fisheries Fund (COM(2011) 804 final).

Technical assistance covers preparatory, monitoring, audit, evaluation, supervision and management measures required to implement the EMFF.

It may, in particular, be used to cover:

- studies, evaluations and expert reports,
- actions to disseminate information, support networking, carry out communication activities, raise awareness and promote cooperation and exchange of experience, including with third countries,
- the installation, operation and interconnection of computerised systems for management, monitoring, audit, control and evaluation,
- actions to improve evaluation methods and the exchange of information on evaluation practices,
- actions related to audit,
- the establishment of trans-national and Union networks of actors in the sustainable development of coastal fishing zones.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Commercial designations fall within the remit of each Member State's national authorities; a single instrument should be put in place to give European consumers guarantees that the various designations are transparent and coherent, and to make it easier to verify the information concerned.

The purpose of a pilot project would be to set up:

- a database containing all information in connection with commercial designations (codes from FAO nomenclatures, combined nomenclatures, customs nomenclatures, health nomenclatures or INN); the scientific names of species according to the FishBase system; names of species in the official languages of the Member States and, possibly, accepted regional or local designations),
- an expert system to analyse consistency between the various designations and nomenclatures,
- a dedicated Internet site.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

It is intended to be used to:

- assess the feasibility for making the best possible use of active fishing vessels which need to be decommissioned from the Union fleet and of fishermen's experience and practical know-how to benefit both of the fishermen themselves and society at large,
- test under close to real-life conditions the technical and economic viability of redeploying — from fishing to maritime activities — individuals who have been active in the sector as crew members and who can no longer make their living from fishing and possess maritime experience and knowledge at risk of being lost in case alternative sources of income are sought in land-based activities,
- test under close to real-life conditions the feasibility of converting fishing vessels into vessels operating as a platform for a number of environmental and maritime activities outside fishing, in particular collecting marine litter,
- identify under close to real-life conditions the necessary operating costs of a vessel operating under such conditions and the potential sources of funding; however, any such funding should be limited to supporting the start-up of activities that are self-sustaining in the long term,
- identify the appropriate training needed for fishermen in order to perform new duties and achieve useful results,
- support reduction of fishing capacity in line with CFP reform objectives by providing positive incentives for vessel-owners and fishermen who leave the sector and encouraging them to find/develop alternative activities at sea and/or in coastal areas,

- encourage activities complementing fishing for those fishermen staying in the sector,
- identify the necessary administrative and legal framework for collaborating with the relevant authorities and/or relevant administrative bodies and for coordinating 'Guardians of the Sea' activities with them,
- test under close to real-life conditions the implementation of the 'Guardians of the Sea' concept in the next programming period.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This appropriation is intended to finance support measures for small-scale fishing which will help coordinate actions and channel funds from other instruments, with a view to dealing with the specific problems in this part of the fisheries sector.

The pilot project will involve:

- analysing the EU's small-scale fishing sector;
- identifying the EU instruments and funding sources that could be used by this sector;
- establishing the uses to which the instruments, actions, measures and funding available are being put by the small-scale fishing sector;
- analysing the extent to which existing instruments can meet the needs of the small-scale fishing sector and, on the basis of that analysis, proposing any adjustments that may be necessary;
- supporting fishermen's groups, professional organisations and NGOs associated with small-scale fishing, with a view to their coordination, preparation and participation in advisory councils.

The intention is to lay the foundations for an EU support programme for small-scale inshore fishing and artisanal fishing which will help coordinate actions and channel funds from other instruments, with a view to dealing with the specific problems in this sector of the fishing industry.

Item 11 06 77 09 — Pilot project — Development of innovative, low-impact offshore fishing practices for small-scale vessels in outermost regions, including exchange of good practices and fishing trials

##### Objectives

Fishing communities in the outermost regions (ORs) are facing unique and atypical challenges. In response to those challenges, new fishing techniques have developed separately in different ORs. This pilot project will, by involving local fishing communities and stakeholders, explore the feasibility of transferring new fishing techniques from OR to OR.

The main objective is to encourage and share best practices, which may involve new low-environmental-impact fishing techniques, and promote offshore experimental fishing.

By doing this it may be possible to identify viable alternatives which allow the small-scale fishing sector to move its inshore fishing effort offshore, thus reducing fishing pressure on coastal resources. This may allow fishermen in ORs to maintain traditional fishing activities while moving to more environment-friendly and economically viable techniques.

This will also improve the supply to local markets of good-quality fish produced in situ, resulting in associated benefits for the tourism sector, and reduce the need for imports.

##### Specifications

The fishing practices to be developed in one or more ORs must be new to the region concerned. They could, however, be mature in another region but never have been introduced in the ORs in question. Exchange of good fishing practice among operators is key to success.

Fishing practices must have a low environmental impact, in that the techniques themselves must be environment-friendly and the fishing operations must be small in scale.

The project will involve an initial feasibility study, exchanges of views among experts from different regions and fishing trials involving scientific experts. The expected deliverable is a report detailing the technical aspects of the innovative fishing practices concerned, together with the yields obtained in the experimental trials. This will facilitate the transition towards viable alternative fishing practices for the ORs' small-scale fleets.

The report will also assess the potential investment needed (for example, in new gears) and assess the economic viability for fishermen to use the innovative fishing practices. As appropriate, synergies with the European Maritime and Fisheries Fund may be included in this assessment.

##### Explanation

All this points to the need to find fish further offshore or in new resources. In some ORs, such as the Azores and Madeira, offshore fishing is well developed and targeted at deep-water resources and, to some extent, large migratory fish, mainly using hook-and-line techniques with a very low environmental impact. In other ORs, particularly French ORs, techniques have been developed to fish for large migratory fish with anchored fish aggregating devices (FADs). Although some trials have been carried out, fishing for deep-water resources in French ORs has yet to be properly developed, and the know-how of the experts from the Azores and Madeira would be beneficial there. Similarly, while fishing over anchored FADs is well developed in French ORs, it is not in the Portuguese and Spanish ORs. Exchanges of fishing practices and experimental trials could be the starting point for adapting these techniques and using them more widely.

### *Remarks*

This appropriation is intended to cover expenditure arising in connection with measures contributing to the completion of the internal market and its operation and development, and measures contributing, in particular, to:

- greater proximity to citizens and businesses, including the development and strengthening of dialogue with citizens and businesses: via measures intended to make the operation of the internal market more effective, and to ensure that citizens and businesses are able to gain access to the most extensive rights and opportunities, resulting from the opening up and deepening of the internal market without borders and are able to exercise those rights and opportunities in full; and via monitoring and evaluation measures relating to the practical exercise by citizens and businesses of their rights and opportunities with a view to identifying and facilitating the removal of any obstacles which may be preventing them from exercising those rights in full,
- implementing and monitoring the provisions governing public contracts with a view to ensuring their optimum operation and that tenders are genuinely open, including the awareness-raising and training of the various parties to these contracts; the introduction and use of new technologies in the various fields of operation of these contracts; the continuous adaptation of the legislative and regulatory framework in the light of developments arising from these contracts, particularly the globalisation of markets and existing or future international agreements,
- improvement, through the European business test panel (EBTP), of the legal environment for citizens and businesses, for which promotion activities, awareness-raising and training actions could be envisaged; fostering cooperation, development and coordination of legislation in the field of company law and assistance with the creation of European limited companies and European economic interest groupings,
- strengthening administrative cooperation through, inter alia, the Internal Market Information System (IMI), the deepening of knowledge of internal market legislation in the Member States and its sound application by them, and support for administrative cooperation between the authorities responsible for implementing legislation relating to the internal market with a view to achieving the Lisbon strategic goals as set out in the annual policy strategy,
- the setting-up of a system that can effectively and efficiently deal with problems faced by citizens or businesses, arising from the misapplication of internal market legislation by a public administration in another Member State; production of feedback information through the Solvit system by means of an online database system which is accessible to all coordination centres and which will also be made accessible to citizens and businesses; support for the initiative through training measures, promotion campaigns and targeted actions with a particular focus on the new Member States,
- interactive policymaking, in so far as it concerns the completion, development and operation of the internal market, makes up part of the Commission's governance and of the regulatory policy initiatives to better respond to the demands of citizens, consumers and businesses. The appropriations entered under this article will also cover training, awareness-raising and network actions to the benefit of such participants with a view to making Union policymaking on the internal market more comprehensive and effective, and as part of the process of assessing the actual impact of internal market policies (or the lack of them) on the ground,
- a comprehensive review of regulations with a view to making necessary changes and producing an overall analysis of the effectiveness of the measures taken with a view to the sound operation of the internal market and the evaluation of the overall impact of the internal market on businesses and the economy, including the purchase of data and access by Commission departments to external databases, as well as targeted actions aimed at improving understanding of the functioning of the internal market and rewarding active participation in fostering the functioning of the internal market,
- guaranteeing the completion and management of the internal market, especially in the fields of pensions, free movement of services, recognition of professional qualifications, and intellectual and industrial property: the development of proposals for putting in place a Union patent,
- broadening the strategy regarding the development of statistics on service sectors and statistical development projects in cooperation with Eurostat and the Organisation for Economic Cooperation and Development (OECD),
- monitoring the effects of removing obstacles to the internal market for services,
- the development of a unified area for security and defence, with action working towards the coordination of public procurement procedures for these products at Union level; appropriations may cover devising studies and awareness-raising measures regarding the application of the legislation adopted,

- strengthening and developing financial and capital markets and financial services provided to businesses and private individuals; adapting the market framework especially as regards the monitoring and regulation of the activities of operators and of transactions, so as to take account of changes at Union and global levels, of the reality of the euro and of new financial instruments, by putting forward new initiatives intended to consolidate, and provide a detailed analysis of, the results of the first Financial Services Action Plan,
- improvement of payment systems and retail financial services in the internal market; reduction in the cost of, and time needed for, such transactions, taking into account the internal market dimension; development of the technical aspects so as to establish one or more payment systems on the basis of the follow-up in respect of Commission communications; carrying out studies in this area,
- developing and strengthening the external aspects of the directives applicable in respect of financial institutions, the mutual recognition of financial instruments vis-à-vis third countries, international negotiations and assistance for third countries in establishing a market economy,
- implementing the many measures put forward in the Action Plan on Company Law and Corporate Governance which could lead to studies on a number of targeted subjects, with a view to drawing up the necessary legislative proposals,
- analysis of the effect of measures in place as part of the follow-up to the progressive liberalisation of postal services, coordination of Union policies on postal services with regard to international systems and in particular with regard to participants in Universal Postal Union (UPU) activities; cooperation with central and eastern European countries; practical implications of the application of the General Agreement on Trade (GATS) provisions to the postal sector and overlap with UPU regulations,
- implementing the law of the Union and international provisions in the field of money laundering, including participation in intergovernmental or ad hoc measures in this field; contributions relating to Commission participation as a member of the Financial Action Task Force (FATF) on money laundering created under the OECD,
- active participation in meetings held by international associations such as the International Association of Insurance Supervisors (IAIS/AICA) and the International Organisation of Securities Commission (IOSCO); this also comprises expenses related to the Commission's participation as a member of the group,
- development of evaluations and impact studies on the various aspects of the policies covered by this chapter for the purpose of devising new measures or revising existing measures relating to them,
- creation and maintenance of systems directly linked to putting into place and monitoring policies launched within the framework of the internal market for services,
- support of activities which seek to contribute to the achievement of the Union's policy objectives by enhancing supervisory convergence and cooperation, and in the field of financial reporting, both inside and outside the Union.

In order to achieve these objectives, this appropriation covers the costs of consultation, studies, surveys, evaluations, participation, production and the development of publicity, awareness-raising and training materials (printed matter, audiovisual material, assessments, computer tools, the collection and dissemination of information, information and advice measures for citizens and businesses).

Part of this appropriation is intended to cover expenditure incurred by the Commission for ensuring the effective functioning of the European Observatory on Infringements of Intellectual Property Rights.

This appropriation is also intended to cover setting up a central coordination body assisting the Member States with market surveillance cooperation, building on existing structures and experience. This coordination body would support the cooperation, pooling of know-how and sharing of best practices between Member States to ensure the same high level of market surveillance throughout the Union, in accordance with Regulation (EC) No 765/2008 of the European Parliament and of the Council of 9 July 2008 setting out the requirements for accreditation and market surveillance relating to the marketing of products (OJ L 218, 13.8.2008, p. 30). To this end, regular joint training for representatives of national market surveillance authorities from all Member States will be organised, focusing on relevant practical aspects of market surveillance such as follow-up of complaints, monitoring accidents, verifying that corrective action has been taken, follow-up of scientific and technical knowledge concerning safety issues and coordination with customs authorities. Furthermore, exchanges of national officials and joint visit programmes will foster the exchange of experience between Member States. In addition, comparative data on the resources dedicated to market surveillance in the different Member States will be collected and discussed at the appropriate level with national authorities. The aim is to create awareness about the need to have adequate resources to guarantee efficient, comprehensive and consistent market surveillance throughout the internal market, and contribute to the upcoming revision of the Union product safety rules, particularly those concerning market surveillance, and the preparation of the follow-up to the Customs 2013 programme.

This appropriation is intended to cover expenditure on studies, surveys, meetings of experts, information activities and publications directly linked to the achievement of the objective of the programme or measures coming under this article, plus any other expenditure on technical and administrative assistance.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

#### *Remarks*

This appropriation is intended to cover expenditure arising in connection with measures for the management and development of Solvit and for the implementation of the single market assistance services action plan.

The Solvit system has proved to be one of the most effective out-of-court dispute settlement mechanisms.

It can effectively and efficiently deal with problems faced by citizens or businesses, arising as a result of the misapplication of internal market legislation by a public administration in another Member State. Furthermore, the Solvit system is able to produce feedback information by using an online database system which is accessible to all coordination centres and to which citizens and businesses can directly submit their problems.

However, Solvit like many other public assistance services relating to Union issues is still not widely known among potential users of the system. At the same time citizens and businesses are often very confused about the right address for their requests for information, assistance or problem solving. To remedy this, the Commission has announced, as part of the single market review, that it will endeavour to create a single web-based access point guiding citizens and businesses to the right service. In October 2010 the Commission launched a new website, Your Europe, which provides citizens and businesses with information, and refers them directly to relevant services such as Solvit in the event that they need help. Your Europe, together with the Europe Direct call centre, represents the single contact point for the Solvit system. The Commission is to inform the competent committee of the European Parliament in a yearly report about the frequency of use of the contact point and possible measures to further improve it.

Member States should be urged to take appropriate measures to notify their citizens about the existence of the single contact point.

Moreover, in the Commission's action plan of 8 May 2008 on an integrated approach for providing single market assistance services to citizens and businesses, a range of actions was proposed to increase cooperation between the existing assistance services so that they can offer a better, faster and more streamlined overall service to citizens and businesses.

Promotion of all these services also needs to take place in a more coordinated way to avoid citizens and businesses being confused by too many brand names.

Additionally, the Commission is to inform the competent committee of the European Parliament about the concrete measures which have been undertaken in this field.

#### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The Single Market Forum should be an annual event held preferably in the Member State which holds the EU Council Presidency. It could be preceded by a number of regional content-oriented preparatory events organised jointly by the Commission, the European Parliament and the Member State which holds the Presidency of the Council of the Union. This event should be an important platform for the exchange of best practice between stakeholders, informing citizens about their rights in the Single Market and examining the state of the Single Market. It should bring together representatives of citizen, business and consumer organisations as well as representatives of the Member States and the Union's institutions in order to establish a clear commitment to transpose, apply and enforce Single Market legislation. This should be a platform for discussing the Commission's legislative proposals in the area of the Single Market and for presenting citizens', businesses' and other stakeholders' expectations with regard to future legislative proposals. The aim of this event should also be to tackle incorrect transposition, misapplication and non-enforcement of Single

Market legislation by improving coordination and governance of the Single Market. A steering committee should be created, comprised of Members of the European Parliament and representatives of the Commission and the EU Council Presidency-in-Office at the time of the event, which should work out the organisational arrangements for the Single Market Forum.

*Remarks*

The financial and economic crisis has significantly shaken the confidence of consumers, retail investors and SMEs in the legislative and regulatory framework that is meant to protect them from failings in the financial system. Therefore, it is more essential than ever that the concerns of end-users and other non-industry stakeholders should be taken into account in designing initiatives that aim to restore citizens' confidence in the soundness of the financial sector and in the ability of financial integration to deliver concrete benefits to them.

This preparatory action, which follows on from a successful pilot project, aims to enhance the capacity of civil society organisations to participate in Union policymaking in the area of financial services, with a view to providing policymakers with a counterweight to financial services sector lobbies, and to inform the wider public of the issues at stake in the regulation of financial markets for consumers, end-users, retail investors and other non-industry stakeholders.

Remarks

This appropriation is intended to fund stepped-up support measures for traditional retailing, with a view to revitalising and modernising it. The pilot project will help to coordinate measures and channel funding from various sources in order to address the sector's problems more effectively.

The pilot project will involve:

1. defining the features of the traditional trading sector and identifying the constraints and threats currently facing it;
2. proposing solutions to foster revitalisation and modernisation of the sector;
3. identifying EU instruments and funding directly or indirectly usable by the sector;
4. establishing the uses to which the instruments, actions, measures and funding available are being put by the sector;
5. analysing the extent to which existing instruments meet the needs of the traditional retailing sector and, on the basis of that analysis, proposing any adjustments that may be necessary;
6. implementing the proposals referred to in point 2;
7. analysing the results and assessing the feasibility of a possible future EU programme of support for traditional retailing.

### *Remarks*

This appropriation is intended to cover expenditure arising in connection with the programme to support specific activities in the field of financial services, financial reporting and auditing.

The general objective of this programme is to improve the conditions for the functioning of the internal market by supporting the operations, activities or actions of certain bodies in the fields of financial services, financial reporting and auditing.

Union funding is vital in order to ensure the efficient and effective supervision of the internal market in financial services, particularly in view of the recent financial crisis.

Activities such as developing or providing input to the development of standards, applying, assessing or monitoring standards or overseeing standard-setting processes in support of the implementation of Union policies in the field of financial reporting and auditing are covered by the programme.

It is the continuation of the Community programme to support specific activities in the field of financial services, financial reporting and auditing as established by Decision No 716/2009/EC of the European Parliament and of the Council of 16 September 2009 establishing a Community programme to support specific activities in the field of financial services, financial reporting and auditing (OJ L 253, 25.9.2009 p. 8).

### *Remarks*

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 114 thereof, as well as to the European Supervisory Authority (European Banking Authority), established by Regulation (EU) No 1093/2010, the European Supervisory Authority is to form part of a European System of Financial Supervision (ESFS). The main objective of the ESFS is to ensure that the rules applicable to the financial sector are adequately implemented to preserve financial stability and to ensure confidence in the financial system as a whole and sufficient protection for the customers of financial services.

This appropriation is intended to cover the Authority's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Authority must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this

section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 20 of Commission Delegated Regulation (EU) No 1271/2013 of 30 September 2013 on the framework financial regulation of the bodies referred to in Article 208 of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council (OJ L 328, 7.12.2013, p. 42) constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the European Banking Authority is set out in the ‘Staff’ Annex to this section.

The Union contribution for 2015 amounts to a total of EUR 12 476 000. An amount of EUR 1 443 000, corresponding to the recovery of surplus which stems from the Union contribution in 2013, is added to the amount of EUR 11 033 000 entered in the budget.

#### New article

The Single Resolution Board ('the Board') was established by Regulation (EU) No 806/2014. The Board will carry out specified tasks concerning the preparation for the resolution of banks and their actual resolution where they are failing or likely to fail.

This appropriation is intended to finance the administrative expenditures of the Board during its first months of operation in 2015, which are mainly composed of recruitment and staff expenditures, building and information technology costs and the first operational expenditures.

This financing provided by the EU budget will be reimbursed once the first annual contributions due by the banks to cover the administrative expenditures of the Board will have been collected by the Board, after which the Board is expected to become fully self-financed by its own revenues.

*Remarks*

This appropriation is intended to cover technical assistance measures for the Instrument for Pre-Accession Assistance:

- expenditure linked to the preparation, appraisal, approval, follow-up, control, audit and evaluation of multiannual programmes and/or individual operations and projects under IPA regional development component. These actions may include technical assistance contracts, studies, short-term expertise, meetings, exchange of experience, networking, information and publicity and awareness creation events, training activities and publications directly linked to the achievement of the objective of the programme and any other support measures carried out at the level of the Commission central services or the delegations in the beneficiary countries,
- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the benefit of beneficiary countries and the Commission,
- installation, operation and interconnection of computerised systems for management, inspection and evaluation,
- improvements in evaluation methods and the exchange of information on practices in this field.

This appropriation is also intended to support administrative learning and cooperation with non-governmental organisations and social partners.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Chapter 13 05.

##### Remarks

This appropriation is intended to cover the technical assistance measures in the Cohesion Fund provided for in Articles 58 and 118 of Regulation (EU) No 1303/2013. Technical assistance may finance the preparatory, monitoring, administrative and technical support, evaluation, audit and inspection measures necessary for implementing that Regulation.

It may, in particular, be used to cover:

- support expenditure (representation expenses, training, meetings, missions, translations),
- expenditure on external personnel at headquarters (contract agents, seconded national experts or agency staff) up to EUR 1 340 000, as well as missions relating to such staff.

##### Legal basis

Regulation (EU) No 1300/2013 of the European Parliament and of the Council of 17 December 2013 on the Cohesion Fund and repealing Council Regulation (EC) No 1084/2006 (OJ L 347, 20.12.2013, p. 281).

Regulation (EU) No 1303/2013 of the European Parliament and of the Council of 17 December 2013 laying down common provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and the European Maritime and Fisheries Fund and laying down general provisions on the European Regional Development Fund, the European Social Fund, the Cohesion Fund and the European Maritime and Fisheries Fund and repealing Council Regulation (EC) No 1083/2006 (OJ L 347, 20.12.2013, p. 320).

#### Remarks

Article 175 of the Treaty on the Functioning of the European Union provides that the objectives of economic, social and territorial cohesion set out in Article 174 shall be supported by the action it takes through the Structural Funds, which includes the European Regional Development Fund (ERDF). According to Article 176, the ERDF is intended to help redress the main regional imbalances in the Union. The tasks, priority objectives and the organisation of the Structural Funds are defined in accordance with Article 177.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law.

Article 39 of Regulation (EC) No 1260/1999, Articles 100 and 102 of Regulation (EC) No 1083/2006 and Articles 85, 144 and 145 of Regulation (EU) No 1303/2013 on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the ERDF.

Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with Article 21(3)(c) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Article 82 of Regulation (EC) No 1083/2006 provides for specific rules on repayment of pre-financing applicable to the ERDF.

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

Measures to combat fraud are funded from Article 24 02 01.

*Remarks*

This appropriation is intended to cover the financing of commitments remaining to be settled from the 2000-2006 period for the special programme for peace and reconciliation in Northern Ireland and the border counties of Ireland. The special programme for peace and reconciliation was continued, in accordance with the decisions of the Berlin European Council, mentioned below, to provide EUR 500 000 000 (1999 prices) for the new period of validity of the programme (2000 to 2004). Following the request in the conclusions of the Brussels European Council of 17 and 18 June 2004, an additional EUR 105 000 000, to be allocated in 2005 and 2006, was added to align operations under the programme with the other programmes under the Structural Funds that came to an end in 2006.

#### *Remarks*

This appropriation is intended to cover the ERDF commitments for the innovative measures and technical assistance remaining to be settled from the 2000-2006 programming period as provided for in Articles 22 and 23 of Regulation (EC) No 1260/1999. The innovative measures include studies, pilot projects and exchanges of experience. They were intended in particular to bring about a qualitative improvement in Structural Fund measures. Technical assistance covers preparatory, monitoring, evaluation, supervision and management measures required for implementation the ERDF. The appropriation may, in particular, be used to meet:

- support expenditure (representation expenses, training, meetings, missions),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contracts for the provision of services and studies,
- grants.

This appropriation is also intended to fund measures taken by partners in preparation for the 2007-2013 programming period.

#### *Remarks*

This appropriation is intended to cover commitments remaining to be settled under the Interreg III Community initiative relating to cross-border, transnational and interregional cooperation from the 2000-2006 programming period.

Special attention will be paid to cross-border activities, in particular with a view to better coordination with the Phare, Tacis, ISPA and MEDA programmes.

This appropriation is also intended to cover the costs of coordinating activities in the field of cross-border labour mobility and skills. Suitable attention will be paid to cooperation with the outermost regions.

This appropriation can be combined with Phare cross-border cooperation appropriations for common projects at the external borders of the Union.

This appropriation is intended to cover, inter alia, preparatory operations for local and regional cooperation between the old and new Member States and the applicant countries in the fields of democracy and social and regional development.

### Remarks

This appropriation is intended to cover commitments remaining to be settled for programmes under the ERDF objective of the convergence in the 2007-2013 programming period. This objective is aimed at speeding up the convergence of the least-developed Member States and regions by improving conditions for growth and employment.

Part of this appropriation is intended to be used to address intra-regional disparities so as to ensure that the overall state of development of a given region does not hide poverty loops and disadvantaged territorial units.

In accordance with Article 105a(1) of Regulation (EC) No 1083/2006 as modified by point 7 of Annex III to the Treaty concerning the Accession of the Republic of Croatia to the European Union (OJ L 112, 24.4.2012), programmes and major projects which, on the date of accession of Croatia, have been approved under Regulation (EC) No 1085/2006 and the implementation of which has not been completed by that date, shall be considered to have been approved by the Commission under Regulation (EC) No 1083/2006, with the exception of the programmes approved under the components referred to in points (a) and (e) of Article 3(1) of Regulation (EC) No 1085/2006.

### Remarks

This appropriation is intended to cover commitments remaining to be settled for the PEACE programme under the European territorial cooperation objective of the ERDF of the 2007-2013 programming period.

The PEACE programme shall be implemented as a cross-border cooperation programme within the meaning of Article 3(2)(c) of Regulation (EC) No 1083/2006.

The PEACE programme shall promote social and economic stability in the regions concerned, including notably actions to promote cohesion between communities. The eligible area shall be the whole of Northern Ireland and the border counties of Ireland. This programme will be implemented in full compliance with the principle of additionality of structural fund operations.

*Remarks*

This appropriation is intended to cover commitments from the 2007-2013 programming period remaining to be settled to ensure:

- the proper circulation of information through newsletters (including online), reports and conferences, and specifically an annual forum,
- the organisation of on-site events to familiarise all interested European regions with the Baltic Sea approach and the principles of macro-regions,
- successful governance of the strategy through the decentralised system that has been established and, in particular, the operation of the system of priority area coordinators and flagship project leaders,
- technical and administrative support for planning and coordination of activities related to the European Union Strategy for the Baltic Sea Region,
- availability of seed money for planning and preparing projects supporting the strategy,
- support for civil society participation,
- the continued helping of priority area coordinators in their coordination activity,

- participation in an implementation facility with the EIB, if requested by Baltic Member States,
- the development of a more ambitious communication strategy on the European Union Strategy for the Baltic Sea Region.

The continuation of the support to the technical assistance action should be used to:

- keep on helping priority area coordinators in their coordination activity,
- participate in an implementation facility with EIB, if requested by Baltic Member States,
- develop a more ambitious communication strategy on the European Union Strategy for the Baltic Sea Region.

#### *Remarks*

This appropriation is intended to finance the risk-sharing instruments from the ERDF Convergence envelope for Member States which are experiencing or threatened with serious difficulties with respect to their financial stability.

Reflows and amounts left-over after the completion of an operation covered by a risk sharing instrument may be reused within the risk-sharing instrument if the Member State still meets the conditions set out in Article 77(2) of Regulation (EC) No 1083/2006. If the Member State no longer meets those conditions, reflows and amounts left-over shall be considered to be assigned revenue.

Any assigned revenue resulting from repayment of reflows or amounts left-over entered in Item 6 1 4 4 of the statement of revenue shall give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation. At the request of the Member State concerned, additional commitment appropriations generated by this assigned revenue shall be added the following year to the cohesion policy financial allocation of the Member State concerned.

### Remarks

This appropriation is intended to cover ERDF support under the investment for growth and jobs goal in less developed regions in the 2014-2020 programming period. The catching up process for these economically and socially lagging regions requires long-term sustained efforts. This category of regions includes regions with a GDP per capita less than 75 % of the average GDP of the Union.

### Legal basis

Regulation (EU) No 1301/2013 of the European Parliament and of the Council of 17 December 2013 on the European Regional Development Fund and on specific provisions concerning the Investment for growth and jobs goal and repealing Regulation (EC) No 1080/2006 (OJ L 347, 20.12.2013, p. 289).

### Remarks

This appropriation is intended to cover ERDF support under the investment for growth and jobs goal in the 2014-2020 period in a new category of region — ‘transition regions’ — that replaces the 2007-2013 phasing-out and phasing-in system. This category of regions includes regions with a GDP per capita between 75 and 90 % of the average GDP of the Union.

### Legal basis

### Remarks

This appropriation is intended to cover ERDF support under the investment for growth and jobs goal in more developed regions in the 2014-2020 programming period. While interventions in the less developed regions will remain the priority for cohesion policy, this appropriation is thus intended to cover important challenges that concern all Member States such as global competition in the knowledge-based economy, the shift towards the low carbon economy and social polarisation exacerbated by the current economic climate. This category of regions includes regions with a GDP per capita above 90 % of the average GDP of the Union.

### Remarks

This appropriation is intended to cover the specific additional ERDF support under the Investment for growth and jobs goal to outermost and sparsely populated regions in the 2014-2020 period. This additional funding is intended to take into account the specific challenges faced by the outermost regions identified by Article 349 of the Treaty on the Functioning of the European Union

and the northern sparsely populated regions fulfilling the criteria laid down in Article 2 of Protocol No 6 to the Treaty of Accession of Austria, Finland and Sweden.

**Article 13 03 64 — European Regional Development Fund (ERDF) — European territorial cooperation**

*Remarks*

This appropriation is intended to cover ERDF support under the European territorial cooperation goal in the 2014-2020 programming period. It shall finance cross-border cooperation between adjacent regions, transnational cooperation over larger transnational territories and interregional cooperation. It shall also include support for cooperation activities at the external borders of the Union, which is to be supported under the European Neighbourhood and Partnership Instrument and the Instrument for Pre-Accession Assistance.

*Remarks*

*Former Item 13 05 63 02 (in part)*

This appropriation is intended to cover the contribution of IPA II to ERDF transnational and interregional cooperation programmes in which the beneficiaries listed in Annex I of the IPA-Regulation participate.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

*Former Item 21 03 03 01 (in part)*

This appropriation is intended to cover support from the European Neighbourhood Instrument (ENI) under the European territorial cooperation goal in the 2014–2020 programming period for the Baltic Sea cross-border cooperation programme. Support under both the ENI and the European Regional Development Fund (ERDF) should be provided for the cross-border cooperation programmes between, on the one hand, Member States and, on the other hand, partner countries and/or the Russian Federation ('other cross-border cooperation participating countries') along the external borders of the Union, in order to promote integrated and sustainable regional development and cooperation between neighbouring border areas and harmonious territorial integration across the Union and with neighbouring countries.

Commitments will be transferred from Item 21 03 03 01 'Cross-border cooperation (CBC) — Contribution from Heading 4', after the adoption of the CBC programming document. Once programmes start to be implemented, commitments will show an increasing trend over the 2015-2020 period (as was the case for 2007-2013).

*Remarks*

This appropriation will be used to:

— organise or develop ***training programmes and seminars for young people with the aim of emphasising the common regional identity of the Danube macro-region nations; the programmes will focus on civic education and opportunities for cultural exchanges which will help build a progressive, sustainable European future-oriented basis for coexistence by addressing the issues of understanding each other's regional presence, togetherness and the need for cooperation and by providing scope for dialogue and reconciliation;***

— ***improve and further develop new solutions for handling expertise by means of accessible common platforms and project information, including building networks.***

The preparatory action will promote social and economic stability in the regions concerned, including actions to develop cohesion between communities by means of opening space for familiarising with, and giving due acknowledgement to, each other's cultures and histories and will also highlight the added value of transnational cooperation. This should create a sustainable basis for a common platform giving access to regional expertise and increasing regional cooperation and should in addition allow lessons to be drawn from the experience of a macro-region strategy. The eligible area shall be the Danube macro-region and the surrounding countries in line with the European Neighbourhood Policy. The organisation of programmes should involve nongovernmental organisations, civil society organisations, in order to ensure that reconciliation efforts go also beyond the governmental sphere. The programmes eligible for funds shall involve participants from at least three Member States from the region.

*Remarks*

This pilot project focuses on providing support with a view to enhancing the value of two key EU funding sources for research, development and innovation (The European Structural and Investment Funds - ESIF - and Horizon 2020) by actively promoting their combined use. The project will have two main objectives:

- To provide assistance to new Member States in the process of closing the innovation gap, in order to promote excellence across EU regions;
- To stimulate early and effective implementation of national and regional Smart Specialisation Strategies

*Scope of the project*

Building excellence in a given area of research and innovation often takes years if not decades of sustained efforts. The development of good national/regional research and innovation strategies for smart specialisation (RIS3) is considered essential for sustaining efforts at regional/national level over time. Therefore, the support by the Smart Specialisation Platform established jointly by DG JRC and DG REGIO (costing approximately EUR 1 600 000 per year) to Member States and regions to design and upgrade their RIS3 is essential. This will allow new Member States and regions catching up to identify a limited number of areas of good quality research and industrial activities with high innovation potential in their territory that will be further reinforced and developed using European Structural and Investment Funds (ESIF) to become more excellent and become more competitive in Horizon 2020 calls. This will also increase the new Member States' capacity to utilise results produced in more innovative regions under past framework programme projects, thus enabling them to enhance their own innovation capacity.

The new activity within the Smart Specialisation Platform (S3P) needs to be further developed in order to facilitate the full exploitation of the potential synergies between Horizon 2020 and the EISF.

The current pilot project needs to be continued in 2015, with an appropriate allocation, as building excellence in the area of research and innovation requires long-term effort and strategic planning.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The North Sea Region has the potential to act as an engine for growth in Europe, add value to the European Union and contribute to the objectives of the EU2020 strategy.

Whereas the EU has developed a regional strategy for the Baltic Sea area and work has begun on developing strategies for the Atlantic and Arctic regions, such a process has not yet started for the North Sea Region. A regional strategy for the North Sea Region is the missing link between the macro regional areas in the north-east and north-west of Europe.

The aim of this preparatory action is to analyse the region's growth potential and use the findings to investigate the added value of having a future shared macro regional strategy for the North Sea area, given the fact that a strong North Sea Region has the potential

to act as an engine for growth in Europe and contribute to the objectives of the EU2020 strategy.

#### *North Sea Region 2020 strategy paper*

The North Sea Commission General Assembly has developed the North Sea Region 2020 strategy paper in consultation with members and stakeholders in the North Sea Region. The strategy paper regards the North Sea Region as a territorial cooperation area, and its strategic focus is on the major challenges and common characteristics where transnational action and collaborative working is considered to give added value.

The strategy paper identifies five strategic priorities that are closely linked to the EU2020 objectives and contributes to the implementation of several (if not all) of the EU2020 flagship initiatives:

- managing maritime space,
- increasing accessibility and clean transport,
- tackling climate change,
- attractive and sustainable communities,
- promoting innovation and excellence.

The North Sea region strategy paper is a first step towards analysing the challenges and opportunities for the North Sea area and exploring the potential for regional growth in support of the EU2020 strategy.

#### *North Sea Region Preparatory Action*

To fully explore the regional growth potential in support of the EU2020 strategy and lay the grounds for a strong macro region, there is a need to carry out more in-depth analysis of the five strategic priorities identified in North Sea Region 2020 strategy paper and their added value in a European community context.

#### *Activities*

The preparatory action will finance a number of well coordinated initiatives over a three year period (2014-2017) and focus on:

- in-depth analyses/studies of the five priorities identified in the North Sea Region 2020 paper,
- stakeholder conferences to address the issues of commitment, cooperation and content,
- follow-up dialogue with all stakeholders, including EU Commission, Member States, and regional authorities.

The activities should be closely linked to the EU regional policy and should also facilitate synergies with other Union policy areas and programmes.

#### *Output*

The final output will be an in-depth analysis of the North Sea macro region's growth potential, including possible intervention areas, and a white book to the EU and member States about the added value of a shared regional strategy and cooperation for the North Sea Region.

#### *Implementation*

The appropriations for this preparatory action could be inserted in the EU budget under Title 13 'Regional policy', given the regional nature of the intended activities. DG REGIO should be responsible for implementing the preparatory action in cooperation with the North Sea Commission.

#### *Legal basis*

### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The international dimension of EU regional and urban policy gains on importance over the last years. Memoranda of Understanding on regional cooperation has been signed with China, Russia, Brazil and Ukraine; further cooperation has been developed with Moldova, Georgia, Chile, Argentina, Peru, South Africa, Uruguay and Japan. The dialogue in the field of regional and urban policy, being one of the components of the Union's diplomatic relations with third countries, requires further support. Moreover, the cooperation with third countries should focus on certain issues in relation to the reform of cohesion policy, namely its enhanced urban dimension.

The aim of the preparatory action is to promote the exchange of experience and best practice between the European Union and third countries on the theme of territorial development with particular reference to urban development, urban-rural partnership and urban cross-border cooperation.

The scope of this preparatory action should include:

- organisation of study visits for urban policy actors,
- organisation of seminars and workshops aiming at exchange of experience between EU and third countries in relation to urban development, urban-rural partnership and urban cross-border cooperation,
- illustrating innovative good practice examples of cooperation between European Union and third countries cities and towns in different thematic areas,
- development and implementation of an internet based tool kit enabling European Union cities and towns to look for a partner for cooperation in third countries in relation to selected topics.

### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Implementation of this preparatory action should ideally set a best example for designing and implementing a genuine RIS 3 strategy in a specific Greek Region and should serve as a model for other convergence regions.

### Rationale

Given that an important preparatory work has been already carried out by the Commission to incite Greece and its Regions to start designing an adequate Regional Innovation Smart Specialisation Strategy, the challenge still remains in development and implementation. Exchange of best practices is not sufficient to build competitive advantage by developing and matching research and innovation strengths with business needs of a particular territory. Therefore it is very important to strengthen current efforts by direct, professional and tailor made assistance to a Greek region heavily hit by the crisis.

Current fragmentation and lack of coordination efforts between central and regional governments does not guarantee that a proper entrepreneurial discovery process will be carried out in Greek regions. Therefore it is crucial to set up a sound and inclusive governance structure with relevant experience and human resources to plan and implement R&D and Innovation ('R&D&I') measures in one of Greek regions as an example. To facilitate and accelerate the development process, an exchange of expertise with a specialist on economic geography and change processes from other European regions should assist one of the Greek regions in the entrepreneurial discovery process. This help would also lower the burden on human resources of the Greek Authorities who need to build expertise. This expertise needs to be created with the help of best practice exchange on administration and regional economic development with a strong involvement of competent and experienced European specialists in the field of regional economic

transformation based on knowledge.

### *Scope*

The aim of this preparatory action is to capture the economic potential in a selected region, and secondly, to explore the possibilities of its innovation potential and its expansion. The Region proposed is one of the poorest in Greece and in the European Union, the Region of Eastern Macedonia and Thrace. The Region of Eastern Macedonia and Thrace is a Convergence Region strongly hit by the crisis and the fierce competition of low labour cost neighbouring countries. Despite the presence of a University and a Technological Institute and other Research bodies in the Region, the links of the R&D&I activities with the needs of the local entrepreneurs are almost non-existent. The preparatory action should show the example that growth based on innovation and export orientation of the local productive forces is feasible.

This should serve as a growth paradigm for other regions of convergence in Greece and in Europe.

The funding available from the European Union should support development and implementation of the regional smart specialisation strategy, concentrating in particular on:

- creating and/or strengthening the links between the Regional outward looking Industry/ Manufacturing with the Greek regional R&D&I bodies (preferably within the same Region but outside the Region as well),
- supporting Greek regional institutional R&D&I bodies creating/strengthening links with the Regional outward oriented companies in providing concrete solutions to the technological needs of the exporting companies of the Region,
- stopping the brain drain by fully exploiting available technological equipment in the Technological Institute of the Region and the use of such equipment by local specialised personnel to provide technological solutions for the selected exporting companies and by creating a pool of highly qualified locals in business, trade and exports to assist and advise potential foreign investors,
- encouraging cooperation between the Managing Authority of the Regional Programme and geographic economists of the Region and other geographic economists successfully implementing a RIS3 policy in a given Region in another European Member State, e.g. Germany.

### *Duration — Form of assistance*

The duration of this preparatory scheme should not exceed one year from its launching and should not exceed the initially allocated funding either.

### *Proposal for preparatory action in the Region of Eastern Macedonia — Thrace*

Considering the actions undertaken so far in the Region of Eastern Macedonia — Thrace (R-AMTH) on the ‘smart specialisation strategy’ the launching of pilot action is recommended to help shaping better the smart specialisation strategy of the Region, in particular, the selection of the priorities on which financing should concentrate. Hence, the following preparatory scheme is proposed:

- activation of an Industrial Research and Technology development program directed to the needs of activities identified in the entrepreneurial discovery process. Up to now RIS3 — Regional Assessment: Eastern Macedonia — Thrace indicated some sectors where the region could have a competitive advantage like: geothermal energy, agriculture, livestock, fisheries and biotechnology, extraction and processing of marble and ICTs and automation,
- strengthening of cooperation and networking between Researchers and Research Institutions of the R-AMTH with the productive forces of the Region. Research bodies should demonstrate (e.g. under memoranda of understanding) their contribution to developing solutions for existing and potential users' needs for exploiting the results of tailor made research and development projects (focusing on the Industrial Research and experimental development),
- stopping brain drain by (a) enabling a mobility research training program and optimise use of the research equipment of TEI Kavala and (b) creating a pool of highly qualified locals in business, trade and exports to assist and advise potential foreign investors,
- supporting the cooperation, the exchange of best practices and twinning of the Managing Authority of the Regional Operational Programme and geographic economists for Eastern Macedonia and Thrace with a Managing Authority as well as geographic economists successfully implementing a RIS3 policy in a given Region in another European Member State.

### *Monitoring and evaluation*

This one year preparatory scheme will be monitored by the Managing Authority of the Regional Programme for Eastern Macedonia and Thrace. A limited number of specific output and result indicators should be set before the start of the preparatory scheme, measuring at least growth of turnover, growth of exports and jobs safeguarded and created.

A short evaluation study should be commissioned at the end of the preparatory scheme.

The results of the preparatory scheme should be presented in the Region, in Athens in a special seminar to be organised by the European Parliament Representation in Athens and in the European Parliament in Brussels.

### Implementation of the preparatory action

In order to maximise the synergies between the project and the work currently being done by the Joint Research Centre on smart specialisation in European regions, the Commission would possibly implement the project through the Joint Research Centre, with the support of DG REGIO.

### Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

### Remarks

Article 177, second paragraph, of the Treaty on the Functioning of the European Union provides that a Cohesion Fund is to be set up to support projects in the fields of the environment and trans-European networks in the area of transport infrastructure.

Article H of Annex II to Council Regulation (EC), No 1164/94 of 16 May 1994, establishing a cohesion Fund, Articles 100 and 102 of Council Regulation (EC) No 1083/2006 of 11 July 2006 laying down general provisions on the European Regional Development Fund, the European Social Fund and the Cohesion Fund, and Articles 85, 144 and 145 of Regulation (EU) No 1303/2013 on criteria for financial corrections by the Commission provide for specific rules on financial corrections applicable to the Cohesion Fund.

Article 80 of the Financial Regulation provides for financial corrections in the event of expenditure incurred in breach of applicable law. Any revenue from the financial corrections carried out on that basis is entered in Item 6 5 0 0 of the statement of revenue and constitutes assigned revenue in accordance with Article 21(3)(c) of the Financial Regulation.

Article 177 of the Financial Regulation lays down the conditions for the repayment in full, or in part, of pre-financing payments in respect of a given operation.

Article 82 of Regulation (EC) No 1083/2006 provides for specific rules on repayment of pre-financing applicable to the Cohesion Fund.

Pre-financing amounts repaid shall constitute internal assigned revenue in accordance with Article 21(4) of the Financial Regulation and shall be entered in Item 6 1 5 0 or 6 1 5 7.

Anti-fraud operations will be financed under Article 24 02 01.

### Remarks

This appropriation is intended to cover commitments to be settled for the Cohesion Fund from the 2007-2013 programming period.

This appropriation is also intended to cover commitments remaining to be settled from the preparatory, monitoring, administrative and technical support, evaluation, audit and inspection measures necessary for implementing Regulation (EC) No 1083/2006, as provided for in Article 45 of that Regulation. In particular, it may be used to cover:

- support expenditure (representation expenses, training, meetings),
- information and publishing expenditure,
- expenditure on information technology and telecommunications,
- contract for the provision of services and studies,
- grants.

This appropriation is also intended to cover commitments remaining to be settled for measures approved by the Commission in the context of the preparation of the 2014-2020 programming period.

In accordance with Article 105a(1) of Regulation (EC) No 1083/2006 as modified by point 7 of Annex III to the Treaty concerning the Accession of the Republic of Croatia to the European Union (OJ L 112, 24.4.2012), programmes and major projects which, on the date of accession of Croatia, have been approved under Regulation (EC) No 1085/2006 and the implementation of which has not been completed by that date, shall be considered to have been approved by the Commission under Regulation (EC) No 1083/2006, with the exception of the programmes approved under the components referred to in points (a) and (e) of Article 3(1) of Regulation (EC) No 1085/2006.

### Legal basis

Council Regulation (EC) No 1083/2006 of 11 July 2006 laying down general provisions on the European Regional Development Fund, the European Social Fund and the Cohesion Fund and repealing Regulation (EC) No 1260/1999 (OJ L 210, 31.7.2006, p. 25).

Council Regulation (EC) No 1084/2006 of 11 July 2006 establishing the Cohesion Fund (EC) (OJ L 210, 31.7.2006, p. 79).

### Remarks

This appropriation is intended to finance the risk sharing instruments from the Cohesion Fund envelope for Member States which are experiencing, or threatened with, serious difficulties with respect to their financial stability.

Reflows and amounts left-over after the completion of an operation covered by a risk sharing instrument may be reused within the risk-sharing instrument if the Member State still meets the conditions set out in Article 77(2) of Regulation (EC) No 1083/2006. If the Member State no longer meets those conditions, reflows and amounts left-over shall be considered to be assigned revenue.

Any assigned revenue resulting from repayment of reflows or amounts left-over entered in Item 6 1 4 4 of the statement of revenue shall give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation. At the request of the Member State concerned, additional commitment appropriations generated by this assigned revenue shall be added the following year to the cohesion policy financial allocation of the Member State concerned.

### Legal basis

Council Regulation (EC) No 1083/2006 of 11 July 2006 laying down general provisions on the European Regional Development

Fund, the European Social Fund and the Cohesion Fund and repealing Regulation (EC) No 1260/1999 (OJ L 210, 31.7.2006, p. 25), and in particular Article 36a thereof.

Regulation (EU) No 423/2012 of the European Parliament and of the Council of 22 May 2012, amending Council Regulation (EC) No 1083/2006 as regards certain provisions relating to risk-sharing instruments for Member States experiencing or threatened with serious difficulties with respect to their financial stability (OJ L 133, 23.5.2012, p. 1).

*Remarks*

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the following specific objectives in the Western Balkans:

- support for political reforms,
- strengthening of the ability of the beneficiaries listed in Annex I of the Regulation at all levels to fulfil the obligations stemming from Union membership in the area of political reforms by supporting progressive alignment with and adoption, implementation and enforcement of the Union *acquis*.

Part of this appropriation will be used for measures to help the beneficiary countries meet the requirements stemming from visa-free travel to and from the Schengen countries, or, in the case of Kosovo, measures to speed up the visa liberalisation process.

Part of this appropriation will be used for measures with a view to reconciliation between the countries, peoples and ethnic groups throughout the Western Balkans, and to support efforts to promote an impartial view on historical and political events.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

### Remarks

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the following specific objectives in Turkey:

- support for political reforms,
- strengthening of the ability of the beneficiaries listed in Annex I of Regulation (EU) No 231/2014 at all levels to fulfil the obligations stemming from Union membership in the area of political reforms by supporting progressive alignment with and adoption, implementation and enforcement of the Union acquis.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

*Remarks*

This article is intended to record appropriations resulting from the mobilisation of the European Union Solidarity Fund in the event of major disasters in the Member States. Assistance should be provided mainly in connection with natural disasters, but may also be provided, where warranted by the urgency of the situation, to the Member States concerned, with a deadline being laid down for use of the financial assistance awarded and provision being made for beneficiary states to substantiate the use made of the assistance they receive. Assistance received which is subsequently offset by third-party payments, under the ‘polluter pays’ principle, for example, or received in excess of the final valuation of damage should be recovered.

With the exception of the advance payment, the allocation of the appropriations will be decided on in an amending budget with the sole purpose of mobilising the European Union Solidarity Fund.

### Remarks

This appropriation is intended to cover expenditure on the implementation of the Customs 2020 programme, and in particular the financing of joint actions, IT capacity building and human competency building.

It covers in particular:

- the cost of the acquisition, development, maintenance, operation and quality control of Union components of European Information Systems. The Union components of the European Information Systems are: (1) IT assets such as the hardware, the software and the network connections of the systems including the associated data infrastructure; (2) IT services necessary to support the development, maintenance, improvement and operation of the systems; (3) and any other elements which, for reasons of efficiency, security and rationalisation, are identified by the Commission as common to participating countries,
- expenses related to seminars, workshops, project groups, working visits, monitoring activities, expert teams, administration capacity building and supporting actions, studies, and communication projects,
- the costs related to implementation of provisions for common training actions,
- expenses pertaining to preparatory, monitoring, control, audit and evaluation activities, required for the management of the programme and the achievement of its objectives,
- the costs of any other activity in support of the objectives and activity areas of the programme.

Any revenue from the contributions from acceding countries, candidate countries, potential candidate countries benefiting from a pre-accession strategy and, partner countries under the European Neighbourhood Policy, provided they reached a sufficient level of approximation of the relevant legislation and administrative methods to those of the Union for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (f) of the Financial Regulation.

Any revenue from the participation of third countries, other than candidate countries and Western Balkan potential candidate countries, in customs cooperation agreements entered in Item 6 0 3 2 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this article in accordance with Article 21(2)(e) to (f) of the Financial Regulation.

#### *Remarks*

This appropriation is intended to cover expenditure on the implementation of the Fiscalis 2020 programme, and in particular the financing of joint actions, IT capacity building and human competency building.

It covers in particular:

- the cost of the acquisition, development, maintenance, operation and quality control of Union components of European Information Systems. The Union components of the European Information Systems are: (1) IT assets such as the hardware, the software and the network connections of the systems including the associated data infrastructure; (2) IT services necessary to support the development, maintenance, improvement and operation of the systems; (3) and any other elements which, for reasons of efficiency, security and rationalisation, are identified by the Commission as common to participating countries,
- expenses related to seminars, workshops, project groups, bilateral or multilateral controls, working visits, expert teams, public administration capacity building and supporting actions, studies, and communication projects,
- the costs related to implementation of provisions for common training actions,
- expenses pertaining to preparatory, monitoring, control, audit and evaluation activities required for the management of the programme and the achievement of its objectives,
- the costs of any other activity required in support of the objectives and priorities set out for the programme.

Any revenue from the contributions from acceding countries, candidate countries, potential candidate countries benefiting from a pre-accession strategy and, partner countries under the European Neighbourhood Policy, provided they reached a sufficient level of approximation of the relevant legislation and administrative methods to those of the Union for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the participation of third countries, other than candidate countries and Western Balkan potential candidate countries, in customs cooperation agreements entered in Item 6 0 3 2 of the statement of revenue will give rise to the provision of additional appropriations to be entered in this article in accordance with Article 21(1) of the Financial Regulation.

#### *Legal basis*

Regulation (EU) No 1286/2013 of the European Parliament and of the Council of 11 December 2013 establishing an action programme to improve the operation of taxation systems in the European Union for the period 2014-2020 (Fiscalis 2020) and repealing Decision No 1482/2007/EC (OJ L 347, 20.12.2013, p. 25), and in particular Article 5 thereof.

*Remarks*

In line with the general objective in particular the objectives of the ET 2020 strategic framework for European cooperation in education and training, as well as in support of the sustainable development of third countries in the field of higher education, this appropriation is intended to pursue the following specific objectives in the field of education and training:

- to improve the level of key competences and skills with particular regard to their relevance for the labour market and contribution to a cohesive society, notably through increased opportunities for learning mobility and strengthened cooperation between the world of education and training and the world of work,
- to foster quality improvements, innovation excellence and internationalisation at the level of education and training notably through enhanced transnational cooperation between education and training providers and other stakeholders,
- to promote the emergence and raise awareness of a European lifelong learning area, to complement policy reforms at national level and to support the modernisation of education and training systems, notably through enhanced policy cooperation, better use of Union transparency and recognition tools and the dissemination of good practices,
- to enhance the international dimension of education and training, notably through cooperation between Union and third country institutions in the field of vocational education and training (VET) and in higher education, by increasing the attractiveness of the European higher education institutions and supporting the Union's external action, including its development objectives through the promotion of mobility and cooperation between the Union and third country higher education institutions and targeted capacity building in third countries,
- to improve the teaching and learning of languages and to promote the Union's broad linguistic diversity and intercultural awareness, including minority and endangered languages, for example by supporting projects and networks providing educational materials, teachers training, use of endangered language as educational media, language regeneration and exchange of best practices, etc.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions from the countries of the European neighbourhood area in accordance with the procedures defined with those countries following the framework Agreements providing for their participation in Union programmes as entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution from the Swiss Confederation for participating in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

#### *Remarks*

In line with the general objective, this appropriation is intended to pursue the following specific objectives in the area of youth:

- to improve the level of key competences and skills of young people, including those with fewer opportunities, as well as to promote participation in democratic life in Europe and the labour market, active citizenship, intercultural dialogue, social inclusion and solidarity, notably through increased learning mobility opportunities for young people, those active in youth work or youth organisations and youth leaders, and through strengthened links between the youth field and the labour market,
- to foster quality improvements in youth work, notably through enhanced cooperation between organisations in the youth field and/or other stakeholders,
- to support free, high-quality public education in such a way as to guarantee that no pupil is denied access to or forced to break off any level of education on economic grounds, with particular attention being paid to the first years of schooling, with a view to preventing early school-leaving and ensuring that children from the least-favoured sections of society can be fully integrated,
- to complement policy reforms at local, regional and national level and to support the development of knowledge and evidence-based youth policy as well as the recognition of non-formal and informal learning, notably through enhanced policy cooperation, better use of Union transparency and recognition tools and the dissemination of good practices,
- to enhance the international dimension of youth activities and the role of youth workers and organisations as support structures for young people in complementarity with the Union’s external action, notably through the promotion of mobility and cooperation between the Union and third country stakeholders and international organisations and through targeted capacity building in third countries.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. #### *Former articles 15 02 03 and 15 02 10*

In line with the general objective, this appropriation is intended to cover support of the implementation of Union policies in areas that correspond to the Chapter's specific objectives (Article 11) and activities (Article 12).

The Sport Chapter of the 'Erasmus+' programme pursues the following specific objectives in the area of sport:

- to tackle transnational threats to sport such as doping, match fixing, violence, racism and intolerance,
- to support good governance in sport and dual careers of athletes,
- to promote social inclusion, equal opportunities and health-enhancing physical activity through increased participation in sport, including by organising conferences and meetings with athletes to show and explain to students and teenagers how a good balance between sport, instruction and good nutrition can improve their life.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

#### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The aim of the preparatory action is to develop an e-platform for ENP countries' administrations, local authorities, academic centres and civil society, allowing for flexible yet targeted exchange of know-how and knowledge in Union affairs and *acquis communautaire*.

Due to recent political events and association-related contractual developments with some of the ENP states, especially those entering the association phase of their relationship with the EU, a large number of advanced training modules on the EU and EU-ENP-related matters need to be added to complement the e-platform and policy and legal advice needs to be provided on request. Given that education and training activities offered through the e-platform are to further the development of the ENP countries' human capital and the personal development of learners, high quality of e-learning needs to be guaranteed. In order to ensure that the e-platform helps bridge the gap between education supply and labour market demand in the ENP countries in connection with EU affairs, evaluation tools and indicators for learning process performance/results should be developed and introduced as well. This will ensure the sustainability of the e-platform and allow a map of priorities for providing further support to beneficiaries to be produced.

The implementation of the preparatory action will be entrusted to the College of Europe (Natolin Campus), which has thorough and comprehensive knowledge of complex democratic transition processes and EU-oriented structural transformations, especially as regards EU association agreements and their implementation, as well as extensive experience of ENP matters, which is of the utmost importance for the e-platform' success.

### Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020) of the European Union.

The Programme shall play a central role in the implementation of the Europe 2020 flagship initiative ‘Innovation Union’ and other flagship initiatives, notably ‘Resource efficient Europe’, ‘An industrial policy for the globalisation era’, and ‘A digital agenda for Europe’, as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

It will be carried out in order to pursue the general objectives set out in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and

evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in ‘Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)’ and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European cooperation in the field of scientific and technical research entered in Item 6 0 1 6 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be provided under Item 15 03 50 01.

Administrative appropriations of this chapter will be provided under Article 15 01 05.

### ***Article 15 03 01 — Excellent science***

#### *Remarks*

This priority of Horizon 2020 aims to reinforce and extend the excellence in the Union’s science base and ensure a steady stream of world-class research to secure Europe’s long-term competitiveness. It will support the best ideas, develop talent within Europe, provide researchers with access to priority research infrastructure, and make Europe an attractive location for the world’s best researchers. Research actions to be funded will be determined according to the need and opportunities of science, without pre-determined thematic priorities. The research agenda will be set in close liaison with the scientific community and research will be funded on the basis of excellence.

#### *Remarks*

Europe needs a strong and creative human resource base, mobile across countries and sectors, and has to be attractive for the best researchers, European and non-European. This will be achieved by structuring and raising excellence in a substantial share of the high-quality initial training of early stage researchers and doctoral candidates and by supporting attractive career opportunities for experienced researchers in both public and private sectors worldwide. Researchers are encouraged to move between countries, sectors and disciplines to enhance their creative and innovative potential.

### Remarks

This appropriation is intended to cover staff and administrative expenditure, and operational expenditure relating to the work programme of the European Institute of Innovation and Technology (EIT), including the knowledge and innovation communities (KIC) designated by the EIT.

In the framework of the EIT's Strategic Innovation Agenda (SIA) and Regulation (EU) No 1292/2013 of the European Parliament and of the Council of 11 December 2013 amending Regulation (EC) No 294/2008 establishing the European Institute of Innovation and Technology (OJ L 347, 20.12.2013, p. 174), the EIT will contribute to the general objective and priorities of 'Horizon 2020 — The Framework Programme for Research and Innovation', with the specific objective of integrating the knowledge triangle of higher education, research and innovation. The EIT aims to give Europe's innovation capacity a much needed boost and its overall goal is to create a new European way of delivering essential economic growth and societal benefits through innovation by helping transform innovative ideas into products and services that create sustainable growth and jobs.

Knowledge and innovation communities are the operational base of the EIT. They are excellence-driven partnerships, which bring together the whole innovation web in order to offer new opportunities for innovation in Europe and generate real impact in terms of new business creation and societal benefits. They address focused innovation topics and integrate public and private research organisations, innovative industries, higher education institutions, investors, start-ups and spin-offs. The first three KICs were designated in December 2009 and address the following societal challenges: climate change mitigation and adaptation (through Climate-KIC), sustainable energy (through KIC InnoEnergy) and future information and communication society (through EIT ICT Labs).

The EIT aims to generate tangible impact in the following areas:

- addressing key societal challenges: The KICs combine expertise from across disciplines to ensure innovative and global responses to complex societal challenges,
- setting a clear business-friendly framework: Turning new ideas into tangible new products, services or business opportunities will be the main benchmark of the EIT's and the KICs' success,
- enhancing the free flow of knowledge through co-location: The KICs are organised around co-location centres — geographical locations where most or the whole innovation chain is in close proximity. The emphasis is on people from diverse backgrounds (industry, SMEs, academia, nationality, gender, discipline, etc.) working together with face-to-face contact, thus leading to great mobility of knowledge,
- creating a new generation of entrepreneurs: people with an entrepreneurial mind-set are the drivers of innovation, thereby keeping our economies and societies moving. The EIT promotes entrepreneurship education as a key feature of KICs' Masters and doctoral programmes by shifting the emphasis from 'learning about' to 'learning by doing'. The Master and PhD programmes will provide students with the entrepreneurial skills they need to succeed in the knowledge economy, focusing on learning outcomes and the use of innovative teaching methods.

The EIT's strategic objectives for this period are to consolidate and synergise its operations and to prepare for achieving the priorities set out in the Strategic Innovation Agenda (2014-2020): firstly, by incentivising growth, impact and sustainability by continuing to strengthen its partnership with the three existing KICs whilst creating new KICs. By following an incremental development path in establishing new KICs, the EIT will ensure leading up to a total portfolio of nine KICs in the period 2014-2020 (equalling the set-up

of 40-50 co-location centres across the Union); secondly, by enhancing the EIT's impact by fostering entrepreneurship-driven innovation across the Union through wide dissemination of novel innovation models attracting and developing talent from across Europe; and thirdly, by introducing new means of achieving impact, alongside results-oriented monitoring .

The establishment plan of the EIT is set out in Annex 'Staff' to this section.

*Remarks*

This appropriation is intended to cover the following measures relating to Cross-sectoral strand of the Creative Europe programme.

The cultural and creative sector facility will target the cultural and creative sectors and will have the following priorities: facilitate access to finance for small- and medium-sized enterprises and organisations in the European cultural and creative sectors; improve the capacity of financial institutions to assess cultural and creative projects, including technical assistance and networking measures.

This will be achieved through:

- providing guarantees to appropriate financial intermediaries from any country participating in the Creative Europe Programme,
- providing financial intermediaries with additional expertise and capacity to evaluate risks associated with operators in the cultural and creative sectors.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions from the countries of the European neighbourhood area in accordance with the procedures defined with those countries following the framework Agreements providing for their participation in Union programmes as entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution from the Swiss Confederation for participating in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenues may give rise to the provision of additional appropriations in accordance with Article 21(3)(i) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover the following measures relating to the Culture sub-programme of the Creative Europe programme:

- supporting actions providing operators with skills and knowhow encouraging the adaption to digital technologies, including testing new approaches to audience building and business models,
- supporting actions enabling operators to internationalise their careers in Europe and beyond,
- providing support to strengthen European operators and international cultural networks in order to facilitate access to professional opportunities.

The priorities in the field of promoting transnational circulation shall be the following:

- supporting international touring, events and exhibitions,
- supporting the circulation of European literature,
- supporting audience building as a means of stimulating interest in European cultural works.

*Support measures of the Culture sub-programme*

The Culture sub-programme shall provide support for the following measures:

- transnational cooperation measures bringing together operators from different countries to undertake sectoral or cross-sectoral activities,
- activities by European networks of operators from different countries,
- activities by organisations providing a promotional European platform for the development of emerging talent and stimulating the circulation of artists and works, with a systemic and large scale effect,
- support for literary translation,
- special actions aiming to achieve greater visibility for the richness and diversity of European cultures, and stimulate intercultural dialogue and mutual understanding, including European cultural prizes, the European Heritage Label, and the European Capitals of Culture.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contributions from the countries of the European neighbourhood area in accordance with the procedures defined with those countries following the framework agreements providing for their participation in Union programmes as entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution from the Swiss Confederation for participating in Union programmes entered under Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in

accordance with Article 21(2)(e) to (g) of the Financial Regulation.

##### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action would prepare a proposal for a more strategic approach to culture in the EU's external relations involving a higher level of stakeholders in Europe and representatives of third countries, cultural institutes and NGOs.

Work sessions therefore aim at mobilising resources for cultural cooperation and building up a Union definition of its potential cultural impact.

Fostering European integration through culture is a crucial issue in a digitalised European economy. In this context, it is urgent that Union officials assist European cultural stakeholders find new tools to help dissemination of audiovisual content. Digital revolution offers a tremendous opportunity for cross-border online dissemination of content for European stakeholders but this dissemination is often practically slowed down by linguistic borders. By providing new and diverse subtitled versions of selected TV programmes across all Europe, this project aims to assess the impact of linguistic differences on the transnational digital dissemination of

audiovisual cultural content. This project includes a scientific evaluation to measure and compare the outreach of content and the audience with and without different languages versions, both in and outside Europe. The project allows a transparent selection of programmes to be supported and gives all European stakeholders the opportunity to use its experience and results. The objective is clearly to develop new business models for European media stakeholders and to enable Union institutions to base future policy initiatives on the outcome.

Crowdfunding is proving to be a trusted vehicle to transfer money between potential customers and the cultural sector. Crowdfunding businesses are using a platform and network model – one brand will rule them all – something which has been seen in social network businesses. Europe's crowdfunding market is as fragmented as its nations, and US-based systems benefit from a homogenous internal market. In order to maintain an active language policy in the online world and link it to the cultural sector, an alternative strategy is needed. There are some interesting cases to learn from, including the hybridised funding structure CrowdCulture in Sweden, which links public funding with private donations.

The pilot project will:

in a study, identify and analyse best practices in Europe's crowdfunding market in relation to cultural organisations.

#### *Remarks*

This pilot project follows on from Commission and European Parliament initiatives: the Agenda for Culture (2007) which, over the years, has shown the importance of a cultural dimension to EU external relations, various own-initiative reports by Parliament's

Committee on Culture (The cultural dimensions of the EU's external actions, Ms Schaake, A7-0112/2011; Unlocking the potential of cultural and creative industries, Ms Sanchez-Schmid, A7-0143/2011) and the Commission communication, and the preparatory action proposed by the Verts/ALE Group, on culture in external relations.

The pilot project will support the establishment of networks of young creative professionals from the EU and partner countries with a view to encouraging exchanges, networking, professional development and long-term collaborative relations among young entrepreneurs and players in the cultural and creative sectors in the EU and partner countries. The Creative Europe programme illustrates the determination to engage at EU level with the creative and cultural sectors, making a substantial contribution to creativity and economic revitalisation in the EU and its relations with third countries.

### Item 15 04 77 10 — Preparatory action — Crowdsourcing subtitling to increase circulation of European works

#### *Figures*

Budget 2015		Appropriations 2014		Outturn 2013	
Commitments	Payments				
1 000 000	500 000				

#### *Remarks*

Many high-quality European works (television drama, documentaries, films, etc.) are not distributed outside their domestic markets as that would entail high subtitling costs. In this context, controlled crowdsourcing (wikis) appears to be a valid option. It would significantly lower the cost of subtitling, while maintaining the same translation quality as that provided by traditional audiovisual service companies.

This preparatory action will test the impact of an online platform for crowdsourced subtitling files on the circulation of European works and will determine the conditions (relating in particular to governance and economic aspects, etc.) that need to be met for such a model to be viable in this area.

It will cover:

- (1) implementation, promotion and operation of an online platform for crowdsourced subtitling files that can be used by any consumer for personal use or by other users for commercial purposes;
- (2) making works with crowdsourced subtitles available online in the markets concerned;
- (3) sharing the results of the trial with the general public, including stakeholders and policy-makers, by organising public workshops and by other means.

### Remarks

In accordance with the programme 'Europe for Citizens' and under the overall aim of bringing Europe closer to its citizens, the general objective of the programme is to contribute to the understanding about the European Union and to foster European citizenship and improve conditions for civic participation at Union level.

This appropriation is intended to cover actions such as partnerships, structural support, remembrance projects, European Union history and its identity, citizens' meetings, networks of twinned towns, citizens' and civil societies projects, peer reviews, studies and communication services, support measures, events and support structures in the Member States.

This appropriation is also intended to promote European citizenship by informing citizens about their rights as EU citizens, and the impact of the Union on their daily life, in all languages of the Union. This will involve, in particular, information on the European Citizens' Initiatives, given the importance of this instrument of participatory democracy to citizens.

Future calls for proposals will give particular consideration to projects from civil society organisations promoting integration, linguistic diversity, cohesion and non-discrimination, with a special focus on European minorities.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidate countries for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The objective of the preparatory action is to enable the establishment in Brussels of a European Civil Society House (ECSH) as a cost-efficient resource centre and advice bureau on European rights and civic participation for citizens and civil society organisations. In order to achieve this goal there is a need to:

- broaden the ECSH partnership base with key organisations at Union and national level,
- consult local authorities and other stakeholders to grow support for and develop the concept of the ECSH,
- plan the use of the physical premises of the ECSH in terms of a Union citizens' advice bureau shared by many similar organisations, generating economies of scale.

### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

In 1984, the Fontainebleau European Council introduced the concept of a People's Europe. The Council considered 'essential that the Community should respond to the expectations of the people of Europe by adopting measures to strengthen and promote its identity and its image both for its citizens and for the rest of the world'. Thirty years later the time has come to assess how Europeans perceive the Union. What is its added value? Why are we together?

The initial purpose of the European Union — to secure peace, to spread democracy and to bring prosperity — has been achieved. Today, however, many parts of Europe are in severe crisis, with heated discussions on the purpose of Union membership. The focal point of these discussions often seems to be the burning question: Why are 'we' together with 'them'?

Under Article 2 of the Treaty on the European Union, the right for every Union citizen to find his or her own path within the Union should be respected. Therefore, Union action must be linked to an understanding of local values and constitutions. In short, the promise of the Union has to be explained in terms of its added value for countries and citizens.

All Member States will have gone through a painstaking decision-making process prior to joining the Union - an emotional process followed by ongoing political discussions about both economic and ethical issues, with most countries involving citizens through referendums on major issues. Following accession, each country's membership has evolved. This pilot project will describe the relationship of each Member State with the Union to see if there are common perceptions about the Union in the various Member States.

This will be done by interviewing citizens from all walks of life in every country. The aim of the interviews will be to understand how the Union is perceived in everyday life by its citizens. These findings will be compiled in a report in order to identify each country's specific relationship with the Union and thereby gain a clearer picture of the different national perceptions of the Union. These national profiles will then be compared in order to ascertain the extent to which there are shared perceptions of the EU among 'real people' in Member States. In short, the question to be answered is: what do people think are the most positive aspects of the Union,

both now and for the future? Is there a common perception of the Union rather than 28 different perceptions? And if so, what is that perception?

The work of mapping out perceptions of the Union will be closely coordinated with ongoing similar initiatives, such as the pilot project 'The New Narrative on Europe', the 'Citizens Dialogue' and the initiative 'A Soul for Europe'.

It is therefore suggested that a start be made with a pilot project, discovering and mapping the perceptions about the Union within at least five Member States, with the aim of outlining common perceptions about the Union, if any, which go beyond the unique relationship that each country has with the Union.

The results of the Citizens' Dialogues could serve as a basis for the work of this pilot project. The results so far suggest that citizens expect a clear vision about three central questions:

- How much unity is wanted/needed and what are the areas where integration should take place?
- What would make the Union more democratic and how can Union politicians be made accountable for the decisions they make?
- What is the right balance between responsibility and solidarity?

Therefore the appropriation will be mainly used for:

- setting up focus groups composed of citizens from all Member States that would develop proposals as to how the Union can deliver on these visions,
- disseminating and further discussing the outcomes of the focus group meetings in traditional and social media,
- the results will be published in a report and serve as follow-up to and additional input for the 'New Narrative on Europe' as well as for targeted Union communication efforts.

#### *Remarks*

The budget authority included in the 2013 and 2014 EU budgets a pilot project to create a new narrative for Europe. The aim of that project was to mobilise personalities and opinion-makers from the creative, cultural and scientific sectors to formulate a new narrative to be issued in the form of a charter in advance of the 2014 European elections.

That charter has now been published, and the aim of this preparatory action is to enable the cultural committee behind the charter to continue its dialogue with citizens. The charter is to be seen as a beginning, with the arts community and citizens in Europe being invited to engage and participate in the ongoing discussion on the many narratives on Europe.

An overarching approach will be taken in the form of networks of citizens, cultural institutions and organisations spreading knowledge to the public and inviting citizens to play a role. Furthermore a corps of ambassadors will be established. The task of the ambassadors will be to interact with citizens in the ongoing debate about the new narrative and to engage with the European public.

Pilot project participants also agreed on the need to ensure the project's sustainability, since a narrative is an ongoing process.

Therefore, the preparatory action will:

- conduct events to publicise the charter on the new narrative for Europe in as many Member States as possible, thereby fostering dialogue and debate;
- support public events with broad media coverage that are organised by cultural, scientific and citizens' organisations and focus on the debate on the new narrative for Europe;
- ensure maximum inclusion of citizens by supporting independent media platforms covering the debate on the new narrative for

Europe.

#### *Remarks*

This appropriation is intended to fund general information to citizens on operations concerning the Union, for the purpose of increasing the visibility of the work of the Union institutions, the decisions taken and the stages in the building of Europe. It concerns essentially the funding or co-funding of the production and/or dissemination of multimedia (radio, TV, internet, etc.), information products, including pan-European networks made up of local and national media, as well as the tools necessary to develop such a policy. This appropriation also covers evaluation expenditure. Part of this appropriation will be used for existing pan-European networks of local and national media (radio, television, internet, etc.).

The amount of assigned revenue pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 50 000.

The Commission, when implementing this item, should take duly into account the outcome of the meetings of the Interinstitutional Group of Information (IGI).

### Remarks

This appropriation is intended to fund general information to citizens and covers:

- the financing of the Europe Direct network throughout Europe (Europe Direct Information Centres, European documentation centres, Team Europe speakers, etc.); this network supplements the work of the Commission Representations and the European Parliament Information Offices in the Member States,
- support, training, coordination and assistance for Europe Direct network,
- the financing of production, storage and distribution of information material and communication products by these outlets as well as for them.

This appropriation also covers evaluation expenditure.

The amount of assigned revenue pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 50 000.

### Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

### Reference acts

### Remarks

This appropriation is intended to fund general information to citizens and covers the expenditure on centralised and decentralised communication. The aim of local communication activities is in particular to provide target groups with the tools to gain a better understanding of burning topical issues.

These activities are implemented in the Member States through:

- communication operations linked to specific annual or multiannual communication priorities,
- ad hoc communication operations on a national or international scale that fit in with the communication priorities,
- seminars and conferences,
- organisation of or participation in European events, exhibitions and public-relations activities, organisation of individual visits, etc.,
- direct communication measures targeted at the general public (e.g. citizens' advice services),
- direct communication measures targeted at opinion multipliers, in particular stepped-up measures involving the regional daily press, which is a major information outlet for a large number of Union citizens,
- the management of information centres for the general public in the Commission Representations.

Communication operations can be organised in partnership with the European Parliament and/or the Member States in order to create synergies between the means of each partner and to coordinate their information and communication activities on the European Union.

This appropriation is also intended to cover expenditure on studies, evaluations, meetings of experts and expert technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts as well as the repayment of travel and related expenses of persons invited to follow the work of the Commission.

The amount of assigned revenue pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 55 000.

The Commission, when implementing this item, should take duly into account the outcome of the meetings of the Interinstitutional Group on Information (IGI).

#### *Remarks*

This appropriation is intended to fund general information to citizens and cover specifically the opening and management of 'European Public Spaces' (EPS) in the Europe Houses that are formally hosting the EPS. The Commission is to manage the logistical arrangements for the EPS for the benefit of both institutions (the European Parliament and the Commission), including operational costs and the organisation of contracted services. The EPS must be run jointly by the two institutions on the basis of an assessment report on the management and the functioning of the EPS, as well as of a working programme for the year to come. Both these documents, which are drafted jointly by the two institutions and constitute the fundamental elements for allocation of funds for the following year, are to be presented to the budgetary authority in time to be taken into account in the budgetary procedure.

### Remarks

This appropriation is intended to cover online multimedia and written information and communication tools concerning the Union, for the purpose of providing all citizens with general information on the work of the Union institutions, the decisions taken and the stages in the building of Europe. Online tools make it possible to gather citizens' questions or reactions on European issues. This is a public service task. The information covers all the Union institutions. These tools must be made accessible to people with disabilities, in accordance with Web Accessibility Initiative (WAI) guidelines.

The main types of tool concerned are:

- the Europa site, which must constitute the main point of access to the existing information and websites concerning the administrative information which Union citizens might need in their daily lives and which therefore must be better structured, made more user-friendly and optimised for mobile devices,
- complementary online channels like social media, blogs and other web 2.0 technologies,
- the Europe Direct Contact Centre (00800-67891011),
- the internet sites, multimedia and written products of the Commission Representations in the Member States,
- online press releases, speeches, memos, etc. (Rapid).

This appropriation is also intended to:

- fund the restructuring of the Europa site in a more coherent way, to optimise the site for mobile devices, to focus it on user needs and to professionalise the use of other online channels like social media, blogs and web 2.0. This includes all types of training, coaching and consultancy services for various groups of stakeholders,
- cover the expenditure relating to hosting and licences costs associated with the Europa site,
- support the exchange of best practices, knowledge transfer and professionalisation by financing visits of digital communication experts and practitioners,
- cover information campaigns for facilitating access to these sources of information, especially for the operation of the Europe Direct Contact Centre, the general multilingual information service about EU matters,
- cover the expenditure relating to the production for various target groups of written publications concerning the Union's activities that are often distributed through a decentralised network, mainly:
  - the Representations' publications (paper newsletters and periodicals): each Representation produces one or more publications that are distributed among multipliers and cover various fields (social, economic and political),
  - the dissemination (also through a decentralised network) of specific basic information on the European Union (in all the official Union languages) for the general public, coordinated from headquarters, and promotion of the publications.

Publishing costs cover, among other things, preparation and drafting (including authors' fees), freelance editing, use of documentation, reproduction of documents, data purchase or management, editing, translation, revision (including checking the concordance of texts), printing, posting on the internet or installation in any other electronic medium, distribution, storage, dissemination and promotion of the publications.

This appropriation could also cover evaluation expenditure.

The Commission, when implementing this item, should take duly into account the outcomes of the meetings of the Interinstitutional Group on Information (IGI).

##### *Remarks*

This appropriation is intended to cover expenditure on issuing, in whatever medium, publications on matters of topical importance relating to Commission activities and the work of the Union, as well as the publications provided for in the Treaties and other institutional or reference publications, such as the general report. The publications may be targeted at specific groups such as the teaching profession, young people, opinion leaders or the general public.

Publishing costs cover, among other things, preparation and drafting (including authors' contracts), freelance editing, use of documentation, reproduction of documents, data purchase or management, editing, translation, revision (including checking the concordance of texts), printing, posting on the internet or installation in any other electronic medium, distribution, storage, dissemination and promotion of the publications, including in formats accessible to citizens with disabilities.

Commitments	Payments	Commitments	Payments	
1 000 000	936 187	1 000 000	500 000	

### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Social media and the internet have fundamentally changed access to information and communication between people. Union institutions should improve the way they use these ground-breaking tools. Union institutions can use social media networks and online platforms in more innovative ways. Union institutions have no joint communication policy on the use of these tools. Moreover, these tools are still too often used simply to spread a message, whereas they offer the opportunity for conversation between politicians and the people they serve and represent. In contrast to other media (television, radio, newspapers), the internet (and social media in particular) should be used to allow citizens to interact: to provide policy makers with ideas and to start discussion on policy proposals or projects.

The Union must adapt to online reality in its communication strategy. The Union must allow its citizens to interact and to contribute. Regrettably Union communication is currently still very much a top-down process which is neither interactive nor in tune with what the new media can do. Although the social network take-up rate (among Europe's internet users) is about 90%, the Union's communication strategy does not yet embrace social networks, the internet and mobile services to improve access to information on Union policies or to involve Union citizens. Some Members of Parliament and Commissioners may be using social networks very actively, yet the main Union institutions can do a lot to open up, to include citizens better and to make information available, searchable and shareable.

'Share Europe Online' has successfully run as a pilot project since 2012, with positive responses from stakeholders at both the central institutional level and from the national offices implementing the project.

The pilot project sought to improve the way in which Union institutions use these new media, focusing on their local offices in Member States. The project introduced the practice of social media community management in European Parliament Information Offices and Commission Representations in order improve the provision of information to citizens online and make EU-related information more accessible. An important objective was to build the offices' capacity for enhanced activity on social media by upgrading their staff's skill base through training and coaching by the community managers appointed.

The pilot project has helped to narrow the gap in Union institutional communication via social networks in local languages and on local platforms, thanks to increased and more coordinated activity by the offices involved. The provision of EU-related content which is appealing, relevant to the national community and optimised for social sharing is leading to increased levels of interaction. This is fostering dialogue not only between the Union and its citizens, but also between citizens themselves.

The reach and influence of the institutions' activities are increasing thanks to more targeted communication and partnerships with opinion leaders and local actors, including grassroots and civil society organisations, extending the debate on European issues to a much wider public and broadening the European public sphere.

Through better insight into the conversations taking place on social media, the institutions are also improving their ability to listen and take stock of the concerns of citizens, who are increasingly organising themselves on these networks. 'Share Europe Online' aims to facilitate interaction and access to information, and not to send out opinions about the Union in a top-down manner, which would risk being perceived as propaganda.

The budget of the 'Share Europe Online' preparatory action should serve to consolidate the positive practice started under the pilot project in order to complete the upgrading of skills and facilitate further organisational change. The aim is to bring the European Parliament Information offices and Commission Representations up to the level of expertise required to take full advantage of the social media so as to foster interaction with citizens.

As in the pilot project, the preparatory action should involve people within the Union institutions as well as outside experts, civil society and grassroots organisations. Its implementation should be based on working methods jointly agreed between the Union institutions involved.

The rise of social networks has led businesses to create the job of 'community manager'. Community managers act as an interface between a company and its clients; they 'spread the good word about the company in a language that is specific to social networks,

they manage virtual communities and understand and respond to their needs' ([http://www.colpis.cat/files/documents/388\\_material.pdf](http://www.colpis.cat/files/documents/388_material.pdf)). With this preparatory action, the 'EU community managers' introduced as part of the 'Share Europe Online' pilot project could continue to make information about the Union accessible and to represent the various Union institutions and provide independent information about the Union and its proceedings.

'Share Europe Online' should integrate parts of existing programmes such as Europe Direct, Euronews, the various web platforms, communication strategies and Union information archives. Furthermore, the preparatory action could continue the work already carried out under the 'Share Europe Online' pilot project.

Remarks

This appropriation is intended to cover expenditure for achieving the objectives established through the multiannual consumer programme for the years 2014-2020. The aim of the programme is to ensure a high level of consumer protection and to empower consumers in the heart of the internal market within the framework of an overall strategy for smart, sustainable and inclusive growth, by contributing to the protection of the health, safety, legal and economic interests of consumers, as well as to the promotion of their right to information, education and to organise themselves in order to safeguard their interests, supporting the integration of such consumer interests into other policy areas. The programme will complement, support and monitor the policies of Member States.

This general objective shall be pursued through the following four specific objectives:

- safety: to consolidate and enhance product safety through effective market surveillance throughout the Union,
- information and education and support to consumer organisations: to improve consumers' education, information and awareness of their rights, to develop the evidence base for consumer policy and to provide support to consumer organisations, also taking into account the specific needs of vulnerable consumers,
- rights and redress: to develop and reinforce consumer rights, in particular through smart regulatory action, and to improve access to simple, efficient, expedient and low-cost redress including alternative dispute resolution,
- enforcement: to support enforcement of consumer rights by strengthening cooperation between national enforcement bodies and by supporting consumers with advice.

The new programme also needs to take into account new societal challenges which have grown in importance in recent years. They

include: the increased complexity of consumer decision-making, the need to move towards more sustainable patterns of consumption, the opportunities and threats that digitalisation brings, an increase in social exclusion and the number of vulnerable consumers and an ageing population.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

#### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This appropriation is intended to cover expenditure for setting up the European consumer travel application, 'Your Europe Travel'. The objective of this application is to establish a one-stop shop that offers information on consumer rights and cross-border issues, and to help travellers when they encounter problems while they are abroad and have limited access to information and advice services.

It will provide practical information for consumers and focus on real-life, cross-border situations, on topics ranging from travel and visa information, passenger and consumer rights, health cards, payment systems, road signs, and the European Consumer Centres (ECCs) that can provide assistance and advice in each of the Member States and in Norway and Iceland.

The strategy relating to the content of this 'smart' application will be defined by the Commission with the active involvement of the European Parliament. The strategy should be revised once a year to take into account new developments.

The application will make menus available which allow users to quickly find the information they need during a trip within the Union. It will be fully multilingual, i.e. available in any of the official Union languages. General Union information will also be available in all the official languages, detailed information in the language(s) of each Member State plus English, French and German.

The goal of this project is to develop a service concept and later an application that can be used by the citizens within the Union on mobile devices to assist them with travel issues, questions and problems. This intelligent application shall, answer most questions based on a semantic analysis of the question and of the content available. It shall also offer the possibility of asking further questions, via the Europe Direct service, in the event that the first-line system provides an incomplete reply. Replies via Europe Direct will be given within its established deadlines, in accordance with its quality charter, and in the language of the consumer. The service will be free of charge, except for telecommunications costs.

The content will mostly syndicate existing content from the Commission's Your Europe and ECC Network websites so that it is adapted to each national context. In addition to information, it will include an interactive part/module to help solve disputes with traders. This will give consumers some quick tips to help them solve the issue in question by themselves while they are abroad. More complex issues will be signposted into the normal workflow of the ECC Network and relevant alternative dispute resolution/online dispute resolution options.

In addition to development and production costs, this appropriation is intended to cover the maintenance, running costs and publicity costs of the project for the next 5 years.

#### *Implementation*

The project should as a starting point draw on knowledge of the current situation with regard to communication with citizens on Union affairs, and should also research state-of-the-art relevant communication technologies.

The project should then apply a collaborative and participative approach to create concepts such as an interactive platform and captioning service by involving the citizens from all over Europe through a behavioural study, resulting in a basic service concept of the application that is created by actual end users.

The project will make the best possible use and/or integrate other relevant applications for mobile devices (Passenger rights , European Health Insurance card), websites for citizens (such as Your Europe, Travelling in Europe, European Youth Portal Travel Section), and services to citizens (such as Europe Direct), to ensure that duplication of efforts is avoided.

Finally, the project should implement the developed concept into a launched application, resulting in the 'European Consumer Travel Application' that can be accessed free of charge for the users from mobile devices.

#### *Forecast for 2014*

This pilot project is estimated to have an overall timeline of 22 months and to have a total budget of EUR 650 000, which includes full implementation of the IT application and building up of the service platform. The completion of the project, including testing, is scheduled for November 2015.

An Editorial Board composed of the Commission and representatives of the ECC Network will be responsible for the editorial policy, including language and priorities for content selection.

#### *Legal basis*

#### *Remarks*

The pilot project will help small and medium-sized enterprises (SMEs) to comply with consumer protection law in the online environment. Better compliance with the rules would reduce problems for consumers and benefit traders by avoiding problems with the enforcement authorities.

— Training modules for SMEs on EU consumer contract and marketing law for the online environment, including on Directive

2011/83/EU (Consumer Rights Directive), Directive 2000/31/EC (e-Commerce Directive) and the applicable national legislation in the Member States will be produced by a contractor for the Commission and will be made available free of charge to consumer and business associations.

- The modules will be produced as offline learning courses for all 28 Member States (plus Norway and Iceland) in the languages of all the EU Member States. In a second phase the modules could be adapted for online use to facilitate cross-border trade.
- Consumer and business associations will be encouraged to use these modules for offering training programmes to SMEs about their obligations.
- The project will have a start-up phase running from mid-2015 to mid-2016 for drafting training modules and organising the process, and an operational phase subsequently. The training modules will be improved and added to over time, as feedback will allow corrections to be made, and changing legislation or markets will necessitate additions.
- A kick-off conference with the full stakeholder base (consumer and business associations, legal practitioners, authorities), followed by a conference every two years, will make it possible to assess progress, analyse uptake, assess effectiveness and give visibility to the work.

*Remarks*

This appropriation is intended to cover expenditure for achieving the objectives established through the multiannual ‘Public Health’ programme for the 2014-2020 period.

The general objectives of the programme shall be to complement, support and add value to the policies of the Member States to improve the health of Union citizens and reduce health inequalities by promoting health, encouraging innovation in health, increasing the sustainability of health systems and protecting Union citizens from serious cross-border health threats.

The 'Public Health' programme 2014-2020 focuses on four specific objectives:

- supporting public health capacity building and contributing to innovative, efficient and sustainable health systems: identify and develop tools and mechanisms at Union level to address shortages of resources, both human and financial, and facilitate the voluntary up-take of innovation in public health intervention and prevention strategies,
- facilitating access to better and safer healthcare for Union citizens: increase access to medical expertise and information for specific conditions also beyond national borders, facilitate the application of the results of research and develop tools for the improvement of healthcare quality and patient safety through, inter alia, actions contributing to improve health literacy,
- promoting health, preventing diseases, and fostering supportive environments for healthy lifestyles: identify, disseminate and promote the up-take of evidence-based and good practices for cost-effective disease prevention and health promotion measures by addressing in particular the key lifestyle related risk factors with a focus on the Union added value,
- protecting citizens from serious cross-border health threats: identify and develop coherent approaches and promote their implementation for better preparedness and coordination in health emergencies.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

#### *Remarks*

This appropriation is intended to cover the Centre's personnel and administrative expenditure. In particular, Title 1 covers the salaries of permanent staff and seconded experts, the costs relating to recruitment, interim services, staff training and mission expenses; Title 2 'Expenditure' relates to the renting of the Centre's office facilities, the fitting-out of premises, information and communication technology, technical installations, logistics and other administrative costs.

This appropriation is also intended to cover operational expenditure relating to the following target areas:

- improving surveillance of communicable diseases in the Member States,
- strengthening the scientific support provided by the Member States and the Commission,
- enhancing the preparedness of the Union against emerging threats from communicable diseases, especially hepatitis B, including threats related to intentional release of biological agents, and diseases of unknown origin, and coordinating the response,
- strengthening the relevant capacity in the Member States through training,
- communicating information and building partnerships.

This appropriation is also intended to cover the maintenance of the emergency facility (Emergency Operations Centre) linking the Centre online with national communicable disease centres and reference laboratories in Member States in the event of major outbreaks of communicable diseases or other illnesses of unknown origin.

The Centre must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The Centre's establishment plan is set out in the Annex 'Staff' to this section.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 20 of Commission Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The Union contribution for 2015 amounts to a total of EUR 56 766 000.

##### *Remarks*

This appropriation is intended to cover the special contribution provided for in Article 7 of Regulation (EC) No 141/2000, as opposed to the one provided for in Article 67 of Regulation (EC) No 726/2004. It is used by the Agency exclusively to compensate for the total or partial non-recovery of payments due for an orphan medicinal product.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The Union contribution for 2015 amounts to a total of EUR 6 800 000.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under this pilot project.

This appropriation is intended to cover the establishment of a pilot project to improve knowledge sharing and actions to reduce health inequalities in the Union — particularly in Member States and regions with the greatest needs, and those in receipt of cohesion funds.

It will establish a network of exchange between experts and policy advisers across the Union, focusing on support and training for the development and implementation of policies, as well as specific activities, addressing health inequalities at national and subnational/regional level.

Priorities for the network will include, in particular, development of expertise in issues related to effectiveness of prevention policies, differences and discrimination in access to healthcare, as well as strategies to alleviate the social, environmental and behavioural factors contributing to health inequalities.

The pilot project will also carry out a review and evaluations of activities addressing health inequalities already supported through Union structural funds and programmes. Specific activities carried out under this pilot project will be defined after a consultation process among Member States involved and stakeholders in the field of public health and healthcare policies.

This pilot project will be aimed at improving the awareness and knowledge in key target groups for policy about the importance of addressing health inequalities and the opportunities to do so, in particular through the structural funds. It will also review and evaluate actions taken through the structural funds and programmes in this matter, thus promoting the development of better policy making in future.

#### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under this pilot project.

Across the Member States the occurrence of non-communicable diseases (NCDs) is increasing at an unprecedented speed. At the same time, more and more Europeans are struggling with problems concerning e.g. obesity and mental health. Isolated and vulnerable persons in particular struggle with problems linked to deteriorating health. Both men and women suffer from such health decline but their health issues are not the same and should be addressed differently.

In 2011 the Commission published a comprehensive report on the state of the health of European men which showed important inequalities between women's and men's health. One of the key statements in the report is 'Improving men's health also has both direct and indirect benefits for women and children'. In 2009 the Commission published a similar report on the state of the health of European women.

There seems to be a growing recognition of the fact that men's and women's health problems are to be treated from different angles and therefore this project has the following objectives:

- (1) to gather and assess — e.g. through European Community Health Indicators (ECHI) — existing information on the differences of men's and women's (in particular the isolated and vulnerable) health in the participating Member States and on existing practices to address this issue;
- (2) to increase the knowledge base on the life styles and attitudes towards individual (including mental) health, prevention, treatment, and rehabilitation of especially isolated and vulnerable persons, and identify the reasons why there seems to be greater reluctance in this specific group of people to change lifestyles and to seek the help of doctors or other health services. The studies can be both disease-specific and population-based;
- (3) to analyse health systems across different Member States to identify what the causes of the relative under-utilisation of health services by less advantaged groups are and what can be done to address it;
- (4) on basis of the evidence collected to develop and test (gender) targeted strategies to improve the health of these people, to facilitate their access to health services and to prevent health problems from occurring in the first place;
- (5) to disseminate the results and best practice examples to Member States, in particular health providers in the primary sector, and to encourage follow up on the results.

Commitments	Payments	Commitments	Payments	
p.m.	150 000	500 000	250 000	

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action is intended to continue the project which aims at underlining the importance of a correct and healthy diet with a focus on the ageing population.

The ageing of the population of Europe is a demographic phenomenon that is due to a decrease in fertility and to an increase of life expectancy among European citizens.

The population of Europe is expected to age over the next 40 years and this phenomenon is closely related to nutrition issues.

As recognised in various studies, nutrition has a strong and important impact in the treatment and prevention of several diseases and in maintaining good health and quality of life in an ageing population.

With advancing age, there is a high incidence of chronic diseases. Evidence points to the important effect of nutrition and, in particular, of a balanced and healthy diet based on fruit and vegetables, and on one's susceptibility to such diseases and their development and outcome.

This project also seeks to provide parents and children with information on nutrition. It will focus on the early years of life, and could therefore cover prenatal nutrition, breastfeeding, and childhood nutrition. The project has two main objectives, namely to educate parents on the importance of good nutrition for their children, and to educate children so they consciously make healthy lifestyle choices throughout their lives. The project will operate within the framework of the Health Programme and will specifically address two of the programme's overarching objectives: that of promoting health and reducing health inequalities, and that of disseminating health information.

This preparatory action will try to reach its target audiences through a range of channels, such as pre-natal classes, hospitals, nurseries and pre-school establishments, and schools. It should involve appropriate civil society organisations, such as health-orientated NGOs, as well as healthcare professionals such as, for instance, paediatric doctors and midwives, and national and regional health authorities. Cooperation between these different actors should aim to deliver targeted education about nutrition, independently of the food industry, to both parents and children. Information campaigns could be launched in the form of leaflets (to be given, for example, to pregnant mothers by midwives, or to parents by paediatric doctors) or presentations in schools.

Item 17 03 77 15 — Preparatory action — European study on the burden and care of epilepsy

Budget 2015		Appropriations 2014		Outturn 2013
Commitments	Payments	Commitments	Payments	
p.m.	324 000	1 230 000	615 000	

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Epilepsy is a disorder of the brain characterised by an enduring predisposition to generate epileptic seizures, and by the neurobiological, cognitive, psychological, and social consequences of this condition. The latter include premature death, stigmatisation, social exclusion, and reduced quality of life. While effective treatments are available, barriers exist in relation to the access to health care, resulting in a significant treatment gap. A European survey completed more than a decade ago indicated that there were insufficient resources and marked disparities in the availability of epilepsy care among Member States, but the situation at present is unknown. Adding to the difficulties in allocation of adequate resources, estimates of the prevalence and cost of epilepsy in

Europe vary considerably. A recent review by the European Brain Council estimated that 2,6 million people in Europe have epilepsy whereas a WHO/ ILAE/IBE report estimates that 6 million people in Europe suffer from epilepsy. The true prevalence rate of epilepsy can probably vary somewhat between countries and regions, and possibly also over time. It is unclear, however, if the reasons for the pronounced variability, both between countries and within countries, in reported prevalence rates in Europe is explained by true differences in prevalence, by differences in methodology and lack of reliable data, or by a combination.

The burden of epilepsy in Europe is thus a field characterised by considerable knowledge gaps with major un-researched countries and regions, and by conflicting observations in countries where such research has been carried out. There is therefore an urgent need for a more definitive European-wide comprehensive study of the burden of epilepsy and of access to health care using appropriate and standardised methodology. Information derived from this study will be essential for action plans including decisions on allocation of resources for the provision of sustainable, adequate, equal, and cost-effective epilepsy care across Europe. A targeted approach to the delivery of care is especially important for a condition like epilepsy which reports a high burden of disease. Configuring the delivery of health care services to alleviating this burden throughout Europe requires accurate data not only on those needing treatment, on attitudes towards epilepsy in society and on existing barriers for access to health care, but in addition on the economic cost of care.

It is expected that a study on this scale will have a major impact on identifying if there are areas in Europe where epilepsy can be definitively assessed as being more prevalent than others. It is hoped that the study will also provide conclusive evidence of the prevalence rate of epilepsy in the Union which would have a major impact on how the disease is viewed in terms of policy decision making. Similarly a cost study would allow for better planning to manage the disease. The study is expected to identify deficiencies in what is currently perceived as fragmented epilepsy care with pronounced differences in resources between Member States and furthermore the need for education of public and health care workers to combat the stigma associated with epilepsy. The proposed unique European study will facilitate a coordinated pan-European action to ensure equal epilepsy care and quality of life for people with epilepsy. It will also demonstrate the need for individual Member States to improve accessibility of epilepsy care, ultimately improving the life of people with epilepsy in Europe and reducing the costs of the disease.

#### *Aim of the project*

The aim of the project is to assess the burden of epilepsy as well as the available epilepsy health care in the Union to build a coordinated information platform across Member States involving NGOs, stakeholders and government organisations with regard to the burden of epilepsy. Good practices will be identified and recommendations made for better epilepsy care throughout the Union.

*The strategic objective* is to provide the necessary data for allocation of adequate resources for high-quality epilepsy care equal in all Member States thus closing the treatment gap, preventing the devastating consequences of epilepsy, reducing unemployment, stigma, and isolation, and securing improved quality of life for people with epilepsy, all in line with the recommendations of the European Parliament's Written Declaration on Epilepsy.

#### *Description of the project*

This project would first define a standardised methodology appropriate for the study of the stigma and public attitudes relating to epilepsy and its incidence, prevalence, and cost, and access to and organisation of epilepsy care. The proposed action is a standardised, prospective population-based study carried out in representative regions in 8-12 EU Member States. These will be selected to represent all Union regions, East, West, North, and South, and to include, in the main, countries where no data are available. Some countries where data are available from previous research will also be included to enable validation of the current methodology. Research teams will be established in the participating countries. These will utilise a multi-source methodology searching, in a defined geographical area, relevant hospitals, institutions, general practitioners, EEG-laboratories to ascertain cases meeting the criteria for epilepsy as defined by the International League Against Epilepsy. The aim is to capture all age groups, disease duration, and severity. Direct health-care cost and non-medical costs as well as indirect costs will be determined prospectively over a one year period for each case with epilepsy as well as for matched controls without epilepsy. The analysis will include assessments of stigma, quality of life, employment and access to health care. The local research teams will use validated questionnaires to assess knowledge and attitudes towards epilepsy among the public and health care professionals in their regions as well as survey the regional health organisation for epilepsy care.

The results will be used to formulate recommendations to policy makers including methods for follow-up of their implementation and sustainability.

Item 17 03 77 16 — Pilot project — The effect of differing kidney disease treatment modalities and organ donation and transplantation practices on health expenditure and patient outcomes

Proposed area for investigation:

More than 10% of Europeans suffer from chronic kidney disease (CKD), with a high risk of progression to total kidney failure requiring kidney replacement therapy – either dialysis or transplantation. The growing epidemic of diabetes and cardiovascular diseases is fuelling these numbers. Dialysis is resource-heavy, costing EUR 40 000 to 80 000 per patient per year, depending on the country and method, while kidney transplantation costs nearly the same as dialysis in the first year, but less than 40% of that amount in the following years. The prognosis, including life expectancy and quality of life, is much better after kidney transplantation than dialysis. Nearly 50 000 Europeans are on a waiting list for a kidney, and given the current shortage of donated organs, some of them will die waiting.

This pilot project will compare, from a macro-economic perspective, the various treatment modalities for CKD in EU Member States by investigating the factors that influence the treatment choice (by patient or doctor) and the impact of that choice on healthcare budgets. In addition, the project will examine obstacles to improving kidney donation and transplantation rates. It will answer the question: "Why is there such an enormous variability in practice in the overall management of CKD and access to transplantation in Europe, and how could these practices be harmonised in order to ensure equal and better quality of care while reducing costs?"

In times of economic crisis, it is crucial to find ways of improving the efficiency of the healthcare systems in the EU Member States. In the treatment of CKD, two main treatment modalities are currently available: dialysis and kidney transplantation.

With regard to dialysis, it is necessary to assess which type of dialysis would give a better outcome from two standpoints: first, for the patient (improved quality of life and better acceptance) and second, from a health economics point of view.

Transplantation is not used as frequently as dialysis, despite the fact that it makes for a far better quality of life and is more cost-efficient. Hence, an assessment of the different national organisational practices which play a role in facilitating transplantation (i.e. different organ donor policies, different consent systems, the existence of transplant coordinators, bilateral or multilateral agreements for cross-border exchange of organs between Member States, etc.) is essential in order to identify and support the practices which ultimately have a significant effect on transplantation waiting times.

These differences in donor policies greatly affect transplantation waiting times, and long waiting times on dialysis have major deleterious effects on kidney transplant candidates:

- (1) the death rate on dialysis is higher when compared with the survival rate post-transplant;
- 2) the longer the waiting time on dialysis, the lower the transplantation success and patient survival rate;
- 3) finally, the costs of dialysis are much higher than those associated with a functioning kidney transplant, meaning that the longer the waiting time on dialysis is, the higher the total expenditure will be.

All these factors have a significant impact not only on access to transplantation but also on overall spending for the treatment of CKD. Therefore, it is critical to gather the necessary information about their impact on final treatment outcomes, in terms of both quality of care and cost-efficiency.

At present, some EU Member States are better organised than others with regard to dialysis treatment and kidney transplantation. This stems from the fact that some EU countries have included the role of transplant donor coordination in their national structures and have established collaboration through specialised networks such as Eurotransplant and Scandiatransplant.

This project will assess the situation in the Member States, sharing and building on the expertise and data from existing initiatives and registers. In addition, the project will take into account the work done in the mid-term review of the Action Plan on Organ Donation and Transplantation, and other projects in the field, such as ETPOD, EULID, ELUPSY and the ACCORD Joint Action, which focuses on living donation.

Given that advances in the implementation of health policies, including donation policies and waiting list policies, are the responsibility of the competent national authorities, the project will involve those authorities in cooperation with specialised organisations such as the European Society of Organ Transplantation (ESOT) and the European Transplant Coordinators Organisation (ETCO) and give them access to those organisations' expert input.

Expected outcomes:

In summary, investigating the many factors that influence the choice of CKD treatment for kidney patients and the different organisational practices which play a role in facilitating kidney transplantation will help to bring about better and more cost-efficient kidney disease treatment practices in EU Member States.

The overall project goal is to provide an overview of the different treatment modalities and the factors that influence the selection of those modalities in Member States, with a view to harmonising end-stage kidney disease treatments and improving the availability of transplantation across Member States, while at the same time reducing healthcare costs and improving the quality of care.

It is expected that some of the Member States participating in the project will be able to use it as a stepping stone towards successful implementation of Directive 2010/53/EU of the European Parliament and of the Council of 7 July 2010 on standards of quality and safety of human organs intended for transplantation and of the EU Action Plan on Organ Donation and Transplantation.

This pilot project will focus on training and social awareness to encourage public reflection on organ donation. It will include training for social activists who will pass on the main positive aspects to the rest of society.

The project is for society as a whole, with special emphasis on families, economic and social actors and health professionals as potential social activists to support organ donors and recipients.

Awareness-raising activities will take place in schools and vocational training establishments, helping to increase organ and tissue donation and improve distribution processes and transplantation rates.

Expressed and presumed consent will be encouraged in order to increase the number of donors.

Good practices, extending to telemedicine, will be shared. Recommendations will be made in collaboration with authorities and health professionals

An organ donation and transplantation database for European and neighbouring countries will be set up, with a view to:

—analysing the current situation in Europe and neighbouring countries;

—providing indicators for monitoring overall performance in the management of donated and transplanted organs.

Aims:

1. To better understand the specific health inequalities experienced by lesbian, gay, bisexual, transgender and intersex (LGBTI) people, focusing in particular on overlapping inequalities stemming from discrimination on other grounds (e.g. age, disability, race and ethnicity) and the barriers faced by health professionals when providing care to those groups.
2. To provide health professionals with specific tools to ensure that they have the right skills and knowledge to overcome those barriers and contribute to the reduction of health inequalities.

Description:

This project follows on from the Fundamental Rights Agency project 'Public authorities and fundamental rights of LGBT people', in which healthcare professionals were interviewed on specific health inequalities faced by LGBTI people. It will complement pilot projects "Reducing health inequalities: building expertise and evaluation of actions" (17 03 77 12) and "Developing evidence-based strategies to improve the health of isolated and vulnerable persons" (17 03 77 13), which address health inequalities, but not as experienced by LGBTI people. To bridge that gap, this will be the specific focus of this project.

Outcomes:

1. Information will be gathered on specific health inequalities experienced by LGBTI people; particular attention will be paid to those within this group who are at risk of inequality as a result of age, disability, race or ethnic background.
2. Health professionals will be aware of both those health inequalities and the barriers that they themselves face when providing care to those groups. They will be equipped to overcome these barriers through training modules.
3. Training modules will be made available to all health stakeholders across the EU.

Item 17 03 77 19 — Pilot project — Access to healthcare for people in rural areas

*Figures*

*Remarks*

The pilot project has been given an A rating by the Commission (pre-assessment). The Commission's April 2014 communication on health systems stressed that accessibility to healthcare was one of the three pillars of the EU agenda for effective, accessible and resilient health systems.

Access to healthcare in rural areas is a particular problem in various Member States. As populations move to urban areas, resulting in the decay of small and medium-sized cities, the issue of adequate healthcare provision in rural areas will grow in importance in other Member States as well.

The project will help to reduce disparities in healthcare accessibility and to ensure equitable access in rural areas within and among the Member States. Good practices on policies and tools used to improve access to healthcare in rural areas will be identified and exchanged, taking into account factors such as access to facilities and to medical professionals, as well as the cost and affordability of healthcare, the optimum size of healthcare services and the scope for cross-border collaboration between Member States. The specific activities to be carried out under this project will be laid down after a consultation process among Member States and stakeholders in

the field of public health and healthcare policies.

### Remarks

The Union's financial assistance helps accelerate the eradication or control of animal diseases by providing funds to supplement national financial resources and contributes to harmonising measures at Union level. The bulk of these diseases or infections are zoonoses communicable to man (BSE, brucellosis, avian influenza, salmonellosis, tuberculosis, etc.). Moreover, the persistence of the diseases in question hampers the smooth operation of the internal market; fighting them helps to improve the level of public health and to boost food safety in the Union.

This appropriation is also intended to cover the Union's contribution to measures for eliminating obstacles to the free movement of goods in these sectors, for veterinary support and as back-up action.

It consists in providing financial assistance:

- for the purchase, storage and formulation of foot-and-mouth antigens and of different vaccines,
- for the development of marker vaccines or tests that can distinguish between sick and vaccinated animals.

### Legal basis

### *Remarks*

This appropriation is intended to cover the implementation of the initial measures resulting from Regulation (EC) No 882/2004, in particular:

- the activities of the Union laboratories,
- training on feed and food control,
- travel and subsistence expenses for national experts participating in Food and Veterinary Office missions,
- IT tools, communication and information on feed and food control, development of Union strategy for safer food,
- for an information policy in the field of animal protection, including information campaigns and programmes to inform the public about the harmlessness of consumption of meat from vaccinated animals, as well as information campaigns and programmes emphasising the humane aspects of vaccination strategies in the fight against contagious animal diseases,
- for the monitoring of compliance with animal-protection provisions during the transport of animals for slaughter,
- for the establishment and maintenance of a rapid alert system, including a worldwide rapid alert system, for the notification of direct or indirect risks to human and animal health deriving from food or feed,
- for technical and scientific measures necessary to develop Union veterinary legislation and for the development of veterinary education or training,
- for information technology tools, including TRACES and the Animal Disease Notification System,
- for measures to combat illegal imports of dog and cat furs.

This appropriation is also intended to cover the Union contribution to the implementation, by the Commission and/or the Member States, of the measures provided for in the legal basis below, in particular the provisions eliminating obstacles to the free movement of goods in these sectors.

The outbreak of some animal diseases in the Union could possibly have a major impact on the operation of the internal market and on the Union's commercial relations with third countries. Thus, it is important for the Union to make a financial contribution in order to allow the fastest eradication possible of any outbreak of a serious infectious disease in Member States by deploying Union resources to fight these diseases.

This appropriation is intended to cover curative actions to combat the pests and diseases threatening agricultural and horticultural crops, forests and landscape, among them the spread of exotic invasive species and diseases (such as pine nematode and others), which are becoming more frequent and are spreading.

This pilot project will focus on the management of transported animals with a certain focus on the main farm species and key stakeholders participating in the transport of animals (farmers, specialised transporters, traders, slaughterhouse operators and veterinarians).

The final output of the pilot project will be an analysis of the different practices on assessment of the animals in order to bring the best practices to light. Based on this analysis the project will establish standard operating procedures for transporting animals and a strategy to disseminate those procedures among stakeholders including possibly training courses as necessary.

*Animal transport — Background information*

Every year nearly 40 million farmed animals are transported between Member States. This transport of animals is necessary for farms specialised in breeding, rearing, fattening and for slaughterhouses.

However, there are a lot of different practices in the Member States, among others because of poor compliance of some requirements with Regulation (EC) No 1/2005 on the protection of animals during transport — e.g. conflicting veterinary assessments in animal transport.

Regulation (EC) No 1/2005 requires that animals are checked by the competent authority for fitness before they are transported on long journeys between Member States (and with third countries). Also for short or national journeys an assessment of the animal's fitness must be made.

A veterinarian/farmer at a farm might assess the animal's condition and approve the transport. Once the animal has arrived at e.g. the slaughterhouse, the veterinarian then might declare the animal unsuitable for transport. Situations like these are not satisfactory for either the animals or the drivers.

Item 17 04 77 04 — Pilot project — Farmhouse and Artisan Cheesemakers' European Network — Project involving the production of European guidelines for proper hygienic practice

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

It is extremely important for small cheesemaking to continue and for the sector to expand, in view of the growing consumer demand for high-quality local produce. Small cheesemaking provides jobs and offers a way in to farming — in particular for young people — that does not call for the investment of very large sums of money.

Cheesemaking is governed, in the main, by Union rules which apply to farmers and food processing undertakings alike, including very small undertakings. Regrettably, in many cases those rules are applied by national and regional authorities in too rigid a manner, without paying any heed to the principles of adaptability and flexibility clearly established in the relevant legislation.

This project accordingly seeks to ensure that proper account is taken of small cheesemakers' need for flexibility and to secure final validation by the Commission, thus sending out a positive message about Union legislation and the Union in general, not just to

farmers and cheesemakers but also to consumers.

The HACCP approach seeks to capitalise on experience in order to improve processes and thus ensure that a closer check is kept on food safety. It is an approach that normally draws on quality control resources of the kind only large companies are able to put in place. Under this project, small producers will come together to draw up guidelines for proper hygienic practice as a first step in a response to this need for continuous improvement that will be at least as effective, and in all probability more transparent.

One of the project's aims is to produce guidelines for proper hygienic practice validated by the Commission that can serve as a reference for all those working in this area.

The guidelines will therefore be based on how the professionals in the sector actually work, rather than on theory. The fact that they will be drawn up by the 11 trade organisations making up the FACE network, with the assistance of research centres operating in related sectors, will ensure that proper account is taken of traditional know-how in the various regions and that the knowledge and experience of implementing HACCP approaches tailored to small processing facilities that various groups have accumulated over a number of years are pooled and put to good use.

This innovative approach, based on self-organisation at European level and the participation of relevant partners, is also in line with the idea of professionals in each sector taking responsibility for health and hygiene issues that is put forward in the relevant legislation, with the legislative authorities setting the ultimate objectives and the professionals making the arrangement required in order to meet those objectives.

In view of the various challenges facing it (languages, logistics, organisational requirements, etc.), this ambitious multi-partner project is in need of financial support.

This appropriation is intended to cover the Internal Security Fund technical assistance provided for in Article 10 of Regulation (EU) No 514/2014 laying down general provisions on this fund. It may cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this Item, plus any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

It may, in particular, be used to cover:

- support expenditure (assistance for project preparation and appraisal, actions related to audit, conferences, seminars, workshops and other common information and training measures on the implementation of the proposed Regulation and the related specific Regulations for designated authorities and beneficiaries, translations),
- actions to disseminate information, support networking, carry out communication activities, raise awareness and promote cooperation and exchange of experience, including with third countries,
- the corporate communication of the political priorities of the European Union provided that these are related to the general objectives of the proposed Regulation and the related specific Regulations,
- the installation, operation and interconnection of computerised systems for management, monitoring, audit, control and evaluation,
- evaluations, including actions to improve evaluation methods and the exchange of information on evaluation practices, the design of a common framework for evaluation and monitoring, expert reports statistics and studies,
- support for institutional strengthening and administrative capacity building for the effective management of the proposed Regulation and the related specific Regulations,
- measures related to the analysis, management, monitoring, information exchange and implementation of the proposed Regulation and the related specific Regulations, as well as measures relating to the implementation of control systems and technical and administrative assistance.

In accordance with the Agreement to be concluded between the European Union and the Republic of Iceland, the Kingdom of Norway, the Swiss Confederation and the Principality of Liechtenstein on supplementary rules in relation to the Internal Security Fund — Borders — for the period 2014 to 2020, the Commission may use up to the amount to be set up in the Agreement of the payments made by the associated States each year to finance the administrative expenditure related to staff or external staff necessary for supporting the implementation by the associated States of the Fund and that Agreement.

#### Remarks

The Internal Security Fund shall contribute to the following specific objectives:

- supporting a common visa policy to facilitate legitimate travel, provide a high quality of service to visa applicants, ensure equal treatment of third country nationals and tackle illegal immigration;
- supporting integrated borders management, including promoting further harmonisation of border management-related measures in accordance with common Union standards and through sharing of information between Member States and between Member States and the Frontex Agency, to ensure, on one hand, a uniform and high level of control and protection of the external borders, including by the tackling of illegal immigration, and, on the other hand, the smooth crossing of the external borders in conformity with the Schengen *acquis*, while guaranteeing access to international protection for those needing it, in accordance with the obligations contracted by the Member States in the field of human rights, including the principle of non-refoulement and with due regard for the specific characteristics of the people concerned and for the gender perspective.

This appropriation is intended to cover the expenditure related to actions in or by Member States and in particular the following:

- infrastructures, buildings and systems required at border crossing points and for surveillance between border crossing points to prevent and tackle unauthorised border crossings, illegal immigration and cross-border criminality as well as to guarantee smooth travel flows;
- operating equipment, means of transport and communication systems required for effective and secure border control and the detection of persons;
- IT and communication systems for efficient management of migration flows across borders, including investments in existing and future systems;
- infrastructures, buildings, communication and IT systems and operating equipment required for the processing of visa applications and consular co-operation, as well as other actions aimed at improving the quality of service for the visa applicants;
- training regarding the use of the equipment and systems referred to in paragraphs (b), (c) and (d) and the promotion of quality management standards and training of border guards, including where appropriate in third countries, regarding the execution of their surveillance, advisory and control tasks with respect to international human rights law, and taking into consideration a gender-sensitive approach, including the identification of victims of human trafficking and people smuggling
- secondment of Immigration Liaisons Officers and document advisers in third countries and the exchange and secondment of border guards between Member States or between a Member State and a third country;
- studies, training, pilot projects and other actions gradually establishing an integrated management system for external borders as referred to in Article 3(3) including actions aiming to foster interagency cooperation either within Member States or between Member States and actions relating to the interoperability and harmonisation of border management systems;
- studies, pilot projects and actions aiming to implement the recommendations, operational standards and best practices resulting from the operational cooperation between Member States and Union Agencies.

This appropriation is also intended to cover the expenditure related to actions in relation to and in third countries and in particular the following:

- information systems, tools or equipment for sharing information between Member States and third countries;
- actions relating to operational co-operation between Member States and third countries, including joint operations;
- projects in third countries aimed at improving surveillance systems to ensure cooperation with the Eurosur;
- studies, seminars, workshops, conferences, training, equipment and pilot projects to provide ad hoc technical and operational expertise to third countries;

- studies, seminars, workshops, conferences, training, equipment and pilot projects implementing specific recommendations, operational standards and best practices, resulting from the operational co-operation between Member States and Union agencies in third countries.

This appropriation is also intended to cover foregone fees from visas issued for the purpose of transit and additional costs incurred in implementing the Facilitated Transit Document (FTD) and the Facilitated Rail Transit Document (FRTD) scheme in accordance with Council Regulation (EC) No 693/2003 of 14 April 2003 establishing a specific Facilitated Transit Document (FTD), a Facilitated Rail Transit Document (FRTD) and amending the Common Consular Instructions and the Common Manual (OJ L 99, 7.4.2003, p. 8) and Council Regulation (EC) No 694/2003 of 14 April 2003 on uniform formats for Facilitated Transit Documents (FTD) and Facilitated Rail Transit Documents (FRTD) provided for in Regulation (EC) No 693/2003 (OJ L 99, 7.4.2003, p. 15).

At the Commission's initiative, this appropriation may be used to finance transnational actions or actions of particular interest to the Union. To be eligible for funding, those actions shall in particular pursue the following objectives:

- to support preparatory, monitoring, administrative and technical activities, required to implement external borders and visa policies, including to strengthen the governance of the Schengen area by developing and implementing the evaluation mechanism as established by the Regulation (EU) No 1053/2013 on the establishment of an evaluation and monitoring mechanism, to verify the application of the Schengen *acquis* and the Schengen Borders Code in particular mission expenditure for experts of the Commission and the Member States participating in on site visits;
- to improve the knowledge and understanding of the situation prevailing in the Member States and third countries through analysis, evaluation and close monitoring of policies;
- to support the development of statistical tools, including common statistical tools, and methods and common indicators;
- to support and monitor the implementation of Union law and Union policy objectives in the Member States, and assess their effectiveness and impact, including with regard to the respect of human rights and fundamental freedoms, as far as the scope of this instrument is concerned;
- to promote networking, mutual learning, identification and dissemination of best practices and innovative approaches amongst different stakeholders at European level;
- to promote projects aiming at harmonisation and interoperability of border management-related measures in accordance with common Union standards with a view to developing an integrated European border management system;
- to enhance awareness of Union policies and objectives among stakeholders and the general public, including corporate communication on the political priorities of the Union;
- to boost the capacity of European networks to assess, promote, support and further develop Union policies and objectives;
- to support particularly innovative projects developing new methods and/or technologies with a potential for transferability to other Member States, especially projects aiming at testing and validating research projects;
- to support actions in relation to and in third countries as referred to in Article 4(2);
- awareness-raising, information and communication activities in relation to EU home affairs policies, priorities and achievements.

This appropriation shall also cover financial assistance to address urgent and specific needs in the event of an emergency situation which means a situation of urgent and exceptional pressure where a large or disproportionate number of third-country nationals cross or are expected to cross the external border of one or more Member States.

This appropriation will provide for reimbursement of the costs incurred by the Commission and Member States experts for the on-the-spot evaluation visits (travel cost and accommodation) regarding the application of the Schengen *acquis*. The cost of supplies and equipment needed for the on-the-spot evaluation visits and for their preparation and follow-up must be added to these costs.

Any revenue from the contributions of Iceland, Norway, Switzerland and Liechtenstein entered in Item 6 3 1 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) of the Financial Regulation.

#### *Legal basis*

#### Remarks

This appropriation is intended to contribute to strengthen and develop all aspects of the Common European Asylum System, including its external dimension and to enhance the solidarity and responsibility sharing between the Member States, in particular towards those most affected by migration and asylum flows, including through practical cooperation.

In the case of the Common European Asylum System, this appropriation is intended to cover actions relating to reception and asylum systems and actions enhancing the capacity of Member States to develop, monitor and evaluate their asylum policies and procedures.

This appropriation is also intended to cover actions related to the resettlement, transfer of applicants for and beneficiaries of international protection and other ad hoc humanitarian admission

At the Commission's initiative, the appropriation may be used to finance transnational actions or actions of particular interest to the Union. These actions shall, in particular, support:

- the furthering of Union cooperation in implementing Union law and in sharing good practices in the field of asylum, notably on resettlement and transfer of applicants for and/or beneficiaries of international protection from one Member State to another including through networking and exchanging information, including arrival support and coordination activities to promote resettlement with the local communities that are to welcome resettled refugees;
- the setting-up of transnational cooperation networks and pilot projects, including innovative projects, based on transnational partnerships between bodies located in two or more Member States designed to stimulate innovation, and to facilitate exchanges of experience and good practice;
- studies and research on possible new forms of Union cooperation in the field of asylum, and relevant EU law, the dissemination and exchange of information on best practices and on all other aspects of asylum policies, including corporate communication on the political priorities of the Union;
- development and application by Member States of common statistical tools, methods and indicators for measuring policy developments in the field of asylum;
- preparatory, monitoring, administrative and technical support, development of an evaluation mechanism, required to implement the policies on asylum;
- cooperation with third countries on the basis of the Union's Global Approach to Migration and Mobility, in particular in the framework of the implementation mobility partnerships, regional protection programmes;
- awareness-raising, information and communication activities in relation to EU home affairs policies, priorities and achievements.

This appropriation shall also cover urgent and specific needs in the event of an emergency situation.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

The main objective of this preparatory action is to establish a network of contacts and discussion between targeted municipalities and local authorities in Member States which have just started a resettlement programme, or wish to participate in the near future, and Member States which are experienced in resettlement, drawing on the United Nations High Commissioner for Refugees (UNHCR) and non-governmental organisation (NGO) experiences and best practices in the resettlement and reintegration of refugees. The preparatory action will cover the following actions:

- identifying municipalities or local authorities in Member States that have just started resettlement programmes (e.g. Portugal, Romania) or are about to do so (e.g. Spain) and arranging meetings with selected municipalities or local authorities in resettlement countries (e.g. the UK and the Netherlands) with a view to strengthening ‘new’ resettlement programmes and ensuring that they are of a high quality and sustainable,
- identifying municipalities or local authorities or NGOs in Member States not yet participating in resettlement programmes, but wishing to join the network with a view to future participation in such programmes,
- holding meetings of representatives of the targeted local authorities and municipalities involved, along with the UNHCR, participating NGOs and representatives of resettled refugees, to lay down the activities to be developed jointly, including visits, exchanges of experience, training and thematic meetings focusing on issues such as housing, education and employment,
- designing a form for collecting information from the various stakeholders on procedures, types of monitoring prior to resettlement, types of information collected on the refugees to be resettled (including cultural, health and educational issues and diet), infrastructure, human resources, accommodation, reception, actions taken after resettlement for the integration of refugees, community participation in the process, any economic, legal or educational aid, the role of refugees already resettled in the integration process, and cooperation with NGOs,
- creating a task force, with the necessary human and technical resources, to make the practical arrangements for the project and in particular to provide for the necessary meetings, collect available information, create a website and content for it, thus increasing the exchange of information between the stakeholders in the resettlement process, and create links with existing resettlement-related projects and/or websites. This website will also allow information on past and future meetings between municipalities or local authorities to be made available to all interested parties on a systematic basis,
- collating the information gathered by the task force, which will then circulate it for discussion on the network, in order to draw conclusions on best practices.

The experience gained from the preparatory action will be recorded and passed on to the Resettlement Unit in the European Asylum Support Office (EASO) once it has been set up.

*Legal basis*

Item 18 03 77 09 — Preparatory action — Funding for the rehabilitation of victims of torture

### Remarks

The main objective of this preparatory action is to create a line of funding for the final benefit of victims of torture whether EU citizens and/or migrants present in the European Union. It will enable rehabilitation centres to offer victims of torture as full rehabilitation as possible thus empowering torture victims to function properly in the society and to integrate faster in the European economies.

The preparatory action will cover the following actions:

- to provide victims with access to holistic rehabilitation such as multi-disciplinary support and counselling, including physical and psychotherapeutic treatment, legal services, and socio-economic support, by providing funds for the costs of rehabilitation centres for victims of torture (new or existing ones),
- to support the capacity building of rehabilitation centres via networking activities (in and outside Europe), research, training, development of common tools, exchange of good practices, peer supervision as a prevention of vicarious trauma, etc.,
- to support activities aiming at the empowerment of torture victims themselves and, in general, at supporting the integration capacities of torture victims in European countries,
- to support advocacy actions aiming at ensuring that Member States comply with the right to rehabilitation as defined in General Comment 3 to Article 14 of Convention Against Torture.

Since 2011, the implementation of the approved pilot project has been a success. The first call for proposals has been launched in October 2011 and resulted in 31 applications received from centres in 14 EU countries. The total of EU requested grants amounted to EUR 6 000 000, showing the great need for financial support among rehabilitation centres. Out of the 31 proposals, only 4 projects have been financed.

The second call for proposal was launched in July 2012 with 25 applications submitted from various countries. As EUR 2 000 000 were available in 2012 (compared to only EUR 1 000 000 in 2011), 7 projects have been selected.

The funds needed to support all the projects which applied for funding amounted to approximately EUR 8 000 000, showing the relevance of the fund and the needs to be covered.

The number of applications received so far demonstrates the needs in the European Union for supporting the rehabilitation of torture victims.

*Remarks*

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external personnel in Union delegations (contract staff, local staff or seconded national experts) for the purposes of devolved programme management in Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure costs, such as the cost of training, meetings, missions and renting of accommodation directly resulting from the presence in delegations of external personnel remunerated from the appropriations entered against this item,
- expenditure on studies, meetings of experts, information systems, awareness-raising, training, preparation and exchange of lessons learnt and best practices, as well as publications activities and any other administrative or technical assistance directly linked to the achievement of the objective of the programme,
- research activities on relevant issues and the dissemination thereof,
- expenditure related to the provision of information and communication actions, including the development of communication strategies and corporate communication of the political priorities of the Union.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers support expenditure under Chapter 19 02.

*Remarks*

This appropriation is intended to cover support for implementation of CFSP measures for which the Commission lacks the required experience or needs additional support. It is intended to cover:

- expenditure on technical and administrative assistance which the Commission may delegate to an implementing agency governed by Union law,
- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries. This includes the costs associated with the update and maintenance of the ‘electronic-Consolidated Targeted Financial Sanctions List (e-CTFSL)’ necessary for the application of financial sanctions applied in pursuit of the specific CFSP objectives set out in the Treaty of the European Union,
- expenditure on studies, meetings of experts, information systems and publications directly linked to the achievement of the

objective of the programme.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers support expenditure under Chapter 19 03.

*Remarks*

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external personnel (contract agents, seconded national experts or agency staff) at headquarters intended to take over the tasks previously conferred on dismantled technical assistance offices. Expenditure on external personnel at headquarters is limited to EUR 336 727. This estimate is based on a provisional annual unit cost per man-year, of which 95 % is accounted for by remuneration for the personnel concerned and 5 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to those staff members,
- expenditure on studies, meetings of experts, information systems, awareness-raising, training, preparation and exchange of lessons learnt and best practices, as well as publications activities and any other administrative or technical assistance directly linked to the achievement of the objective of the programme,
- research activities on relevant issues and the dissemination thereof,
- expenditure related to the provision of information and communication actions, including the development of communication strategies and corporate communication of the political priorities of the Union.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers support expenditure under Chapter 19 04.

Remarks

This appropriation is intended to swiftly contribute to stability by providing an effective response to help preserve, establish or re-establish the conditions essential to the proper implementation of the Union's external policies and actions in accordance with Article 21 of the Treaty on the European Union. The technical and financial assistance may be undertaken in response to a situation of urgency, crisis or emerging crisis, a situation posing a threat to democracy, law and order, the protection of human rights and fundamental freedoms, or the security and safety of individuals, in particular those exposed to gender-based violence in situations of instability, or a situation threatening to escalate into armed conflict or severely to destabilise the third country or countries concerned.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for EU Trust Funds.

### Remarks

The High Representative of the Union for Foreign Affairs and Security Policy must ensure that the European Parliament is closely involved in all stages of the decision-making process. The joint consultation meetings provided for under point 25 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1), which are to be

further intensified on the basis of the Declaration by the High Representative on political accountability (OJ C 210, 3.8.2010, p. 1), must enhance a continuous dialogue between the High Representative and the European Parliament on the main choices for and aspects of the Union's CFSP, including consultations prior to the adoption of mandates and strategies. In order to enhance interinstitutional CFSP coherence and provide up-to-date expert advice to all institutions as a means of developing a more coherent and effective CFSP, expert policy-relevant research will be provided, when appropriate, by the European Union Institute for Security Studies and others.

***Article 19 03 01 — Support to preservation of stability through Common Foreign and Security Policy (CFSP) missions and European Union Special Representatives***

*Remarks*

Common Foreign and Security Policy (CFSP) crisis management measures and operations in the area of monitoring and verification of peace processes, conflict resolution and other stabilisation activities, the rule of law and police missions fall under this article. Operations may be established to monitor border crossings, peace or cease-fire agreements or more generally political and security developments. As with all actions financed under the budget chapter, relevant measures must be civilian in nature.

##### Remarks

This appropriation is intended to cover the financing of any unforeseen measures under Article 19 03 01 decided on in the course of the financial year, which have to be implemented urgently.

This article is also intended as an element of flexibility in the CFSP budget, as described in the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1).

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

## Item 19 03 01 06 — Preparatory and follow-up measures

### Remarks

This appropriation is intended to cover the financing of preparatory measures to establish the conditions for Union actions in the field of the CFSP and the adoption of the necessary legal instruments. It may cover evaluation and analysis measures (*ex ante* evaluation of means, specific studies, organisation of meetings, fact-finding on the ground). In the field of Union crisis management operations and for European Union Special Representatives (EUSRs), in particular, preparatory measures may, inter alia, serve to assess the operational requirements for an envisaged action, to provide for a rapid initial deployment of personnel and resources (e.g. mission expenses, purchase of equipment, pre-financing of running and insurance costs in the start-up phase), or to take the necessary measures on the ground to prepare for the launching of the operation. It may also cover experts supporting Union crisis management operations on specific technical issues (e.g. identification and assessment of procurement needs) or security training for staff to be deployed to a CFSP mission/EUSR team.

It also covers follow-up measures and audits of Common Foreign and Security Policy measures and the financing of any expenditure on the regularisation of previously closed measures.

This appropriation is also intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the measures coming under Articles 19 03 01 01, 19 03 01 02, 19 03 01 03, 19 03 01 04 and 19 03 01 07.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

### Legal basis

Preparatory action within the meaning of Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

#### *Remarks*

This appropriation is intended to cover cooperation with third countries to advance and promote Union and mutual interests under the Partnership Instrument, in particular with developed and developing countries which play an increasingly prominent role in the world affairs, including foreign policy, international economy and trade, multilateral forums, global governance and in addressing challenges of global concern or where the Union has significant interests. This cooperation includes measures supporting the Union's bilateral, regional or multilateral relationships in addressing challenges of global concern, the implementation of the international dimension of the 'Europe 2020' strategy, trade and investment opportunities and public diplomacy and outreach activities.

Part of the appropriations will also be used to implement the project "Cooperation with Northern and Southern Transatlantic Dimension, which aims at increasing a broader transatlantic dialogue and cooperation involving Northern and Southern Atlantic countries in order to address common global challenges. The objective is to look into the feasibility of implementing common short and longer term goals in fields such as economic cooperation, global governance, development cooperation, climate change, security and energy. This preparatory action should serve to strengthen a triangular dialogue, or even an extended Atlantic dialogue, as well as to promote the idea of a wider Atlantic Community.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. #### *Remarks*

This appropriation is intended to cover the technical and financial assistance provided under this external instrument in order to promote the international dimension of higher education for the implementation of the 'Erasmus+' programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

### Remarks

This appropriation is intended to cover expenditure on information outreach on the Union's external relations. The information activities to be carried out under this article fall into two broad categories: horizontal activities and logistical support from headquarters, and activities carried out by Union delegations in third countries and vis-à-vis international organisations.

### Measures carried out from headquarters:

- the European Union visitors programme (EUVP), carried out jointly by the European Parliament and the Commission, provides some 170 participants a year, chosen by the Union delegations, with the opportunity of experiencing contact with the Union by visiting the European Parliament and the Commission as part of a made-to-measure individual programme of visits based on a theme,
- the production and distribution of publications on priority themes as part of an annual programme,
- the production and dissemination of audiovisual material,
- the development of information delivered via electronic media (the Internet and electronic message systems),
- the organisation of visits for groups of journalists,
- the support for the information activities of opinion leaders that are consistent with the Union's priorities.

The Commission will continue to fund news broadcasts in Farsi.

### Decentralised measures carried out by Union delegations in third countries and vis-à-vis international organisations:

In accordance with the communication goals laid down for each region and each country, the Union delegations propose an annual communication plan, which, once approved by headquarters, is assigned a budgetary allocation covering the following activities:

- websites,
- relations with the media (press conferences, seminars, radio programmes, etc.),
- information products (other publications, graphic material, etc.),
- organisation of events, including cultural activities,
- newsletters,
- information campaigns.

### Legal basis

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

#### Remarks

This appropriation is intended to cover the following actions:

#### *Activities supporting the conduct of ongoing and new multi- and bilateral trade negotiations*

Actions aim to strengthen the Union's negotiating position in ongoing multilateral trade negotiations (in the context of the Doha Development Agenda) as well as ongoing and new bilateral and regional trade negotiations, to ensure that Union policy conception is based on comprehensive and up-to-date expert information and to build coalitions for their successful completion, including:

- meetings, conferences and seminars in connection with the preparation of policy and negotiating positions and with the conduct of ongoing as well as new trade negotiations,
- development and implementation of a consistent and comprehensive communication and information strategy, promoting the Union's trade policy and raising awareness of the detail and objectives of the Union's trade policy and ongoing negotiation positions, both within and outside the Union,
- information activities and seminars for State and non-State actors (including civil society and business actors) to explain the state of play of ongoing negotiations and of the implementation of existing agreements.

#### *Studies, evaluations and impact assessments in relation to trade agreements and policies*

Actions to ensure that the Union's trade policy is underpinned by, and takes proper account of, *ex ante* and *ex post* evaluation results, including:

- impact assessments carried out in view of possible new legislative proposals and sustainable impact assessments carried out in support of ongoing negotiations in order to analyse the potential economic, social and environmental benefits of trade agreements and, where necessary, to propose flanking measures to combat any negative outcomes for specific countries or sectors,
- evaluations of the policies and practices of the Directorate-General for Trade to be carried out following its multiannual evaluation plan,
- expert, legal and economic studies related to ongoing negotiations and existing agreements, policy developments and trade disputes.

#### *Trade-related technical assistance, training and other capacity-building actions towards third countries*

Actions aiming to strengthen the capacity of third countries to participate in international, bilateral or bi-regional trade negotiations, to implement international trade agreements and to participate in the world trading system, including:

- projects involving training and capacity-building actions aimed at developing country officials and operators, mainly in the field of sanitary and phyto-sanitary measures,

- reimbursement of the expenses of participants in forums and conferences designed to build awareness and expertise in trade affairs among developing country nationals,
- management, operating, further development and promotion of the Export Helpdesk that provides business in partner countries with information on access to Union markets, and facilitates efforts by business to take advantage of market access opportunities offered by the international trading system,
- trade-related technical assistance programmes arranged in the forum of the World Trade Organisation (WTO) and other multilateral organisations, in particular WTO Trust Funds, in the framework of the Doha Development Agenda.

*Market access activities supporting the implementation of the Union's market access strategy*

Actions in support of the Union's market access strategy, which aims at removing or lowering barriers to trade, identifying trade restrictions in third countries and, where appropriate, removing obstacles to trade. These actions may include:

- maintenance, operating and further development of the market access database, available to economic operators via the Internet, listing trade barriers and other information affecting Union exports and Union exporters; purchase of the necessary information, data and documentation for this database,
- specific analysis of the various obstacles to trade in key markets, including analysis of the implementation by third countries of their obligations under international trade agreements in connection with the preparation of negotiations,
- conferences, seminars and other information activities (e.g. production and distribution of studies, information packs, publications and leaflets) to inform businesses, Member States officials and other actors about trade barriers and trade policy instruments aimed at protecting the Union against unfair trading practices such as dumping or export subsidies,
- support to the European industry for the organisation of activities specifically geared towards market access issues.

*Activities supporting the implementation of existing rules and monitoring of trade obligations*

Actions to support the implementation of existing trade agreements and the enforcement of related systems that enable effective implementation of these agreements as well as the conduct of investigations and inspection visits to ensure third countries are respecting the rules, including:

- exchange of information, training, seminars and communication activities to support the implementation of existing Union legislation in the area of dual-use export controls,
- activities to facilitate investigations carried out in the context of the trade defence investigations with the aim of defending Union producers against unfair trade practices by third countries (anti-dumping, anti-subsidy and safeguards instruments) that can be harmful to the economy of the Union. In particular, activities will focus on the development, maintenance, operations and security of information technology systems supporting trade defence activities, the production of communications tools, the purchase of legal services in third countries and the conducting of expert studies,
- activities supporting the advisory group on monitoring the implementation of the EU-Korea Free Trade Agreement and other free trade agreements such as the Central America Association Agreement and the Columbia-Peru Free Trade Agreement. This includes financing of the members' and experts' travel expenses and accommodation,
- activities with a view to promoting the Union's external trade policy through a process of structured dialogue with key opinion formers of civil society and stakeholders, including small and medium-sized enterprises, on external trade issues,
- activities related to the promotion and communication on trade agreements, both within the Union and in the partner countries. This will primarily be implemented by means of production and dissemination of audiovisual, electronic and graphical support and printed publications, subscriptions to trade relevant media and databases, translation of communication materials into non-Union languages, media-oriented actions, including new media products,
- development, maintenance and operating of information systems in support of the operational activities in the 'Trade' policy area such as: Integrated Statistical Database (ISDB), Dual-Use e-system, Market Access Database, Export Helpdesk, Export Credit Database, SIGL and SIGL Wood systems, Civil Society platform and tools for monitoring and supporting trade agreements.

*Legal and other expert assistance required in implementation of existing trade agreements*

Actions to ensure that the Union's trading partners effectively adhere to and comply with obligations arising under the WTO and other multilateral and bilateral agreements, including:

- expert studies, including inspection visits, as well as specific investigations, and seminars on implementation by third countries of their obligations under international trade agreements,
- legal expertise, especially on questions of foreign law, required to facilitate defence by the Union of its position in WTO dispute-settlement cases, other expert studies necessary for the preparation, management and follow-up to WTO dispute settlement cases,

- arbitration costs, legal expertise and fees incurred by the Union as party to the disputes arising from the implementation of international agreements concluded under Article 207 of the Treaty on the Functioning of the European Union.

*Investor to State dispute settlement as established by international agreements*

The following expenditure is to support:

- arbitration costs, legal expertise and fees incurred by the Union as party to the disputes arising from the implementation of international agreements concluded under Article 207 of the Treaty on the Functioning of the European Union,
- payment of a final award or of an award settlement paid to an investor in the context of such international agreements.

*Activities supporting trade policy*

This appropriation is also intended to cover general expenditure on translations, press events, information and publications directly linked to the achievement of the objective of the programme or measures coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, such as the maintenance of the Directorate-General for Trade and Trade Commissioner's Internet site.

Any revenue in the context of the management by the Union of the financial responsibilities linked to investor-state dispute settlement may give rise to the provision of additional appropriations in accordance with Article 21(4) of the Financial Regulation.

Part of this appropriation (EUR 2 000 000) will cover a comprehensive communication strategy to engage the general public and all stakeholders and maximise transparency with regard to the activities of the Directorate-General for Trade, especially with regard to the Transatlantic Trade and Investment Partnership (TTIP). This will include translations, engagement and dialogue events, such as press or stakeholder events, publishing of information, consultations and follow-up and publications directly linked to the achievement of the objective of the programme or measures coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, such as maintenance of DG TRADE's and the Trade Commissioner's websites. Activities to engage the public and all stakeholders are crucial to a transparent, successful and comprehensive trade policy.

*Legal basis*

Council and Commission Decision 98/181/EC, ECSC, Euratom of 23 September 1997 on the conclusion, by the European Communities, of the Energy Charter Treaty and the Energy Charter Protocol on energy efficiency and related environmental aspects (OJ L 69, 9.3.1998, p. 1).

Council Decision 98/552/EC of 24 September 1998 on the implementation by the Commission of activities relating to the Community market access strategy (OJ L 265, 30.9.1998, p. 31).

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks*

This appropriation is intended to fund multilateral programmes and initiatives in the field of trade-related assistance to strengthen the capacity of developing countries to participate effectively in the multilateral trading system and regional trading arrangements and to improve their trade performance.

Multilateral initiatives and programmes to be funded under this appropriation will support the following actions:

*Assistance for trade policy, participation in negotiations and implementation of trade agreements*

Actions to strengthen the capacity of developing countries to formulate their trade policy and to strengthen the institutions involved in trade policy, including comprehensive and updated trade reviews and assistance in integrating trade into their respective policies for economic growth and development.

Actions to strengthen the capacity of developing countries to participate effectively in international trade negotiations and to

implement international trade agreements.

Research to advise policymakers how best to ensure that the specific interests of small producers and workers in developing countries are reflected across all policy areas and promote an enabling environment for producers' access to trade-related sustainability assurance schemes.

This assistance is primarily targeted at the public sector.

#### *Trade development*

Actions to reduce supply-side constraints which impact directly on the ability of developing countries to exploit their international trading potential, including, in particular, private-sector development.

This appropriation complements the Union's geographical programmes and should only cover multilateral initiatives and programmes that offer real added value to the Union's geographical programmes, in particular the Integrated Framework for Least Developed Countries.

The Commission will provide a biannual report on implementation and results obtained and on the main outcomes and effects of aid for trade assistance. The Commission will provide information on a total figure for all aid for trade finance coming from within the general budget of the Union, and a total figure for aid for trade from within all 'trade-related assistance' provided.

#### *Legal basis*

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks*

This appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external personnel at headquarters (contract agents, seconded national experts or agency staff) intended to take over the tasks previously conferred on dismantled technical assistance offices; expenditure on external personnel at headquarters is limited to EUR 7 600 714. This estimate is based on a provisional annual unit cost per man-year of which 93 % is accounted for by remuneration for the staff concerned and 7 % by the additional cost of training, meetings, missions, information technology (IT) and telecommunications relating to those staff members,
- expenditure on external personnel in Union delegations (contract staff, local staff or seconded national experts) for the purposes of devolved programme management in Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as the additional logistical and infrastructure costs, such as the cost of training, meetings, missions and renting of accommodation directly resulting from the presence in delegations of external personnel remunerated from the appropriations entered against this item,
- expenditure on studies, meetings of experts, information systems, awareness-raising, training, preparation and exchange of lessons learnt and best practices, as well as publications activities and any other administrative or technical assistance directly linked to the achievement of the objective of the programme,
- research activities on relevant issues and the dissemination thereof,
- expenditure related to the provision of information and communication actions, including the development of communication strategies and corporate communication of the political priorities of the Union.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on

their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers support expenditure under Chapter 21 02.

##### Remarks

This appropriation is intended to cover the operating costs of the Education, Audiovisual and Culture Executive Agency incurred as a result of the management of 'external relations' operational programmes (Heading 4) entrusted to the Agency under former Chapters 19 09 and 19 10, as well as the operating costs for certain actions of the 'Erasmus+' programme in order to promote the international dimension of higher education and of certain actions of the operational programme under Chapter 21 02.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The establishment plan of the Executive Agency is set out in Annex 'Staff' to this Section.

#### Remarks

The primary objective of the Union's development policy is poverty reduction, as laid down in the Treaty. The European Consensus on Development provides the general policy framework, guidance and the focus to direct implementation of the DCI Regulation.

Appropriations in this chapter will be used for the pursuit of poverty reduction, sustainable economic, social and environmental development and consolidating and supporting democracy, the rule of law, good governance, human rights and the relevant principles of international law, including those reflected in the Millennium Development Goals and in the emerging post-2015 international development framework. Synergies with other Union external instruments shall be sought where appropriate, without any loss of focus on the above basic objectives.

In principle, 100 % of expenditure in the geographic programmes and at least 95 % of expenditure in the thematic programmes and 90 % of expenditure in the pan-African programme must conform to the OECD/DAC criteria for Official Development Assistance (ODA).

As a general rule, at least 20 % of appropriations should be used for basic social services and secondary education.

##### *Former Article 21 02 12*

The purpose of development cooperation under this article is primarily its contribution to support the promotion of democracy, good governance, equality, respect for human rights and for the rule of law, and fostering sustainable development and economic integration, as well as to achieving the Millennium Development Goals and post-2015 global development commitments.

The Commission must continue to report annually on the benchmark used in the past for the assistance to developing countries that is to be allocated to social infrastructure and services, recognising that the Union contribution must be seen as part of overall donor support for the social sectors and that a degree of flexibility must be the norm. Moreover, the Commission will endeavour to ensure that a benchmark of 20 % of its assistance under the DCI will be dedicated to basic social services, with a focus on health and education, and to secondary education, this being an average across all geographical areas, and recognising that here too a degree of flexibility must be the norm, for example where exceptional assistance is involved. This appropriation is intended to cover cooperation schemes in developing countries, territories and regions in Latin America in order to:

- contribute to the achievement of MDGs targets in the region,
- support trade union, non-governmental organisations and local initiatives to monitor the impact to the investments on the national economy, particularly respect for labour, environmental, social and human rights standards,
- support gender equality through supporting actions to combat harmful traditional practices such as FGM and child marriage,
- foster the development of civil society,
- combat poverty and social exclusion and promote social cohesion,
- contribute to improve social standards with focus on education, including education and vocational training for employment, and health, and to the improvement of social protection schemes,
- promote a more favourable climate for economic expansion and enhanced productive sector, encourage the transfer of know-how,

promote contact and collaboration between business players bi-regionally,

- promote private sector development, incl. an SME-friendly business climate via i.e. legal property rights, reducing unnecessary administrative burden, improving access to credit, improving associations of small and medium-sized enterprises,
- support efforts towards food security and combat malnutrition,
- support regional integration; in Central America, foster region's development via enhanced benefits derived from the EU-Central America association agreement,
- promote the sustainable use of natural resources, including water, and the combating of climate change (mitigation and adaptation),
- support efforts for improving good governance and help consolidate democracy, human rights and the rule of law,
- promote policy reform particularly in the area of justice and security and support related actions to enhance development of countries and regions,
- gender equality and the empowerment of women.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight and audit capacities and transparency.

Appropriations under this article are subject to evaluations that shall include aspects of input activities and chain of results (output, outcome, impact). The findings of the evaluations shall be used in the formulation of subsequent measures financed with these appropriations.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

#### *Former Article 21 02 14*

The appropriation is intended to cover the financing of development schemes in Asian developing countries, in particular in countries where the poorest live, aimed at improving human and social development as well as tackling macroeconomic and sectoral problems. Emphasis is placed on economic and social governance and development, improving the human rights situation, democratisation, education, vocational training, lifelong learning, academic and cultural exchange, scientific and technological exchange, the environment, regional cooperation, disaster prevention and reconstruction measures, as well as the promotion of sustainable energy and information and communications technology.

It is also intended to cover support for the development of civil society and, in particular, support for the activities of non-governmental organisations promoting and defending the rights of vulnerable groups, such as women, children, ethnic minorities and

people with disabilities.

Utilisation of this appropriation is dependent on observance of the principles underpinning Union action. Appropriate consideration shall be given to the areas described below, reflecting jointly-agreed strategies, partnerships, cooperation and trade agreements. Priorities will be established in accordance with the European Consensus for development and the Agenda for change and with the subsequent conclusions of the Council.

This appropriation is intended to include actions related to inclusive and sustainable growth for human development. Sectors that may be addressed include:

- social protection and jobs, and universal access to health and education,
- business environment, regional integration and world markets,
- sustainable agriculture, nutrition and energy,
- climate change and environment,
- encouraging social cohesion, in particular social inclusion, fair income distribution, decent work and equity and gender equality,
- establishing inclusive partnerships around trade, investment, aid, migration, civil registration, research, innovation and technology,
- supporting an active and organised civil society for development and fostering public private partnerships,
- supporting climate change mitigation and adaptation, the promotion of sustainable consumption and production as well as investments in clean technologies, sustainable energies, transport, sustainable agriculture and fisheries, the protection of and enhancement of biodiversity and ecosystem services, including water, sanitation and forests, and decent job including creation for young people and women, in the green economy,
- encouraging greater regional integration and cooperation in a result-oriented way through support to different processes of regional integration and dialogue,
- contributing to preventing and responding to health risks, including those originating at the interface between animals, humans and their various environments,
- supporting disaster preparedness and post-disaster long-term recovery, including in the field of food and nutrition security and assistance to uprooted people,
- strengthening the capacity to provide universal access to basic social services particularly in health and education.

This appropriation will address actions related to:

- democracy, human rights including children's and women's rights and the rule of law,
- gender equality and the empowerment of women and girls,
- public sector management,
- tax policy and administration,
- corruption and transparency,
- civil society and local authorities,
- building and strengthening legitimate, effective and accountable public institutions and bodies, through promotion of institutional reforms (including on good governance and anti-corruption, public financial management, taxation and public administration reform) and legislative, administrative and regulatory reforms in line with international standards, in particular in fragile States and countries in conflict and post-conflict situations,
- in the context of the security and development nexus, fighting against corruption and organised crime, production, consumption and trafficking of drugs and against other forms of trafficking, and supporting efficient border management and cross-border cooperation and improving civil registration.

The purpose of development cooperation under this heading is its contribution to achieving the Millennium Development Goals as well as the promotion of democracy, good governance, respect for human rights and for the rule of law, fostering sustainable development and economic integration and promoting conflict prevention, conflict resolution and reconciliation.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for

administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

*Former Article 21 02 10*

The overarching purpose of this appropriation is to contribute to the creation of conditions for sustainable and inclusive economic and social development, social cohesion, democratisation and the improvement of people's lives. Emphasis shall be put on support to food security and sustainable agriculture, water and sanitation, the provision of health and education services and access to sustainable energy security, with a steady focus on those most in need. Disaster preparedness and climate change adaptation are of great relevance.

Possibilities to stimulate creation of employment opportunities and to promote decent working conditions shall receive attention. Support for SME development can be given, with a view in particular to promote economic diversification and social development.

When and where governance reform efforts of a meaningful nature and genuine democratisation processes exist, providing support for them shall be a priority. Similarly, allocations to border management and anti-drugs programmes shall depend on the outlook for achieving significant results.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. #### *Former Article 21 02 15*

This appropriation is intended to cover Union operations in the framework of the Afghanistan reconstruction process. It is supplemented by expenditure from other chapters and articles, to which different procedures apply.

The Commission will monitor compliance with the conditions for the Union contribution to this process, notably full implementation of the post-Bonn process. It will keep the budgetary authority informed on its findings and conclusions.

This appropriation is intended to support basic social services and economic development in Afghanistan.

This appropriation is also intended to support the Afghanistan national drug control strategy, including halting the production of opium in Afghanistan, and the disruption and destruction of the opium networks and illegal export routes to European countries.

A relevant part of this appropriation must be exclusively devoted to fund the start-up of the five-year plan for phasing out opium cultivation by replacing it with alternative production in order to obtain a verifiable outcome in this field, in line with the demands expressed in the European Parliament resolution of 16 December 2010 on a new strategy for Afghanistan (OJ C 169 E, 15.6.2012, p. 108).

This appropriation is also intended to support the Union contribution to the processes for the return of Afghan refugees and displaced persons to their country and regions of origin in accordance with the commitments entered into by the European Community at the Tokyo Conference in January 2002.

This appropriation is also intended to finance activities of women's organisations which have worked for a long time for Afghan women's rights.

The Union should increase its financial assistance in Afghanistan for areas such as health (construction and renovation of hospitals, prevention of child mortality) and small and medium-sized infrastructure projects (repairing of road network, embankments, etc.), as well as effectively implementing job security and food security schemes.

Part of this appropriation is intended to be used for mainstreaming of disaster risk reduction, based on ownership and national strategies of disaster-prone countries.

Part of this appropriation is intended to be used, with due regard for the Financial Regulation, to improve the situation of women, with priority for actions in the fields of health and education, and to support their active involvement in all areas and at all levels of decision-making.

Particular attention will also be paid to the situation of women and girls in all other actions and projects supported by this appropriation.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

#### *Former Article 21 02 13*

This appropriation is intended to cover assistance to the Government in reducing unemployment from around 25 % (2013) to 14 % (2020) and assistance to the State in fulfilling its developmental and transformative role, including improving service delivery.

Employment creation has been identified as one of three priority areas in South Africa's recently developed National Development Plan 2030 (the other areas being education, training and innovation, and building a capable state) because unemployment is at the heart of South Africa's triple challenge of unemployment, poverty and inequality. The support is expected to contribute to improving employment creation policymaking and implementation, including in the area of 'green jobs' and green technology for low carbon development; reducing the cost of doing business, especially for small, medium, and micro-sized enterprises (SMME); and enhancing actions in the area of skills development and placement assistance.

The support is expected to contribute to strengthening systems of oversight; improving relations between national, provincial, and local government; enhancing public service staff with the authority, experience, competence and support they need to do their jobs; and promoting of an active citizenry in policy design, implementation, and monitoring and evaluation.

Also, the overall objective of this programme is to contribute to the implementation of South Africa's recently developed National Development Plan 2030 and the accompanying outcome-based approach, which aim to improve the conditions of life of South Africans including halving poverty and unemployment, while being aligned with the Millennium Development Goals (MDGs). The programme purpose is to contribute to the overall objective in the areas of decent employment creation through inclusive economic growth and the establishment of an efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

## ***Article 21 02 07 — Global public goods and challenges and poverty reduction, sustainable development and democracy***

### *Remarks*

This programme is intended to benefit primarily the poorest and least developed countries and the most disadvantaged sections of the population in countries covered by the DCI Regulation.

This appropriation is intended to cover poverty reduction and fostering sustainable development as a component under the Global Public Goods and Challenges (GPGC) thematic programme. The objective of the programme is to support inclusive sustainable development by addressing the main global public goods and challenges in a flexible and cross-cutting manner. The main areas of action include environment and climate change, sustainable energy, human development (including health, education, gender,

equality, identity, employment, skills, social protection, social inclusion, and economic-development-related aspects such as growth, jobs, trade and private-sector engagement), food and nutrition security, sustainable agriculture, and migration and asylum. This thematic programme will also enable a swift response to be made to unforeseen events and global crises affecting the poorest populations. By promoting synergies across the various sectors, the GPGC programme will reduce fragmentation of Union development cooperation and increase coherence and complementarity with other Union programmes and instruments.

##### *Former Item 21 02 07 05*

This appropriation is intended to provide financial support to actions in developing countries under the ‘Human development subtheme’, covering health, education, gender issues and other aspects of human development, of the ‘Global public goods and challenges’ thematic programme. It should primarily benefit the poorest sections of the populations in the countries it covers.

The health component shall support universal access to good quality essential health services. Priority areas should include child and maternal health, sexual and reproductive health and rights, access to family planning, protection against HIV/AIDS, tuberculosis, malaria and other poverty-related diseases, including neglected diseases, and access to psychological support for victims of violence.

Equal access and quality of education shall be supported, including for migrants, women and girls, with an emphasis on countries furthest from achieving global targets.

In relation to gender equality, programmes to promote women’s and girls’ economic and social empowerment shall be supported. Addressing sexual and gender-based violence and supporting victims shall also be priorities. Helping to eradicate gender-biased sex selection practices shall also be among the objectives.

The appropriation can also be used for activities in support of children and youth; non-discrimination; employment, skills, social protection and social inclusion; growth, jobs and private sector engagement and culture.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. These contributions pursuant to Article 6 3 3 of the statement of revenue constitutes assigned revenue in accordance with Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the transfer agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

Where assistance is delivered via budget support, the Commission shall support efforts of partner countries to develop parliamentary oversight, audit capacities and transparency.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

##### Former Item 21 02 07 06

This appropriation is intended to provide financial support to actions under the ‘Food and nutrition security and sustainable agriculture subtheme’, of the ‘Global public goods and challenges’ thematic programme.

In the area of food and nutrition security and sustainable agriculture, the overall objective is to improve food security for the poorest and more vulnerable, to help eradicate poverty and hunger for current and future generations and to better address under-nutrition thereby reducing child mortality. This objective will be pursued in line with the EU policy will focus on enhancing the incomes of smallholder farmers, the resilience of vulnerable communities and on helping partner countries reducing the number of stunted children by 7 million by 2025. As food security is a global challenge, the GPGC programme will focus on activities and approaches to address global public goods and challenges that provide strong multiplier to the agricultural, livestock and fisheries sector, the food and nutrition security situation of households, the rural economy and food systems, and the resilience of the most vulnerable households to shocks and stresses. This will complement and add value to the support provided through geographical programmes.

The following three components are included in the theme:

- *Component 1: Generating and exchanging knowledge and fostering innovation* that will generate and apply new knowledge to the challenges of food and nutrition security mainly at international and continental levels. This component will work with existing global and regional initiatives, but also envisages new partnerships that are needed to ensure that knowledge generated by research is used by beneficiaries to improve their income and livelihoods,
- *Component 2: Strengthening and promoting governance and capacity at the global, continental, regional and national levels, for all relevant stakeholders.* This component will support international initiatives addressing food and nutrition security, including land, sustainable fisheries, and improve the effectiveness of dialogue on food and nutrition security issues. It will also foster a coordinated international effort to generate reliable, accessible and timely information and analytical capacity to support evidence-based policymaking and to strengthen and/or set up sustainable regional and national information systems for food security (ISFS) institutions. This component may also support capacity development initiatives of stakeholders such as CSOs, farmers’ organisations and other inter-professional groups along the value chain,
- *Component 3: Supporting the poor and nutrition-insecure to react to crises and strengthen resilience.* This component will provide support to countries where there will not be bilateral programmes under geographical programming, to countries which suffer from the consequences from a major unforeseen crisis and/or shock, including natural and man-made disasters, epidemics and major food and nutrition crises in fragile and food crisis prone countries, this component will also support innovative approaches to strengthen prevention and to build resilience. Where relevant, interventions will be also designed in order to enhance synergies and complementarities between humanitarian and development interventions. Joint analysis of the situation performed by humanitarian and development stakeholders will be encouraged.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

#### Former Item 21 02 07 07

This appropriation shall be used for implementing initiatives under the Migration and Asylum thematic area of the Global Public Goods and Challenges programme with the aim of enhancing the governance and maximising the development impact of migration and mobility.

In particular, the GPGC migration and asylum programme aims to enhance the governance of migration in and by developing countries, placing particular attention on maximising the positive impact and minimising the negative impact of migration and mobility on development in low- and middle-income countries of origin and destination. Protection of the human rights of migrants and support for EU commitments to ensure Policy Coherence for Development on migration will be pursued as cross-cutting objectives.

The programme will focus on initiatives at global level as well as multi-regional level (e.g. to support cooperation along south-south or south-north migratory routes). A limited number of national projects to support new cooperation activities with priority countries for the EU external migration policy may also be launched.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

#### Former Item 21 02 08 03

This appropriation is intended to support initiatives to strengthen civil society organisations in partner countries, and in the Union and beneficiaries eligible under the IPA Regulation when referring to DEAR activities. The initiatives to be financed shall be primarily carried out by civil society organisations. Where appropriate, in order to ensure their effectiveness, initiatives may be carried out by other actors for the benefit of the civil society organisations, so as to contribute to:

- (a) an inclusive and empowered society, including from a gender equality perspective, in partner countries through strengthened civil society organisations;
- (b) an increased capacity of European and southern civil society networks, platforms and alliances to ensure a substantive and continued policy dialogue in the field of development and to promote democratic governance and empowerment of women;
- (c) an increased level of awareness of European citizens regarding development issues and mobilising active public support for poverty reduction and sustainable development strategies in partner countries.

Possible activities to be supported by this programme:

- (a) interventions in partner countries which support vulnerable and marginalised groups by providing basic services delivered through civil society organisations;
- (b) capacity development of the targeted actors complementary to support granted in the framework of the national programme, actions aiming at:
  - (i) creating enabling environment for citizen participation and civil society action and the capacity of civil society organisations to participate effectively in policy formulation and in the monitoring of policy implementation processes;
  - (ii) facilitating an improved dialogue and better interaction between civil society organisations, local authorities, the State and other development actors in the context of development;
- (c) coordination, capacity development and institutional strengthening of civil society networks, within their organisations and between different types of stakeholders active in the European public debate on development as well as coordination, capacity development and institutional strengthening of southern networks of civil society organisations and umbrella organisations;
- (d) raising public awareness of development issues, empowering people to become active and responsible citizens and promoting formal and informal education for development in the Union, in candidate and potential candidate countries, to anchor development policy in European societies, to mobilise greater public support for action against poverty and for more equitable relations between developed and developing countries, to raise awareness of the issues and difficulties facing developing countries and their peoples, and to promote the right to a process of development in which all human rights and fundamental freedoms can be fully realised and the social dimension of globalisation.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the transfer agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for EU Trust Funds.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

#### *Former Article 21 02 11*

This appropriation is intended to support the implementation of the Joint Africa-EU Strategy (JAES). In particular the pan-African programme shall be used to provide specific support to development cooperation activities of cross-regional, continental and trans-continental nature, as well as relevant JAES initiatives in the global arena. The pan-African programme will work in close cooperation with other instruments, notably the European Neighbourhood Instrument (ENI), the European Development Fund (EDF) and the thematic programmes under the DCI, and will concentrate on specific initiatives agreed in the framework of JAES, ensuring the necessary coherence and synergy and preventing duplications and overlaps.

This will be used in the followings main priority development areas:

- development of peace, security, democratic governance and human rights, with a support to the African governance architecture through cooperation with AU Commission and other related institutions such as the pan-African Parliament, the African Court for People and Human Rights; civil society organisations,
- support to regional integration at the continental level, including harmonisation of policies, standards and regulations, and capacity building to promote regional integration, trade and investments,
- on migration, mobility and employment, targeting improvements in the areas of remittances, mobility and labour migration, fight against trafficking in human beings, irregular migration and international protection,
- good stewardship of natural resources (this includes areas such environment and climate change, raw materials and agriculture) and development-oriented use of the wealth they can bring,
- development of a knowledge-based and skilled-based society, in order to develop competitiveness and sustain growth, through support to higher education and research at continental level, by providing support to the AU flagship initiatives in these areas, and supporting the improvement and availability of accurate statistical data.

Support will also be provided in order to develop the Africa-EU partnership, to tackle global issues in the worldwide arena, and to reinforce civil society for specific action at continental level.

Part of this appropriation is intended to be used for operations carried out by the Confederation of European Senior Expert Services (CESES) and its member associations, including technical assistance, advisory services and training in selected public and private sector enterprises and institutions. Accordingly, Union authorising officers are encouraged to make full use of the possibilities offered by the Financial Regulation, including CESES contributions-in-kind to Union projects.

This appropriation is intended to cover the technical and the financial assistance provided under this external instrument in order to

promote the international dimension of higher education for the implementation of the ‘Erasmus+’ programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

### Item 21 02 77 15 — Pilot project — Strategic investment in sustainable peace and democratisation in the Horn of Africa

#### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Two fundamental issues the people and countries in the Horn of Africa suffer from are: (1) the absence of participatory government and stability; and (2) the absence of democracy and democratic processes and genuine participation of the people. Both are related to a fundamental and lasting crisis in governance in all countries of the Horn. In fact the impact of this crisis is felt in the whole of north-east Africa as well as in Europe. Unless the issues are addressed by the Union and others with a comprehensive perspective, there is no hope for sustainable livelihoods, economic growth and a peaceful and stable region. An Arab Spring scenario in this region, without a long-term vision and long-term investment from the international community to underpin it, will lead nowhere.

The proposed pilot project addresses these issues with a two-part strategy, each part building on the other. Both are essential in order to develop long-term, credible alternatives to the Horn's military dictatorial regimes.

*First part:* Ensure sufficient space for civil society, coupled with strategic investment in genuine civil society actors. Civil society in the Horn of Africa and its diaspora in Africa faces increasing challenges in terms of ability to function and human rights abuses. Government policy in the countries in the Horn is increasingly based on distrust and focused on control and containment rather than support or facilitation of civil society. Authorities in the Horn view civil society as a threat, if not a direct opponent, and do not allow their policies to be complemented, let alone challenged, by civil society. However civil society plays a key part in democratic systems and processes. The tightening environment for civil society therefore needs to be challenged at national and regional level to allow civil society to be part of democratic processes. Civil society actors themselves need to be strengthened to effectively deal with this increasingly difficult environment to operate in as well as deal with future democratic processes.

*Second part:* Strengthen youth and youth movements in the Horn of Africa with a view to effectively preparing them for future democratic changes. Young people, both in the Horn and in the diaspora in Africa, are the future for their countries but lack skills and knowledge, as well as life experience in a peaceful and democratic environment. They also lack the means to develop those skills and their governments hardly invest in young people. They are often housed in refugee camps. The displacement and often unclear legal status mean that learning opportunities pass them by. In order to train future leaders and senior government officials and establish genuine democratic processes, external investment in the Horn's youth is essential. Investment in their skills, tapping effectively into their enthusiasm, dreams and hopes for the future is more strategic than investment in changing the current establishment.

This pilot project invests in the following countries: Sudan and South Sudan, Eritrea, Ethiopia, Somalia (Somaliland, Puntland) and Djibouti. It will invest at national as well as (sub-) regional level but assumes that a regional approach takes primacy.

People in the Horn of Africa suffer from the absence of participatory government, stability, democracy and genuine participation. Unless these issues are addressed comprehensively, there is no hope for sustainable livelihoods, economic growth, peace and stability in the region.

The pilot project aims to contribute to long-term, credible alternatives to military dictatorial regimes in the Horn, by ensuring sufficient space for civil society and strengthening youth and youth movements.

*Djibouti:* The actions proposed by the project are needed because CSOs in Djibouti are underdeveloped and play only a marginal role in the development process of the country. The project could also focus on providing support to reinforce the lack of familiarity of CSOs with participatory processes and the number of increase of implementing partner in the country.

*Ethiopia:* Support to CSOs and to democratisation in Ethiopia is particularly appropriate, given the difficult environment for CSOs at the moment. However, it is recommended that the project is redesigned to focus on the youth component as other components are already covered by other instruments and budget lines (EDF, DCI-CSO/LA thematic programme, EIDHR). The project could also focus on providing support to reinforce the lack of familiarity of CSOs with participatory processes and the number of increase of implementing partner in the country.

*Eritrea:* for Eritrea the support to democratisation and youth is most important. At the same time, one should take into account that the space for CSOs to work in Eritrea is extremely limited.

*Sudan and South Sudan:* Overlap with the geographical programmes is avoided by providing capacity building to different Government structures, in particular the Judiciary, under the governance/rule of law component. Synergies with other instruments, such as EIDHR and the CSO/LA thematic programme of the DCI, should be encouraged.

*Regional perspective:* The regional component of this project is particularly useful, as it is not covered by any existing instrument.

The project should also formulate complementary activities such as increased capacity building to youth associations and set up of additional networks between targeted organisations in the benefiting countries, as well as to extend the duration of the action in order to ensure the sustainability of the project.

### Item 21 02 77 16 — Pilot project — Strengthening veterinary services in developing countries

Commitments	Payments	Commitments	Payments

#### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

Despite collaboration between the World Organisation for Animal Health (OIE) and the Union on the evaluation of the performance of veterinary services (PVS), on the governance of animal health services and on avian influenza, there is a very urgent need to strengthen and fund veterinary services in developing countries, as explained below.

Animal diseases are responsible for a 20 % loss of livestock output globally and a 30 % loss in developing countries. Almost one billion people in developing countries (sub-Saharan Africa and south-east Asia) rely on livestock for their survival. Livestock health is critical to poverty reduction. However, problems can only be dealt with at source if recognised quickly and professionally.

Recent international efforts to address animal and human influenza have clearly highlighted the need to further encourage a cross-sectoral approach to good governance, to strengthen public health and animal health systems to comply with international standards, and to promote alliances between the public and private sectors in those fields.

The burden of animal diseases, including their economic impact (on primary production, on trade and on processed products) as well as the need to address all animal diseases, both zoonotic (e.g. tuberculosis, brucellosis, rabies and anthrax) and non-zoonotic (e.g. foot-and-mouth disease, *peste des petits ruminants*) must be taken into account in order to protect consumers, pets (which can transmit

diseases to humans) and livestock in the Union as well. Additional work is required in neighbouring countries, in developing countries and in transition economies, notably in sub-Saharan Africa, to prevent and control emerging diseases and to improve biosecurity. This will support the delivery of global public goods and will contribute to ultimately ensuring food security, food safety, public health and poverty alleviation. Enabling good governance of public and private components of veterinary services and better cooperation between them and public health services is key to a better and safer world.

Some 125 countries have already benefited from an initial evaluation of the performance of their national veterinary services (PVS evaluation) on the basis of international standards for the quality and evaluation of veterinary services. PVS pathway follow-up actions are part of a continuous process and aim to sustainably improve compliance of veterinary services with international quality standards, and also act as an efficient permanent safeguard for animals, humans and agricultural production throughout the world. These actions need to be implemented in developing countries, notably in sub-Saharan Africa, as well as in neighbouring countries in order to monitor the progress made and help strengthen veterinary services and animal health systems on the basis of national needs and priorities (PVS gap analysis).

The PVS pathway facilitates and improves the development of appropriate legislation for national animal health systems, early detection, global transparency as regards national sanitary status through the notification of animal diseases including zoonoses, rapid response to outbreaks, biosecurity measures, compensation for farmers in the event of compulsory slaughter, vaccination (if necessary) and capacity-building for and cooperation between the public and private sectors (notably farmers, pastoralists, and private veterinarians), as well as guarantees that quality drugs are used.

Unfortunately, PVS evaluations completed to date have demonstrated worrying weaknesses and major shortcomings in more than 100 countries. This situation threatens early detection and global transparency as regards national sanitary status and zoonoses and increases dramatically the global cost on fighting pandemics and animal diseases, with disastrous effects on the billion people directly dependent on livestock.

#### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This appropriation is intended to fund the establishment of a Europe-wide network bringing together MNCs with activities in developing countries and headquarters in Europe and organisations providing family planning services. The project will select most specifically companies' factories based most notably in countries with a high unmet need for family planning. This Europe-wide network will aim to provide a forum for the exchange of ideas, information and experiences in the field of family planning linked to corporate social responsibility (CSR) and at providing opportunities for collaboration between companies and family planning organisations to increase access to family planning for factory workers in countries with a high unmet need for family planning.

Ultimately the appropriation will establish one pilot project exploring the linkages between CSR and the provision of voluntary family planning services in factories.

#### *Project activities*

Phase 1: Mapping of MNCs present in the Union employing high levels of female factory workers in developing countries with high unmet need for family planning.

Phase 2: Setting up a forum for the exchange of ideas, information and experience in the field of family planning linked to CSR.

Phase 3: Supporting the implementation of a voluntary family planning CSR pilot in one factory.

Phase 4: Document and disseminate the outcome of this pilot.

### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project should aim at reactivating the Cauca area's small-scale farming economy in order to continue creating a viable path for the small communities to exit the armed and social conflicts of the region. To this aim the pilot project should ensure the construction, development and maintenance of physical infrastructure facilities and the creation of a distribution centre to commercialise the agricultural products produced by these communities and their further distribution at local and regional level, as well as facilitate potential conflict-settlement like in other hot spot areas in Colombia.

Item 21 02 77 19 — Preparatory action — Building resilience for better health of nomadic communities in post-crisis situations in the Sahel region

### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Northern Mali and Northern Niger are subject to recurrent health crises with some of the lowest health indicators especially on sexual and reproductive health. Although the post-crisis situations in these two countries are quite different, the root causes of low health indicators are similar: large rural areas, sociocultural barriers, inadequate health infrastructure, lack of health competencies and capacities notably on the number of medical professionals, and the low retention rate of skilled medical staff. While these challenges are common across sub-Saharan Africa, the largely nomadic population in the target area of this project have additional needs that are currently not met by the health system. Indeed the health system often fails to address the mobile nature of these pastoralist groups. This results in increased vulnerability of these groups which is already affected by a lack of adequate nutrition, gender inequalities, maternal and child mortality rates and low access to quality of healthcare services and information.

The parallel post-crisis situation in these two regions would help drawing lessons learnt and best practices on resilience and linking relief, rehabilitation and development (LRRD) that would be highly relevant for the Union in the framework of the AGIR initiative, and best practices from this pilot project could be replicated within this and other initiatives.

Using the health sector as an example with particular emphasis on sexual and reproductive health, the preparatory action will aim to establish baselines, draw operational recommendations on resilience and LRRD and capitalise on them to impulse reinforcing health capacities of communities as regard the needs of nomadic groups in the context of post-crisis in Mali and Niger.

### Objectives

The overall objective of the project is to build capacity of health workers to provide quality services targeted to the specific needs of nomadic groups (in a post-crisis situation), with a particular emphasis on sexual and reproductive health. Using the health sector as an example, the preparatory action will evaluate and compile best practices on resilience building and linking relief rehabilitation and development in the context of post-crisis in Northern Mali and Northern Niger. Finally, it would also develop innovative methods as well as improve health training curriculum addressing the needs of nomadic groups. Expected results from this project will be reliable and comprehensive health data collected at community and local levels, in order to improve health programming and increase the accountability of the national and local health systems; best practices with regards to building resilience and LRRD will be shared and disseminated and health training curriculum will be developed to enhance local capacity to address health needs of the nomadic groups.

The primary target group is the nomadic population in rural Northern Mali and Northern Niger, and in particular the most vulnerable and most at-risk groups of this population (women, girls and infants below five). The secondary target group includes professional and community health workers in the same regions.

The action will be implemented by local CSOs and humanitarian actors that have local staff present in the region, in alignment with national priorities and government plans (including reaching UN Millennium Development Goals 4 and 5, as both Mali and Niger are countdown countries<sup>3</sup>) and in close coordination with all actors present in the regions: the local and national authorities, local and national health facilities and training facilities, the communities, as well as the development actors (EU, donors, UN agencies, the private sector, NGOs, authorities and community health and medical workers), taking into account efforts under the AGIR initiative.

#### *Project activities*

The preparatory action will have three phases.

##### *First phase: conduct operational research to determine health baselines of nomadic groups*

The action will aim to establish baselines on health indicators and study the determinants to access to quality healthcare (geographical, financial, socio cultural, etc.) of nomadic local populations, and in particular for the most vulnerable and most at-risk groups (women, girls and infants below five). It will also map out the existing health capacities and initiatives (including the AGIR and other international initiatives, government-run health facilities and training centres but also traditional and community health workers). Eventually, the research will evaluate the provision of basic healthcare to nomadic groups' needs and prevention information and services (including maternal, and child care, vaccination, nutrition, reproductive health, gender-based violence, etc.)<sup>4</sup>.

##### *Second phase: provide operational recommendations and compile best practices for LRRD and resilience building for knowledge transfer to the AGIR and other related initiatives*

Based on the assessment, the action will analyse how the nomadic groups' needs have been addressed in the emergency response and the post-crisis phase (coordination and warning mechanisms) by all development actors (EU actors, donors, UN agencies, the private sector, NGOs, authorities and community health and medical workers). It will highlight best practices in both countries notably combining mobile and static health services and the provision of dual animal and human interventions, drawing on the similarities and different approaches taken in each country.

Finally it will provide operational recommendations for future Union involvement notably in the context of AGIR on how to maintain a long-term resilience-oriented perspective towards nomadic groups also during crisis and emergency response interventions without destabilising the local and national formal and informal structures.

##### *Third phase: build and retain capacity to address nomadic groups' health needs among professional and community health workers for resilient health systems*

The action will leverage some of the lessons learnt by considering health capacity to address health needs of nomadic groups. This phase will focus on developing a specialised training curriculum based on the needs of nomadic communities and documenting evidence-based intervention strategies which have demonstrated results and ownership among nomadic groups. This will be done in partnership of training facilities as well as local and national authorities. The training will include the full range of basic healthcare and prevention including the reference of pregnant women to health centres. It will also contain training on the collection and monitoring of data on health status of nomadic groups. The training will target health workers with a special focus on women community-based health workers and traditional birth attendants in order to increase access to health services for nomadic groups. Training will be aligned with national priorities and in support of existing institutions.

<sup>3</sup> Both Mali and Niger are so-called 'countdown countries' meaning that progress is needed to reach the MDGs by 2015, in particular on MDG 4 and 5 (infant mortality and maternal mortality).

<sup>4</sup>By basic care we mean: maternal and child health, vaccination and nutrition (specifically acute undernourished children and lactating mothers), reproductive healthcare (emergency obstetric care, antenatal and post-partum care, access to family planning methods, prevention of unsafe abortion, etc.) surveillance for epidemics and treatment of diseases (including HIV/AIDS), medical care, early psychological and clinical management especially of gender-based violence (sexual aggression, early and forced marriage, FGM/C, etc.).

Item 21 02 77 20 — Preparatory action — Socio-economic reintegration of children and female sex workers living at mines in Luhwindja, South Kivu Province, eastern DRC

### *Figures*

Budget 2015		Appropriations 2014		Outturn 2013
Commitments	Payments	Commitments	Payments	
2 200 000	1 855 524	2 200 000	1 100 000	

### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

Owing to a long history of crisis in the region, extreme poverty is rife in South Kivu Province in the east of the Democratic Republic of Congo (DRC).

With 84,7 % of its inhabitants living below the poverty line, this is one of the DRC's three poorest provinces (the others are Équateur and Bandundu).

The situation is no better in Luhwindja than in any other of the province's 18 chiefdoms. In the past, more than 90% of the chiefdom's population lived on artisanal mining.

Today, almost all of the mines are run by the Banro Corporation, whose industrial-scale operations make it difficult for other activities which could be of greater benefit to the local communities to be carried out.

In order to survive, those communities are obliged to dig for gold at other sites that are deemed dangerous, often with disastrous consequences. The school non-attendance rate is alarmingly high, with large numbers of young girls and boys from poor families giving up their studies to go to work in the mines.

Article 53(f) of the Act of 10 January 2009 on the protection of children prohibits all forms of labour which, owing to their nature or the conditions under which they are carried out, are likely to be harmful to the health, growth, safety, development, dignity or morals of children.

Girls as young as 13 and women who have become heads of household are obliged to engage in prostitution in order to keep the local community on an even keel, given, in particular, that most of the men have no source of income.

Prostitution and its attendant problems, including physical violence and drug taking, are rife in the mines in operation in Luhwindja chiefdom.

Efforts need to be made by the government, civil society and the UN agencies to find ways of ensuring that Millennium Development Goal 1 (eradication of extreme poverty and hunger) is met in this area.

### *Objectives*

The prevalence of child labour and of prostitution (involving both women and girls) in Luhwindja's mines is clearly indicative of the level of poverty in the area.

The overall aim of this project is to help improve living conditions for the inhabitants of Luhwindja chiefdom, with special emphasis being placed on providing the young people who have given up their studies to work in the mines with the guidance they require.

Special attention will be paid to the sex workers (women and girls) living at the mines, most of whom contract HIV/AIDS and other sexually transmitted diseases at an early age, and to the issue of unwanted pregnancies. Work in this area will be carried out in cooperation with Panzi Hospital, which is run by Dr Denis Mukwege.

There will also be close cooperation with local and national authorities, local communities and other development stakeholders (donors, UN agencies, private sector bodies and NGOs).

### *Project activities*

There will be three main stages:

*Stage 1: opening a remedial education centre for children between the ages of five and 15 working at mines in Luhwindja (USD 800 000):*

- Raising awareness among local people of national and international child protection legislation and agreements.
- Building a remedial education centre for children rescued from the mines, some of whom have never been to school.
- Fitting the centre out with the necessary equipment. Once built, the centre will need to have the teaching and other materials required to give the children the best possible learning environment and offer them a chance to continue their studies afterwards.
- Recruiting the necessary staff. Staff with the specific qualifications and teaching skills required to handle ‘outlaw’ children will be recruited. The staff will also be responsible for enrolling children from the mines, with the assistance of their parents.
- Providing psycho-social counselling. Given that they come from dangerous, atypical backgrounds, once enrolled the children will first spend three months at a psycho-social guidance centre. A psychologist will be recruited for this purpose.
- Streaming the children on the basis of their level of schooling. There will be three different levels: Level 1 will be for children who have never been to school and those who left school in the first and second years of primary school. These children will be taught to second-year primary level.
- The second level will be for children who went no further than the third or fourth year of primary school. These children will be taught to fourth-year primary level.
- The third level will be for children who went no further than the fifth year of primary school or failed the sixth year. These children will be taught to sixth-year primary level.

At the end of each school year, all the children at sixth-year level will take the TENAFEP (national primary school leaving test), in preparation for going on to secondary school.

School meals will be provided to encourage children to attend classes and dissuade parents from sending them to work in the mines.

The money which the children earned in the mines helped to cover household expenses. With a view to putting an end to this practice, provision has been made for the families of the children at the centre each to be given a food package (a bag of rice and a small can of oil) every month.

- Assessing the project’s impact on the basis of the number of children enrolled from the mines, their progress to secondary school, whether local or situated elsewhere, the degree of involvement of the local community and local authorities in dealing with the problem of child labour in the mines, and the quality of the education provided to the children.

*Stage 2: setting up a vocational training centre for adolescents (16 to 18 year-olds) from the Luhwindja mines (USD 1 150 000):*

- Raising awareness among local people of national and international child protection legislation and agreements. The adolescents involved need to be apprised of their rights and obligations.
- Building the vocational training centre. In line with local circumstances, the following courses will be offered: clothes making, building, carpentry, improved cooking facilities, and fitting and welding.
- Fitting the centre out with the necessary equipment. The skills learned at the centre will be backed up by practical experience gained on traineeships with local NGOs, State-owned companies, etc.
- Recruiting the necessary staff. Staff qualified to teach the various courses will be recruited either locally or from outside the area.
- Providing psycho-social counselling. Experience shows that various forms of social deviancy, including drug taking and prostitution, are common in this age group.
- Helping the young people to choose a course. Following psycho-social counselling, the young people will be helped to choose a course. The aim is to raise their sense of self-worth and enable them to make a contribution to society.
- Assessing the project’s impact on the beneficiaries and determining whether the training provided has helped to address local problems. Assessments and reports will be drafted and sent to donors.

*Stage 3: helping sex workers (women and girls) living at mines in Luhwindja to find other means of earning a living (USD 760 000):*

- Recruiting the necessary staff. Technicians and other staff specialised in dealing with ‘marginalised’ women and girls will be recruited for the project.
- Making the sex workers aware of their human rights. During the information sessions, screening for HIV/AIDS and similar diseases will be offered to project beneficiaries on a voluntary basis.

The tests will be performed by nurses at Panzi Hospital, run by Dr Denis Mukwege. If necessary, referrals for psycho-medical care will be made.

- Providing the sex workers with information on issues relating to the management of income-generating activities and birth control.

In view of the extreme socio-economic conditions in which they live, they will be taught various birth control strategies. The association could even sign agreements with the sex workers with a view to limiting the number of births and keeping the women and girls away from the mines.

- Setting up a team to monitor compliance with the agreements, including the undertaking not to go back to the mines. A sizeable proportion of the children born to sex workers live and work at the mines.
- Helping the young women to find income-generating activities (farming jobs, small retail jobs, etc.) that will enable them to support their households. The aim is to empower them.

Assessing the project; determining whether beneficiaries have honoured their undertaking not to return to prostitution in the mines, whether the income-generating activities are going well and whether the birth control advice is being put into practice.

#### *Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

This preparatory action is intended to contribute to the Union's strategy to support the welfare of the people of Eastern Africa and to help lift them from poverty into self-sustaining economic growth.

It aims at strengthening capacities, ownership and political commitment of local actors to initiate structural change to support the development of social enterprises which constitute an important pillar of the social economy and civil society. These enterprises will in particular produce and deliver goods and services in the fields of sustainable agricultural and livestock production, natural resource management, energy efficiency, culture and education, as well as health and care services

Social enterprises, together with cooperatives, are operators in the social economy that are trading goods and services to achieve a social impact<sup>5</sup> rather than make a profit for their owners or shareholders, and that are managed in an open and responsible manner and, in particular, involve employees, consumers and stakeholders affected by their commercial activities<sup>6</sup>. The ILO has made significant efforts to highlight the importance of their role for promoting economic sustainability, social justice, ecological balance, decent work political stability, conflict resolution and gender equality<sup>7</sup>, and the Preparatory Action will integrate the lessons learnt

<sup>5</sup> Social impact is generated through solidarity action with the disadvantaged and the excluded; with the young generation and with the elderly, solidarity with future generations (through, e.g. using natural resources efficiently, or reducing emissions and waste) Increasing the quality of life for all through producing services and products that meet collective needs and contribute to community and social capital development, through, e.g. producing and distributing healthy and affordable food, or facilitating access to and delivering education and lifelong learning.

The process of starting, developing and replicating social enterprises and cooperatives will often need to be based on the innovative use and combination of resources to pursue opportunities to catalyse social change and/or address social needs, propelled by social entrepreneurs.

The innovative approach of this preparatory action is based on bringing together under-utilised resources and drivers for local development, and will develop and test new ways and means to develop sustainable communities in two Eastern African countries (Kenya and Ethiopia) with strong roots in the social economy, by

- mobilising and empowering social entrepreneurs to move from informal entrepreneurship to social businesses that allow the development of skills, self-esteem, mutual responsibility, income and welfare,
- establishing local development partnerships of key institutions, stakeholders and personalities that promote and support the creation and development of social enterprises, embedded in an ecosystem conducive for their development and sustainability, that are based on the principles of participation, co-ownership and democratic management,
- mobilising and involving diaspora communities living in Europe that play a significant economic role in the flow of capital into Eastern Africa, but also have socio-political links with the region,
- facilitating learning from peers by exploiting and utilising the experience and expertise of social economy actors in the new Member States of the Union that have managed to develop new social economy structures and new business models for social enterprises in the transformation period from State-controlled economies to social market economies.

To this end, the preparatory action will apply an experimental approach, and test the conditions for success under different configurations:

- it will involve partnership between local social economy initiatives in Eastern Africa with diaspora communities in Europe and social economy actors in the new Member States,
- it will identify and empower local development partnerships in different European countries and in at least two Eastern African countries that could collaborate in establishing social enterprises and developing a social economy ecosystem in the communities of the African partners,
- the transnational local partnerships will be established and developed between local social economy initiatives in big cities, medium-sized towns and rural villages.

The preparatory action will include analytical work (participative baseline assessment and strategy developments, feasibility assessments); organisational work (coordination cells to prepare and provide technical assistance to the activities of the partners), the establishment of learning spaces (through study visits, learning seminars, secondments, cooperation between social enterprises, etc.) and the development of an infrastructure and the activation of an ecosystem for social enterprises, community-based cooperatives, and producer groups. It will result in launching transnational partnerships between local social economy initiatives from Eastern Africa and Eastern Europe, assisted by diaspora communities and experienced social economy actors from the new Member States.

It is expected that the development of social economy initiatives will enhance local community development in Eastern Africa and strengthen the processes of poverty prevention, notably through the reduction of informal employment, access to co-ownership of the means of production and the development of an infrastructure for boosting the social economy.

Item 21 02 77 22 — Pilot project — Integrated approach to developing and rolling out health solutions to tackle neglected tropical diseases in endemic areas

### Remarks

Existing R&D funding mechanisms dedicated to neglected tropical diseases (NTDs) tend to take a siloed approach: gaps persist between the different phases of the R&D cycle and linkages with fringe issues such as WASH and education programmes are not addressed as part of a multi-sector approach. Likewise, the need for equally important incremental research, which can help to significantly improve the acceptability of treatments and diagnostics to populations affected by NTDs, tends to be overlooked.

With the objective of addressing some of the R&D gaps for NTDs, this pilot project will contribute to or co-fund an alternative model that relies on an innovative and coordinated approach to address persistent R&D gaps stemming from market failures. The model will identify a specific part of the gap in R&D for NTDs that disproportionately affect developing countries, and will provide crucial elements for the development of high-quality, accessible, affordable and suitable health solutions.

This project will build on the work carried out under previous preparatory actions and pilot projects on global health research and innovation and support efforts to address identified and recognised gaps in line with the WHO process in connection with the report available at [http://www.who.int/phi/cewg\\_report/en/](http://www.who.int/phi/cewg_report/en/) and with the list of demonstration projects identified and preselected by the Global Technical Consultative Meeting on Health R&D Demonstration Projects.

In doing so, while seeking to improve acceptability, the project will contribute to meeting at least one of the following objectives:

- recommending effective and efficient mechanisms for coordination with other current initiatives;
- proposing innovative ways of decoupling the price of the final product from the cost of the R&D;
- maximising public– public and public-private partnerships in knowledge sharing, including open knowledge innovation approaches;
- strengthening research, development and production capacity, including through technology transfer, in developing countries.

### Remarks

The pilot project will support NGOs, victims, and witnesses seeking justice for international crimes and also support international and DRC lawyers representing victims in strategic litigation at national, regional and international level;

Expected results:

- detailed information on international crimes, in particular crimes involving sexual and gender-based violence (SGBV), and progress with efforts to combat impunity;
- national lawyers properly trained and able to support victims of international crimes before national courts;
- national human rights organisations better able to support victims in combating impunity for the most serious crimes;
- better protection for those involved in combating impunity;
- cases brought before regional human rights bodies, development of case law supporting access by SGBV victims to justice and reparation;
- a stronger prosecution strategy for the Office of the Prosecutor at the International Criminal Court (ICC), in particular on sexual crimes, and better victim access to the ICC;
- intergovernmental organisations informed, so that they may take action against impunity for the most serious crimes;

*Former Item 21 03 03 01 (in part)*

This appropriation is intended to cover cross-border cooperation programmes between, on the one hand, Member States and, on the other hand, partner countries and/or the Russian Federation along the external borders of the Union, in order to promote integrated and sustainable regional development and cooperation between neighbouring border areas and harmonious territorial integration across the Union and with neighbouring countries.

2015 cross-border cooperation commitments reflect the first year of implementation, and commitments will show an increasing trend over the 2015-2020 period (as was the case for 2007-2013).

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. #### *Remarks*

Appropriations under this item will be mainly used to finance the multi-country umbrella programmes that will supplement the country financial allocations. The purpose of the multi-country umbrella programmes – as stipulated in the ENI regulation – is to facilitate the implementation of the incentive-based approach.

Appropriations under this item will also be used to cover actions aiming to:

- provide general support to the functioning of the Union for the Mediterranean,
- provide general support to the functioning of the Eastern Partnership initiative,
- provide general support to the functioning of the other regional cooperation frameworks, such as Northern Dimension and Black Sea Synergy.

It will also be used for actions improving the level and capacity of implementation of Union assistance as well as for actions aiming to inform the general public and the potential beneficiaries of assistance and to increase visibility.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

#### *Remarks*

This appropriation is intended to cover the technical and financial assistance provided under this external instrument in order to promote the international dimension of higher education for the implementation of the ‘Erasmus+’ programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

#### *Remarks*

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

It is also intended to cover the completion of the financial protocols with Mediterranean countries, including, inter alia, support for the Euro-Mediterranean Investment Facility within the European Investment Bank and covers the execution of non-EIB financial aid provided for in the third and fourth generation of financial protocols with the southern Mediterranean countries. The protocols cover the period 1 November 1986 to 31 October 1991 for the third generation of financial protocols and the period 1 November 1991 to 31 October 1996 for the fourth generation of financial protocols.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any income from financial contributions from Member States and other donor countries, including in both cases their public and parastatal agencies, or from international organisations to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, pursuant to the relevant basic act, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the preparatory action.

As diversity and complexity of national legislations in requested states and limited legal expertise and institutional capacities in requesting states remain major obstacles in the field of asset recovery to Arab Spring countries in transition, it is of crucial importance to offer substantial legal and technical assistance to southern Mediterranean partner countries concerned.

This preparatory action, based on existing Union initiatives supporting Egyptian and Tunisian authorities engaged in the recovery of misappropriated assets stolen by former dictators and their regimes, aims to strengthen Union action in this field through capacity-building as well as promoting cooperation and expertise and information sharing between requesting and requested states, and the revision of national legislations as appropriate.

This preparatory action covers start-up costs for and finances annual running costs of this support mechanism.

#### *Remarks*

The general objective will be to contribute to the development and consolidation of democracy and respect for human rights, in accordance with Union policies and guidelines and in close cooperation with civil society.

Key areas of activity will include:

- enhancing respect for and observance of human rights and fundamental freedoms, including women's rights, as proclaimed in the Universal Declaration of Human Rights and other international and regional human rights instruments, with a focus on freedom of expression, freedom of assembly and digital freedoms, and strengthening their protection, promotion and monitoring, mainly through support to relevant civil society organisations, human rights defenders, and victims of repression and abuse,
- supporting and consolidating democratic reforms in third countries except European Union Electoral Observation Missions, by enhancing participatory and representative democracy, empowerment of women, strengthening the overall democratic cycle, and improving the reliability of electoral processes.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the transfer agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for EU Trust Funds.

#### Remarks

This appropriation covers the long-term component of the IfS ‘assistance in the context of stable conditions for cooperation’, defined in Article 5 of the proposal for a Regulation of the European Parliament and of the Council, submitted by the Commission on 7 December 2011, establishing an Instrument for Stability (COM (2011) 845 final) and covers global and trans-regional threats under the 2014-2020 period.

This appropriation is intended to cover actions aiming to help safeguard countries and populations against risks either of an intentional, accidental or natural origin. This may, inter alia, include:

- the promotion of civilian research activities as an alternative to defence-related research, and support for the retraining and alternative employment of scientists and engineers having formerly been employed in weapons-related areas,
- support for measures to enhance safety practice related to civilian facilities where sensitive chemical, biological, radiological or nuclear materials or agents are stored, or are handled in the context of civilian research programmes,
- support, within the framework of Union cooperation policies and their objectives, for the establishment of civil infrastructure and relevant civilian studies necessary for the dismantlement, remediation or conversion of weapons-related facilities and sites where these are declared as no longer belonging to a defence programme,
- strengthening the capacity of the competent civilian authorities involved in the development and enforcement of effective control of the trafficking in chemical, biological, radiological and nuclear materials or agents (including the equipment for their production, or delivery or effective border controls), including through the installation of modern logistical evaluation and control equipment. The actions relate to natural and industrial disasters as well as criminal activities,
- support to IAEA to upgrade their technical capacity to detect the illicit trafficking of radioactive materials,
- the development of the legal framework and institutional capacities for the establishment and enforcement of effective export

controls on dual-use goods, including measures of regional cooperation,

- the development of effective civilian disaster preparedness, emergency planning, crisis response, and capabilities for clean-up measures in relation to possible major environmental incidents in this field.

Other measures in the field of global and trans-regional threats will cover:

- strengthening the capacity of law enforcement and judicial and civil authorities involved in the fight against terrorism—countering violent extremism — and organised crime, including illicit trafficking of people, drugs, firearms and explosive materials, cybercrime, falsified medicine and in the effective control of illegal trade and transit. A new priority is to address global and trans-regional effects of climate change with a potentially destabilising impact,
- support for measures to address threats to international transport, and critical infrastructure, including passenger and freight traffic, energy operations and energy distribution, electronic information and communication networks,
- ensuring an adequate response to major threats to public health, such as pandemics with a potential transnational impact.

Such measures may be adopted under this instrument in the context of stable conditions, where they aim to address specific global and trans-regional threats having a destabilising effect, and only to the extent that an adequate and effective response cannot be provided under related Union instruments for external assistance.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter and may be complemented by contributions for Union Trust Funds.

*Remarks*

This appropriation is intended to cover the financing of the promotion of an effective nuclear safety and nuclear security culture at all levels, in particular through:

- continuous support for regulatory bodies, technical support organisations, and the reinforcement of the regulatory framework, notably concerning licensing activities in order to establish strong independent regulatory oversight,
- support for the safe transport, treatment and disposal of spent nuclear fuel and radioactive waste both from nuclear power plant and from other (orphan) sources, (medical applications, uranium mining),
- the development and implementation of strategies for decommissioning existing installations and the remediation of former nuclear sites,
- the promotion of effective regulatory frameworks, procedures and systems to ensure adequate protection against ionising radiations from radioactive materials, in particular from high activity radioactive sources, and their safe disposal,
- the financing of stress tests based on the *acquis*,
- the establishment of the necessary regulatory framework and methodologies for the implementation of nuclear safeguards, including for the proper accounting and control of fissile materials at State and operators level,
- the establishment of effective arrangements for the prevention of accidents with radiological consequences as well as the mitigation of such consequences should they occur, and for emergency planning, preparedness and response, civil protection and rehabilitation measures,
- measures to promote international cooperation (including in the framework of relevant international organisations, notably IAEA) in the abovementioned fields, including the implementation and monitoring of international conventions and treaties, exchange of information and training and research,
- the enhancement of emergency preparedness in case of nuclear accidents, as well as training and tutoring inter alia to increase the capacities of the regulators.

This appropriation is intended also to fund health and environmental projects as regards the consequences of the Chernobyl accident, which affect human health and the environment, especially in Ukraine and Belarus.

Priority will be given to address the needs in the countries being part of the European Neighbourhood Policy.

Relevant work previously carried out under the Instrument for Pre-accession Assistance (IPA) will be taken over by the INSC in order to ensure a comprehensive approach.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

*Remarks*

This appropriation is intended to cover the financing of *ex ante* and *ex post* evaluations, monitoring and support measures during the programming, preparation and implementation stages of development operations, strategies and policies, including the following:

- effectiveness, efficiency, relevance, impact and viability studies and the development of impact measurements and indicators for development cooperation,
- monitoring of operations in the course of implementation and after their completion,
- support measures to improve the quality of monitoring systems, methodologies and practices concerning ongoing operations and the preparation of future operations,
- feedback of information and information activities on findings, conclusions and recommendations of evaluations into the decision-making cycle,
- methodological developments to improve the quality and utility of evaluations, including research, feedback, information and training activities thereon.

This appropriation also covers the financing of audit activities concerning the management of programmes and projects implemented by the Commission in the external aid field, and the financing of training activities, based on the special rules governing Union external aid and organised for external auditors.

This appropriation is moreover intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, as well as capacity-building and training activities for the principal players involved in the design and implementation of external aid programmes.

Finally, this appropriation is intended to cover expenditure on studies and elaboration of methodological tools, meetings of experts, information and publications, as well as knowledge-sharing and training activities concerning the design and implementation of external assistance programmes, in particular on the project and programme cycle management and on capacity development.

### *Remarks*

Budget financing provides the Commission with the means of support it needs to prepare, formulate and follow up coordination measures under its development policy. Policy coordination is crucial to the consistency, complementarity and aid and development effectiveness.

Coordination measures are essential in defining and shaping the Union development policy at a strategic and programming level. The specific nature of the Union development policy is directly enshrined in the Treaties (Articles 208 and 210 of the Treaty on the Functioning of the European Union). Union aid and the national policies of the Member States in the sphere of development cooperation need to complement and reinforce each other and this cannot work without coordination. Article 210 of the Treaty on the Functioning of the European Union calls on the Commission to act as coordinator of the Member States' and the Union's development policies and of action in development cooperation.

Coordination is not only a major factor in the Commission's value added vis-à-vis the policies of the Member States but also a priority in the work schedule at the point where the agendas of the Union and the international community intersect. It therefore reflects a steadily growing demand from the other European institutions, as recognised by the Member States and by the European Parliament at the European Council in Barcelona in March 2002.

This appropriation covers various forms of action:

#### *Action A: Coordination at European and international levels:*

- effectiveness, efficiency, relevance, impact and viability studies in the area of coordination, meetings of experts and exchanges between the Commission, Member States, and other international actors (US, emerging donors, etc.) and international forums such as South-South cooperation,
- research, communication, consultation, and evaluation services, including for technical assistance,
- monitoring of policies and operations in the course of implementation,
- support measures to improve the quality of the monitoring of ongoing operations and the preparation of future operations, including capacity-building,
- measures to support external initiatives in the sphere of coordination,
- the preparation of common positions, statements and initiatives,
- the organisation of events relating to coordination,
- the Commission's membership fees to the international organisations and networks,
- the dissemination of information through the production of publications and the development of information systems.

This appropriation will also cover the financing of activities in the area of research for policymaking in development, building on the experience of the initiative 'Mobilising European Research on Development Policies' and of the European Report on Development. These activities include support to cutting edge research and structured debate to enhance synergies between researchers and policymakers, the objective being to refine the European perspective on key development challenges and enhance EU influence on the international development agenda on the basis of independent knowledge and excellence.

#### *Action B: Raising awareness*

This appropriation covers the financing of activities designed to draw attention to action by the Union and the Member States in the development field and to raise public awareness of development issues. It will also provide the necessary financing for preparing, launching and promoting the ‘European Year for Development 2015’ which has been proposed by the Commission following an initiative by the European Parliament. In this respect the Commission may co-finance, as in previous European Years, awareness-raising activities with Member States, in particular aiming at those countries where development cooperation (as a donor) does not have a long established tradition, and with civil society organisations. This European Year should lead to additional activities to be financed within Europe and in third countries in the context of the international process deciding on and launching the global post-2015 development framework which will replace the Millennium Development Goals. Every activity financed pursuant to this action must include the following two components, which are complementary in the Commission’s view:

- an ‘information’ component, designed to promote the various activities which the Union undertakes in the development aid field and the activities which it conducts in partnership with the Member States and other international institutions,
- an ‘awareness-raising’ component, covering public opinion in the Union, and in developing countries.

These activities consist mainly, though not exclusively, of financial support for schemes in the audiovisual, publications, seminars and events fields as applied to development, the production of information material, the development of information systems, and also the Lorenzo Natali prize for journalism in the development field.

These activities are directed at public and private sector partners, and at the Union’s representations and delegations in the Member States.

This appropriation is moreover intended to cover the funding of priority information and communication activities directed towards the citizens of the Union and dealing with the Union’s external policies as a whole.

The areas which will be covered by information activities include those below, but may embrace other aspects of the Union’s external relations, particularly in relation to the future of the Union’s external policy:

- addressing the weak public perception of external assistance. The objective is to make clear that external assistance is an integral part of what the Union does and is one of the crucial policies that define the Union and its role in the world, and to raise awareness of the fact that the Union is delivering tangible results on behalf of Union citizens to fight poverty and to provide high-quality sustainable development worldwide,
- the ‘European Neighbourhood Policy’ (ENP). The ENP was launched on the basis of a communication from the Commission to the Council and the European Parliament of 11 March 2003 entitled ‘Wider Europe — Neighbourhood: A new framework for relations with our eastern and southern neighbours’ (COM(2003) 104 final). The actions which are part of this activity will continue to provide information on the activities of the Union in the framework of its European Neighbourhood Policy,
- information activities, to be carried out in cooperation with the Council, on the aims and development of the common foreign and security policy,
- the organisation of visits for groups of representatives of civil society.

The Commission has adopted two communications to the European Parliament, the Council, the Economic and Social Committee and the Committee of the Regions on a new framework for cooperation in activities concerning the information and communication policy of the European Union (COM(2001) 354 final and COM(2002) 350 final). They propose an interinstitutional framework for cooperation between the institutions and with the Member States for the development of a communication and information policy strategy for the Union.

The Interinstitutional Group on Information (IGI), co-chaired by the European Parliament, the Council and the Commission, lays down common guidelines for interinstitutional cooperation in matters of Union information and communication policy. It coordinates the central and decentralised public information activities on European topics. Each year the IGI gives its opinion on the priorities for the following years on the basis of information provided by the Commission.

Finally, this appropriation is intended to cover:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on printing, translation, studies, meetings of experts, information and the purchase of information material directly linked to the achievement of the objective of the programme.

It also covers the costs of publication, production, storage, distribution and dissemination of information material, in particular via the Publications Office of the European Union, and other administrative costs related to coordination.

#### *Remarks*

This appropriation is intended to cover administrative costs directly linked to the implementation of the Instrument for Pre-Accession Assistance (IPA), the phasing out of pre-accession assistance, TAIEX and the support to the economic development of the Turkish Cypriot community, in particular:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts for the mutual benefit of the Commission and beneficiaries,
- expenditure on external personnel at headquarters (contract agents, seconded national experts or agency staff), limited to EUR 7 019 624. This estimate is based on a provisional annual unit cost per man-year, of which an estimated of 90 % is accounted for by remuneration for the personnel concerned and 10 % by the additional cost of training, meetings, missions (including long-term missions), information technology (IT) and telecommunications relating to that personnel,
- expenditure on external personnel in Union delegations (contract staff, local staff or seconded national experts) for the purposes of devolved programme management in Union delegations in third countries or for internalisation of tasks of phased-out technical assistance offices, as well as in Commission Post-Accession Transitions Teams remaining in new Member States during the phasing-out period (contract staff, agency staff) working on tasks directly related to completion of accession programmes. In both cases, it also covers additional logistical and infrastructure costs, such as the cost of training, meetings, missions and renting of accommodation directly resulting from the presence in Union delegation of external personnel remunerated from the appropriations entered against this item,
- expenditure on studies, meetings of experts, information systems, awareness-raising, training, preparation and exchange of lessons learnt and best practices, as well as publications activities and any other administrative or technical assistance directly linked to the achievement of the objective of the programme.
- research activities on relevant issues and the dissemination thereof;
- expenditure related to the provision of information and communication actions, including the development of communication strategies and corporate communication of the political priorities of the Union.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers expenditure on administrative management under Chapters 22 02 and 22 03.

## Remarks

This appropriation is intended to cover the operating costs of the Education, Audiovisual and Culture Executive Agency relating to the management of programmes in the 'Enlargement' policy area. The mandate of the agency includes managing the legacy for the 2007-2013 programming period for the Youth, Tempus and Erasmus Mundus programmes in which IPA beneficiaries are involved. It will also cover, under the 'Erasmus+' programme, the operating costs of certain actions of that programme in order to promote the international dimension of higher education and other actions.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

*Remarks*

Under the Instrument for Pre-accession Assistance (IPA II), this appropriation will address the specific objective of regional integration and territorial cooperation involving the beneficiaries listed in Annex I to the Regulation, Member States and, where appropriate, third countries within the scope of Regulation (EU) No 232/2014 of the European Parliament and of the Council establishing a European Neighbourhood Instrument.

This appropriation is intended to cover the financing of pre-accession regional and multi-beneficiary programmes for the beneficiaries.

This appropriation is also intended to cover technical assistance for the beneficiaries in the field of approximation of legislation for the entire *acquis* of the Union, helping all bodies involved in the implementation and enforcement of the *acquis*, including non-governmental organisations, to achieve their objectives and to monitor their rate of achievement.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

In accordance with Article 3 of Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action, this budget line also covers expenditure directly necessary for the implementation of IPA II related to the preparation, follow-up, monitoring, audit and evaluation activities as well as to the provision of information and communication actions, including the development of communication strategies and corporate communication of the political priorities of the Union.

*Remarks*

This appropriation is intended to cover the technical and financial assistance provided under this external instrument in order to promote the international dimension of higher education for the implementation of the ‘Erasmus+’ programme.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Remarks

This appropriation is intended to cover the continuation of aid under Regulation (EC) No 389/2006 to facilitate the reunification of Cyprus by encouraging the economic development of the Turkish Cypriot community with particular emphasis on economic integration covering the areas specified in that Regulation, notably actions for rural development, restructuring of infrastructure, reconciliation and confidence building measures and scholarships in Member States for Turkish Cypriot students. The TAIEX instrument will be used for the preparation of legal texts to prepare for the application of the Union *acquis* immediately following any political settlement for reunification.

The appropriations will also allow for the continuation of Union financial support to facilitate the intensification of the work of the Committee on Missing Persons in order to meet the goals of its strategic plan on the faster identification of missing persons, as well as the implementation of the decisions of the bicomunal Technical Committee on Cultural Heritage, which should include minorities' projects.

This appropriation is to be used, amongst others, to sustain the outcome of works, supplies and grants being funded under earlier allocations. In addition, grant schemes addressed to a large variety of beneficiaries within the civil society of the community (non-governmental organisations, students and teachers, schools, farmers, small villages, the private sector) may continue. These activities aim at socio-economic development and are reunification driven. Priority should be given, where possible, to reconciliation projects

which create bridges between the two communities and build confidence. These measures underline the strong desire and commitment of the Union to a Cyprus settlement and reunification.

*Legal basis*

Council Regulation (EC) No 389/2006 of 27 February 2006 establishing an instrument of financial support for encouraging the economic development of the Turkish Cypriot community (OJ L 65, 7.3.2006, p. 5).

Remarks

This appropriation is intended to cover support expenditure directly linked to the achievement of the objectives of the humanitarian aid policy. This covers, inter alia:

- expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts,
- fees and reimbursable expenses incurred through service contracts to undertake audits and evaluations of partners and actions of DG ECHO,
- expenditure on studies, information systems and publications, on public awareness and information campaigns, and on any other

measure highlighting the Union character of the aid,

- expenditure on external personnel at headquarters (contract agents, seconded national experts or agency staff) limited to EUR 1 800 000. This personnel is intended to take over the tasks that were entrusted to external contractors handling the administration of individual experts and to manage programmes in third countries. That amount, based on an estimated annual cost per person/year, is intended to cover the remuneration of the external personnel in question and training, meetings, missions, information technology (IT) expenditure and telecommunications expenditure related to their tasks,
- expenditure related to the purchase and maintenance of security, specialised IT and communication tools and technical services necessary for the establishment and functioning of the Emergency Response Centre. This centre ('crisis room') will be operational on a 24-hour basis and responsible for the coordination of the EU's civilian disaster response, in particular to ensure full consistency and efficient cooperation between humanitarian aid and civil protection,
- expenditure on the development, maintenance, operation and support of information systems, intended for internal use or to improve coordination between the Commission and other institutions, national administrations, agencies, non-governmental organisations, other partners in humanitarian aid, and Directorate-General for Humanitarian Aid experts in the field.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons, to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

This appropriation covers administrative expenditure under Articles 23 02 01 and 23 02 02.

##### Remarks

This appropriation is intended to cover:

- expenditure on technical and/or administrative assistance relating to the identification, preparation, management, monitoring, audit, supervision and evaluation of the Civil Protection Financial Instrument and the Union Civil Protection Mechanism,
- expenditure related to the purchase and maintenance of security, specialised IT and communication tools and technical and human services necessary for the establishment and functioning of the Emergency Response Centre. This centre ('crisis room') will be operational on a 24 hour-basis and responsible for the coordination of the Union's civilian disaster response, in particular to ensure full consistency and efficient cooperation between humanitarian aid and civil protection,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives of the programme, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

#### Remarks

This appropriation is intended to cover the financing of humanitarian and food aid operations of a humanitarian nature to help people

in countries outside the Union who are the victims of conflicts or disasters, both natural and man-made (wars, outbreaks of fighting, etc.), or comparable emergencies, for as long as is necessary to meet the humanitarian needs that such situations give rise to. It will be carried out in accordance with the rules on humanitarian aid under Council Regulation (EC) No 1257/96.

The aid is granted to victims without discrimination on the grounds of race, ethnic origin, religion, disability, sex, age, nationality or political affiliation. That assistance is provided as long as it is necessary to meet the humanitarian needs to which such situations give rise.

This appropriation is also intended to cover the purchase and delivery of any product or equipment needed for the implementation of humanitarian aid operations, including the building of homes or shelters for affected groups of people, short-term rehabilitation and reconstruction work, particularly of infrastructure and facilities, the costs associated with external, expatriate or local staff, storage, international or national shipment, logistic support and distribution of relief and any other action aimed at facilitating freedom of access to the recipients of the aid.

This appropriation may be used to finance the purchase and delivery of food, seeds, livestock or any product or equipment needed for the implementation of the humanitarian food aid operations.

This appropriation may also cover any other costs directly linked to the implementation of humanitarian aid operations and the cost of the measures that are essential for implementing food aid operations of a humanitarian nature within the requisite timescale and in a way which meets the needs of the recipients, satisfies the requirement to achieve the greatest possible degree of cost-effectiveness and provides greater transparency.

It covers, inter alia:

- feasibility studies on humanitarian operations, evaluations of humanitarian aid projects and plans, visibility operations and information campaigns linked to humanitarian operations,
- the monitoring of humanitarian aid projects and plans, the promotion and development of initiatives intended to increase coordination and cooperation so as to make aid more effective and improve the monitoring of projects and plans,
- the supervision and coordination of the implementation of aid operations forming part of the humanitarian and food aid concerned, in particular the terms for the supply, delivery, distribution and use of the products involved, including the use of counterpart funds,
- measures to strengthen Union coordination with the Member States, other donor countries, international organisations and institutions (in particular those forming part of the United Nations), non-governmental organisations and organisations representing the latter,
- the financing of technical assistance contracts to facilitate the exchange of technical know-how and expertise between Union humanitarian organisations and agencies or between such bodies and those of third countries,
- studies and training linked to the achievement of the objectives of the humanitarian and food aid policy area,
- action grants and running cost grants in favour of humanitarian networks,
- humanitarian mine-clearance operations including public awareness campaigns for local communities on anti-personnel mines,
- expenditure incurred by the network on humanitarian assistance (NOHA), pursuant to Article 4 of Regulation (EC) No 1257/96. This is a one-year multidisciplinary postgraduate diploma in the humanitarian field designed to promote greater professionalism amongst humanitarian workers and involving several participating universities,
- the transport and distribution of aid, including any related operations such as insurance, loading, unloading, coordination, etc.,
- back-up measures that are essential for the programming, coordination and optimum implementation of the aid, the cost of which is not covered by other appropriations, e.g. exceptional transport and storage operations, processing or preparation of foodstuffs on the spot, disinfection, consultants' services, technical assistance and equipment directly involved in providing the aid (tools, utensils, fuel, etc.),
- pilot schemes concerning new forms of transport, packaging or storage, studies of food aid operations, visibility operations linked to the humanitarian operations, and information campaigns to increase public awareness,
- the storage of food (including administrative costs, futures operations, with or without options, training of technicians, purchase of packaging and mobile storage units, cost of maintaining and repairing stores, etc.),
- the technical assistance necessary for the preparation and implementation of humanitarian aid projects, in particular expenditure incurred covering the cost of contracts of individual experts in the field and the infrastructure and logistics costs, covered by imprest accounts and expenditure authorisations, of DG ECHO deployed throughout the world.

In order to ensure full financial transparency under Articles 58 to 62 of the Financial Regulation, the Commission, when concluding or modifying agreements on the management and implementation of projects by international organisations, will make every effort to

##### Remarks

This appropriation is intended to cover expenditure on actions in the field of civil protection. It is aimed at supporting, coordinating and supplementing the actions of the Member States, EFTA and candidate countries having signed an appropriate agreement with the Union in the field of preparedness and prevention with regard to natural and man-made disasters, including acts of terrorism and technological, radiological or environmental accidents, marine pollution and acute health emergencies, occurring inside the Union. It also aims to facilitate closer cooperation between the Member States in the field of civil protection.

It covers, in particular:

- actions in the field of prevention aiming at supporting and promoting Member States' risk assessment and mapping activity, such as the sharing of good practice, the compilation and dissemination of information from Member States on risk management activity including peer reviews,
- the creation and management of a 24/7 Emergency Response Coordination Centre (ERCC). This covers, amongst others, the purchase and maintenance of security, specialised IT and communication tools and technical services necessary for the establishment and functioning of the ERCC. This centre is operational on a 24-hour basis 7 days a week and responsible for the coordination of the EU's civilian disaster response, in particular to ensure full consistency and efficient cooperation between humanitarian assistance and civil protection. The ERCC needs advanced technology to maximise the gathering of information and facilitate the dissemination of information to various stakeholders, partners and teams in the field during major emergencies. In a crisis situation, more information rapidly available to decision makers translates into saved lives,
- the creation of a 'European Emergency Response Capacity', a 'stand-by' capability for resources and equipment to be made

available to a Member State in the event of an emergency,

- the development and management of a certification and registration process for the ‘European Emergency Response Capacity’. This includes also the development of capacity goals and quality requirements,
  - the identification of significant response capacity gaps in the ‘European Emergency Response Capacity’ and support to the development of required capacities,
  - the identification of intervention experts, modules and other support available in Member States for assistance interventions in case of emergencies,
  - the development and maintenance of a network of trained experts of Member States to assist at headquarters level in the monitoring, information and coordination tasks of the ERCC,
  - a programme of lessons learnt from civil protection interventions and exercises in the framework of the Union Civil Protection Mechanism,
  - a training programme for intervention teams, external staff and experts, to provide the knowledge and tools needed to participate effectively in Union interventions and to develop a common European intervention culture,
  - the management of a training network open to training centres for civil protection and emergency management personnel and other relevant actors to provide guidance on Union and international civil protection training,
  - the management of an exercises programme including command post exercises, full-scale exercises and exercises for civil protection modules to test interoperability, train civil protection officials and create a common intervention culture,
  - exchanges of experts to enhance understanding of Union civil protection and to share information and experience,
  - information and communication (ICT) systems, in particular CECIS (Common Emergency Communication and Information System), facilitating the exchange of information with Member States during emergencies, to improve efficiency and to enable the exchange of ‘EU classified’ information. This covers the costs of development, maintenance, operation and support (hardware, software and services) of the systems. It also covers the cost of project management, quality control, security, documentation and training linked to the implementation of such systems,
  - the study and development of civil protection modules within the meaning of Article 4 of COM(2011) 934 final including support to improve their interoperability,
  - the study and development of disaster detection and early warning systems,
  - the study and development of scenario-building, asset mapping and plans for the deployment of response capacities,
  - workshops, seminars, projects, studies, surveys, modelling, scenario-building and contingency planning, capacity-building assistance, demonstration projects, technology transfer, awareness-raising, information, communication and monitoring, assessment and evaluation,
- other supporting and complementary actions necessary in the framework of the Union Civil Protection Mechanism to achieve a high level of protection against disasters and enhance the Union's state of preparedness to respond to disasters,
- expenditure on audits and evaluation as enshrined in the Civil Protection Financial Instrument and the Union Civil Protection Mechanism.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contribution from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

### Remarks

This appropriation is intended to cover expenditure on actions in the field of civil protection. It is aimed at supporting, coordinating and supplementing the actions of the Member States, EFTA States, acceding countries, (potential) candidate countries having signed an appropriate agreement with the Union in the field of preparedness and prevention with regard to natural and man-made disasters, including acts of terrorism and technological, radiological or environmental accidents, marine pollution and acute health emergencies, occurring in third countries. It covers in particular the mobilisation of experts to assess prevention and preparedness needs in third countries in the event of disasters, and the basic logistical support for such experts.

It also aims at providing financial support for certain actions covered under Articles 20 and 21 of Decision No 1313/2013/EU to candidate countries not participating in the Union Mechanism and countries under the European Neighbourhood Policy to the extent that they complement funding available from the Instrument for Pre-Accession Assistance and the European Neighbourhood Instrument.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. ### Remarks

This appropriation is intended to cover expenditure related to civil protection intervention inside the EU under the Union Civil Protection Mechanism:

- the provision of support to Member States in obtaining access to equipment and transport resources,
- the provision of additional transport resources and associated logistics, necessary for ensuring a rapid response to major emergencies and complementing the transport provided by the Member States,
- the mobilisation of experts to assess assistance needs and facilitate Union assistance in Member States in the event of disasters, and the basic logistical support for such experts,

- the deployment of trained experts of Member States to the Emergency Response Coordination Centre (ERCC) in order to assist in the monitoring, information and coordination tasks of the ERCC,
- any supporting and complementary action in order to facilitate the coordination of response in the most effective way.

### Remarks

Natural disasters, including those resulting from climate change, are trans-boundary in nature. It is hence imperative that preparedness activities take place in a more coordinated way, cutting across national borders, transferring knowledge and raising the awareness of state, regional and local authorities and citizens alike. In Europe, there are several research centres and centres of excellence that have already developed a capacity to analyse and evaluate disaster risks and to warn their state authorities in order to prevent damage and casualties, prepare the relevant communities in advance of a disaster and take stock of the early-warning information in order for it to be used when making targeted investments co-financed by the European Structural and Investment Funds (ESIF) so that the relevant thematic objectives are achieved. In addition, the European Response Coordination Centre (ERCC), which is operated within DG ECHO and has been set up to support a coordinated and faster response to disasters both inside and outside Europe using resources from 32 countries participating in the EU Civil Protection Mechanism. is currently relying on several key European detection and alert systems, which provide information that allows the ERCC to successfully react to disasters as well as on the scientific expertise of the Joint Research Centre (JRC) to analyse the impact of natural events (including their impact on infrastructure that may cause technological disasters).

However, in the face of growing challenges, the above resources and expertise are no longer sufficient to coordinate the EU response at ERCC level and to manage the future European emergency capacity, which requires a stronger focus on forecasting, planning and coordination, instead of only responding to emergencies. Experience has also shown that preventing and preparing for disasters is more cost-effective than responding to them.

Furthermore, there is no coordinated mechanism in place for reporting either to the ERCC or to all Member States that might be affected by a potential disaster extending beyond national boundaries (e.g. storms). At present, each Member State largely relies upon its own capacity.

To address the above challenges and to achieve the goal of fully exploiting science and technology within the disaster risk management field in a cost-efficient manner, a European pilot project is necessary. The pilot project will build on the experience of

the North -Eastern Atlantic, Mediterranean and Connected Seas Tsunami Warning and Mitigation System (NEAMTWS) network, which has brought together five partners to monitor on a round-the-clock basis tsunami incidents in the North-East Atlantic, Mediterranean and connected seas and to warn EU and Member States' authorities. The pilot project will:

- identify relevant scientific centres across Europe that could provide expertise for disaster risk management policy-making and emergency operations;
- bring together those scientific centres and create enlarged scientific partnerships (EU Centres of Excellence Network) for different hazards, associating them with scientific centres in the immediate EU neighbourhood, if necessary, in compliance with the European Union Civil Protection Mechanism (UCPM) legislation;
- bridge the existing reporting and linkage gap between the EU Centres of Excellence Network and the ERCC; this could be done by defining and implementing a governance structure linking the EU Centres of Excellence Network, the JRC and the ERCC.

In this manner, relevant disaster information will be transmitted to all actors concerned in a coordinated and timely way, increasing both preparedness and response levels of the Member States and the EU through the ERCC. Setting up and expanding such a network will require the large-scale involvement of European scientific centres that are already using state-of-the-art monitoring technology or can be funded to upgrade accordingly, where this is necessary for satisfactory regional coverage. They could set up, implement and test a common, efficient and coordinated reporting methodology while extending it to cover a large geographical area in Europe (at least 10 countries). A large network is a prerequisite for the success of such an endeavour, as the geographical spread of disaster risks needs to be taken into account.

#### *Remarks*

This appropriation is intended to cover the implementation of the EU Aid Volunteers initiative ('European Voluntary Humanitarian Aid Corps').

The objective of the EU Aid Volunteers initiative shall be to contribute to strengthening the Union's capacity to provide needs-based humanitarian aid aimed at preserving life, preventing and alleviating human suffering and maintaining human dignity and to strengthening the capacity and resilience of vulnerable or disaster-affected communities in third countries, particularly by means of disaster preparedness, disaster risk reduction and by enhancing the link between relief, rehabilitation and development. That objective shall be attained through the added value of joint contributions of EU Aid Volunteers, expressing the Union's values and solidarity with people in need and visibly promoting a sense of European citizenship.

The appropriations are intended to cover the following measures and items of expenditure:

- development and maintenance of standards and procedures regarding candidate and EU Aid Volunteers,
- development and maintenance of a certification mechanism for sending and hosting organisations,
- identification and selection of candidate volunteers,
- establishment of a training programme and support for training of candidate volunteers and apprenticeship placements,
- establishment, maintenance and updating of a database of EU Aid Volunteers,
- deployment of EU Aid Volunteers to support and complement humanitarian aid in third countries,
- capacity building of hosting organisations,
- establishment and management of a network for the EU Volunteers initiative,
- communication and awareness raising,
- ancillary activity that furthers the accountability, transparency and effectiveness of the EU Aid Volunteers initiative.

Any income from financial contributions from Member States and third countries, including in both cases their public agencies, entities or natural persons to certain external aid projects or programmes financed by the Union and managed by the Commission on their behalf, may give rise to the provision of additional appropriations. Such contributions under Article 6 3 3 of the statement of revenue constitute assigned revenue under Article 21(2)(b) of the Financial Regulation. The amounts entered on the line for administrative support expenditure will be determined, without prejudice to Article 187(7) of the Financial Regulation, by the contribution agreement for each operational programme with an average not exceeding 4 % of the contributions for the corresponding programme for each chapter.

#### Remarks

This appropriation is intended to cover expenditure relating to the European Anti-fraud Office (OLAF), including for OLAF staff posted in Union delegations, the objective of which is to combat fraud within an interinstitutional framework.

The amount of assigned revenue pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 20 000.

In accordance with Article 18 of Regulation (EU) No 883/2013 of the European Parliament and of the Council of 11 September 2013, the appropriations for, and staff of, the Supervisory Committee and its secretariat are entered in the budget and establishment plan of the European Anti-fraud Office. Nevertheless, for the sake of transparency, the resources made available to the Supervisory Committee in OLAF's budget can be identified. Based on a secretariat of seven permanent posts and an allocation for one member of contract staff, the appropriations for the operation of the Supervisory Committee in 2015 would come to around EUR 1 200 000. This amount covers expenditure on the Supervisory Committee's staff costs, training, missions, internal meetings, buildings and allowances.

Remarks

This appropriation is intended to cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, as well as any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts, as the contracts of technical assistance offices expire during subsequent years.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Legal basis

See Chapter 26 03.

#### *Remarks*

This appropriation is intended to cover the following expenditure incurred within Union territory:

- the purchase, hire or leasing, maintenance, repair, installation and renewal of technical equipment and installations, and in particular:
  - equipment (including photocopiers) for producing, reproducing and archiving documents in any form (paper, electronic media, etc.),
  - audiovisual, library and interpreting equipment (booths, headsets and switching units for simultaneous interpretation facilities, etc.),
  - kitchen fittings and restaurant equipment,
  - various tools for building-maintenance shops,
  - facilities required for officials with disabilities,
- studies, documentation and training relating to such equipment (before contracts for an amount in excess of EUR 300 000 are renewed or concluded, and with a view to rationalising expenditure, the Commission must consult the other institutions with regard to the conditions (price, currency chosen, indexing, duration, other clauses) obtained by each of them for a similar

contract),

- the purchase, hire, maintenance and repair of vehicles, and in particular:
  - new purchases of vehicles, including at least one vehicle adapted for transporting persons with reduced mobility,
  - the replacement of vehicles which, during the year, reach a total mileage such as to justify replacement,
  - the cost of hiring cars for short or long periods when demand exceeds the capacity of the vehicle fleet, or when the vehicle fleet does not cater for needs of passengers with reduced mobility,
  - the cost of maintaining, repairing and insuring official vehicles (fuel, lubricants, tyres, inner tubes, miscellaneous supplies, spare parts, tools, etc.),
  - various types of insurance (in particular third-party liability and insurance against theft) and the insurance costs referred to in Article 84 of the Financial Regulation,
- the purchase, hire, maintenance and repair of furniture, and in particular:
  - the purchase of office furniture and specialised furniture, including ergonomic furniture, shelving for archives, etc.,
  - the replacement of worn-out and broken furniture,
  - supplies of special equipment for libraries (card indexes, shelving, catalogue units, etc.),
  - the hire of furniture,

- expenditure on working equipment, and in particular:
  - purchase of uniforms for floor messengers and drivers,
  - purchase and cleaning of working clothes for workshop staff and staff required to do work for which protection is necessary against bad or cold weather, abnormal wear and dirt,
  - purchase or reimbursement of the cost of any equipment which might be necessary pursuant to Directives 89/391/EEC and 90/270/EEC,
- purchase of tickets (one-way ticket and business pass), free access to public transport routes to facilitate mobility between Commission buildings or between Commission buildings and public buildings (e.g. airport), service bicycles and any other means encouraging the use of public transporting and Commission staff mobility, with the exception of service vehicles,
- expenditure on inputs for protocol restaurant services.

Appropriations to cover the equivalent expenditure in respect of research are entered under various items in Article 01 05 of the titles concerned.

This appropriation covers expenditure incurred within the territory of the Union, excluding the Commission's Representations in the Union, for which expenditure is entered in Item 16 01 03 03.

The amount of assigned revenue pursuant to Article 21(3) of the Financial Regulation is estimated at EUR 2 004 000.

The creation of a specific appropriation for reimbursing public transport season tickets is a modest but crucial measure to confirm the commitment of the institutions of the Union to reducing their CO<sub>2</sub> emissions in line with their Eco-Management and Audit Scheme (EMAS) policy and the agreed climate change objectives.

#### Remarks

Decision No 922/2009/EC established a programme on ‘Interoperability solutions for European public administrations’ (ISA) as a successor to the IDABC programme, which came to an end in December 2009.

The ISA programme aims at facilitating the efficient and effective electronic cross-border and cross-sector interaction between European public administrations in support of the delivery of electronic public services.

In order to do so, the ISA programme must contribute to establishing the related organisational, financial and operational framework by ensuring the availability of common frameworks, common services and generic tools and by increasing the awareness of information and communication technology aspects of Union legislation.

The ISA programme thus contributes to the reinforcement and implementation of Union policies and legislation.

The programme is implemented in close cooperation and coordination with Member States and sectors, via studies, projects and accompanying measures.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

#### *Remarks*

Recent discoveries of vulnerabilities in critical information infrastructure have drawn the broader public's attention to the need to understand how governance and quality of the underlying software code relates to basic safety and public trust in applications that are used on a day-to-day basis. As both the general public and the EU institutions regularly use free and open-source software - from end-user device applications to server systems - the need for coordinated efforts to ensure and maintain the integrity and security of that software has been highlighted by the European Parliament itself. This pilot project will offer a systematic approach to achieving a goal to which the EU institutions themselves can contribute, namely ensuring that widely used critical software can be trusted.

The pilot project has three parts:

Part one comprises a comparative study and a feasibility study. The comparative study will analyse and compare the Debian Free Software Guidelines and social contract[0] compliance decisions in Debian[1] with current code sharing practices and compliance determinants within the activities of the Commission's vulnerability test centre and CITnet's Application Lifecycle management system relating to projects which are currently funded by ISA and published on JoinUp[2]. This study will also make a general assessment of the Commission's current code governance models and identify processes similar to processes within Debian. The aim is to develop best practices with regard to code review and code quality assessment for the purpose of mitigating security threats, in particular in activities relating to free software and open standards funded by the European Union. The feasibility study will identify agents and stakeholders, estimate time frames and funding models, determine deliverables and long-term impacts in, of and for projects where such best practices could be applied.

The second part of the pilot project will cover the development of a unified inventory methodology for the Commission and Parliament in particular and the compilation of a full inventory of free software and open standards in use within all the EU institutions. The inventory will provide a basis for determining where the results of the first part of the pilot project could be

successfully applied.

The third part will involve an exemplary code review of software and software libraries that are in active use both by the general European public and by EU institutions. This part of the pilot project will identify and focus in particular on software or software components whose exploitation could lead to a severe disruption of public or EU services and unauthorised access to personal data, forming the basis for a public tender on this matter.

#### *Remarks*

This pilot project will support the development of a single online platform for the proactive publication of all EU institutions' unclassified documents. The main steps and deliverables for the building of this web platform will be:

- identification, listing and type registration of all unclassified documents relevant to the EU institutions, based on a "publicly-available by default" approach;
- assessment of technical challenges to be addressed in order to ensure safe storage and transmission of all documents;
- compatibility of existing EU registers of documents in order to facilitate a single online access point via the new online platform;
- design of a web platform architecture allowing optimum and user-friendly navigation;
- development of a built-in search engine for document searching, identification and downloading.

Technical development of the online platform will be based on the principles of open standard software, taking into account ongoing interinstitutional harmonisation and rationalisation efforts in terms of metadata and formats, information systems and document management.

The pilot project will focus primarily on documents relating to one of the EU institutions, thus providing a best-practice tool which could then be extended to all EU institutions and related bodies (including regulatory and executive agencies). The Publications Office could coordinate the project, given the number of online services it already offers the public.

This online platform will help to ensure genuine transparency, as repeatedly called for by the European Parliament, and prevent needless litigation that could generate unnecessary costs and burdens for both the institutions and the general public.

Item 26 03 77 04 — Pilot project — EU institutions' encrypted electronic communications

*Figures*

Budget 2015		Appropriations 2014	Outturn 2013
Commitments	Payments		
500 000	250 000		

*Remarks*

The project will support the implementation of secure electronic communications within the European institutions. One way of making electronic communications significantly more secure is to apply state-of-the-art encryption technology to the institutions' email services. By properly protecting its own communications, the EU can set an example for citizens, the private sector and national public sectors. The project will involve the development of EU encryption standards which are guaranteed not to be compromised or weakened by third-country governments.

The project will support the IT services of the Council, Council Presidency, Commission and Parliament in implementing the systems needed for secure communications by Commissioners, MEPs and staff members of all institutions involved in EU decision-making. The project will determine and implement the best method for safeguarding electronic communications. In the longer term, it could encompass both written communications (emails and text messages) and voice communications (fixed and mobile telephony).

A steering group composed of Commission, Council and Parliament representatives will designate and oversee a central service within one of the institutions that will be responsible for day-to-day management of the communications system.

This pilot project is in line with Parliament's call for its Secretariat to carry out by December 2014 at the latest, under the responsibility of the President of Parliament, a thorough review and assessment of Parliament's IT security dependability. This review and assessment covers budgetary resources, staff resources, technical capabilities, internal organisation and all other issues connected with achieving a high level of security for Parliament's IT systems.

Item 26 03 77 05 — Pilot project — Promoting linked open data, free software and civil society participation in law-making throughout the EU (AT4AM/LEOS LOD and FS integration)

*Figures*

Budget 2015		Appropriations 2014	Outturn 2013
Commitments	Payments

*Remarks*

Engaged and empowered citizens all over Europe are developing and applying democratic values and working methods at all levels of society using old and new information and communications technologies. It is therefore essential for democracy that EU institutions commit to providing open knowledge and free software solutions implementing the most significant standards and tools emerging, as regards legislation, to enhance understanding of their impact in the different phases of the legislative process. Citizens' ability to use, and participate in the preparation of standard-compliant and process-compatible documents throughout the law-making process in the EU is of key importance for the legitimacy of the EU project as a whole. Needless to say, such use and participation will benefit from integration with other projects involving multilingual technologies and localisation processes, as well as the removal of silos and unnecessary proprietary dependencies.

One tool in this area is LEOS, a web-based application for drafting legislation envisioned by the Commission. It is financed via the ISA programme, which means that it could eventually be integrated with more cost-efficient and maintenance-proofed distributions such as Debian, ensuring that the code is continuously tested to work together with other tools for drafting high-quality legislation.

A more visionary example is the open development of AT4AM – Parliament's automatic tool for amendments[1]. However, its use outside Parliament is limited due to the lack of linked open data integration[2], minimal funding to help NGOs to install and run the AT4AM software on their own servers[3], and insufficient collaboration with free software projects that bridge XML and RDF formats (in particular the Akoma Ntoso schema)[4].

The pilot aims will cover:

- promotion of deployment, development, maintenance and use of EU law-making tools in and by civil society;
- integration of LEOS with linked open data projects;
- collaboration with Parliament to ensure LOD interoperability with AT4AM;
- development of Akoma Ntoso and RDF data formats for LEOS and AT4AM.

This appropriation is intended to cover any expenditure incurred during a declared crisis which has activated one or more business continuity plans, and the nature and/or the amount of which has not made it possible to post it on the other administrative budget lines of the Commission.

The budgetary authority will be informed of the incurred expenditure at the latest three weeks after the crisis has ended.

Activities with no budget line:

- promotion of good financial management,
- administrative support and management of the Directorate-General for Budget,
- multiannual financial framework and budgetary procedure,
- policy strategy and coordination for the Directorate-General for Budget.

#### Remarks

This appropriation is intended to cover budgetary adjustments:

- for imprest accounts, where all appropriate measures have been taken by the authorising officer to deal with the situation and where the adjustment expenditure cannot be booked to another specific budget line,
- in situations where a claim is cancelled in full or in part after it has been booked to the accounts as revenue (in particular in the event of offsetting against a debt),
- in cases where VAT has not been recovered and where it is no longer possible to book the amount to the line that covered the principal expenditure,
- for any interest relating to the above cases, where it cannot be booked to another specific budget line.

This item is also intended to accommodate, if necessary, an appropriation to cover any losses resulting from the liquidation or cessation of activities of a bank with which the Commission has accounts for the purposes of imprests.

#### Remarks

In accordance with Article 18 of the Financial Regulation, the balance from each financial year is to be entered in the budget for the following financial year as revenue in the case of a surplus or as a payment appropriation in the case of a deficit.

The estimates of such revenue or payment appropriations are entered in the budget during the budgetary procedure and in a letter of amendment submitted pursuant to Article 39 of the Financial Regulation. They are drawn up in accordance with Regulation (EC, Euratom) No 1150/2000.

After the close of accounts for each financial year, any discrepancy with the estimates is entered in the budget for the following financial year through an amending budget.

A surplus is entered in Article 3 0 0 of the statement of revenue.

Remarks

This appropriation is intended to cover:

- expenditure on technical and administrative assistance relating to the identification, preparation, management, monitoring, audit and supervision of the programme or projects,
- expenditure on external personnel at headquarters (contract agents, seconded national experts or agency staff), up to EUR 2 285 000. This amount is calculated on the basis of a unit annual cost per person/year, 97 % of the total comprising the remuneration for the staff in question and 3 % the costs of training, meetings, missions, information technology and telecommunications in connection with such staff,
- expenditure on studies, meetings of experts, missions, information and publications directly linked to the achievement of the objective of the programme or measures coming under this item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contribution for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

*Remarks*

This appropriation is intended to cover the following:

- statistical data collection and surveys, studies and development of indicators and benchmarks,
- quality studies and activities designed to improve the quality of statistics,
- the processing, dissemination, promotion and marketing of statistical information,
- the development and maintenance of statistical infrastructure and statistical information systems,
- the development and maintenance of IT infrastructure supporting the reengineering of the statistical production process,
- risk-based control work at the sites of entities involved in the production of statistical information in Member States, especially to support the economic governance of the Union,
- support to collaborative networks and support to organisations having as their primary objectives and activities the promotion and support for the implementation of the European Statistics Code of Practice and the implementation of new methods of production of European statistics,
- services rendered by external experts,
- statistical training courses for statisticians,

- the cost of purchasing documentation,
- subsidies and subscriptions to international statistical associations.

It is also intended to ensure the gathering of the information necessary to draw up an annual summary report on the economic and social state of the Union on the basis of economic data and structural indicators and benchmarks.

This appropriation is also intended to cover costs incurred in connection with the training of national statisticians and the policy of cooperation in the field of statistics with third countries; expenditure relating to exchanges of officials, the costs of information meetings, and expenditure on payment for services rendered in connection with the adjustment of the remuneration of officials and other staff.

Also charged to this article is expenditure on the purchase of data and access for Commission departments to outside databases.

In addition, funding should be used to develop new, modular techniques.

This appropriation is also intended to cover the provision of the necessary statistical information, at the request of the Commission or of the other institutions of the Union, for the assessment, monitoring and evaluation of the Union's expenditure. This will improve the implementation of financial and budgetary policy (drawing-up of the budget and periodic review of the Multiannual Financial Framework) and make it possible to compile medium and long-term data for the financing of the Union.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the Swiss Confederation's contributions for participation in Union programmes entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

#### *Remarks*

This appropriation is intended to cover the Translation Centre for the Bodies of the European Union (Translation Centre) staff and administrative expenditure (Titles 1 and 2), and operational expenditure (Title 3).

The budgetary resources of the Translation Centre consist of financial contributions from the agencies for which it works and the institutions and bodies with which it cooperates, without prejudice to other revenue.

The amounts repaid in accordance with Article 23 of Commission Delegated Regulation (EC) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the Translation Centre is set out in Annex ‘Staff’ to this section.

*Remarks*

Since expenditure on staff and buildings is included in the appropriations entered in Items XX 01 01 01 and XX 01 03 01 and Article 26 01 23, the Commission contribution, together with the Agency's own revenue, is intended to cover expenditure incurred by the Agency in its activities.

At its 23rd session on 1 and 2 February 1960, the Euratom Council proposed unanimously that the Commission postpone not only the levying of the charge (intended to cover the operating expenditure of the Euratom Supply Agency) but also the actual introduction of that charge. Since then a subsidy has been included in the budget to balance the revenue side against the Agency expenditure figures shown in the statement of estimates.

##### Remarks

This appropriation is intended to cover the cost of the Union contribution to financial instruments established under the Connecting Europe Facility to enable or facilitate access to long term financing or private investors' resources and thus to accelerate or to make possible the financing of projects of common interest eligible under Regulation (EU) No 347/2013 of the European Parliament and of the Council of 17 April 2013 on guidelines for trans-European energy infrastructure and repealing Decision No 1364/2006/EC and amending Regulations (EC) No 713/2009, (EC) No 714/2009 and (EC) No 715/2009 (OJ L 115, 25.4.2013, p. 39). The financial instruments will be set up as 'debt' or 'equity' frameworks following an ex-ante assessment as required by Article 224 of Commission Delegated Regulation (EU) No 1268/2012. They are intended to be implemented under direct management mode by the entrusted entities, within the meaning of the Financial Regulation, or jointly with the entrusted entities.

Any repayment from financial instruments pursuant to Article 140(6) of the Financial Regulation, including capital repayments, guarantees released, and repayment of the principal of loans, paid back to the Commission and entered in Item 6 3 4 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Articles 21(3)(i) of the Financial Regulation.

##### Remarks

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of a competitive, safe and sustainable European energy policy, of the internal energy market and its extension to third countries, of all aspects of energy supply security in a European and global perspective as well as the strengthening of the rights and protection of energy users by supplying quality services at transparent and comparable prices.

The principal endorsed objectives are to set up a progressive common European policy ensuring continuous energy supply security, good functioning of the internal energy market and access to transport networks of energy, observation of energy market, analysis of modelling including scenarios on the impact of considered policies and the strengthening of the rights and protection of energy users, based on general and particular knowledge of global and European energy markets for all energy types.

This appropriation is also intended to cover experts' expenditure directly linked to the collection, validation and analysis of necessary information on energy market observation, as well as expenditure on information and communication, conferences and events promoting activities in the energy sector, and also electronic and paper publications directly linked to the achievement of the objective of the energy policy.

#### *Remarks*

This appropriation is intended to cover expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the rules and measures required to improve the security of the energy sector, technical assistance and specific training.

The main objectives are to develop and apply security rules in the field of energy and in particular:

- measures to prevent malicious acts in the energy sector, with particular reference to the installations and infrastructure of the European system of energy generation and transmission,
- approximation of legislation, technical standards and administrative monitoring practices relating to energy security,
- definition of common indicators, methods and security objectives for the energy sector and collection of the data necessary for such definition,

- monitoring of measures taken on energy security by national authorities, operators and other key actors in the field,
- international coordination on energy security, including neighbouring supplier and transit countries and other world partners,
- promoting technology development in energy security.

This appropriation may also cover expenditure on information and communication, as well as electronic and paper publications directly linked to the achievement of the objective of this article.

#### *Legal basis*

Task resulting from the Commission's prerogatives at institutional level, as provided for in Article 54(2) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

#### *Remarks*

This appropriation is intended to cover the Agency's staff and administrative expenditure (Titles 1 and 2), and operational expenditure relating to the work programme (Title 3).

The Agency must inform the European Parliament and the Council about transfers of appropriations between operational and administrative expenditure.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The amounts repaid in accordance with Article 16 of Commission Regulation (EC, Euratom) No 2343/2002 constitute assigned revenue under Article 21(3)(c) of the Financial Regulation to be charged to Item 6 6 0 0 of the general statement of revenue.

The establishment plan of the Agency for the Cooperation of Energy Regulators is set out in the Annex 'Staff' to this section.

The Union contribution for 2015 amounts to a total of EUR 11 266 000. An amount of EUR 415 000 coming from the recovery of surplus is added to the amount of EUR 10 851 000 entered in the budget.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project aims to increase the total efficiency of district heating and cooling networks, in developing a next generation district heating and cooling, through:

- intelligent use and control of distributed energy storage systems in the network,
- improved design and smart control of substations in the building working at low-temperature heating and high-temperature cooling, and
- intelligent control of the overall network including renewable sources (primarily solar thermal, geothermal, waste heat), thermal energy demand of the connected buildings and both distributed and collective thermal energy storage systems.

The first wave of deliverables provides the initial study work (2014/2015) and includes:

- a smart control algorithm for distributed thermal energy storage and substations,
- a low-cost system to determine the state of charge of compact distributed thermal energy storage systems in the buildings,
- improved low-temperature substation design, and
- an overall control scheme to cope with the imbalance between multiple (unpredictable) renewable heat sources and thermal energy needs of the connected buildings.

The global aim is to increase the overall efficiency of the thermal network and to reduce the primary energy consumption of the back-up system for heating (gas-fired boiler) and cooling (chiller) by at least 20 %.

The second wave consists of the implementation on a site of approximately 60 buildings, some of which are to be connected within the framework of the pilot project in 2014/2015. Total emission savings because of network optimization (= storage + substations + control) are estimated at 1 021 tonnes per year. The emission savings of using renewables have not (yet) been included in the calculations, as the focus is on the next-generation network.

Item 32 02 77 07 — Pilot project — Feasibility study on the financing of low-cost energy efficiency measures in low-income households

*Figures*

Budget 2015		Appropriations 2014		Outturn 2013
Commitments	Payments			
120 000	60 000			

*Remarks*

In connection with emergency plans to ensure EU energy supply security and reduce dependence on energy imports, special protection should be given to vulnerable consumers hit by energy poverty. Energy used in buildings accounts for 40% of EU energy use. Financing deep renovation of buildings was recently recognised as a key European and Structural Fund priority for improving energy efficiency and thereby energy security. However, optimum ways of mobilising financing to support specific low-cost energy

efficiency measures that could be implemented relatively quickly in low-income households still need to be found. Such financing measures, using any available EU funds and budget lines, would help vulnerable consumers to reduce their energy needs without reducing their standard of living. A financing feasibility study will be carried out. The objectives of the study will include determining what is needed in practice to make EU funds available to this group of citizens for such short-term measures, properly taking into account social and economic impacts (creation of local jobs, reduction of consumers' bills, etc.), barriers represented by split incentives between tenants and building owners, complementarity with longer-term energy efficiency measures and the financing already available at EU and national level.

#### *Remarks*

The pilot project will assess the impact of the economic and financial crisis on energy poverty in the European Union, focusing in particular on Member States where this issue has not yet been examined and/or addressed by policy measures.

It will also analyse existing data on those affected by fuel poverty, the measures put in place by Member States and definitions and indicators.

Action to be funded:

A study looking at:

- the possibility of introducing a definition of energy poverty based on common parameters adjusted to take account of the specific circumstances in each Member State;
- the possibility of setting up specific financial schemes regarding energy costs for the most vulnerable households (such as fair energy pricing, support on a one-off basis or as part of other social assistance, action to prevent non-payment of bills and protection against the cutting-off of supplies);
- the possibility of establishing specific regional or national funds to reduce energy poverty, which could be funded by means of a financial contribution from energy providers which reflects their obligation to reduce consumption pursuant to Directive 2012/27/EU on energy efficiency;
- incentives and instructive measures to help residents save energy;
- the use of effective, long-term financial leverage to make residential buildings more energy-efficient in both urban and rural areas, while ensuring that this does not lead to a significant increase in housing costs for tenants once energy savings have been taken into account; the Commission will coordinate these efforts and examine the possibility of introducing incentives;
- how energy efficiency measures to tackle energy poverty can also help prevent health problems (such as respiratory and cardiovascular conditions, allergies, asthma, food and carbon monoxide poisoning, and impacts on mental health);
- tariff compositions in Member States, including the recent introduction of higher taxes on energy;
- measures put in place in Member States.

#### Remarks

This appropriation is intended to cover, in particular:

- expenses for missions by inspectors carried out in accordance with pre-established six-monthly programmes, short-notice inspections (daily subsistence allowances and travel expenses),
- training of inspectors, and meetings with Member States and nuclear operators,
- purchases of equipment for use in inspections, particularly purchases of monitoring equipment such as digital video systems, gamma, neutron and infrared measurement devices, electronic seals and seal reader systems,
- procurement and renewal of information technology hardware for inspections,
- specific information technology projects for inspections (development and maintenance),
- replacement of monitoring and measurement devices which have reached the end of their service life,
- maintenance of equipment, including insurance of specific equipment at the Canberra, Ametek, Fork and GBNS sites,
- technical infrastructure measures, including waste management and sample transport,
- on-site analyses (labour costs and mission expenses for analysts),
- agreements on working premises on site (laboratories, offices, etc.),
- day-to-day management of on-site installations and central laboratories (repairs, maintenance, information technology hardware, purchases of supplies and consumables, etc.),
- information technology support and tests for applications for inspections.

The following will also give rise to the provision of additional appropriations in accordance with Article 21(3) of the Financial Regulation:

- paid insurance claims,
- repayment of sums unduly paid by the Commission for goods, work or services.

This appropriation may also cover expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objectives coming under this article, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

#### *Remarks*

This appropriation is intended to cover:

- expenditure incurred by the Commission for collecting and processing information of all kinds needed for the analysis, definition, promotion, monitoring, evaluation and implementation of the common policy on nuclear safety and security, particularly in the new Member States and of the rules and measures in the field of radiation protection,
- expenditure on measures and actions relating to monitoring and protection against the effects of ionising radiation and aimed at ensuring the health protection of the population and the protection of the environment against the dangers of radiation and radioactive substances. These actions relate to specific tasks provided for under the Treaty establishing the European Atomic Energy Community,
- expenditure on the establishment and operation of a corps of inspectors to check protection against ionising radiation in the Member States. This expenditure includes, in addition to subsistence allowances and travel (mission) expenses, costs for training, for preparatory meetings and for purchases of equipment to be used for inspections,
- expenditure linked to the implementation of the Commission's tasks referred to in point 31 of the European Council conclusions of 24 and 25 March 2011.

This appropriation may also cover expenditure on information and publications directly linked to the achievement of the objectives coming under this article.

#### *Former Item 32 03 03 02*

This appropriation is intended to cover the financing of the Ignalina (Lithuania) nuclear power plant decommissioning fund, in accordance with the agreements signed with the Member State concerned.

This expenditure also relates to the collection and processing of information of all kinds needed for the analysis, definition, promotion, monitoring and evaluation of the rules and measures in the field of decommissioning.

The Commission must submit a report on the implementation of funds committed under this article, as well as updated estimates of the costs and time schedules for operations to decommission the nuclear reactors concerned.

The financial allocation for the Ignalina programme may also cover expenses pertaining to preparatory, monitoring, control, audit and evaluation activities which are required for the management of the programme and the achievement of its objectives, in particular, studies, meetings of experts, information and communication actions, including corporate communication of the political priorities of the European Union as far as they are related to the general objectives of Council Regulation (Euratom) No 1369/2013, expenses linked to IT networks focusing on information processing and exchange, together with all other technical and administrative assistance expenses incurred by the Commission for the management of the programme.

The financial allocation for the Ignalina programme may also cover the expenses of technical and administrative assistance necessary to ensure the transition between that programme and the measures adopted under Regulation (EC) No 1990/2006.

#### *Legal basis*

Task resulting from specific powers directly conferred on the Commission by the Treaty establishing the European Atomic Energy Community under Article 203.

Council Regulation (Euratom) No 1369/2013 of 13 December 2013 on Union support for the nuclear decommissioning assistance programmes in Lithuania and repealing Regulation (EC) No 1990/2006 (OJ L 346, 20.12.2013, p. 7).

### Remarks

These remarks are applicable to all the budget lines in this chapter.

This appropriation will be used for the Horizon 2020 — the Framework Programme for Research and Innovation, which covers the 2014 to 2020 period.

Horizon 2020 activities, in particular those addressed under the Societal Challenge 'Secure, Clean and Efficient Energy', but also relevant parts of other sections of the programme, including 'Access to Finance', implemented in line with the EU Energy policy framework, as well as the European Strategic Energy Technology Plan (SET-Plan) and the Communication on Energy Technologies and Innovation, will contribute primarily to the Europe 2020 Flagship Initiative 'Innovation Union' and other flagship initiatives, notably 'Resource Efficient Europe', 'An industrial policy for the globalisation era', and 'A digital agenda for Europe', as well as in the development and functioning of the European Research Area (ERA). Horizon 2020 shall contribute to building an economy based on knowledge and innovation across the whole Union by leveraging sufficient additional research, development and innovation funding.

This programme will be carried out in order to pursue the general objectives described in Article 179 of the Treaty on the Functioning of the European Union, in order to contribute to the creation of a society of knowledge, based on the European Research Area, i.e. supporting transnational cooperation at all levels throughout the Union, taking the dynamism, creativity and the excellence of European research to the limits of knowledge, strengthening human resources for research and for technology in Europe, quantitatively and qualitatively, and research and innovation capacities in the whole of Europe and ensuring optimum use thereof.

Also entered against these articles and items are the costs of high-level scientific and technological meetings, conferences, workshops and seminars of European interest organised by the Commission, the funding of high-level scientific and technological analyses and evaluations carried out on behalf of the Union to investigate new areas of research suitable for Union action, inter alia, in the context

of the European Research Area, and measures to monitor and disseminate the results of the programmes, including measures under previous framework programmes.

This appropriation will be used in accordance with Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for the participation and dissemination in ‘Horizon 2020 — the Framework Programme for Research and Innovation (2014-2020)’ and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this chapter. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

The possibility of third countries or institutes from third countries taking part in European cooperation in the field of scientific and technical research is envisaged for some of these projects. Any financial contribution will be entered in Items 6 0 1 3 and 6 0 1 5 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from States taking part in the European Cooperation in the field of Scientific and Technical Research will be entered in Item 6 0 1 6 of the statement of revenue and may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes, entered in Item 6 0 3 1 of the statement of revenue, may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

Any revenue from the contribution by outside bodies to Union activities entered in Item 6 0 3 3 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21 of the Financial Regulation.

Additional appropriations will be made available under Item 32 04 50 01.

Administrative appropriations of this chapter will be provided under Article 32 01 05.

### ***Article 32 04 03 — Societal challenges***

#### *Remarks*

This priority of Horizon 2020 responds directly to the policy priorities and societal challenges identified in the Europe 2020 strategy. Those activities will be implemented using a challenge-based approach which brings together resources and knowledge across different fields, technologies and disciplines. The activities will cover the full cycle from research to market, with a new focus on innovation-related activities such as piloting, demonstration, test-beds, support for public procurement, design, end-user driven innovation, social innovation and market take-up of innovations. The activities will support directly the corresponding sectoral policy competences at Union level.

#### *Remarks*

This appropriation is intended to support the implementation of the Energy challenge of the Horizon 2020 priorities, in line with the EU Energy policy, the European Strategic Energy Technology Plan (SET-Plan) and the Communication on Energy Technologies and Innovation. These initiatives are primarily addressing energy efficiency, wind, solar, bioenergy, carbon capture and storage (CCS), smart cities and electricity grids. In recognition of their important contribution to future sustainable energy systems, at least 85 % of the budget appropriations over the period 2014-2020 will be allocated to the renewable and end-use energy efficiency policy areas, including smart grids and energy storage.

Market uptake measures will be supported through an Intelligent Energy Europe III programme to build capacity, improve

governance and overcome market barriers so that energy efficiency and renewable energy solutions can be rolled out, thus contributing to improving energy security in the EU. Part of the appropriations in the overall energy challenge budget will therefore be spent on market uptake activities for existing renewable and energy efficiency technologies within the programme, carried out by a dedicated management structure, and will include support for sustainable energy policy implementation, capacity building and mobilisation of financing for investment, in line with what has been done to date.

*Remarks*

This appropriation is intended to cover expenses pertaining to preparatory, monitoring, control, audit and evaluation activities which are required for the management of the programme and the achievement of its objectives; in particular, studies, meetings of experts, information and communication actions, including corporate communication of the political priorities of the Union, as far as they are related to the general objectives of the programme, expenses linked to IT networks focusing on information processing and exchange, together with all other technical and administrative assistance expenses incurred by the Commission for the management of the programme.

In particular, this appropriation is intended to cover:

- expenditure on technical and administrative assistance for the implementation of measures to achieve equality between men and women and tackling the particular needs of disabled people,
- expenditure on studies, meetings of experts, information and publications directly linked to the achievement of the objective of the programme or measures coming under this Item, and any other expenditure on technical and administrative assistance not involving public authority tasks outsourced by the Commission under ad hoc service contracts.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this item. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations

and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from acceding countries, candidate countries and potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations, according to the same ratio as between the amount authorised for expenditure on administrative management and the total appropriations entered for the programme, in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

#### Remarks

The new Rights and Citizenship programme is the successor to three previous programmes: Fundamental Rights and Citizenship, Daphne III, and the Antidiscrimination and Diversity and Gender Equality sections of the Programme for Employment and Social Solidarity (Progress). The objective of the programme is to contribute to the further development of an area where equality and the rights of persons as enshrined in the Treaty on European Union (TEU), in the Treaty on the Functioning of the European Union (TFEU), in the Charter of Fundamental Rights of the European Union (the 'Charter'), and in the international human rights conventions to which the Union has acceded, are promoted, protected and effectively implemented.

#### Remarks

This appropriation is intended to contribute to preventing and combating all forms of violence against children, young people and women, as well as violence against other groups at risk, in particular groups at risk of violence in close relationships, and to protect victims of such violence (under «Daphne»); to promoting and protecting the rights of the child; to ensuring the highest level of protection of privacy and personal data; to promoting and enhancing the exercise of rights deriving from citizenship of the Union; and to enabling individuals in their capacity as consumers or entrepreneurs in the internal market to enforce their rights deriving from Union law, having regard to the projects funded under the Consumer Programme.

In particular, this appropriation is intended to cover the following types of action:

- analytical activities, such as the collection of data and statistics, where appropriate disaggregated by gender; the development of common methodologies and, where appropriate, indicators or benchmarks; studies, researches, analyses and surveys; evaluations; the elaboration and publication of guides, reports and educational material; workshops, seminars, experts' meetings and conferences;
- training activities incorporating a gender-sensitive perspective, such as staff exchanges, workshops, seminars, train-the-trainer events and the development of online training tools or other training modules;
- mutual learning, cooperation, awareness-raising and dissemination activities, such as the identification of, and exchanges concerning, good practices, innovative approaches and experiences; the organisation of peer reviews and mutual learning; the organisation of conferences, seminars, media campaigns, including in the online media, information campaigns, including institutional communication on the political priorities of the Union as far as they relate to the objectives of the Programme; the compilation and publication of materials to disseminate information about the Programme and its results; the development, operation and maintenance of systems and tools using information and communication technologies;
- support for main actors whose activities contribute to the implementation of the objectives of the Programme, such as support for NGOs in the implementation of actions with European added value, support for key European actors, European-level networks and harmonised services of social value; support for Member States in the implementation of Union law and policies; and support for networking activities at European level among specialised bodies and entities as well as national, regional and local authorities and NGOs, including support by way of action grants or operating grants.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from acceding countries, candidate countries and potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

#### *Remarks*

This appropriation is intended to cover the Agency’s staff and administrative expenditure (Titles 1 and 2).

This appropriation is also intended to cover the operational expenditure (Title 3) of the Agency, which is responsible for providing the relevant Union institutions and authorities of the Member States when implementing Union law with assistance and expertise relating to fundamental rights in order to support them when they take measures or formulate courses of action within their respective spheres of competence to fully respect fundamental rights.

The Agency can be expected to achieve the following operational objectives/tasks:

- provision of assistance to Union institutions and the Member States,
- promotion of networking of stakeholders and dialogue at European level,
- promotion and dissemination of information and awareness-raising activities to enhance visibility on fundamental rights,
- effective functioning of the management structure and implementation of operations.

The Agency must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The amounts repaid in accordance with Article 20 of Commission Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

Any revenue from the contributions from candidate countries and, if applicable, the Western Balkan potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

The Agency's establishment plan is set out in Annex 'Staff' to this section.

Regulation (EC) No 168/2007 entered into force on 1 March 2007. On that date, the Agency replaced the European Monitoring Centre on Racism and Xenophobia (EUMC) and legally succeeded it, assuming all the Centre's legal rights and obligations, financial commitments, liabilities, and employment contracts, as laid down in Article 23(4) of Regulation (EC) No 168/2007.

The Union contribution for 2015 amounts to a total of EUR 21 229 000. An amount of EUR 74 000 from the recovery of surplus is added to the amount of EUR 21 155 000 entered in the budget.

#### *Remarks*

This appropriation is intended to cover the Institute's staff and administrative expenditure (Titles 1 and 2), and operational expenditure (Title 3).

The Institute must inform the budgetary authority about transfers of appropriations between operational and administrative expenditure.

The Institute's establishment plan is set out in Annex 'Staff' to this section.

The amounts repaid in accordance with Article 20 of the Commission Delegated Regulation (EU) No 1271/2013 constitute assigned revenue (Article 21(3)(c) of the Financial Regulation) to be charged to Item 6 6 0 0 of the general statement of revenue.

In accordance with Decision 2006/996/EC taken by common agreement between the Representatives of the Governments of Member States of 11 December 2006 on the location of the seat of the European Institute for Gender Equality (OJ L 403, 30.12.2006, p. 61), the Institute has its seat in Vilnius.

The Union contribution for 2015 amounts to a total of EUR 7 628 000. An amount of EUR 164 000 coming from the recovery of surplus is added to the amount of EUR 7 464 000 entered in the budget.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

This pilot project will give relevant actors in relevant Member States an opportunity to develop a web-based knowledge platform on female genital mutilation (FGM). This platform should be developed for and by professionals in the field of health, child protection, asylum, migration, police and judiciary who are dealing with women and girls living with, or at risk of, FGM and for the media. Other important partners include national and regional authorities, as well as civil society organisations. Such a platform will give easily accessible information and support to professionals so as to deliver victim support more effectively, help prevent FGM and protect women and girls living with, or at risk of, FGM. In addition, it will contribute to implementing Directive 2012/29/EU of the European Parliament and of the Council of 25 October 2012 establishing minimum standards on the rights, support and protection of victims of crime (OJ L 315, 14.11.2012, p. 57) and Directive 2013/32/EU of the European Parliament and of the Council of 26 June 2013 on common procedures for granting and withdrawing international protection (OJ L 180, 29.6.2013, p. 60), with particular reference to eligibility and reception conditions.

An all-encompassing web-based knowledge platform on FGM for professionals in Europe will be developed on the basis of e-learning tools with separate modules for each government body and authority. It will be developed in the languages of the participating countries, with common information for all Member States and country-specific legislation and contact points. Modules will be developed for police and judicial authorities and professionals in a wide range of areas (social workers, child protection, reception centres, migration services, education and media). This could be complemented by guidelines for professionals in need of immediate advice. This tool will help improve knowledge of the practice, prevent stigmatisation in the media and protect women and girls living with, or at risk of, FGM.

Item 33 02 77 09 — Pilot project — Capacity building for Roma civil society and strengthening its involvement in the monitoring of National Roma Integration Strategies

*Remarks*

The EU Framework for National Roma Integration Strategies calls upon Member States to include strong monitoring mechanisms and involve civil society, including Roma organisations, in the implementation and monitoring of the strategies. Capacity-building is needed to prepare local Roma civil society organisations to contribute to the planning and implementation of the programmes. The pilot project would contribute to the creation and capacity building of local Roma civil society as well as a monitoring mechanism regarding Roma integration and inclusion especially the production and dissemination of ‘shadow reports’ where civil society coalitions could supplement or present alternative information and data to the reports submitted by Member States concerning the implementation of their strategies. These shadow reports could provide local knowledge to national and Union policy processes and reflect on the real social impact of government measures. The monitoring would focus on the local implementation of strategies in the four priority areas (employment, education, housing, health), in the fields of anti-discrimination and gender equality and would also provide information on the level of involvement of civil society, the use of Union funds and mainstreaming of Roma inclusion measures.

#### *Remarks*

This appropriation is intended to contribute to supporting and promoting judicial training, including language training on legal terminology, with a view to fostering a common legal and judicial culture and, to facilitating effective access to justice for all, including to promoting and supporting the rights of victims of crime, while respecting the rights of the defence.

In particular, this appropriation is intended to cover the following types of actions:

- analytical activities, such as the collection of data and statistics; the development of common methodologies and, where appropriate, indicators or benchmarks; studies, researches, analyses and surveys; evaluations; the elaboration and publication of guides, reports and educational material; workshops, seminars, experts meetings and conferences;
- training activities, such as staff exchanges, workshops, seminars, train-the-trainer events, including language training on legal terminology, and the development of online training tools or other training modules for members of the judiciary and judicial staff;
- mutual learning, cooperation, awareness-raising and dissemination activities, such as the identification of, and exchanges concerning, good practices, innovative approaches and experiences; the organisation of peer reviews and mutual learning; the organisation of conferences, seminars, information campaigns, including institutional communication on the political priorities of the Union as far as they relate to the objectives of the Programme; the compilation and publication of materials to disseminate information about the Programme and its results; the development, operation and maintenance of systems and tools, using information and communication technologies, including the further development of the European e-Justice portal as a tool to improve citizens' access to justice;
- support for main actors whose activities contribute to the implementation of the objectives of the Programme, such as support for Member States in the implementation of Union law and policies, support for key European actors and European-level networks, including in the field of judicial training; and support for networking activities at European level among specialised bodies and entities as well as national, regional and local authorities and non-governmental organisations.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned

revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the ‘European Economic Area’ Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

Any revenue from the contributions from acceding countries, candidate countries and potential candidates for participating in Union programmes entered in Item 6 0 3 1 of the statement of revenue may give rise to the provision of additional appropriations in accordance with Article 21(2)(e) to (g) of the Financial Regulation.

### Remarks

This appropriation is intended to cover payments in respect of commitments remaining to be settled from previous years.

The contributions from the EFTA States pursuant to the Agreement on the European Economic Area, and in particular Article 82 thereof and Protocol 32 thereto, must be added to the appropriations entered in this article. By way of information, these amounts derive from contributions from the EFTA States entered against Article 6 3 0 of the statement of revenue, which constitute assigned revenue in accordance with Article 21(2)(e) to (g) of the Financial Regulation; they give rise to the provision of corresponding appropriations and to implementation under the 'European Economic Area' Annex to this part of the statement of expenditure in this section, which forms an integral part of the general budget.

*Remarks*

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The aim is to fund projects at Union level which raise the awareness of children of their rights in the context of civil, criminal and administrative judicial proceedings

To this effect projects should develop and roll out comprehensive awareness-raising programmes in schools targeting secondary school children. In particular this could include interactive activities (such as mock trials/moot courts) that allow secondary school students to understand their rights, with some degree of customisation for each participating country to take account of the national context. Projects should enable children to experience the phases of mock criminal, civil or administrative cases, and improve their understanding of the various roles and responsibilities (e.g. child subject to proceedings, witness, guardian, parent, lawyer, prosecutor, judge, social worker, police officer, etc.) as well as their own rights.

In order to ensure optimal implementation of the projects, they should be prepared with and involve children, teachers and staff in a participatory and empowering manner and have the prior commitment of participating schools to facilitate the activities.

### Remarks

This appropriation under the climate sub-programme of the LIFE programme is intended to cover expenditure on studies, meetings of experts, workshops, conferences, evaluations, information technology, information, communication material and Eurobarometer surveys, and publications and any other technical or administrative assistance expenditure not involving public authority tasks outsourced by the Commission and service contracts in support of identification, selection, preparation, management, monitoring, evaluation, audit and supervision of programmes and projects. It is also intended to provide support to international climate events and to activities to which the Union is party and to preparatory work for future international agreements involving the Union.

In particular, it is intended to cover:

- hosting, maintenance, security, quality assurance, operation and support (hardware, software and services) of information technology (IT) systems supporting the climate policy objectives, such as the EU Single Registry, EU Transaction Log and IT systems related to the implementation of legislation on the protection of the ozone layer such as the Ozone Depleting Substances (ODS) database and the Regulation on Fluorinated Gases,
- publications and activities to disseminate results and best practices arising from LIFE projects, thereby supporting their sustainability, and meetings of experts and project beneficiaries (advice on management of projects, networking, sharing results and best practices),
- development, maintenance, operation and support of adequate information technology (IT) systems for communication, selecting, evaluating, monitoring, reporting on projects and disseminating results of projects,
- the engagement of IT experts *intra muros* to support the development, quality assurance, testing and security of critical policy supporting IT systems.

### Remarks

Under the climate action sub-programme of the LIFE programme, this appropriation is intended to finance measures to support the Commission's role in developing and implementation and enforcement of policy and legislation and monitor its implementation in the area of climate action, including the monitoring of mainstreaming across policy areas by developing, testing and demonstrating policy or management approaches, best practises, solutions for the climate, to improve the knowledge base (development, assessment, monitoring, evaluation) of effective climate mitigation and enhance its capacity to apply in practise, to facilitate development and implementation of integrated approaches and action plans at local, regional or national level and to contribute to the development and demonstration of innovative low carbon technologies, systems, methods and instruments for being replicated, transferred or mainstreamed.

The following priorities will be taken into account:

- ensuring the implementation of the European Union commitments under the Kyoto Protocol to the United Nations Framework Convention on Climate Change (UNFCCC),
- ensuring developing of new policies and further implementation of the 'Climate and Energy 2009' package and use of market-based instruments, in particular greenhouse gas emission trading, in order to achieve via a cost-efficient emission reduction, the '20/20/20' climate/energy targets of the Europe 2020 Strategy and those of the 2030 Framework on climate and energy supporting the transition towards a low-carbon economy/society.

The measures financed by LIFE may be implemented through grants, financial instruments (to be entrusted via indirect management to the European Investment Bank (EIB) or European Investment Facility (EIF) in accordance with art 17 and 25 of the Life Regulation and article 58 of the Financial Regulation) or procurement procedures (studies, service contracts, administrative arrangements, evaluations, economic analyses and modelling of scenarios, meetings, events, networks, databases, information systems, information, publication and dissemination activities ) or any other interventions needed including:

- cooperation with Eurocontrol on implementation of aviation and ETS,
- the costs of development, maintenance, operation and support (hardware, software and services) of policy support systems, in particular but not exclusively the EU Single Registry EU Transaction Log and the Ozone Depleting Monitoring System (ODS). It will also cover the cost of project management, documentation and training linked to the implementation of these systems.

Cooperation with relevant international organisations, their institutions and bodies, shall be possible where needed for the purpose of achieving the climate action objectives.

### *Remarks*

Under the climate action sub-programme of the LIFE programme, this appropriation is intended to finance measures to support the Commission's role in developing and implementation and enforcement of policy and legislation and monitor its implementation in the area of climate action, including the monitoring of mainstreaming across policy areas, by developing, testing and demonstrating policy or management approaches, best practises, solutions for climate change adaptation including, where appropriate, ecosystem-based approaches, to improve the knowledge base (development, assessment, monitoring, evaluation) of effective climate change adaptation and enhance its capacity to apply in practise, to facilitate development and implementation of integrated approaches of strategies and action plans to adapt to the impact of climate change at local, regional or national level and to contribute to the development and demonstration of innovative technologies, systems, methods and instruments for being replicated, transferred or mainstreamed , taking into account the following priorities:

- developing new policies and further implementation of the existing 'Climate and Energy' package, the '2030 Framework for climate and energy' and the EU Adaptation Strategy,
- ensuring the adaptation of the Union economy and society to the adverse impacts of climate change and mitigating such impacts,
- supporting the transition towards a low-carbon, resource efficient and climate resilient economy/society, requiring to harness the contribution of many Union policies (in particular cohesion, agricultural, rural development, research and innovation, transport and energy programmes, external action, etc.) to climate action, in particular through mainstreaming and adaptation measures,
- developing innovative support mechanisms to fully exploit the potential of new technologies to reduce losses caused by climate-change-related events, such as severe drought and flooding and extreme climate events, as well as to develop the Union's capacity for disaster prevention and response,
- supporting the development of 'climate proofing' tools, risk based assessments of programmes and measures to enhance adaptive capacity and resilience to climate change support and 'climate tracking' methodologies to monitor climate related expenditure under the mainstreaming objective 'to increase the proportion of climate mainstreaming to at least 20 % of the future EU total budget in 2014-20', with contribution from different policies.

The measures financed by LIFE may be implemented through action grants, financial instruments (to be entrusted via indirect management to the European Investment bank (EIB) or European Investment Facility (EIF) in accordance with art 17 and 25 of the Life Regulation and article 58 of the Financial Regulation) or procurement procedures (studies, service contracts, administrative arrangements, evaluations, meetings, events, networks, databases, information systems, information, publication and dissemination activities) or any other intervention needed.

### *Remarks*

Under the climate action sub-programme of the LIFE programme, this appropriation is intended to finance measures to support the

Commission's role in enhancing climate governance by broadening stakeholder involvement, including NGO's in development/implementation of policy, building capacity and raising awareness and promote policies and legislation in the area of climate action, including generating public and stakeholder support of Union policy-making in the field of climate and to promote knowledge on sustainable development, to support communication, management and dissemination of information in the field of climate, to facilitate knowledge sharing of successful climate solutions and practises including developing platforms among stakeholders via cooperation platforms, to promote and contribute to more effective compliance with and enforcement of climate legislation, in particular by promoting the development and dissemination of best practises and policy approaches ('success stories').

The following priorities will be taken into account:

- further implementation of the 'Climate and Energy 2009' package,
- ensuring the implementation and use of market-based instruments, in order to achieve via a cost-efficient emission reduction, the '20/20/20' climate/energy targets of the Europe 2020 Strategy supporting the transition towards a low-carbon economy/society,
- developing new policies under the 2030 Framework for Climate and Energy,
- ensuring the adaptation of the Union economy and society to the adverse impacts of climate change and mitigating such impacts,
- promotion of non-governmental organisations (NGOs) primarily active in the field of climate action at a European level and involved in the development and implementation of Union policy and legislation aiming to strengthen the participation of NGOs in the dialogue process of climate action policy making and in its implementation and in the European standardisation process to ensure balanced stakeholder representation and the systematic integration of climate-related aspects.

The measures financed by LIFE may be implemented through action grants to projects and operating grants to NGO's or procurement procedures (studies, service contracts, administrative arrangements, evaluations, meetings, events, networks, databases, information systems, information, publication and dissemination activities) or any other interventions needed.

### Remarks

This appropriation is intended to cover commitments remaining to be settled from previous years under the pilot project.

The Union has committed significant resources, providing positive incentives to developing countries to reduce emissions from global deforestation and forest degradation (REDD+). The Union, if the contributions of its Member States are also taken into account, is the biggest funding partner for this programme.

Early evaluations suggest that the lack of common methodologies and sufficient resources (human, technical and financial) to forecast, measure, report, verify and compare (FMRVC) forest emissions over time and between countries are a major weak point of REDD+.

This pilot project will use existing roads and expansion of accessibility, through the opening of new roads, as an early performance indicator for projects to reduce greenhouse gas emissions from deforestation and to strengthen Forest Law Enforcement, Governance and Trade (FLEGT). At the same time the pilot project will incorporate information on accessibility (e.g. road networks) into harmonised FMRVC methodologies as a way of improving the efficiency and reliability of REDD+ reporting, thus laying the groundwork for the post-2020 climate regime to be agreed at UNFCCC COP-21 in Paris in December 2015.

In tropical areas, satellite and land-based data indicate that the opening of a new road through a forest is generally followed by the building of secondary roads (paved or unpaved) that will then trigger more degradation and deforestation (conversion to agriculture or ranching). Scientific reports agree that most deforestation, fragmentation and forest degradation occurs in a 'risk zone' around infrastructure and access networks.

Therefore, building new roads is not only a major driver of deforestation and forest degradation; it can also be a cost-efficient indicator of likely forest emissions and biodiversity loss. Maps of roadless areas can be created from spatial information on infrastructure, including roads, and then overlapped with up-to-date forest maps to make an early assessment of the impact of Union sectoral policies and the efficiency of the REDD+ activities supported. This could also help meet a strategic Union target stemming from the UN Convention on Biological Diversity, namely that, by 2020, the rate of loss of all natural habitats, including forests, should be at least halved and, where feasible, brought close to zero, and degradation and fragmentation significantly reduced.

Assessing the impact of accessibility expansion can help in measuring performance in the five activities encompassed by REDD+ (deforestation, forest degradation, conservation, management, and enhancement of forest carbon stock). Additionally, road planning is an easily understandable strategic tool that can be used by both donors and beneficiaries of the REDD+ scheme, and it ties in with the international drivers of deforestation (including imports in the Union).

This appropriation should help deliver and cover the cost of:

- producing an up-to-date global map of roadless areas in forested regions, focusing on tropical forests (based on best available spatial data and satellite images); these maps should be made publicly available on a dedicated website,
- developing a prediction model for deforestation and forest degradation on the basis of existing roads and road-building forecasts in priority areas,
- compiling a brochure on the impact of Union sectoral policies (e.g. infrastructure, agriculture and mining) on tropical deforestation and forest degradation,
- presenting the above deliverables in workshops and symposiums (in particular as side events during the UNFCCC and CBD COPs) and disseminating the relevant material.

#### Remarks

The appropriations in the Title 'Reserves' are intended for two circumstances only: (a) where no basic act exists for the action concerned when the budget is established; and (b) where there are serious grounds for doubting the adequacy of the appropriations or

the possibility of implementing, under conditions consonant with sound financial management, the appropriations entered in the lines concerned. The appropriations entered in this article may be used only after transfer in accordance with the procedure laid down in Article 27 of the Financial Regulation.

*Legal basis*

Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

*Remarks*

The Emergency aid reserve (EAR) is intended to allow for a rapid response to specific aid requirements of third countries following events which could not be foreseen when the budget was established, first and foremost for humanitarian operations, but also for civil crisis management and protection, and situations of particular pressure resulting from migratory flows at the Union's external borders where circumstances so require.

The annual amount of the reserve is fixed at EUR 280 000 000 (2011 prices) and may be used up to year n+1 in accordance with the Financial Regulation. The reserve shall be entered in the general budget of the Union as a provision. The portion of the annual amount stemming from the previous year shall be drawn on first. That portion of the annual amount from year n which is not used in year n+1 shall lapse.

### Remarks

The aim of this reserve is to cover the EGF so as to enable the Union to demonstrate solidarity towards, and to support workers made redundant and self-employed persons whose activity has ceased as a result of major structural changes in world patterns due to globalisation, as a result of the continuation of the global financial and economic crisis addressed in Regulation (EC) No 546/2009, or as a result of a new global financial and economic crisis and to provide financial support for their rapid reintegration into sustainable employment.

The methods for entering the appropriations in this reserve and for mobilising the Fund are laid down in point 13 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management (OJ C 373, 20.12.2013, p. 1).

### Legal basis

Regulation (EU) No 1309/2013 of the European Parliament and of the Council of 17 December 2013 on the European Globalisation Adjustment Fund (2014-2020) and repealing Regulation (EC) No 1927/2006 (OJ L 347, 20.12.2013, p. 855), and in particular Article 1 thereof.

### Reference acts

## Annex A — COMMISSION — ANNEXES

### Annex A1 — COMMISSION — ANNEXES

#### 2. ANNEX I — European Economic Area

Under the Agreement establishing the European Economic Area the EFTA States (with the exception of Switzerland) take part in a wide range of Union policies covered by subheading 1a and headings 2, 3, 4 and 5 of the multiannual financial framework in exchange for a financial contribution to operating appropriations calculated by applying a ‘proportionality factor’. This proportionality factor is equal to the sum of the ratios obtained by dividing the gross domestic product at market prices of each EFTA State by the gross domestic product at market prices of all the Member States plus that of the EFTA State concerned.

For 2015 the proportionality factor is estimated at 2,97 % (on the basis of 2013 figures), i.e. 2,86 % for Norway, 0,08 % for Iceland and 0,03 % for Lichtenstein.

These financial contributions will not be formally entered into the budget; each budget heading relating to activities in which the EFTA States take part will refer to the EFTA contribution as a memorandum item. A summary table, listing the budget headings concerned and the amounts of the EFTA contribution for each budget heading, is published as an annex to the general budget of the Union. The total EFTA contribution for the operational part for 2015 is estimated at about EUR **395 162 920** in commitment appropriations. The EFTA States will also share in the administrative expenditure directly linked to the implementation of these policies. The figures and budget headings concerning the contributions by the EFTA States are still to be discussed with them and must therefore be regarded as provisional.

## 4. ANNEX III — Borrowing-and-lending operations — Borrowing-and-lending operations guaranteed by the Union budget (by way of indication)

### 4.1. ANNEX III01 — A. INTRODUCTION

This Annex is drawn up in accordance with Article 35(1) of Regulation (EU, Euratom) No 966/2012 of the European Parliament and of the Council of 25 October 2012 on the financial rules applicable to the general budget of the Union and repealing Council Regulation (EC, Euratom) No 1605/2002 (OJ L 298, 26.10.2012, p. 1).

It provides information on the amounts of the borrowing-and-lending operations guaranteed by the Union budget: loans for balance-of-payments support, borrowing operations to provide macro-financial assistance to third countries, Euratom borrowings to contribute to the financing required for improving the degree of efficiency and safety of nuclear power stations in certain third countries and European Investment Bank loans in certain third countries.

At 31 December 2013, outstanding operations covered by the Union budget totalled EUR 82 799 439 792; of that total EUR 59 129 520 353 was inside the Union and EUR 23 669 919 439 outside (rounded figures and exchange euro rate applicable at 31 December 2013).

#### **4.2.1.2. B I 2 — 2. Description**

In accordance with Regulation (EC) No 332/2002, the Union may grant loans to Member States which are experiencing, or are seriously threatened with, difficulties in their balance of current payments or capital movements. Only Member States which have not adopted the euro may benefit from this facility. The outstanding amount of loans was limited to EUR 12 000 000 000 in principal.

On 2 December 2008, the Council decided to extend the facility to EUR 25 000 000 000.

On 4 November 2008, the Council decided to provide Community medium-term financial assistance for Hungary in the form of a medium-term loan of a principal of up to EUR 6 500 000 000 for a maximum average maturity of 5 years.

On 20 January 2009, the Council decided to provide Community medium-term financial assistance for Latvia in the form of a medium-term loan of a principal of up to EUR 3 100 000 000 for a maximum average maturity of 7 years.

On 6 May 2009, the Council decided to provide Community medium-term financial assistance for Romania in the form of a medium-term loan of a principal of up to EUR 5 000 000 000 for a maximum average maturity of 5 years.

On 18 May 2009, the Council decided to extend the facility to EUR 50 000 000 000.

On 22 October 2013, the Council decided to make available to Romania precautionary medium-term financial assistance amounting to a maximum of EUR 2 000 000 000 in the form of a loan with a maximum average maturity of 8 years.

#### **4.2.1.3. B I 3 — 3. Effect on the budget**

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. As at 31 December 2013 the outstanding amount under this instrument is EUR 11 400 000 000.

Council Implementing Decision 2013/323/EU of 21 June 2013 amending Implementing Decision 2011/344/EU on granting Union financial assistance to Portugal (OJ L 175, 27.6.2013, p. 47).

Council Implementing Decision 2013/525/EU of 22 October 2013 amending Implementing Decision 2011/77/EU on granting Union financial assistance to Ireland (OJ L 282, 24.10.2013, p. 71).

#### **4.2.2.2. B II 2 — 2. Description**

Article 122(2) of the Treaty on the Functioning of the European Union provides for the possibility of the Union granting financial assistance to a Member State which is in difficulties or is seriously threatened with severe difficulties caused, inter alia, by exceptional occurrences beyond its control.

The guarantee provided by the Union is for borrowings raised on the capital markets or from financial institutions.

In accordance with Article 2(2) of Council Regulation (EU) No 407/2010, the outstanding amount of loans and credit lines granted to Member States under the European financial stabilisation mechanism shall be limited to the margin available under the Union's own resources for payment appropriations.

This item constitutes the structure for the guarantee provided by the Union. It will enable the Commission to service the debt should debtors default.

In order to honour its obligations, the Commission may draw on its cash resources to service the debt provisionally. Article 12 of Council Regulation (EC, Euratom) No 1150/2000 of 22 May 2000 implementing Decision 2007/436/EC, Euratom on the system of the European Communities own resources (OJ L 130, 31.5.2000, p. 1) shall apply.

On 7 December 2010, the Union decided to make available to Ireland a loan amounting to a maximum of EUR 22 500 000 000, with a maximum average maturity of 7,5 years (OJ L 30, 4.2.2011, p. 34).

On 30 May 2011, the Union decided to make available to Portugal a loan amounting to a maximum of EUR 26 000 000 000 (OJ L 159, 17.6.2011, p. 88).

On 11 October 2011, the Council decided to amend Implementing Decisions 2011/77/EU and 2011/344/EU by extending the maturities and applying the reduction of the interest rate margin to all the tranches that have already been disbursed (OJ L 269 of 14.10.2011, p. 31 regarding Ireland (2011/682/EU) and p. 32 regarding Portugal (2011/683/EU)).

On 21 June 2013, the Council decided to amend Implementing Decision 2011/77/EU by extending the average loan maturity and providing the possibility to extend instalment maturities at the request of Ireland (OJ L 173, 26.6.2013, p. 40).

On 21 June 2013, the Council decided to amend Implementing Decision 2011/77/EU by extending the average loan maturity and providing the possibility to extend instalment maturities at the request of Portugal. In addition, measures to be adopted by the country in line with specification in the Memorandum of Understanding were specified (OJ L 175, 27.6.2013, p. 47).

On 22 October 2013, the Council decided to amend Implementing Decision 2011/77/EU by extending the availability of the financial assistance granted to Ireland (OJ L 282, 24.10.2013, p. 71).

#### **4.2.2.3. B II 3 — 3. Effect on the budget**

Since both parts of these borrowing-and-lending operations are carried out on identical terms, they affect the budget only if the guarantee is activated in case of default. At 31 December 2013 the outstanding amount under this instrument is EUR 43 800 000 000.

### **4.2.3. B III — III. EUROPEAN UNION GUARANTEE FOR BORROWING PROGRAMMES CONTRACTED BY THE UNION TO PROVIDE FINANCIAL ASSISTANCE FOR MEDITERRANEAN THIRD COUNTRIES**

#### **4.2.3.1. B III 1 — 1. Legal basis**

Council Decision 2007/860/EC of 10 December 2007 providing macro-financial assistance to Lebanon (OJ L 337, 21.12.2007, p. 111).

Decision 1351/2013/EU of the European Parliament and of the Council of 11 december 2013 on providing macro-financial assistance to the Hashemite Kingdom of Jordan (OJ L 341, 11.12.2013, p. 4).

#### **4.2.3.2. B III 2 — 2. Description**

On 10 December 2007, the Council decided to grant a European Union guarantee for a borrowing-and-lending operation for Lebanon in the form of a long-term loan for a maximum amount of EUR 50 000 000 in principal for a maximum duration of 10 years. The first tranche of EUR 25 000 000 was disbursed in 2009.

On 11 December 2013, the European Parliament and the Council decided to make macro-financial assistance available to Jordan in the form of loans for a maximum amount of EUR 180 000 000 and with a maximum maturity of 15 years, to cover Jordan's balance of payments needs as identified in the IMF programme.

#### **4.2.3.3. B III 3 — 3. Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

#### **4.2.4. B IV — IV. EUROPEAN UNION GUARANTEE FOR BORROWING PROGRAMMES CONTRACTED BY THE UNION TO PROVIDE FINANCIAL ASSISTANCE FOR THIRD COUNTRIES IN CENTRAL AND EASTERN EUROPE**

##### **4.2.4.1. B IV 1 — 1. Legal basis**

Council Decision 1999/732/EC of 8 November 1999 providing supplementary macro-financial assistance to Romania (OJ L 294, 16.11.1999, p. 29).

##### **4.2.4.2. B IV 2 — 2. Description**

On 8 November 1999, the Council decided to grant Romania macro-financial assistance in the form of a long-term loan of a principal of up to EUR 200 000 000 for a maximum period of 10 years (ROMANIA IV). The first tranche of EUR 100 000 000 was paid on 29 June 2000. A second tranche of EUR 50 000 000 was paid on 17 July 2003.

##### **4.2.4.3. B IV 3 — 3. Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

From 1 January 2007, loans with Bulgaria and Romania cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

Council Decision 77/270/Euratom of 29 March 1977 empowering the Commission to issue Euratom loans for the purpose of contributing to the financing of nuclear power stations (OJ L 88, 6.4.1977, p. 9).

##### **4.2.7.2. B VII 2 — 2. Description**

Pursuant to Decision 94/179/Euratom (OJ L 84, 29.3.1994, p. 41), the European Union extends the scope of Euratom borrowings under Decision 77/270/Euratom to the improvement of the degree of efficiency and safety of nuclear power stations in the countries of central and eastern Europe and the Commonwealth of Independent States.

The maximum amount of Euratom borrowings for the Member States and third countries remains fixed at EUR 4 000 000 000.

In 2000 the Commission decided on a loan for Kozloduy in Bulgaria (EUR 212 500 000) and the last instalment was in 2006. In 2000 the Commission granted a loan to K2R4 in Ukraine but reduced the loan amount to the EUR equivalent of USD 83 000 000 in 2004. K2R4 was granted a loan of EUR 39 000 000 (first tranche) in 2007, USD 22 000 000 in 2008, and USD 10 335 000 in 2009 under the 2004 Commission Decision. In 2004 the Commission decided on a loan for Cernavodă in Romania (EUR 223 500 000). A first instalment of EUR 100 000 000 and a second one of EUR 90 000 000 were disbursed in 2005 and the last one of EUR 33 500 000 in

#### **4.2.7.3. B VII 3 — 3. Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

From 1 January 2007, loans with Bulgaria and Romania cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

#### **4.2.8.2. B VIII 2 — 2. Union budget guarantee**

Pursuant to the Council Decision of 8 March 1977, the Union guarantees loans to be granted by the European Investment Bank as part of the Union's financial commitments towards the Mediterranean countries.

This decision was the basis for the contract of guarantee signed by the European Economic Community and the European Investment Bank on 30 October 1978 in Brussels and 10 November 1978 in Luxembourg introducing a global guarantee of 75 % of all appropriations made available for loans in the following countries: Malta, Tunisia, Algeria, Morocco, Portugal (Financial Protocol, emergency aid), Turkey, Cyprus, Egypt, Jordan, Syria, Israel, Greece, former Yugoslavia and Lebanon.

The contract of guarantee is extended for each new Financial Protocol.

Decision 97/256/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 25 July 1997 and in Luxembourg on 29 July 1997 setting up a guarantee restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 1999/786/EC was the basis for a contract of guarantee between the European Community and the European Investment

Bank signed in Brussels on 18 April 2000 and in Luxembourg on 23 May 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2000/24/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 19 July 2000 and in Luxembourg on 24 July 2000 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC was the basis for a contract of guarantee between the European Community and the European Investment Bank signed in Luxembourg on 1 August 2007 and in Brussels on 29 August 2007 setting up a guarantee restricted to 65 % of the aggregate amount of credits disbursed and guarantees provided in respect of EIB financing operations less amounts reimbursed, plus all related sum. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk-operations).

### **4.2.8.3. B VIII 3 — 3. Description**

Under the Financial Protocols concluded with Mediterranean third countries, global amounts are laid down for loans to be granted by the European Investment Bank from its own funds. The European Investment Bank grants the loans for purposes which may contribute to the economic and social development of the countries in question (transport infrastructures, ports, water supply, production and distribution of energy, agricultural projects and promotion of small and medium-sized businesses).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 2 310 000 000 is for the abovementioned Mediterranean countries. It covered a period of three years beginning on 31 January 1997 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 29 November 1999, the Council decided to grant a Community guarantee to the European Investment Bank against losses under loans for projects for the reconstruction of the earthquake-stricken areas of Turkey. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 600 000 000 and covered a period of three years beginning on 29 November 1999 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 22 December 1999, the Council, acting on the basis of a Commission proposal and after consulting the European Parliament, decided once again to grant the European Investment Bank the Community guarantee against losses resulting from loans for projects carried out in the following Mediterranean countries: Algeria, Cyprus, Egypt, Israel, Jordan, Lebanon, Malta, Morocco, Syria, Tunisia, Turkey, Gaza and the West Bank. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is limited to 65 % of the total value of the appropriations made available plus all the related amounts. It covers a period of seven years from 1 February 2000 to 31 January 2007. As at the end of that period the loans granted by the European Investment Bank had not reached the abovementioned total values, the period has automatically been extended by six months.

On 4 December 2000, the Council decided to establish a European Investment Bank special action programme in support of the consolidation and intensification of the EC-Turkey Customs Union. The value of those loans is limited to an overall ceiling of EUR 450 000 000.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Mediterranean countries: Algeria, Egypt, West Bank and Gaza, Israel, Jordan, Lebanon, Libya (eligibility to be decided by the Council), Morocco, Syria, Tunisia. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007

and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %.

Decision 2006/1016/EC has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

#### **4.2.8.4. B VIII 4 — 4. Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default,
- the granting, in a series of cases, of interest-rate subsidies of 2 % in non-repayable aid, subject to the overall amounts laid down by the Financial Protocols.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

#### **4.2.9.3. B IX 3 — 3. Description**

In response to a call made by the Council on 9 October 1989, the Board of Governors of the European Investment Bank decided on

29 November 1989 to authorise the Bank to provide loans from its own resources to finance investment projects in Hungary and Poland for a total amount not exceeding EUR 1 000 000 000. These loans are granted to finance investment projects which satisfy the Bank's usual requirements for loans from its own resources.

On 14 May 1991 and 15 March 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided that this guarantee should be extended to any loans that the European Investment Bank might make in the other countries of central and eastern Europe (Czechoslovakia, Bulgaria and Romania) over a period of 2 years up to a maximum of EUR 700 000 000.

On 13 December 1993, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew for 3 years the Community guarantee for EUR 3 000 000 000 in European Investment Bank loans for projects in Poland, Hungary, the Czech Republic, the Slovak Republic, Romania, Bulgaria, Estonia, Latvia, Lithuania and Albania.

The budget guarantee covers all aspects of debt-servicing (repayment of capital, interest, related costs) in connection with these loans.

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in Albania, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 3 520 000 000 is for the abovementioned countries of central and eastern Europe. It covers a period of 3 years beginning on 31 January 1997. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 19 May 1998, the Council decided to grant a Community guarantee to the European Investment Bank against losses under loans for projects in the former Yugoslav Republic of Macedonia. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 150 000 000 for a period of 2 years beginning on 1 January 1998. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

On 14 December 1998, the Council decided to amend Decision 97/256/EC in order to extend the Community guarantee to the European Investment Bank to loans for projects in Bosnia and Herzegovina. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is EUR 100 000 000 for a period of two years beginning on 22 December 1998. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in Albania, the former Yugoslav Republic of Macedonia, Bosnia and Herzegovina, Bulgaria, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Romania, Slovak Republic and Slovenia. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

On 7 November 2000, the Council decided to extend the guarantee granted by the Community to the European Investment Bank to loans for projects in Croatia.

On 6 November 2000, the Council decided to extend the guarantee granted by the Community to the European Investment Bank to loans for projects in the Federal Republic of Yugoslavia.

Decision 2005/47/EC restructured the Mediterranean regional mandate to exclude Cyprus, Malta and Turkey which were included in the South Eastern Neighbours mandate.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following candidates: Croatia, Turkey, the former Yugoslav Republic of Macedonia and potential candidate countries: Albania, Bosnia and Herzegovina, Serbia, Kosovo. The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of 6 months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and

guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

#### **4.2.9.4. B IX 4 — 4. Effect on the budget**

Since the entry into force of Council Regulation (EC, Euratom) No 2728/94 of 31 October 1994 establishing a Guarantee Fund for external actions (OJ L 293, 12.11.1994, p. 1), any defaults are covered by this Fund within the limit of the amount available.

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

Loans with new Member States cease to be external actions (see Regulation (EC, Euratom) No 2273/2004 (OJ L 396, 31.12.2004, p. 28)) and are therefore covered directly by the Union budget and no longer by the Fund.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

#### **4.2.10.3.B X 3 — 3. Description**

Pursuant to Decision 93/115/EEC the Union guarantees, on a case-by-case basis, loans made by the European Investment Bank in third countries with which the European Union has concluded cooperation agreements.

Decision 93/115/EEC set an overall limit of EUR 250 000 000 a year for a period of 3 years.

On 12 December 1996 the Council granted the EIB a 100 % Community guarantee for loans for projects of mutual interest in certain third countries (Asian and Latin American developing countries) with which the Community has concluded cooperation agreements. This guarantee was restricted to an overall ceiling of EUR 275 000 000 to be granted in 1996 (with a possible extension of six months).

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Macao, Malaysia, Mongolia, Pakistan, Philippines, Singapore, Sri Lanka, Thailand and Vietnam. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 900 000 000 is for the abovementioned countries of Asia and Latin America. It covered a period of 3 years beginning on 31 January 1997 (with a possible extension of six months).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council decided to renew the Community guarantee to the European Investment Bank for loans for projects in the following countries of Asia and Latin America: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, Uruguay, Venezuela, Bangladesh, Brunei, China, India, Indonesia, Laos, Macao, Malaysia, Mongolia, Nepal, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Thailand, Vietnam and Yemen. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period of seven years beginning on 1 February 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by six months.

The European Investment Bank is invited to aim to cover the commercial risk on 30 % of its lending from non-sovereign guarantees. This percentage is to be increased whenever possible, in so far as the market allows.

Decision 2005/47/EC was the basis for a restated and amended contract of guarantee between the European Community and the European Investment Bank signed in Brussels on 30 August 2005 and in Luxembourg on 2 September 2005 setting up a guarantee

restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums.

Decision 2006/1016/EC grants a Community guarantee to the EIB against losses under loans and loan guarantees for projects outside the Community for loans in the following Latin America countries: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, El Salvador, Guatemala, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay, Venezuela and in the following Asia countries: Afghanistan\*, Bangladesh, Bhutan\*, Brunei, Cambodia\*, China, India, Indonesia, Iraq\*, South Korea, Laos, Malaysia, Maldives, Mongolia, Nepal, Pakistan, the Philippines, Singapore, Sri Lanka, Taiwan\*, Thailand, Vietnam, Yemen and Central Asia countries: Kazakhstan\*, Kyrgyzstan\*, Turkmenistan\*, Uzbekistan\* (\*: eligibility to be decided by the Council). The overall ceiling of the appropriations made available for all countries under Decision 2006/1016/EC is equivalent to EUR 27 800 000 000 and covers the period beginning on 1 February 2007 and ending on 31 December 2013 with a possible extension of six months. The Community guarantee is restricted to 65 %. This Decision has been replaced by Decision No 633/2009/EC of the European Parliament and of the Council.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

The effect on the budget is thus limited to:

- one annual payment to or, exceptionally, from the Fund to maintain its target amount of 9 % of the guaranteed operations,
- activation of the budget guarantee should the debtor default.

Decision No 1080/2011/EU, which entered into force on 30 October 2011, increased the aggregate amount of credits disbursed and guarantees provided under EIB financing operations from EUR 25 800 000 000 to EUR 29 484 000 000 (EUR 2 000 000 000 for financing of climate change operations and EUR 1 684 000 000 for enhancing EIB risk operations).

#### **4.2.12.3.B XII 2 — 3. Description**

In accordance with the provisions of Decision 95/207/EC, the Union will guarantee European Investment Bank loans to South Africa up to a maximum total amount of EUR 300 000 000.

The budget guarantee covers all the debt-servicing (repayment of principal, interest and ancillary costs) in connection with these loans.

On 14 April 1997, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the Republic of South Africa. The guarantee is restricted to 70 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling of the appropriations made available is equivalent to EUR 7 105 000 000, of which EUR 375 000 000 is for the Republic of South Africa. It covered a period of three years beginning on 1 July 1997 (with a possible 6-month extension).

The European Investment Bank is invited to aim to cover the commercial risk on 25 % of its lending from non-sovereign guarantees.

On 22 December 1999, the Council, acting on a proposal from the Commission and after consulting the European Parliament, decided to renew the Community guarantee to the European Investment Bank for loans for projects in the Republic of South Africa. The guarantee is restricted to 65 % of the aggregate amount of the appropriations made available, plus all related sums. The overall ceiling

of the appropriations made available for all countries under Decision 2000/24/EC is equivalent to EUR 19 460 000 000. It covers a period beginning on 1 July 2000 and ending on 31 January 2007. As at the end of that period, the loans granted by the European Investment Bank had not attained the overall amounts referred to above, the period has been automatically extended by 6 months.

#### 4.4.1. D I — Technical notes on Tables

Exchange rate: the amounts in column 2 ‘Equivalent at date of signature’ are converted at the rate applicable on the date of signature. As regards refinancing operations, Table 1 shows both the initial operation (e.g. in 1979) and the replacement operation (e.g. in 1986), the amount for the latter being converted at the rate of the initial operation. The resulting duplication affects the annual figures but is eliminated in the total.

All other amounts are converted at the rate applicable at 31 December 2012.

Column 3 ‘Initial amount received/paid up to 31 December 2012’: with reference to 1986, for example, this column shows the cumulative total of all amounts received up to 31 December 2012 under loans signed in 1986 (Table 1), including refinancing (which produces some duplication).

Column 4 ‘Amount outstanding at 31 December 2012’: these are net figures, with no duplication as a result of refinancing operations. They are obtained by subtracting from the column 3 figure the cumulative total of repayments made up to 31 December 2012, including repayments in respect of refinancing operations (total not given in the tables).

Column 7 = column 4 - column 5.

MFA 2011: following the Loan Agreement signed by Montenegro on 9 February 2010 pursuant to Council Decision 2008/784/EC of 2 October 2008 establishing a separate liability of Montenegro, the loans initially granted to Serbia and Montenegro in 2001, 2003 and 2005 have been re-initiated with a virtual starting date in 2011 in order to implement the splitting of the countries.

## 5. ANNEX IV — ANNEX IV - Information on financial instruments in accordance with Article 49(1)(e) of the Financial Regulation

### 5.1. ANNEX IV 01 — Introduction

This Annex is drawn up in accordance with Article 49(1)(e) of the Financial Regulation.

It provides information on both the financial instruments prior to 2014 managed by the Commission with a budgetary impact in terms of payment appropriations in 2014 onwards and the 2014-2020 financial instruments managed by the Commission with a budgetary impact starting in 2014 under the Multiannual Financial Framework (MFF) 2014-2020 included in the proposals for basic act.

More quantitative information on the instruments can be found in the Working Document on financial instruments accompanying draft budget according to Article 38(5) of the Financial Regulation.

Decision No 1639/2006/EC of the European Parliament and of the Council of 24 October 2006 establishing a Competitiveness and Innovation Framework Programme (2007 to 2013) (OJ L 310, 9.11.2006, p. 15).

(ii) *Budget lines corresponding to the relevant operations*

Article 01 04 04 — Competitiveness and Innovation Framework Programme — Entrepreneurship and Innovation Programme (in 2013 budget nomenclature).

Article 01 04 51 – Completion of programmes in the field of small and middle-sized enterprises (SMEs) (prior to 2014) (in 2014 budget nomenclature<sup>43</sup>).

---

43 The article 01 04 51 also includes the multiannual programme for enterprise and entrepreneurship, and in particular for small and medium-sized enterprises (SMEs) (2001-2005).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

Financial instruments are part of the Entrepreneurship and Innovation Programme (EIP), one of the three specific programmes under the Competitiveness and Innovation Framework Programme (CIP)<sup>44</sup>.

The overall objective of the financial instruments under the CIP is the improvement of access to finance for the start-up and growth of small and medium-sized enterprises (SMEs) in order to support their investment in innovation activities, including eco-innovation. This is done by increasing investment volumes of risk capital funds and other investment vehicles.

The High Growth and Innovative SME Facility (GIF) is implemented by the European Investment Fund (EIF) on behalf of the Commission. It aims to increase the supply of equity for innovative SMEs in their early stages (GIF1) and in the expansion phase (GIF2). Investment proposals by financial intermediaries are selected on the basis of a notice of implementation (OJ C 302, 14.12.2007, p.8).

The CIP market-oriented instruments have shown high efficiency and relevance to address the current market conditions, dominated in the recent years by a tightening of credit conditions and more difficult access to finance for SMEs. The GIF is a venture capital facility focused and targeted on a relatively limited number of companies that have the potential to achieve high growth, to bring innovation to the market and to create high added value jobs.

For the entire period as of December 2013 (latest available figures), GIF programme achievements were the following:

Number of final recipients: 349

Actual intermediary size: EUR 2 768 million

Number of employees at final recipients at date of first investment (data from Employment Report as at 31/12/2012): 6 844

Number of jobs created or maintained (the information is available on the number of employees at the initial and final date):

— GIF number of employees at date of first investment: 6 844

— GIF number of employees at the final date 31/12/2012: 9 908

As regards the duration, the commitment period for GIF ended on 31 December 2013 but the instruments will exist until the winding up after 2026.

The total budgetary commitments for the CIP financial instruments for the whole period of 2007-2013 were foreseen to be EUR 1,13 billion, with an original indicative split of EUR 620 million for GIF (including eco-innovation) and EUR 510 million for the SME Guarantee Facility.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The budgetary payments for 2014 amount to EUR 2 million for the High Growth and Innovative SME Facility.

No further budgetary commitments have been made by the Commission since the end of the commitment period, i.e. 31 December 2013.

The aggregate budgetary commitments for 2007-2013 amounted to EUR 605.7 million. The leverage effect on GIF is expected to be 5 which means that the impact of the aggregate budgetary commitments on the overall economy is expected to reach EUR 3,028 million of lending to beneficiary SMEs.

### **5.3.1.2. ANNEX IV 03 01 02 — Equity Facility for Growth under the Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME) — 2014 to 2020**

**(i) Reference to the basic act**

Regulation (EU) No 1287/2013 of the European Parliament and of the Council of 11 December 2013 establishing a Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME) (2014-2020) (OJ L 347, 20.12.2013, p. 33).

**(ii) Budget lines corresponding to the relevant operation**

Article 02 02 02 — Improving access to finance for small and middle-sized enterprises (SMEs) in the form of equity and debt (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The Equity Facility for Growth (EFG) shall focus on funds that provide venture capital and mezzanine finance, such as subordinated and participating loans, to expansion and growth-stage enterprises, in particular those operating across borders, while having the possibility to make investments in early stage enterprises in conjunction with the Equity Facility for Research, Development and Innovation (RDI) under Horizon 2020.

In the latter case, the investment from EFG shall not exceed 20 % of the total EU investment except in cases of multi-stage funds, where funding from EFG and the Equity Facility for RDI will be provided on a pro rata basis, based on the funds' investment policy. The Commission may decide to amend the 20% threshold in light of changing market conditions.

The EFG may include seed funding, angel funding and quasi-equity financing subject to market demand but exclude asset stripping.

Support shall be in the form of direct investments made by the entrusted entity in Financial Intermediaries that provide equity or quasi-equity financing to SMEs. The overall policy objective is to provide enhanced access to risk capital for which significant market gaps exist in Europe and to support the development of a pan-European risk capital market. The later will be achieved by focusing predominantly on those risk capital funds which invest cross-border.

The implementation of the EFG will occur through an entrusted entity which will be the European Investment Fund (EIF) subject to the successful conclusion of a delegation agreement with the Commission.

The delegation agreement will ensure that the EGF is accessible for a broad range of financial intermediaries provided that these are professionally and independently managed and display the capacity to successfully support SMEs in their growth and expansion phase.

From a technical point of view, the EIF will be instructed to invest on a pari-passu basis with other private and public investors. Target final recipients are SMEs of all sizes without a specific sector focus.

The duration of the equity instrument is planned to last until 31 December 2034 (until last operations are wound down). Estimated budget allocation for the total programming period is foreseen to be EUR 663 million.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

Estimated budget allocation for 2014: EUR 51 million.

---

44 Decision No 1639/2006/EC of the European Parliament and of the Council of 24 October 2006 establishing a Competitiveness and Innovation Framework Programme (2007-2013) (OJ L 310, 9.11.2006, p. 15).

The leverage effect indicated in the COSME programme is in the 4-6 range for the equity instrument over the lifetime of the programme.

Based on the leverage targets of COSME, it is estimated that the total amount of venture capital investments mobilised would range from EUR 204 million to EUR 306 million for the 2014 budget. These numbers refer to investments made during the life-time of venture capital funds in which COSME investments were authorised under the 2014 budget.

### **5.3.1.3. ANNEX IV 03 01 03 — The Equity Facility (early-stage capital) for Research and Innovation of Horizon 2020 — 2014 to 2020**

**(i) Reference to basic act**

Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in ‘Horizon 2020 - the Framework Programme for Research and Innovation (2014-2020)’ and repealing Regulation (EC) No 1906/2006 (OJ L 347, 20.12.2013, p. 81).

Regulation (EU) No 1291/2013 of the European Parliament and of the Council of 11 December 2013 establishing Horizon 2020 — The Framework Programme for Research and Innovation (2014-2020) (OJ L 347, 20.12.2013, p. 104).

Council Decision 2013/743/EU of 3 December 2013 establishing the Specific Programme Implementing Horizon 2020 — The Framework Programme for Research and Innovation (2014-2020) and repealing Decisions 2006/971/EC, 2006/972/EC, 2006/973/EC, 2006/974/EC and 2006/975/EC (OJ L 347, 20.12.2013, p. 965).

**(ii) Relevant budget lines**

Item 08 02 02 02 — Enhancing access to risk finance for investing in research and innovation (in 2014 budget nomenclature).

**(iii) General description of the Financial Instrument including the duration and the impact on budget**

A Union-level Equity facility for Research and Innovation (‘R&I’) is needed to help improve the availability of equity finance for early and growth-stage investments and to boost the development of the Union venture capital market.

The goal is to contribute to overcoming the deficiencies of the European venture capital market and provide equity and quasi-equity to cover the development and financing needs of innovative enterprises from the seed stage through to growth and expansion.

The Equity Facility will focus on early-stage risk capital funds providing venture capital and quasi-equity (including mezzanine capital) to individual portfolio enterprises. The facility will also have the possibility to make expansion and growth-stage investments in conjunction with the Equity Facility for Growth under the programme for the Competitiveness of Enterprises and SMEs (COSME), to ensure a continued support during the start-up and development of companies.

In the latter case, the investment from the Equity Facility of Horizon 2020 shall not exceed 20 % of the total EU investment except in cases of multi-stage funds, where funding from EFG and the Equity facility for RDI will be provided on a pro rata basis, based on the funds’ investment policy. Like the EFG, the Equity Facility shall avoid buy-out or replacement capital intended for the dismantling of an acquired enterprise.

The overall policy objective is to provide enhanced access to risk capital for which significant market gaps exist in Europe and to support the development of a pan-European risk capital market.

In terms of Union added value, the Equity Facility for R&I will complement national schemes that cannot cater for cross-border investments in R&I. The early-stage deals will also have a demonstration effect that can benefit public and private investors across Europe. For the growth phase only at European level it is possible to achieve the necessary scale and the strong participation of private investors that are essential to the functioning of a self-sustaining venture capital market.

The implementation of the direct investments under this facility will be entrusted to the European Investment Fund (EIF) in Luxembourg.

The delegation agreement to be signed with the entrusted entity will ensure that the early-stage equity facility under Horizon 2020 is accessible for a broad range of financial intermediaries provided that these are professionally and independently managed and display the capacity to successfully support portfolio companies in their early-stage development and growth.

From a technical point of view, the entrusted entity will be instructed to invest on a pari-passu basis with other private and public investors. The target final recipients are early-stage companies (notably SMEs or small midcaps) without a specific sector focus.

The duration of the equity instrument will not exceed the year 2035 (until last operations are wind-down).

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

Foreseen budget allocation for the year 2014: EUR 40 million.

The envisaged leverage effect of the Equity Facility of Horizon 2020 will be in the range of 4-6 depending on the type of investments and the form of cooperation with venture capital funds and/ or knowledge transfer investors. The expected total investment triggered by the budgetary contribution of 2014 to Equity Facility of Horizon 2020 should be in the range of EUR 160-240 million.

### **5.3.1.4. ANNEX IV 03 01 04 — Connecting Europe Facility (CEF) Equity Instrument — 2014 to 2020**

**(i) Reference to the basic act**

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility (OJ L 348, 20.12.2013, p. 129).

**(ii) Budget lines corresponding to the relevant operation**

This instrument will be covered by the following budget lines:

- Item 06 02 01 05 — Creating an environment more conducive to private investment for transport infrastructure projects,
- Article 09 03 02 — Creating an environment more conducive to private investment for telecommunications infrastructure projects,
- Item 32 02 01 04 — Creating an environment more conducive to private investment for energy projects.

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

### *CEF financial instruments*

The objective of the financial instruments under the Connecting Europe Facility is to facilitate infrastructure projects' access to project and corporate financing by using Union funding as leverage. They shall help finance projects of common interest with a clear EU added value, and to facilitate greater private sector involvement in the long-term financing of such projects in the field of transport, energy and telecommunications, including broadband networks.

They shall benefit projects with medium- to long-term financing needs and shall produce greater benefits in terms of market impact, administrative efficiency and resource utilisation.

In addition, these instruments shall provide to infrastructure stakeholders such as financiers, public authorities, infrastructure managers, construction companies and operators a coherent market oriented toolbox of EU financial support.

#### *CEF Equity Instrument:*

The goal of the Equity Instrument shall be to contribute to overcoming the deficiencies of European capital markets by providing equity and quasi-equity investments to European projects. The instrument is being designed according to the main elements that are already defined in the basic act.

The maximum amounts of the Union contribution shall be limited as follows:

- 33 % of the target equity fund size, or
- the co-investment by the Union in a project shall not exceed 30 % of the total equity of a company.

With regards to its implementation, it is envisaged to be done through Entrusted Entities selected in accordance with the Financial Regulation.

The Union contribution shall be used:

- towards equity participations, and
- to cover agreed fees and costs associated with the establishment and management of the Equity Instrument, including its evaluation, which have been determined in line with the Financial Regulation and market practice,
- for directly related support actions.

*Duration of the Equity Instrument:* The last tranche of the Union contribution to the CEF Equity Instrument shall be committed by the Commission no later than 31 December 2020. The actual approval of equity investments by the entrusted entities or the dedicated investment vehicles shall be finalised by 31 December 2022. The actual winding-down of the instrument will probably take place after 2032.

#### **(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The CEF instruments will target projects of common interest with a clear EU added value in the field of transport, energy and telecommunications, including broadband networks.

The total amount EU funds available for this instrument will be defined after the detailed instrument has been developed.

The expected leverage of the Equity Instrument — defined as the total funding (i.e. the Union contribution plus all contributions from other investors) divided by the Union contribution shall be expected in average to range from 5 to 10, depending on market specificities.

Article 01 04 51 — Completion of programmes in the field of small and middle-sized enterprises (SMEs) (prior to 2014) (in 2014 budget nomenclature)<sup>45</sup>.

#### **(iii) *General description of the financial instruments, including their duration and their impact on the budget***

Financial instruments are part of the Entrepreneurship and Innovation Programme (EIP), one of the three specific programmes under the Competitiveness and Innovation Programme (CIP)<sup>46</sup>.

The overall objective of the financial instruments under the CIP is the improvement of access to finance for the start-up and growth of small and medium-sized enterprises (SMEs) in order to support their investment in innovation activities, including eco-innovation. This is done by providing leverage to SME debt financing instruments to increase the supply of debt finance to SMEs.

The SME Guarantee Facility (SMEG 07) is operated by the EIF on behalf of the Commission. It provides counter- or co-guarantees to guarantee schemes and direct guarantees to Financial Intermediaries operating in eligible countries.

The CIP market-oriented instruments have shown high efficiency and relevance to address the current market conditions, dominated in the recent years by a tightening of credit conditions and more difficult access to finance for SMEs. The SME Guarantee Facility is a counter-cyclical instrument that helped final recipients to face the difficulties arising from the economic conditions since the crisis, namely to obtain or maintain access to finance and to create or maintain jobs over the period.

For the entire period of the programme as of 31 December 2013, SMEG07 achievements were the following:

- number of signed agreements with 51 financial intermediaries: 66;

---

<sup>45</sup> The article 01 04 51 also includes completion actions related to the multiannual programme for enterprise and entrepreneurship, and in particular for small and medium-sized enterprises (SMEs) (2001-2005).

<sup>46</sup> Decision No 1639/2006/EC of the European Parliament and of the Council of 24 October 2006 establishing a Competitiveness and Innovation Framework Programme (2007-2013), (OJ L310, 9.11.2006, p. 15).

- number of final recipients (supported SMEs): 311 633;
- total underlying loan amount: EUR 16 108,5 million;
- number of employees at final recipients (supported SMEs) at inclusion date: 1 094 609;
- number of jobs created or maintained: 311 633<sup>47</sup>

As regards the duration, the commitment period for the SME Guarantee facility ended on 31 December 2013 but the instrument will exist until the winding up after 2026.

The total budgetary commitments for the CIP financial instruments for the whole period of 2007-2013 were foreseen to be EUR 1,13 billion, with an original indicative split of EUR 620 million for GIF and EUR 510 million for the SMEG 07.

**(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The budgetary payments for 2014 amount to EUR 76,5 million for the SME Guarantee Facility.

No further budgetary commitments have been made by the Commission since the end of the commitment period, i.e. 31 December 2013.

The aggregate budgetary commitments for 2007-2013 amounted to EUR 637,8 million. As at 31/12/2013 (latest available figures), the leverage effect<sup>48</sup> on the SMEG 07 is around 31 which means that the impact of the aggregate budgetary commitment on the overall economy is expected to reach EUR 19 771,8 million of lending to beneficiary SMEs.

### **5.3.2.2. ANNEX IV 03 02 02 — European Progress Microfinance Guarantee Facility (EPMF-G) — Prior to 2014**

**(i) *Reference to the basic act***

Decision No 283/2010/EU of the European parliament and of the Council of 25 March 2010 establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 87, 7.4.2010, p. 1).

**(ii) *Budget lines corresponding to the relevant operations***

Article 04 04 15 — European Progress Microfinance Facility (in 2013 budget nomenclature).

Article 04 03 53 (in part) — Completion of other activities (in 2014 budget nomenclature).

**(iii) *General description of the financial instruments, including their duration and their impact on the budget***

The aim of the European Progress Microfinance Facility is twofold: on the one hand, it increases availability of microfinance for persons wishing to start up or develop their micro-enterprises, including for self-employment, in the sense that it enables microfinance providers in the EU to enlarge their lending volumes to these individuals. On the other hand, Progress Microfinance enhances access to microfinance by reducing microfinance providers' risk. This feature allows microfinance providers to reach out to groups who could normally not be served, for instance, because persons from these groups could not provide sufficient collateral or because the interest rates would have to be very high to justify their actual risk profile.

The Facility shall provide Union resources to increase access to, and availability of, microfinance for:

- (a) persons who have lost or are at risk of losing their job, or who have difficulties entering or re-entering the labour market, as well as persons who are facing the threat of social exclusion or vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who want to start or further develop their own micro-enterprise, including self-employment,
- (b) micro-enterprises, especially in the social economy, as well as micro-enterprises which employ persons referred to in point (a).

The financial contribution from the Union budget for the Facility for the period from 1 January 2010 to 31 December 2013 amounts to EUR 105 million, out of which EUR 25 million is foreseen for the EPMF Guarantee Facility (EPMF-G) and EUR 80 million for the EPMF Fonds Commun de Placement - Fonds d'Investissement Spécialisé (EPMF FCP-FIS).

The Facility is implemented by using the following types of actions, as appropriate:

- guarantees (EPMF-G),
- debt and equity instruments (FCP-FIS),
- support measures, such as communication activities, monitoring, control, audit and evaluation which are directly necessary for the effective and efficient implementation of Decision No 283/2010/EU and for the achievement of its objectives.

The micro-credit guarantee window shall remain in full force and effect until 31 December 2020.

For the entire period as of 30 September 2013 (latest data available as at writing date), EPMF achievements for the Guarantee Facility component of the programme were as follows:

- Number of micro-loans: 7,016;
- Total amount of micro-loans: EUR 64.49 million;
- Total number of employees (in the supported micro-SMEs), at first inclusion date: 8,684.

**(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

No further budgetary commitments have been made by the Commission since the end of the commitment period. The budgetary payments for 2014 amount to EUR 0,9 million for EPMF-G. The aggregate EPMF-G budgetary commitments for the period 2010 - 2013 amount to a total of EUR 23,6 million.

Given the expected leverage effect of 11,6, the target volumes of lending to beneficiary micro-enterprises are estimated to EUR 273,8 million for the EPMF Guarantee facility.

<sup>47</sup> This is an estimate based on the methodology outlined in the Final Evaluation of the Entrepreneurship and Innovation Programme – Final Report – April 2011, p. 22.

<sup>48</sup> Calculated as total loan volume received by the beneficiary SMEs / EU guarantee cap amount.

### 5.3.2.3. ANNEX IV 03 02 03 — Loan Guarantee Facility under the Programme for the Competitiveness of enterprises and small and medium-sized enterprises (COSME) — 2014 to 2020

(i) *Reference to the basic act*

Regulation (EU) No 1287/2013 of the European Parliament and of the Council of 11 December 2013 establishing a Programme for the Competitiveness of Enterprises and small and medium-sized enterprises (COSME) (2014–2020) (OJ L 347, 20.12.2013, p. 33.).

(ii) *Budget lines corresponding to the relevant operations*

Article 02 02 02 — Improving access to finance for small and middle-sized enterprises (SMEs) in the form of equity and debt (in 2014 budget nomenclature).

(iii) *General description of the financial instruments, including their duration and their impact on the budget*

The Loan Guarantee Facility (LGF) shall provide:

- counter-guarantees and other risk-sharing arrangements for guarantee schemes,
- direct guarantees and other risk-sharing arrangements for any other financial intermediaries meeting the eligibility criteria.

The LGF shall consist of:

- guarantees for debt financing via loans, including subordinated and participating loans, or leasing, which shall reduce the particular difficulties that viable SMEs face in accessing finance either due to their perceived high risk or their lack of sufficient available collateral,
- securitisation of SME debt finance portfolios, which shall mobilise additional debt financing for SMEs under appropriate risk-sharing arrangements with the targeted institutions. Support for those transactions shall be conditional upon an undertaking by the originating institutions to use a significant part of the resulting liquidity or the mobilised capital for new SME lending within a reasonable period of time. The amount of this new debt financing shall be calculated in relation to the amount of the guaranteed portfolio risk and shall be negotiated, together with the period of time, individually with each originating institution.

The LGF shall, except for loans in the securitised portfolio, cover loans up to EUR 150 000 and with a minimum maturity of 12 months. The LGF shall also cover loans above EUR 150 000 in cases where SMEs who meet the criteria to be eligible under the COSME programme do not meet the criteria to be eligible under the SME window in the Debt Facility of the Horizon 2020 programme, and with a minimum maturity of 12 months. The LGF shall be designed in such a way that it will be possible to report on SMEs supported, both in terms of number and volume of loans.

The implementation of the LGF will occur through an entrusted entity which will be the European Investment Fund (EIF), subject to the successful conclusion of a delegation agreement with the Commission.

The delegation agreement will ensure that the LGF is accessible for a broad range of financial intermediaries (guarantee societies, national promotional institutes, commercial banks, cooperatives, etc.) which are experienced in financial transactions with SMEs or which have the capacity to enter into financial transactions with SMEs.

From a technical point of view, the EIF will be instructed to provide capped portfolio guarantees to the financial intermediaries which will cover a portion of expected losses of a portfolio of newly generated SME transactions which have a higher risk profile.

As far as securitisation transactions are concerned, the EIF will be instructed to provide guarantee coverage on a part of the mezzanine tranche of a securitisation transaction.

Target final recipients under the capped portfolio guarantees and the securitisation transactions are SMEs of all sizes without a specific sector focus. The range of financial products which can be supported through the capped guarantees will be kept broad so as to not discriminate amongst the SME population.

The guarantee instrument is planned to last until 31 December 2034 (until last operations are wound down). Individual guarantee agreements to be signed by the entrusted entity will have a maximum duration of 10 years.

The LGF may also contribute to the financial instruments to be deployed under the joint SME initiative as endorsed by the October 2013 European Council. This contribution may take the form of uncapped portfolio guarantees or securitisation operations and cover, in combination with resources from ESIF, Horizon 2020 and the EIF, the mezzanine tranche of the portfolio.

Estimated budget allocation for the total programming period is foreseen to be EUR 717 million.

(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments*

Estimated budget allocation for 2014: EUR 89 million including the contribution of COSME to the SME initiative which is estimated at this moment to an amount of around EUR 4 million for 2014.

The leverage effect indicated in the COSME programme is in the 20 – 30 range for the debt instrument over the lifetime of the programme.

The final leverage ratio will depend on the amounts contributed by Member States to the SME Initiative and their chosen implementation mode (securitisation or uncapped guarantees).

Based on the leverage targets of COSME, it is estimated that the total amount of financing mobilised would range from EUR 1,8 billion to EUR 2,7 billion for the 2014 budget. These numbers refer to new SME loan portfolios built during the whole availability period of individual deals with financial intermediaries authorised under the 2014 budget.

### 5.3.2.4. ANNEX IV 03 02 04 — SMEs & Small Midcaps R&I Loans Service under Horizon 2020 – 2014 to 2020

(i) *Reference to the basic act*

Regulation (EU) No 1291/2013 of the European Parliament and of the Council of 11 December 2013 establishing Horizon 2020 - the Framework Programme for Research and Innovation (2014-2020) (OJ L 347, 20.12.2013, p. 104).

Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in "Horizon 2020 - the Framework Programme for Research and Innovation (2014-2020)" (OJ L 347, 20.12.2013, p. 81).

Council Decision of 3 December 2013 establishing the specific programme implementing Horizon 2020 - the Framework Programme for Research and Innovation (2014-2020) (OJ L 347, 20.12.2013, p. 965).

(ii) *Budget lines corresponding to the relevant operations*

Item 08 02 02 02 — Enhancing access to risk finance for investing in research and innovation (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

This guarantee facility succeeds and refines the RSI pilot under the RSFF in FP7, and is part of a single debt financial instrument supporting the growth of enterprises and their R&I activities. It targets R&I-driven SMEs and small midcaps (up to 499 employees) requiring loans of between EUR 25 000 and EUR 7,5 million. A loan of more than EUR 7,5 million will be considered on a case-by-case basis.

The European Investment Fund (EIF) will implement this facility by providing direct guarantees to financial intermediaries such as banks, who will extend the actual loans to final recipients. The guarantee will cover up to 50% of intermediaries' potential losses. EIF will also offer counter-guarantees to financial intermediaries (such as guarantee institutions) providing risk protection to banks extending loans to R&I-driven SMEs and small midcaps.

R&I-driven SMEs or small midcaps wishing to apply for a loan should contact one of the financial intermediaries signing an agreement (see selection procedure) with EIF. This is a demand-driven facility, with no prior allocations between sectors, countries or regions. However, subject to the successful conclusion of negotiations, the Commission will incentivise EIF to make a particular effort to ensure that a significant proportion of final recipients are eco-innovative SMEs and small midcaps.

Expected impact: R&I-driven SMEs and small midcaps able to carry out a greater amount of R&I. The indicators are the number of agreements signed with financial intermediaries and the number and volume of loans made. Targets will be set during negotiations with EIF.

Indicative timetable: This facility is likely to be available at the end of the second quarter of 2014.

Selection procedure:

a) For financial intermediaries: EIF will issue one or more calls for expression of interest, with eligibility and selection criteria defined as part of each call after consultation with DG Research & Innovation.

b) For loans: according to the internal processes of the intermediary bank or other financial institution that the SME or small midcap applies to, using normal commercial criteria.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The total budget foreseen for the programming period 2014-2020 to the SMEs & Small Midcaps R&I Loans Service coming from the "Access to Risk Finance" part of Horizon 2020 is EUR 880 million.

The indicative budget for 2014 is EUR 87,75 million. The risk-sharing arrangement with the EIF will leverage the EU contribution to the SME & Small Midcaps R&I Loans Service by a factor of up to 10, thus resulting in loan finance for R&I-driven SMEs and small midcaps of approximately EUR 875 million.

The instrument will also contribute to the financial instruments that will be deployed under the joint SME initiative as endorsed by the October 2013 European Council. This contribution may take the form of uncapped portfolio guarantees or securitisation operations and cover, in combination with resources from ESIF, COSME and EIF, the mezzanine tranche of the portfolio.

### 5.3.2.5. ANNEX IV 03 02 05 — European Progress Microfinance Facility under 'Programme for Employment and Social Innovation (EaSI) — 2014 to 2020

**(i) Reference to the basic act**

Regulation (EU) No 1296/2013 of the European Parliament and of the Council of 11 December 2013 on a European Union Programme for Employment and Social Innovation (EaSI) (OJ L 347, 20.12.2013, p. 238.).

**(ii) Budget lines corresponding to the relevant operations**

Item 04 03 02 03 — Microfinance and Social Entrepreneurship — Facilitating access to finance for entrepreneurs, especially those furthest from the labour market, and social enterprises (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The general objective of these financial instruments has been described in the Regulation 1296/2013 and can be found under Article 4 e:

Promote employment and social inclusion by increasing the availability and accessibility of microfinance for vulnerable people who wish to start up a micro-enterprise as well as for existing micro-enterprises, and by increasing access to finance for social enterprises.

Specific objectives are mentioned under Article 26:

- increase access to, and the availability of, microfinance for:
  - vulnerable persons who have lost or are at risk of losing their job, or have difficulty in entering or re-entering the labour market, or are at risk of social exclusion, or are socially excluded, and are in a disadvantaged position with regard to access to the conventional credit market and who wish to start up or develop their own micro-enterprises;
  - micro-enterprises in both start-up and development phase, especially micro-enterprises which employ persons as referred to in point (i);
- build up the institutional capacity of microcredit providers;
- support the development of the social investment market and facilitate access to finance for social enterprises by making equity, quasi-equity, loan instruments and grants of up to EUR 500 000 available to social enterprises with either an annual turnover not exceeding EUR 30 million, or an annual balance sheet total not exceeding EUR 30 million which are not themselves a collective investment undertaking.

The budget of the Microfinance and Social Enterprise financial instruments for the period 2014-2020 amount to EUR 193,08 million.

Its division shall respect the following minimum percentages:

- microfinance for vulnerable groups and micro-enterprises: 45 %
- (b) social entrepreneurship: 45 %.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

Indicative target results are 41 000 microloans given to final recipients and 1 350 loans given to social enterprises. The target for microfinance has been based on the past experience with the Progress Microfinance. The target for social enterprises has been based on the total volume of the guarantees and funded instruments funds, multiplied by the expected leverage and divided by an average investment size of EUR 200 000 per social enterprise. For the funded instruments, an expected co-investment of EUR 20 million was taken into account. These targets are subject to change as the design of the facility and potential co-investments are

unknown at this stage.

### 5.3.2.6. ANNEX IV 03 02 06 — The Cultural and Creative Sector Guarantee Facility (Creative Europe Programme) — 2014 to 2020

(i) *Reference to the basic act*

Regulation (EU) No 1295/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Creative Europe Programme (2014 to 2020) (OJ L 347, 20.12.2013, p. 221).

(ii) *Budget lines corresponding to the relevant operations*

Article 15 04 01 Strengthening the financial capacity of the cultural and creative sectors, in particular for SMEs and organisations (in 2014 budget nomenclature).

(iii) *General description of the financial instruments, including their duration and their impact on the budget*

The general objective of the Cultural and Creative Sectors Guarantee Facility is in line with those of the Creative Europe Framework Programme which is to:

- foster the safeguarding and promotion of European cultural and linguistic diversity, and
- strengthen the competitiveness of the cultural and creative sector, with a view to promoting smart, sustainable and inclusive growth, in line with the Europe 2020 strategy.

The specific objective of the Cultural and Creative Sectors Guarantee Facility strand is to strengthen the financial capacity of the cultural and creative sectors.

The issues it will strive to address are:

- The difficulties for cultural and creative SMEs and projects in accessing bank credits,
- The limited spreading and dissemination of expertise among financial institutions in the area of financial analysis of cultural and creative SMEs and projects throughout the EU.

To respond to these issues, operational objectives will be:

- To provide guarantees to banks dealing with cultural and creative SMEs thereby enabling them easier access to bank credits,
- To provide expertise/capacity building to the financial institutions,
- To increase the number of financial institutions which are willing to work with cultural and creative SMEs,
- To maximise the European geographical diversification of financial institutions willing to work with cultural and creative SMEs.

(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments*

The budgetary commitments foreseen amount to EUR 121 million, plus EUR 2 million expected recoveries from the preceding financial instrument MPGF. Based on the foreseen leverage effect of 5,6, the target volume is estimated at EUR 690 million of loans guaranteed.

### 5.3.2.7. ANNEX IV 03 02 07 — Student Loan Guarantee Facility (Erasmus+) — 2014 to 2020

(i) *Reference to the basic act*

Regulation (EU) No 1288/2013 of the European Parliament and of the Council of 11 December 2013 establishing 'Erasmus+': the Union Programme for education, training, youth and sport (OJ L 347, 20.12.2013, p. 50).

(ii) *Budget lines corresponding to the relevant operations*

Article 15 02 01 01 (in part) - Promoting excellence and cooperation in European education and training and their relevance to the labour market (in 2014 budget nomenclature).

(iii) *General description of the financial instruments, including their duration and their impact on the budget*

The objective of the 'Erasmus+ Master' student loan guarantee facility is to foster and support full programme mobility at Master level (second cycle of higher education). In order to do this, the Facility will provide partial guarantees to financial intermediaries who issue loans on favourable conditions to students from Erasmus+ participating countries undertaking a full (one or two year) masters-level programme outside their country of residence, and outside the country where they obtained their Bachelor level qualification.

Guarantees issued through the Facility shall cover new eligible student loans up to a maximum of EUR 12 000 for a one-year Master programme and up to EUR 18 000 for a two-year Master programme.

The Facility thus represents a direct contribution to the EU and Bologna Process Ministerial target to double the proportion of students completing a study or training period abroad to 20 % by 2020.

The management of the Facility at Union level will be entrusted to the European Investment Fund (EIF), which will conclude agreements with financial intermediaries such as banks, national/regional student lending institutions. These participating financial intermediaries will in turn pass on the benefit of the EU guarantee by making student loans available free of any requirement for student or family collateral and on favourable terms e.g. lower than market rate interest, and safeguards against student hardship to include a 'grace period'. The grace period enables graduates to find employment before beginning loan repayments and a 'payment holiday' whereby they could freeze repayments if needed such as during a spell of unemployment or maternity.

Capital for the loans is leveraged from the participating financial Intermediaries, with the EU acting as part-guarantor against possible student default on loans. Repayment of loans would be via 'normal' bank loan mechanisms, with all operational information and processing taking place at a local level.

The Erasmus+ Programme 2014-2020 legal base foresees a total EU contribution of EUR 517 million, which will enable approximately 200 000 students to benefit from loans backed by the Facility.

The duration of the instrument will extend to 2037 (i.e. programme in place until 2020 + 2 years commitment deadline + up to 15 years maturity on the student loans).

The Facility will provide partial guarantees at up to 90 % of the first losses resulting from student defaults with a guarantee cap of 18 % of the loan portfolio. The estimated leverage is 6,17 (i.e. EUR 3,2 billion to be provided as capital for student loans from participating financial intermediaries).

(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments*

The budgetary commitments foreseen for 2014 amount to EUR 29,86 million. Based on the foreseen leverage effect of 6,1, the target volume is estimated at EUR 184 million of loans guaranteed.

### 5.3.2.8. ANNEX IV 03 02 08 — PF4EE Guarantee window — 2014 to 2020

(i) *Reference to the basic act*

Regulation (EU) No 1293/2013 of the European Parliament and of the Council of 11 December 2013 on the establishment of a Programme for the Environment and Climate Action (LIFE), Article 17 (1) (OJ L 147, 20.12.2014, p. 185).

(ii) *Budget lines corresponding to the relevant operations*

Article 34 02 01 - Reducing of Union greenhouse gas emissions (in 2014 budget nomenclature)

Article 34 02 02 - Increasing resilience of the Union to climate change (in 2014 budget nomenclature)

(iii) *General description of the financial instruments, including their duration and their impact on the budget*

The implementation of the PF4EE instrument will be entrusted to the European Investment Bank (EIB) by means of indirect management.

The PF4EE instrument will provide (i) a risk participation mechanism (Risk Sharing Facility) for private sector financial institutions and (ii) expert support for financial intermediaries (Expert Support Facility) combined with (iii) EIB long-term funding (EIB Loan for Energy Efficiency).

— The PF4EE would provide a Risk Sharing Financial Instrument in the format of a capped guarantee to share the risk between the Commission (as funder) and financial intermediaries (as lenders).

— The RS Facility is designed to reduce the credit risk faced by financial intermediaries when lending to the EE sector and to encourage their participation. The impact will depend on the market conditions and specific characteristics of the projects. The RS Facility is expected to increase lending activity, access to finance and/or better financing conditions to the final recipients, including lower pricing, longer maturities, lower collateral or others.

The PF4EE needs to be operational for as long as underlying loans covered by the RS Facility remain outstanding. Maximum tenor to be allowed under the RS Facility will be 20 years. Therefore the PF4EE will be in place for up to 20 years after the end of the implementation period (2042).

(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments*

The beneficiaries include private individuals, home-owner associations, SMEs, corporates and/or public institutions/bodies, undertaking EE investments in line with the NEEAP of each Member States.

The size of the EE loans provided to beneficiaries range from EUR 40 000, which can be reduced to accommodate small investments within the residential sector, to EUR 5 million and in exceptional cases up to EUR 15 million.

Under the PF4EE approximately 10-15 financing agreements (EIB Loans for EE and Risk Sharing/Expert support Facilities) could be signed with financial intermediaries in the period 2014-2017. A financing agreement may cover the implementation of the Instrument in more than one MS and a FI may sign more than one financing agreement.

It is expected that over the lifetime of the programme (2014-17) and assuming an average investment cost of EUR 300 000, up to some 2 500 final beneficiaries and projects will receive a loan financing of approximately EUR 600 million.

The budget foreseen to be allocated to PF4EE between 2014 and 2017 is EUR 80 million. The total investment in PF4EE over this period could be at around EUR 800 million. Therefore, the expected leverage effect would be around 10.

#### 5.3.3.1. ANNEX IV 03 03 01 — Risk-Sharing Finance Facility under the FP7 (RSFF) including RSI (pilot guarantee facility for R&I-driven SMEs and Small Midcaps) — Prior to 2014

(i) *Reference to the basic act*

Decision No 1982/2006/EC of the European Parliament and of the Council of 18 December 2006 concerning the Seventh Framework Programme of the European Community for research, technological development and demonstration activities (2007-2013) (OJ L 412, 30.12.2006, p. 1).

Council Decision 2006/971/EC of 19 December 2006 concerning the specific programme 'Cooperation' implementing the Seventh Framework Programme of the European Community for research, technological development and demonstration activities (2007 to 2013) (OJ L 400, 30.12.2006, p. 86).

Council Decision 2006/974/EC of 19 December 2006 on the Specific Programme: 'Capacities' implementing the Seventh Framework Programme of the European Community for research, technological development and demonstration activities (2007 to 2013) (OJ L 400, 30.12.2006, p. 299).

(ii) *Budget lines corresponding to the relevant operations*

Article 08 09 01 — Cooperation — Risk-Sharing Finance Facility (RSFF) (in 2013 budget nomenclature); primary credits of EUR 800 million.

Article 08 18 01 — Capacities — Risk-Sharing Finance Facility (RSFF) (in 2013 budget nomenclature); primary credits of EUR 200 million.

Article 08 02 51 (in part) — Completion of previous research framework programme — Seventh Framework Programme – EC indirect action (2007 to 2013) (in 2014 budget nomenclature).

In the period 2007-2013, a total amount of EUR 1 230,73 million has been committed from the EU budget (initial FP7 budget plus additional EFTA and Third Country appropriations to FP7) and paid to the EIB to support both Risk-Sharing Finance Facility (RSFF) and Risk-Sharing Instrument (RSI).

(iii) *General description of the financial instruments, including their duration and their impact on the budget*

A key objective of the RSFF is to improve access to debt finance for investments in research, development and innovation in the EU, notably by private promoters. It contributes to addressing the financing needs of innovative projects and companies of all size and ownership, including midcaps and SMEs.

The RSFF supports access to finance across the entire Research, Development, Demonstration and innovation (RDI) spectrum, from fundamental research to technological development, demonstration and innovation. The RSFF addresses cross-sector policy goals and related investments needs in a demand-driven, 'first

come, first served' way.

The RSFF, co-developed by the European Commission and the EIB, was established in June 2007. The EU and the EIB are risk-sharing partners for loans provided by the EIB directly or indirectly to beneficiaries. The European Union, through FP7 budget resources, and the EIB have set aside a total amount of up to EUR 2 billion (up to EUR 1 billion each) for the period 2007-2013 to cover losses if RSFF loans are not repaid. Through these EU/EIB contributions for risk-sharing and loss coverage, the EIB is able to extend a loan volume of EUR 10 billion to companies and the research community for their investments in R&D and Innovation.

RSFF beneficiaries can be European research-intensive entities (companies, stand-alone-projects) as well as research infrastructures. RSFF loans support RDI investments made by promoters/ beneficiaries located in the 28 EU Member States and in associated Countries.

Risk-sharing between the EU and the EIB was initially made on a loan-by-loan basis (until 2010). Since 2011, following a recommendation by an independent expert group, risk-sharing is made on a portfolio basis, with first-loss-taking by the EU. The EIB is assuming further risks above a certain threshold in case EU risk absorption has been fully used.

In the period 2007-2013, a total amount of EUR 960,73 million has been committed from the general budget of the Union (initial FP7 budget plus additional EFTA and Third Country appropriations to FP7) and paid to the EIB to support RSFF loan finance. The 'expiry date' (duration) of the programme is expected to be in 2020-2022.

In early 2012, a new pilot guarantee facility, RSI (Risk-Sharing Instrument for SMEs and small midcaps, with maximum 499 employees) was launched to improve access loan finance for RDI investments. The RSI guarantee facility is part of the RSFF implementation and is carried out by the European Investment Fund (EIF). For this RSI pilot guarantee facility, the EU budget coming from FP7 (plus additional EFTA and Third Country appropriations to FP7) for the period 2012/2013 amounted to EUR 270 million (in addition to the above mentioned amount).

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

For the budget year 2013, a total FP 7 contribution of EUR 224,8 million (including EFTA and Third country appropriation) was allocated to the RSFF and RSI. The risk-sharing arrangement with the EIB and the EIF (for RSI guarantees) leverages the EU contribution coming from FP7 by a factor of 5 (RSFF loans) and 8 (RSI guarantees), thus generating a high impact on financing available for RDI investments.

In this context, for the budget year 2013, new RSFF loan operations (signatures) of EUR 2,8 billion were envisaged by the EIB for approximately 28 new operations. This is in line with the target envisaged by the EIB of 2.7 billion, for approximately 30 new operations.

Regarding RSI guarantees to financial intermediaries for loans to SMEs and small midcaps, a total guarantee volume of EUR 1,2 billion was signed by the end of December 2013 allowing the extension of loans amounting to EUR 2,4 billion to approximately 4 800 beneficiaries. The aggregate number of applications from financial intermediaries is 47, including 4 guarantee increases. In only two years' time these financial intermediaries are covering 19 countries in the European Union and Associated Countries.

Exceeding initial expectations of a total loan volume of EUR 10,5 billion the results of the RSFF under FP7 covering the period 2007 to 2013 showed a total number of 117 RDI loan operations which were signed and active accounting for EUR 11 313,2 million.

In relation to the pilot phase of the RSI, from earlier 2012 until 2013, the total number of SMEs transaction is 602, with an amount of EUR 374,8 million committed to final recipients.

Article 06 02 51 (in part) – Completion of Trans-European networks programme (in 2014 budget nomenclature)

Article 06 03 03 — Financial support for projects of common interest in the trans-European transport network (in 2013 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The LGTT is a risk-sharing debt instrument jointly established by the Union and the EIB in 2008, to accelerate and implement TEN-T infrastructure projects.

The 'LGTT facilities' are guarantee facilities provided by the EIB under LGTT to the private sector (project sponsors/promoters), to enhance the credit rating of the senior debt by reducing traffic risk. The EIB provides a guarantee in the form of a contingent credit line, which may be drawn upon by the project promoter during the first 5 to 7 years of operation, if the revenues generated by a project are not sufficient to ensure repayment of the senior debt, in case the actual revenues from the project fall below the forecasted level.

The LGTT instrument was designed in 2008, prior to the global financial crisis. Since then, revenue based projects have become less common due to the reluctance of the private sector to take on traffic demand risk.

The total amount of the EU contribution currently available to support LGTT projects is EUR 250 million, out of which EUR 205 million was committed till 2012 and EUR 45 million was committed in 2013.

In 2013, following the adoption of Regulation No 670/2012, the risk sharing model moved from *pari passu* to portfolio based risk sharing between the Commission and the EIB.

Under the 'portfolio approach', the risk is divided into two tranches. A portfolio first loss piece, to which the EU contributes 95 % and the EIB 5 % and a residual risk tranche which the EIB covers entirely. The maximum EU risk exposure cannot exceed the budget contribution to LGTT independent of the risk-sharing model chosen.

LGTT is available for transactions approved by the EIB of Directors by end of 2014 with the financial close until 2016. Guarantees can be called for the first 5 to 7 years operation, the latest draw down date of a project in the current portfolio is end of 2021. Therefore the instrument will be wound down the latest end of 2028.

The EIB has presented a list of potential transactions that lead to the assumption that the full amount committed to the LGTT instruments will be used for operations.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

To date, 7 LGTT operations were signed, of which one operation has been cancelled and one is being restructured.

Until 2013, EUR 155 million have been paid to the EIB, this has resulted into a total amount of LGTT guarantees of EUR 497 million supporting investments across six TEN-T projects whose total capital cost amount to EUR 11 716 million. At the end of 2013, net interest and revenues were regularized and the net profit of EUR 6,9 million was added to the Commission contribution of EUR 155m bringing it to a total of EUR 161,9 million.

The Total Leverage of LGTT can be broken down into two elements,

- The Project Leverage, which expresses a ratio between the total investment of a project and the size of the LGTT facility (PL= total investment/ LGTT facility)
- And the Instrument Leverage, which expresses a ratio between the LGTT facility and the total EU Contribution at risk plus expensed gross costs (IL= LGTT facility/ total EU Contribution at risk plus expensed gross costs).

The Total Leverage is a multiplication between the Project and the Instrument Leverage.

As of 31-12-2013 the Project Leverage was 24 (11,716 / 497) and the Instrument leverage was 11 (497/45 – the amount of EC Contribution at risk, EUR 38.7m plus the gross expensed costs of EUR 6,5 million). When the two are multiplied, this results in a Total Leverage between EC contribution at risk and total investment of 259.

The Amending Regulation (EU) 670/2012 of the European Parliament and of the Council requires a change of the risk sharing pattern from *pari passu* to a Portfolio First Loss Piece (PFLP).

This change to the risk sharing as of January 2014 will initially increase the share of the EU contribution at risk compared to the amount of guarantees and therefore reduce the Instrument and the total Leverage, but not the Project Leverage. The Instrument leverage will decrease to a multiple of 3, resulting in a Total Leverage of 70.

In 2014, it is expected to merge the LGTT under the broader CEF Debt Instrument as indicated in Regulation 1316/2013 establishing the Connecting Europe Facility.

#### (iii) *General description of the financial instruments, including their duration and their impact on the budget*

The Project Bond Initiative is a financial instrument developed, set up and supported jointly by the European Commission and the European Investment Bank (EIB)<sup>49</sup>.

It aims to stimulate capital market financing for infrastructure projects in the areas of Trans-European networks in transport and energy as well as broadband networks by improving the credit quality of the senior debt such that it can be financed by a bond issue which is attractive *inter alia* to institutional investors such as insurance companies and pension funds. In addition to financing provided for the benefit of individual projects, the objective is to pave the way for the creation of a new asset class for EU infrastructure which is investable for institutional investors. This way, the Project Bond Initiative intends to open up new sources for infrastructure financing to complement constrained public budgets and restricted bank lending for infrastructure projects with long term maturities.

The instrument can finance projects or part of projects eligible under the guidelines for TEN-T, TEN-E and the criteria for broadband projects defined in the amended Competitiveness and Innovation Framework Programme. Projects are usually structured as a Special Purpose Vehicle (SPV) established to build, finance and operate an infrastructure project. The PBI facility provides a subordinated debt tranche to the financial structure of the project company. This facility may take the form of a contingent credit line ("unfunded facility") or a subordinated loan ("funded facility") and is capped at a maximum of 20% of the total amount of senior debt. In case the unfunded facility is called upon, the EIB becomes a creditor to the project company and amounts due under the PBI would rank junior to the service of senior debt and senior to equity. The maximum available amount for credit enhancement under PBI is 20% of the nominal of the senior debt.

The risk-sharing mechanism between the European Commission and EIB operates on the basis of a First Loss Piece principle: the risk for the EU budget and the EIB is divided into two tranches, a Portfolio First Loss Piece (PFLP), which is called upon first in the event of impairments on PBI operations, and a Residual Risk Tranche (RRT) which is only used if PFLP has been exhausted. The EU and EIB contribute 95% and 5% to PFLP, respectively. The residual risk tranche is covered entirely by the EIB.

Individual PBI Operations can be approved by the EIB Board of Directors no later than end of 2014 and their financial close must take place no later than end of 2016. The instrument will wind up when there is no more contingent exposure under any PBI operations (or where such exposure has been declared by the EIB as unrecoverable).

The pilot phase has a total financial envelope of EUR 230 million: EUR 200 million from the TEN-T budget, EUR 10 million from the TEN-E budget and EUR 20 million from the CIP ICT.

#### (iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments*

---

49 The instrument may be implemented also in cooperation with other entities in the future.

The budgetary payments foreseen for 2014 are the following: EUR 80 million for TEN-T and EUR 13 million for ICT.

Until the end of 2013, one PBI operation in the TEN-E sector reached financial close (another project bond transaction was carried out by the EIB without EU budget support). The size of the project bond credit enhancement for this transaction is EUR 54.9 million for a project size of EUR 421 million (including debt and equity). The EU budget contribution under TEN-Energy is EUR 10 million. Hence, the leverage effect exceeded 40.

In 2014, it is expected to merge the PBI under the broader CEF Debt Instrument as indicated in Regulation 1316/2013 establishing the Connecting Europe Facility.

#### **5.3.3.4. ANNEX IV 03 03 04 — The Loan and Guarantee Service for Research and Innovation under Horizon 2020 — 2014 to 2020**

(i) **Reference to the basic act**

Regulation (EU) No 1291/2013 of the European Parliament and of the Council of 11 December 2013 establishing Horizon 2020 — The Framework Programme for Research and Innovation (2014-2020) (OJ L 347, 20.12.2013, p. 104).

Regulation (EU) No 1290/2013 of the European Parliament and of the Council of 11 December 2013 laying down the rules for participation and dissemination in "Horizon 2020 - the Framework Programme for Research and Innovation (2014-2020)" (OJ L 347, 20.12.2013, p. 81).

Council Decision 2013/743/EU of 3 December 2013 establishing the specific programme implementing Horizon 2020 — The Framework Programme for Research and Innovation (2014-2020) (OJ L 347, 20.12.2013, p. 965).

(ii) **Budget lines corresponding to the relevant operations**

Item 08 02 02 02 — Enhancing access to risk finance for investing in research and innovation (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The goal is to improve access to debt financing — loans, guarantees, counter-guarantees and other forms of debt and risk finance — for public and private entities and public-private partnerships engaged in research and innovation activities requiring risky investments in order to come to fruition. The focus shall be on supporting research and innovation with a high potential for excellence.

The target final recipients shall potentially be legal entities of all sizes that can borrow and repay money and, in particular, SMEs with the potential to carry out innovation and grow rapidly; mid-caps and large firms; universities and research institutes; research infrastructures and innovation infrastructures; public-private partnerships; and special-purpose vehicles or projects.

The Loan and Guarantee Service for Research and Innovation will be implemented towards a platform approach offering several products specifically designed to address particular needs. The key partner as entrusted entity for the implementation of the Loan and Guarantee Service for Research and Innovation will be the European Investment Bank (EIB).

The funding of the Loan and Guarantee Service for Research and Innovation shall have two main components:

— *demand-driven*, providing loans and guarantees on a first-come, first-served basis, with specific support for beneficiaries such as SMEs and mid-caps. This component shall respond to the steady and continuing growth seen in the volume of RSFF lending, which is demand-led.

This demand-driven component will be supported by the budget of the Horizon 2020 Access to Risk Finance programme.

— *targeted*, focusing on policies and key sectors crucial for tackling societal challenges, enhancing competitiveness, supporting sustainable, low-carbon, inclusive growth, and providing environmental and other public goods. This component shall help the Union address research and innovation aspects of sectorial policy objectives and will be supported by other parts of Horizon 2020, other frameworks, programmes and budget lines in the Union budget, particular regions and Member States that wish to contribute with their own resources (including through Structural Funds) and/or specific entities (such as Joint Technology Initiatives) or initiatives.

The expiry date of the instrument is expected to be in 2027-2030.

The total budget (primary credits) foreseen for the programming period 2014-2020 for the demand-driven part of the Loan and Guarantee Service for Research and Innovation is EUR 1.060 billion. This Horizon 2020 budget contribution will, at least, be matched by the EIB through its own resources, thus allowing increasing the total lending capacity and impact of the Loan and Guarantee Service for Research and Innovation by a factor of two.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The foreseen budget for the year 2014 is EUR 107,80 million.

Based on the experience of the RSFF, a leverage effect of 7 of the EU budget can be envisaged for direct and indirect loans to beneficiaries under the demand-driven part of the Loan and Guarantee Service for Research and Innovation, resulting in a total market volume of around EUR 750 million.

#### **5.3.3.5. ANNEX IV 03 03 05 — CEF Risk-sharing Instrument (Loan Risk-sharing and Project Bonds) — 2014 to 2020**

(i) **Reference to the basic act**

Regulation (EU) No 1316/2013 of the European Parliament and of the Council of 11 December 2013 establishing the Connecting Europe Facility (OJ L 348, 20.12.2013, p. 129).

(ii) **Budget lines corresponding to the relevant operations**

Item 06 02 01 05 — Creating an environment more conducive to private investment for transport infrastructure projects (in 2014 budget nomenclature).

Article 09 03 02 — Creating an environment more conducive to private investment for telecommunications infrastructure projects (in 2014 budget nomenclature).

Item 32 02 01 04 — Creating an environment more conducive to private investment for energy projects (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The debt instrument under the CEF, including the successor to the pilot phase of the PBI, will be developed in line with Regulation (EU) No 1316/2013 of the European Parliament and the Council of 11 December 2013 establishing the Connecting Europe Facility. In line with Article 1 of the above Regulation, the instrument will target projects of common interest in the sectors of transport, telecommunications and energy infrastructures.

Individual debt operations can be approved by the EIB or other entrusted entity before 31.12.2022. As for the pilot phase of the PBI, the instrument will wind up

when there is no more contingent exposure under any PBI operations (or where such exposure has been declared by the EIB as unrecoverable).

The overall contribution from the Union budget to the financial instruments shall not exceed 10 % of the overall financial envelope of the CEF (Art 14.2 Regulation No 1316/2013). The precise amount dedicated to the debt instrument under the CEF under the overall commitment period has not yet been decided. With regard to the Project Bond Initiative, it shall start up progressively within a ceiling of EUR 230 million during the years 2014 and 2015.

**(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

For the time being, the 2014 Work Programmes for TEN-T, ICT and TEN-E under the CEF do not include a specific amount for financial instruments.

However, the Commission is expected to propose separate Work Programmes for 2014 and include the following amounts for the debt instrument under the CEF: EUR 70 million for TEN-T, EUR 10 million for ICT and EUR 40,77 million for TEN-E.

The CEF Regulation provides that the leverage effect of the debt instrument under the Connecting Europe Facility (defined as total funding divided by the Union contribution) shall be expected in a range between 6 and 15. Hence, the target volume should range between EUR 725 million and EUR 1 811 million.

### **5.3.3.6. ANNEX IV 03 03 06 — Natural Capital Finance Facility — 2014 to 2020**

**(i) *Reference to the basic act***

Regulation (EU) No 1293/2013 of the European Parliament and of the Council of 11 December 2013 on the establishment of a Programme for the Environment and Climate Action (LIFE) Article 17(1) (OJ L 347, 20.12.2014, p. 185).

**(ii) *Budget lines corresponding to the relevant operations***

Article 07 02 02 – Halting and reversing biodiversity loss (in 2014 budget nomenclature).

Article 34 02 02 – Increasing resilience of the Union to climate change (in 2014 budget nomenclature).

**(iii) *General description of the financial instruments, including their duration and their impact on the budget***

The NCFE will finance upfront investment and operating costs for revenue-generating or cost-saving pilot projects which promote the conservation, restoration, management and enhancement of natural capital for biodiversity and adaptation benefits, including ecosystem-based solutions to challenges related to land, soil, forestry, agriculture, water and waste. The NCFE combine direct and indirect financing of projects through debt and equity.

Given that the projects supported by the NCFE will be projects that the EIB normally does not invest in, either because they are too small or because their perceived high risk is not compatible with the AAA rating of the bank, the facility will include a risk sharing mechanism whereby the EU funds would absorb first losses in case of project failure. The precise implementation mechanism will be established in a delegation agreement between the Commission and the EIB, which will also define precise exclusion/selection criteria for projects, ensuring that the correct priorities are built in the selection process and that there is sufficient sectorial and geographical coverage.

An expert support facility will be provided in order to ensure that projects reach a sufficient stage of maturity for financing. The implementation of the NCFE will be entrusted to the European Investment Bank (EIB) by means of indirect management.

The NCFE pilot phase is foreseen to last from 2014 to 2017. The overall budget foreseen for this period is EUR 60 million including EUR 10 million for the support facility.

Projects will fall into four broad categories:

- Payments for Ecosystem services (PES): projects involving payments for the flows of benefits resulting from natural capital, usually a small scale bilateral transaction with a well identified buyer and seller of an ecosystem service. They are based on the beneficiary pays principle, whereby payments take place to secure critical ecosystem services.
- Green Infrastructure (GI): GI is a strategically planned network of natural and semi-natural areas with other environmental features designed and managed to deliver a wide range of ecosystem services. It incorporates green spaces (or blue if aquatic ecosystems are concerned) and other physical features in terrestrial (including coastal) and marine areas. On land, GI is present in rural and urban settings. GI projects have the potential to generate revenues or save costs based on the provision of goods and services including water management, air quality, forestry, recreation, flood/erosion/fire control, pollination, increased resilience to the consequences of climate change.
- Biodiversity offsets: these are conservation actions intended to compensate for the residual, unavoidable harm to biodiversity caused by development projects. They are based on the polluter pays principle, whereby offsets are undertaken for compliance or to mitigate reputational risks. Projects aimed at compensating damages done to Natura 2000 sites according to Article 6.4. of the Habitats Directive are not eligible for financing under the NCFE.
- Innovative pro biodiversity and adaptation investments: these are projects involving the supply of goods and services, mostly by SMEs, which aim to protect biodiversity or increase the resilience of communities and other business sectors.

The aim will be to identify and finance projects with a sufficiently broad geographical and sector coverage, while testing various financial mechanisms, to ensure replicability across the EU during the operational phase. Eligibility rules for projects and investment policy for the Facility (for example setting caps on sectors and geographical coverage, as well as minimum criteria to be met and/or principles to be adhered to, e.g. the mitigation hierarchy ) will be defined prior to its set-up and agreed contractually between the European Commission and the European Investment Bank (EIB).

**(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

NCFE will be developed in two phases: a pilot phase will allow testing different financing options, in order to focus on the most suitable approaches in a second operational phase.

During the initial pilot phase, the NCFE is expected to execute 9-12 operations (including indirect operations), or 3-4 operations per year. Individual investments would remain below EUR 10-15 million.

The estimated leverage of the value of the facility to the LIFE provision is between 2,2 and 3,2 fold. Taking into account the possible contribution of final recipients to project costs in the order of 25%, the leverage of total investment to the LIFE provision could be between 2,8 and 4,2 fold. The total investment in natural capital management projects over the pilot phase alone could be up to EUR 210 million.

##### 5.3.4.1. ANNEX IV 03 04 01 — The European Progress Microfinance FCP-FIS (EPMF FCP-FIS) — Prior to 2014

(i) *Reference to the basic act*

Decision No 283/2010/EU of the European Parliament and of the Council of 25 March 2010 establishing a European Progress Microfinance Facility for employment and social inclusion (OJ L 87, 7.4.2010, p. 1).

(ii) *Budget lines corresponding to the relevant operations*

Article 04 04 15 — European Progress Microfinance Facility (in 2013 budget nomenclature).

Article 04 03 53 (in part) — Completion of other activities (in 2014 budget nomenclature).

(iii) *General description of the financial instruments, including their duration and their impact on the budget*

The aim of the European Progress Microfinance Facility is twofold: on the one hand, it increases availability of microfinance for persons wishing to start up or develop their micro-enterprises, including for self-employment, in the sense that it enables microfinance providers in the EU to enlarge their lending volumes to these individuals. On the other hand, Progress Microfinance enhances access to microfinance by reducing microfinance providers' risk. This feature allows microfinance providers to reach out to groups who could normally not be served, for instance, because persons from these groups could not provide sufficient collateral or because the interest rates would have to be very high to justify their actual risk profile.

The Facility provides Union resources to increase access to, and availability of, microfinance for:

- (a) persons who have lost or are at risk of losing their job, or who have difficulties entering or re-entering the labour market, as well as persons who are facing the threat of social exclusion or vulnerable persons who are in a disadvantaged position with regard to access to the conventional credit market and who want to start or further develop their own micro-enterprise, including self-employment,
- (b) micro-enterprises, especially in the social economy, as well as micro-enterprises which employ persons referred to in point (a).

The financial contribution from the Union budget for the Facility for the period from 1 January 2010 to 31 December 2013 amounts to EUR 105 million, out of which EUR 25 million is foreseen for the EPMF Guarantee Facility (EPMF-G) and EUR 80 million for the EPMF Fonds Commun de Placement – Fonds d'Investissement Spécialisé (EPMF FCP-FIS).

The Facility is implemented by using the following types of actions, as appropriate:

- guarantees (EPMF-G),
- debt and equity instruments (FCP-FIS),
- Support measures, such as communication activities, monitoring, control, audit and evaluation which are directly necessary for the effective and efficient implementation of Decision No 283/2010/EU and for the achievement of its objectives.

The micro-credit guarantee window shall remain in full force and effect until 31 December 2020.

The FCP-FIS is expected to end on 30 April 2020.

For the entire period as of 30 September 2013 (latest data available as at writing date), EPMF achievements for the FCP-FIS component of the programme were as follows:

- Number of micro-loans: 6 236,
- Total amount of micro-credit agreements signed by Intermediaries : EUR 51,62 million,
- Total number of self-employed and employees of Micro-enterprise final recipients, at signature date of Micro-credit agreement: 11 487.
- - Total number of self-employed and employees of Micro-enterprise final recipients, at signature date of Micro-credit agreement : 11 487.

(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments*

No further budgetary commitments have been made by the Commission since the end of the commitment period. The aggregate EPMF-FIS budgetary commitments for the period 2010 - 2013 amount to a total of EUR 80 million and the budgetary payments amount to EUR 16,6 million until the completion of the activities. The target volumes of lending to beneficiary micro-enterprises are estimated to EUR 928 million for the EPMF Debt and equity instruments (FCP-FIS) facility (budgetary commitments of EUR 80 million leverage effect of 11.6).

##### 5.3.4.2. ANNEX IV 03 04 02 — The 2020 European Fund for Energy, Climate Change and Infrastructure (Marguerite) — Prior to 2014

(i) *Reference to the basic act*

Regulation (EC) No 680/2007 of the European Parliament and of the Council of 20 June 2007 laying down general rules for the granting of Community financial aid in the field of the trans-European transport and energy networks (OJ L 162, 22.6.2007, p. 1).

Commission Decision C(2010) 941 of 25 February 2010 on European Union participation in the 2020 European Fund for Energy, Climate Change and Infrastructure (the Marguerite Fund).

(ii) *Budget lines corresponding to the relevant operations*

Article 06 03 03 — Financial support for projects of common interest in the trans-European transport network (in 2013 budget nomenclature).

Article 06 02 51 (in part) – Completion of Trans-European networks programme (in 2014 budget nomenclature).

(iii) *General description of the financial instruments, including their duration and their impact on the budget*

The Marguerite Fund is a Pan-European equity fund developed in the context of the financial crisis and in recognition of the need for successful long-term infrastructure investment in Europe. It supports infrastructure investment within the transport (TEN-T), energy (TEN-E) and renewables sectors in Member States and will primarily invest in Greenfield Projects.

The core sponsors include public long term investors from France (CDC), Italy (CdP), Germany (KfW), Spain (ICO) and Poland (PKO) as well as the EIB and the European Commission. The size of the Fund at final close is EUR 710 million.

EC aggregate budgetary commitments: EUR 80 million from the TEN-T budget

Expected results:

- 30 to 40 % of the total commitments invested in the Transport sector,
- 25 to 35 % invested in the Energy sector,
- 35 to 45 % invested in the Renewables Energies sector,
- at least 3,5 times the EC commitment to be invested into TEN-T eligible projects.

The investment period ends in December 2016 (with a possible extension of two more years) while the end-date/maturity of the fund has been set at a maximum term of 20 years from the initial closing (March 2010) but may be extended for up to two additional one-year periods (up to year 2032).

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The total of the EUR 80 million of budgetary commitments for the Fund were made available in 2010. With the multiplier of 128x (as estimated below for 2014), the target volumes of cumulated project capital cost (Enterprise Value) over the lifetime of the Fund are likely to reach EUR 10.2 billion, of which circa EUR 4 billion are expected to be allocated to TEN-T transport projects.

The 2014 multiplier calculations below are based on the expected amount of capital calls in 2014 for all eligible projects, as per the information received from Marguerite Adviser.

The assumed percentage of Marguerite Fund equity out of the total capital costs of the projects is based for a given year on the ratio for all of the projects in the portfolio until that year inclusive: for example for 2012 the 6.7% ratio corresponds to the first six projects up to the Chirnogeni wind farm (Romania).

Using the prudence principal, the administrative costs covered from capital calls for 2014 are assumed to be at the level of 2012. In 2013, those costs were fully covered by revenues from the existing projects, but this is not certain for 2014E.

Note: there is a timing delay between the time (year) of the capital call and the construction of the asset (representing the Enterprise Value). Sometimes equity is called-in at the beginning of a project, sometimes at the very end; the length of a project construction period can be of up to 4 years or more.

<b>Multiplier calculation (in EUR million)</b>			
	<b>2012A</b>	<b>2013A</b>	<b>2014E<sup>(1)</sup></b>

Article 32 02 52 (in part) – Completion of energy projects to aid economic recovery (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

On 1 July 2011, EUR 146,3 million from the European Energy Programme for Recovery (EPR) were allocated to a new European Energy Efficiency Fund — EEEF (in the form of a specialised investment fund (SICAV)). The EEEF invests in energy efficiency, renewable energy projects, and clean urban transport particularly in urban settings, achieving at least 20 % energy saving or GHG/CO<sub>2</sub> emission reduction.

The beneficiaries must be public authorities or public or private entities acting on their behalf, including ESCOs<sup>50</sup>.

The Fund was launched on 1 July 2011 with an initial volume of EUR 265 million: in addition to the EU contribution (EUR 125 million in junior ‘C-shares’), the European Investment Bank (EIB) invested EUR 75 million (mainly senior ‘A shares’), Cassa Depositi e Prestiti SpA (CDP) EUR 60 million (mainly senior ‘A shares’); and the designated investment manager (Deutsche Bank) EUR 5 million (mezzanine ‘B shares’).

The fund offers a range of non-standard financial products such as senior and junior loans, guarantees, equity participation or forfeiting schemes which can be combined in a flexible way with standard finance.

50 An energy service company (ESCO), via an energy performance contract (EPC), can enable a public authority to implement upfront investments (e.g. to upgrade the performance levels of public buildings or to install efficient street lighting) without taking the financial risk.

In addition, about EUR 20 million of the EU funding is available for technical assistance (in the form of grants) to help sponsors make projects bankable for the Fund.

Finally, a EUR 1,3 million programme has been established to raise awareness of financing methods and options for EE and RE among national and regional authorities managing Cohesion/Structural funds. EPEC<sup>51</sup> manages this programme.

In accordance with the amending Regulation, EU funds will have to be allocated to investment projects and Technical assistance (TA) by 31 March 2014. Apart from this, there is no fixed deadline for proposals. The winding down of the instrument will take place probably after 2024.

#### *Fund/Investment Manager*

Deutsche Bank (DB) is responsible i.e. for selecting projects and conducting a due diligence process before submitting the projects to the Fund's Investment Committee for advice and to the Management Board for approval. DB also manages the TA component, submitting TA propositions to DG ENER for approval.

#### *Investment Committee*

The Investment Committee (IC) is responsible for assessing projects submitted to it by the fund manager and giving recommendations to the Management Board. Two EIB members and one member from CDP were appointed ad interim until the selection criteria and governing principles are agreed.

#### *Management Board*

The Management Board (MB) has broad powers to administrate and manage the Fund; it decides on the investments upon recommendation by the IC. However, it cannot decide on major issues (such as change of the statutes and documentation) without approval by the Supervisory Board (SB). It reports quarterly to the SB. It is composed of representatives from the European Commission (1), the EIB (1, the chair) and the CDP (1).

#### *Supervisory Board*

The supervisory board's main duties include a permanent supervision of the management of the Fund, giving strategic advice to the MB, proposing the annual Fund business plan for Shareholder approval, and approving changes in the investment guidelines etc. It is composed of representatives from the European Commission (2), the EIB (1) and the CDP (1).

#### **(iv) *Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

Current business plan (March 2014 pipeline) presented by the Fund manager foresees a cumulated pipeline of approximately EUR 217 million of project allocation, resulting in approximately EUR 125 million contribution from the EC (leverage of 1,5). The full EU contribution has been allocated to projects by end of March 2014.

Regulation (EC) No 1638/2006 of the European Parliament and of the Council of 24 October 2006 laying down general provisions establishing a European Neighbourhood and Partnership Instrument (OJ L 310, 9.11.2006, p. 1).

Regulation (EU) No 232/2014 of the European Parliament and of the Council of 11 March 2014 establishing a European Neighbourhood Instrument (OJ L 77, 14.03.2014, p. 27)

Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action (OJ L 77, 15.3.2014, p. 95).

One of the priorities of the European Neighbourhood and Partnership Instrument (ENPI) and of the new European Neighbourhood Instrument (ENI), is promoting investment projects in European Neighbourhood Policy Partner Countries, the scope of which covers the Neighbourhood Investment Facility (NIF).

The EU launched the NIF in 2007. The following eight Commission Decisions have been adopted for this instrument during the period 2007-2012 for a total envelope of EUR 545 million (EUR 324,7 million for ENPI South budget line and EUR 220,3 million from ENPI East budget line): C(2007) 6280, C(2008) 2698, C(2009) 3951, C(2009) 8985, C(2010) 4400, C(2010) 7989, C(2011) 5547 and C(2012) 4533. In addition, a top-up was decided in December 2012 from ENPI Decision (2012) 4533 amounting to EUR 12,7 million from the East budget line and EUR 9,2 million from the South budget line. In 2013 additional commitments of EUR 133,3 million for NIF South and EUR 77,2 million for NIF East were approved. This brings an aggregated figure of EUR 467 220 334 for the South and EUR 310 200 000 for the East ( in total envelope NIF 2007-2013 is EUR 777 420 334).

The NIF has included since the beginning of 2011 a Climate Change Window (CCW) under the Environment and the Sustainable Management of Natural Resources including Energy Thematic Programme (ENRTP) of the Development Cooperation Instrument to support the implementation of projects helping partner countries tackle climate change through mitigation and/or adaptation measures. The NIF CCW is managed in a streamlined way and has in general the same rules and the same financing and implementation modalities as the NIF.

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The Financial Instrument of the European Union for the Neighbourhood Region contributes to achieving the objectives of the European Neighbourhood Policy (ENP) or related EU thematic policy priorities by leveraging additional financing for the region.

The NIF's overarching objective is to mobilise additional investments to support the establishment of an area of prosperity and good neighbourliness involving the EU and neighbouring countries. In complementarity with other EU-funded programmes, the NIF can foster a sustainable, inclusive growth and a favourable investment climate in our partner countries.

Within this framework, the NIF pursues three strategic objectives, notably:

- establishing better energy and transport infrastructure interconnections between the EU and neighbouring countries and among neighbouring countries themselves,
- addressing threats to our common environment including climate change,
- promoting smart, sustainable and inclusive growth, in particular through support for small and medium size enterprises.

The NIF operations will continue to support the implementation of the ENP Action Plans and focus on five main sectors: Energy, Environment with a particular focus on climate change mitigation and adaptation, Transport, Social and Small and Medium Enterprise development.

*Geographical coverage and final recipients*

European Neighbourhood Policy partner countries directly eligible for the NIF are neighbourhood countries having signed an action plan, with the EU except for those that do not qualify because of their level of development. On a case by case basis, other countries which are not directly eligible may benefit from NIF interventions taking into account regional or specific circumstances. Their eligibility will have to be decided unanimously by Member States and the Commission.

Other final recipients will be the private sector and, in particular the SMEs. Both multilateral and national European development finance institutions might be direct beneficiaries and important stakeholders of the facility.

*Main technical characteristics*

Under the instrument, risk capital (equity and quasi-equity investments), risk-sharing instruments, guarantees, loans, other financing such as investment grants, interest rate subsidies and technical assistance can be used.

*Duration and impact on the budget*

The decisions relating to this instrument are valid for the Multiannual Financial Framework 2007-2013 and may be extended further following decision on the Multiannual Financial Framework 2014-2020.

The final date for contracting (for both regions) is 6 July 2015 relating to decisions from 2012. This is not the date of duration of the facilities but the final date for contracting of the individual decisions establishing the facility. The duration of individual projects is established on a case-by-case basis and is not limited.

The budgetary breakdown of EUR 777 420 334 between the two Neighbourhood sub-regions is as follows:

CRIS reference	Cumulated amount of global commitment (maximum envelope 2007-December 2013)	Budget line
<b>Neighbourhood South</b>		
ENPI/2007/019548	158 000 000	19 08 01 01
ENPI/2011/023086	309 220 334	19 08 01 01
<b>Total</b>	<b>467 220 334</b>	
<b>Neighbourhood East</b>

<b>Total</b>	<b>310 200 000</b>	
<b>Total East and South</b>	<b>777 420 334</b>	

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

In 2013, Commission Implementing Decision (C(2013) 1276) was adopted on 11 March 2013 for a maximum contribution East and South of EUR 200 million included in the above table.

The budgetary impact understood as the total financial envelope in terms of budgetary commitments for the NIF is of EUR 770 420 334 for the NIF South and East. The target leverage effect based on historical leverage experience during the period 2008-2013 for NIF is estimated as follows:.

Total project cost (circa EUR 20,8 billion) / NIF contributions (circa EUR 753 million) : 27.6

Eligible Finance Institutions resources (circa EUR 9.6 billion) / NIF contributions : 12.7

These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

The potential total volume of payments to be generated in 2014 for the NIF will reach EUR 104 070 000.

### 5.3.5.1.2. ANNEX IV 03 05 01 02 — Investment Facility for Central Asia (IFCA) and Asia Investment Facility (AIF)

(i) **Reference to the basic act**

Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

Regulation (EU) No 233/2014 of the European Parliament and of the Council of 11 March 2014 establishing a financing instrument for development cooperation for the period 2014-2020 (O J L 77, 15.3.2014, p. 44).

Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action (OJ L 77, 15.3.2014, p. 95).

Based on the first results from the NIF, the Commission proposed to set up investment facilities targeting countries under the Development Cooperation Instrument (DCI) Regulation, initially in Central Asia, Asia and Latin America. Two facilities were set up for Asia: the Investment Facility for Central Asia (IFCA) in 2010 and the Asian Investment Facility (AIF) in 2011. These two facilities have been modelled on the NIF and have the same types of objectives and scope as those defined in the NIF General Framework agreed in March 2008 (cf. section of this working document on NIF).

As of end 2013, there have been three decisions for the IFCA financed through the 2010, 2011, 2012 and 2013 budgets and two decisions for AIF financed through the 2011 and 2012 (jointly) and 2013 budgets.

**(ii) Budget lines corresponding to the relevant operations**

Article 19 10 02 — Cooperation with developing countries in Central Asia (in 2013 budget nomenclature).

Item 19 10 01 01 — Cooperation with developing countries in Asia (in 2013 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The IFCA's main purpose is to promote additional investments and key infrastructures with a priority focus in the first implementation period on energy and environment. Based on the development of the Central Asia Strategies, a later extension to transport, SMEs and social infrastructure sectors in the Central Asian countries was envisaged.

The AIF's main purpose is to promote additional investments and key infrastructure with a priority focus on climate change and 'green' investments in the areas of environment and energy as well as in SME's and social infrastructure. A later extension to the transport sector could be envisaged.

*Geographical coverage and final recipients*

The final recipients of these two facilities are the countries of these two regions. Other final recipients will be the private sector and, in particular SMEs.

Eligible finance institutions might be direct beneficiaries and important stakeholders of these two facilities.

*Main technical characteristics*

The types of operations to be financed are the following:

- investment co-financing in public infrastructure projects,
- loan guarantee cost financing,
- interest rate subsidies,
- technical assistance,
- risk capital operations.

Possible management modes were centralised (direct and indirect), joint and partially decentralised management (budget management modes in force until end 2013).

*Duration and impact on the budget*

The IFCA and the AIF are established for the duration of the legal basis, i.e., until 31 December 2013 and may be extended further following decisions on the Multiannual Financial Framework 2014-2020.

The final dates for contracting are 23 December 2016 for IFCA and 31 December 2014 for AIF, both related to decisions from 2013. This is not the date of duration of the facilities but the final date for contracting of the individual decisions establishing the facilities. The duration of individual projects is established on a case-by-case basis and is not limited.

The budgetary breakdown of EUR 145 567 000 between the two regions is as follows:

Decision reference	Cumulated amount of global commitment (maximum envelope)	Budget line
<b>Investment Facility for Central Asia (IFCA)</b>		
DCI-ASIE/2010/021-627	20 000 000	19 10 02
DCI-ASIE/2011/023-117	45 000 000	19 10 02
DCI-ASIE/2013/024-950	20 567 000	19 10 02
<b>Total</b>	<b>85 567 000</b>	
<b>Asia Investment Facility (AIF)</b>		
DCI-ASIE/2011/022-036	30 000 000	19 10 01 01
DCI-ASIE/2013/024-917	30 000 000	19 10 01 01
<b>Total</b>	<b>60 000 000</b>	

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

**IFCA**

In 2013, under the Annual Action Plan (DCI-ASIE/2010/021-627) a top-up for IFCA of EUR 20,57 million was carried out. The budgetary impact understood as the total financial envelope in terms of budgetary commitments for the IFCA is of EUR 85 567 000. The target leverage effect based on historical leverage experience during the period 2010-2013 for the IFCA is estimated as follows:

Total project cost (circa EUR 425 million) / IFCA contributions (circa EUR 64 million) : 6.64

Eligible Finance Institutions resources (circa EUR 317 million) / IFCA contributions : 4.9

These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

The potential total volume of payments to be generated in 2014 for the IFCA will reach EUR 4 854 000.

**AIF**

In 2013, under the Annual Action Plan (DCI-ASIE/2010/024-917), a top up for AIF of EUR 30 million was carried out. The budgetary impact understood as the total financial envelope in terms of budgetary commitments for the AIF is of EUR 60 million. The target leverage effect based on historical leverage experience during the period 2011-2013 for the AIF is estimated as follows:

Total project cost (*circa* EUR 889 million) / AIF contributions (*circa* EUR 64 million) : 24.6

Eligible Finance Institutions resources (*circa* EUR 358 million) / AIF contributions : 9.9

These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

The potential total volume of payments to be generated in 2014 for the AIF will reach EUR 13 795 000.

### 5.3.5.1.3. ANNEX IV 03 05 01 03 — Latin American Investment Facility (LAIF)

**(i) Reference to the basic act**

Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

Regulation (EU) No 233/2014 of the European Parliament and of the Council of 11 March 2014 establishing a financing instrument for development cooperation for the period 2014-2020 (O J L 77, 15.3.2014, p. 44).

Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action (OJ L 77, 15.3.2014, p. 95).

The Facility was established in 2009 through the abovementioned DCI Regulation for the period 2009-2013 with Commission contributions to be decided annually.

**(ii) Budget lines corresponding to the relevant operations**

Article 19 09 01 — Cooperation with developing countries in Latin America (in 2013 budget nomenclature).

Article 21 04 01 — Environment and sustainable management of natural resources including energy (in 2013 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The LAIF's main purpose will be to promote additional investments in infrastructures in the transport, energy, and environment sectors and to support social sector such as health and education, and private sector development in the Latin American countries. The Facility will support the growth of SMEs, by making available a range of financial instruments in Latin America.

The LAIF has also included, since the beginning of 2011, a Climate Change Window to support the implementation of projects helping partner countries tackle climate change through mitigation and/or adaptation measures.

*Geographical coverage and final recipients*

The final recipients will be the Latin American countries foreseen in the DCI Regulation (EC) No 1905/2006 and those foreseen in Regulation (EU) 233/2014.

Other final recipients will be the private sector and in particular SMEs for categories of operations dedicated to private sector development. Eligible finance institutions will be stakeholders of the operations of this financial instrument.

*Main technical characteristics*

The types of operations to be financed under the LAIF are the following:

- investment co-financing in public infrastructure projects,
- loan guarantee cost financing,
- interest rate subsidies,
- technical assistance,
- risk capital operations.

Possible management modes were centralised management (direct and indirect), joint management, and partially decentralised management (budget management modes in force until end 2013).

*Duration and impact on the budget*

LAIF was established by DCI Regulation (EC) No 1905/2006 until 31 December 2013 and the planned budget envelope amounts to EUR 179,35 million. The Facility may be extended further following decisions on the Multiannual Financial Framework 2014-2020.

The final date for contracting is 31 December 2014 relating to decisions from 2013. This is not the date of duration of the facilities but the final date for contracting of the individual decisions establishing the facility. The duration of individual projects is established on a case-by-case basis and is not limited.

CRIS Decision reference	Cumulated amount of global commitment (maximum envelope 2007-April 2013)	Budget line
DCI-ALA/2009/21734	129 850 000	19 09 01
DCI ENV	17 300 000	21 04 01

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

In 2013, three top ups for LAIF (top ups decision 21734) of EUR 49,5 million were carried out. The budgetary impact understood as the total financial envelope in terms of budgetary commitments for the LAIF is of EUR 179 350 000. The target leverage effect based on historical leverage experience during the period 2010-2013 for the LAIF is estimated as follows:

Total project cost (*circa* EUR 5.460 billion) / LAIF contributions (*circa* EUR 190 million) :28.8

Eligible Finance Institutions resources (*circa* EUR 2.3 million) / LAIF contributions : 11.9

These volumes have a solely indicative character as the calculation disregards the time as well as the differentiation effects.

## 5.3.5.2. ANNEX IV 03 05 02 — Additional Facilities

### 5.3.5.2.1. ANNEX IV 03 05 02 01 — Support to the Facility for Euro-Mediterranean Investment and Partnership (FEMIP)

(i) **Reference to the basic act**

Previous acts were the *Mesures d'accompagnement financières et techniques* (MEDA I and MEDA II for 1996-2006).

The current act for FEMIP is the European Neighbourhood and Partnership Instrument (ENPI for 2007-2013) for which the legal basis is Regulation (EC) No 1638/2006 of the European Parliament and of the Council of 24 October 2006 laying down general provisions establishing a European Neighbourhood and Partnership Instrument (OJ L 310, 9.11.2006, p. 1).

(ii) **Budget lines corresponding to the relevant operations**

Item 19 08 01 01 — European Neighbourhood and Partnership financial cooperation with Mediterranean countries (in 2013 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The objective of the support to FEMIP is to provide capital to the private sector of Mediterranean partner countries on terms that are not available locally.

Risk capital is invested directly or indirectly in order to (i) support the private sector, i.e. enable the creation, restructuring or growth of enterprises (ii) strengthen the role of the local financial sector by supporting the creation of new institutions or the establishment of new activities for the benefit of the private sector.

Technical assistance is mobilised to strengthen FEMIP operations in the Mediterranean region, with a special focus on private sector development.

*Geographical coverage and final recipients*

FEMIP covers the 9 Southern Mediterranean States. The beneficiaries of the Risk Capital Facility are the private sector in general and SMEs as well as financial intermediaries. The beneficiaries of technical assistance are private enterprises, public institutions and the financial intermediaries.

*Main technical characteristics*

This action with the objective of financing Risk Capital and Technical Assistance Operations will be implemented in indirect centralised management with the European Investment Bank.

The European Investment Bank is entrusted to carry out the following operations:

- risk capital operations,
- technical assistance operations.

*Duration and impact on the budget*

FEMIP is established for the duration of the Multiannual Financial Framework 2007-2013. There has been an annual budgetary commitment of EUR 32 million against budget line 19 08 01 01. Therefore, the total financial envelope for 2007-2013 is EUR 224 million.

The final date of implementation for the 2013 commitment is 31 December 2029.

(iv) **Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

It is expected that the FEMIP scheme would receive EUR 32 million financed with 2013 budgetary appropriations.

### 5.3.5.2.2. ANNEX IV 03 05 02 02 — Global Energy Efficiency and Renewable Energy Fund (GEEREF)

(i) **Reference to the basic act**

Regulation (EC) No 1905/2006 of the European Parliament and of the Council of 18 December 2006 establishing a financing instrument for development cooperation (OJ L 378, 27.12.2006, p. 41).

Regulation (EU) No 233/2014 of the European Parliament and of the Council of 11 March 2014 establishing a financing instrument for development cooperation for the period 2014-2020 (O J L 77, 15.3.2014, p. 44).

Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action (OJ L 77, 15.3.2014, p. 95).

The GEEREF was approved in the annual action plans (AAPs) of the four-year Thematic Programme for Environment and Sustainable Management of Natural Resources including Energy (ENRTP2007-2010).

Legal basis for the Regional Fund Support Facility (RFSF): preparatory action within the meaning of Article 49(6) of the Financial Regulation .

(ii) **Budget lines corresponding to the relevant operations**

Article 21 04 01 — Environment and sustainable management of natural resources, including energy (in 2013 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

*Policy objectives and scope*

The GEEREF is an innovative financing vehicle aiming to promote energy efficiency and renewable energy in developing countries and economies in transition. Structured as a Fund-of-Funds, GEEREF's strategy is to invest in – and thus help develop – regional private equity funds whose investments will target small and medium sized energy efficiency and renewable energy projects.

The objectives are to contribute to the expansion of renewable energy, energy efficiency and other related clean energy technologies to markets and services in developing countries and economies in transition , with the objective to increase access to low carbon, secure and affordable energy, and to help improve the economic and social circumstances of underserved or disadvantaged populations, to encourage sustainable economic development, while promoting the protection of the environment.

*Geographical coverage and final recipients*

The scope of the GEEREF is to support regional sub-funds for Sub-Saharan Africa, Caribbean and Pacific Island States, the countries of the European

Neighbourhood Policy including Russia, Latin America, and Asia (including Central Asia and the Middle East). There will be a special emphasis on serving the needs of the African Caribbean and Pacific (ACP) countries.

*Duration and impact on the budget*

The end date of the activities under GEEREF is 13 December 2022, as calculated from the date the last commitment was recorded.

Decision references	Cumulated amount of global commitment (maximum envelope)	Budget line
DCI-ENV/2007/147331 plus addendums with CRIS (references No 168 899 and 282 314)	76 100 000	21 04 01

In addition, EUR 5 million was allocated from budget article 21 04 05 in order to support the establishment of an integrated support facility for GEEREF.

In 2014 a replenishment of 20 million to the GEEREF fund took place to feed into the 'Energy for all initiative' financed from the European Development Fund.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The planned budgetary commitments under the 2014 budget for the GEEREF are not yet known.

(iii) ***General description of the financial instruments, including their duration and their impact on the budget***

The Financial Instrument of the European Union for the Guarantee Facility contributes to achieving the objectives of enhancing socio-economic growth of the Western Balkans.

Its major objectives are the creation of preconditions for the emergence and growth of innovative and high-potential companies. The instrument will guarantee SME loan portfolios issued by commercial banks for new SME lending. This will entail improving SME access to lending and potentially lowering the cost of borrowing.

Under the instrument, guarantees of first loss of new loans to targeted SMEs with a guarantee rate of up to 70 % and a guarantee cap of up to 25 % in the overall loan portfolio can be used. Exact guarantee rate and cap is being determined on a case by case basis.

The Commission implements the instrument under indirect management in accordance with Article 139 of the Financial Regulation (through a Fiduciary and Management Agreement). Under indirect management, the Commission may entrust implementation tasks to the European Investment Bank (EIB) Group, including the European Investment Fund (EIF). The Facility is to be implemented under indirect management, with the implementation tasks entrusted to the EIF.

The instrument started in 2013 and will guarantee loans with maturity until 2023. The geographical coverage will be the Western Balkans in line with the Common Implementing Regulation.

(iv) ***Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments***

The financial envelope envisaged for the instrument amounts to EUR 21,9 million (of which EUR 1.9 million is a provision for fees to the EIF as the Manager and EUR 20 million is the guarantee capital) that was committed and paid out to the EIF. As at 31.12.2013 the amount is considered as cash equivalent (fiduciary account) on the Balance Sheet of DG ELARG and not yet financial instrument and it is expected that the guarantees under the facility will be allocated in course of 2014. This amount shall leverage a total investment in excess of EUR 110 million, implying the leverage factor of 5.5.

The aggregate budgetary commitment of EUR 21,9 million (from IPA I is expected to be increased under the Multi-beneficiary Programme IPA II subject to adoption of the corresponding financing decisions..

Item 22 02 07 01 — Regional and horizontal programmes (in 2013 budget nomenclature).

Item 22 02 04 01 — Multi-country programmes, regional investment support (in 2014 budget nomenclature).

(iii) **General description of the financial instruments, including their duration and their impact on the budget**

The Green for Growth Fund (GGF) is an innovative fund initiated in 2009 by the European Investment Bank (EIB) and the KfW Entwicklungsbank (KfW) with the support of the European Commission. The Fund provides dedicated financing for energy efficiency and renewable energy projects to help the target countries reduce CO<sub>2</sub> emissions and energy consumption.

This is achieved by lending to businesses and households via financial institutions and through direct funding. The Commission is investing in the GGF on behalf of the beneficiaries, to support the stabilisation of financial markets and economies. These investments are made in the Fund's first-loss tranche ensuring that finance remains available to the public and private energy sector and countries keep high their potential to achieve the EU's 20/20/20 energy targets. The activities of GGF are complemented by a Technical Assistance Facility.

Subject to programming 2014–2020.

The Financial Instrument of the European Union for energy efficiency and renewable energies (Green for Growth Fund) contributes to achieving the objectives of the Multi-annual Indicative Planning Document (MIPD) 2010-2013, *i.a.* support for investments in energy efficiency as a potential key driver of recovery from the economic crisis and sustained economic growth.

Its major objectives are to contribute in the form of a public-private partnership with a layered risk/return structure, to enhancing energy efficiency (EE) and renewable energies (RE) in the South-East Europe region predominantly through the provision of dedicated financing to businesses and households via partnering with financial institutions and direct finance.

The instrument finances Financial Institutions (commercial banks and non-bank financial institutions, such as leasing companies) to finance mainly EE and RE investments in private households and small and medium-sized enterprises; direct financing of Energy Service Companies (ESCOs), small renewable energy projects as well as companies and municipal entities. The geographical coverage will be the Western Balkans and Turkey in line with the Common Implementing

Regulation .

Under the Instrument, medium to long-term senior loans, subordinated loans, syndicated loans, letters of credit, guarantees, mezzanine debt instruments, local debt securities and equity can be used.

The Commission implements the instrument under indirect management in accordance with Article 139 of the Financial Regulation. Under indirect management, the Commission may entrust implementation tasks to the following multilateral Development Financial Institution: European Investment Fund (EIF).

The instrument started in December 2009. Following an investment period of maximum 6 years, its portfolio will be wound up in a period of maximum 10 years (meaning a maximum duration until 2025).

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

Item 22 02 07 01 — Regional and horizontal programmes (in 2013 budget nomenclature).

Item 22 02 04 01 — Multi-country programmes, regional investment support (in 2014 budget nomenclature).

**(iii) General description of the financial instruments, including their duration and their impact on the budget**

The overall objective of the SME Recovery Support Loan for Turkey is to mitigate the crisis impact for SMEs and contribute to the development of the Turkish economy and employment sector. The main objective is to support SMEs with concrete productive investments by providing access to attractive and longer-dated debt financing. The co-financing of loans is to be provided to local commercial banks operating in Turkey (the 'Financial Intermediaries') for the benefit of eligible investments carried out by SMEs. In the context of the Action, the European Investment Bank (EIB) shall extend loans from its own resources together with the Union Contribution loans.

Individual SMEs are eligible for financing from a Financial Intermediary using funding available through the Action (each a 'Sub-Loan') up to a maximum amount of EUR 5,0 million and a minimum amount of EUR 200 000 and with a minimum maturity of 4 years.

The financial EU Commitment of the instrument amounts to EUR 30,0 million (of which EUR 370 000 are for management fees). It is a joint management action with the European Investment Bank (EIB) who contributes with EUR 120,0 million. The action will end in December 2016. The whole duration of the recovery support will extend probably to 2026.

**(iv) Envisaged operations, including target volumes based on the leverage effect arising from the existing financial instruments**

The 2009 EU commitment of EUR 30 million have supported a lending volume of EUR 150 million to the two participating Turkish banks, implying the leverage factor of 5.

#### *Remarks*

This appropriation is intended to cover all expenditure on measures to combat fraud which does not come under the Office's administrative operations.

It is intended, in particular, for:

- devising, developing, improving and managing information exchange systems and common infrastructures, while respecting confidentiality and security requirements,
- searching for, gathering, examining, utilising and passing on to national investigation departments all information which is useful for the detection and pursuit of fraud (e.g. via databases),
- supporting efforts by Member States, in particular in the case of international fraud, when action has to be taken at Union level,
- financing measures to increase the effectiveness of preventive measures, inspections and investigations,
- strengthening cooperation with national administrations, in particular to combat cigarette smuggling,
- organising and participating in monitoring and on-the-spot inspections,
- financing travel expenses and subsistence allowances for inspectors and national magistrates working abroad in connection with control visits, on-the-spot inspections, coordination meetings and for the purposes of an inspection in general,
- covering travel expenses, subsistence allowances and ancillary costs of experts employed by the Office in the course of its investigations to give a professional opinion on a specific matter,
- covering the costs of conferences, congresses and meetings that the Office organises in its anti-fraud work.

### Figures

Budget 2015	Appropriations 2014	Outturn 2013
200 000	200 000	334 688,13

### Remarks

This appropriation is intended to cover the cost of information and communication measures undertaken by the Office.

The Office's external information and communication strategy is central to its work. The Office was set up as an independent investigative body and must therefore have its own communications strategy. The Office's work is often too technical to be immediately comprehensible to the general public. The Office has to inform its interlocutors and the public as a whole of its role and tasks. Public perception of the Office's work is of paramount importance.

As a Commission service, the Office also needs to take account of the democratic deficit existing between the Union institutions and the citizens of Europe. The Commission has recognised this deficit and drawn up an action plan to address it.

The communications strategy that the Office has developed and continues to implement must demonstrate its independence.

### Legal basis

### **Article A4 02 01 — Interinstitutional cooperation, interinstitutional services and activities**

#### Remarks

Within the framework of the EPSO Development Programme, the Office has modernised its selection methods with the aim of meeting the institutions' current and future needs in a more cost-effective and efficient way by:

- improving the planning of competitions to select the right staff at the right time and to optimise the use of reserve lists,
- reducing the length of the selection process,
- considerably improving the quality of the selection process so that the institutions can recruit the best staff for a life-long career by selecting candidates on the basis of the competencies needed to do the job, and by professionalising the work of the selection boards,
- establishing a positive and modern image for the institutions as employers so as to enable them to attract the best staff in the context of an increasingly competitive employment market,
- providing all the necessary facilities to enable the participation of applicants with disabilities.
